DIAGNOSIS The first step in organizational development is to diagnose the problem(s).

CHANGE AGENT A change agent is the person responsible for the OD program. The change agent can use a variety of methods to diagnose problems.

Some methods are reviewing records, observing, interviewing individuals and work groups, holding meetings, and/or using questionnaires.

TECHNIQUES There are five OD techniques: training and development, performance appraisal, survey feedback, force field analysis, and team building.

Training is the process of developing the necessary skills to perform the present job.

CHANGES First, organization development involves attempts to plan organization changes, which excludes spontaneous, haphazard initiatives.

EFFECTIVENESS Second, the specific intention of organization development is to improve organization effectiveness

IMPROVEMENT Third, the planned improvement must be based on knowledge of the behavioral sciences such as organizational behavior, psychology, sociology, cultural anthropology, and related fields of study.

STRUCTURAL The most comprehensive type of organization change involves a major reorientation or reorganization - usually referred to as a structural change or a system-wide rearrangement of task division and authority and reporting relationships.

Organizational development is based on a systematic change process and focuses on managing the culture of the organization.
