Intro

How much do Bill Gates, Warren Buffett, Elon Musk read?

This is not a best business book list, but they are my essential reading recommendations.

The first recommended book, number 1, THE E-MYTH, every business owner needs to read from the start of their business.

How The E-Myth uniquely frames how to think about your business to set it up for success, and future scaling.

Book recommendation number 2, TRACTION! After reading book 1 this is your next essential book to read. Learn about having a vision, why it's so important, and how that can carry you through.

Key learnings from book number 2.

Next recommendation book number 3, ROCKET FUEL!

Understand if you are an entrepreneur visionary or integrator? To grow your business you'll need to know which you are and hire the other.

My recommended book to read next is number 4 SCALING UP! This is more advanced in your entrepreneur journey when you are ready to scale!

How 'Scaling Up' divides up the process of scaling your business.

Why you should still read 'Scaling Up' even if your business is not ready to action these actions yet.

Summary of the essential books I recommend every business owner and entrepreneur reads now!
