## From Wine to Water

All Tyrell Fannin and his cousins Isaac and Micah Burnet want is to get out of a Texas jail and go home to Mississippi. Delia Lavalley didn't need three outlaws to escort her and her sisters to Louisiana but she doesn't really have a choice. The outlaws aren't happy about escorting nuns, but figure they might bring them luck, because not even Santa Anna would harm a holy woman. A week into the trip, however, the outlaws find that the nuns are sisters--but not of the cloth--and that their tempers would make an

angel's wings shrivel up and fall off. Tyrell is determined to finish his job and forget all about Delia's piercing blue eyes, that tumble of black hair, and her hot temper. Delia can't wait to be away from Tyrell's constant judgment, but along the way she finds herself drawn to him. Will they get what they want--safe travels home--or will fate intervene and bring them something altogether different?

### The Lilac Bouquet

Come hell or high water, Emmy Jo Massey will have a wedding. After three generations of Massey women with children out of wedlock, she wants the whole town of Hickory, Texas, to witness the legitimacy of her union with Logan Grady. But dream weddings aren't cheap. So she accepts a highly lucrative stint as a home health assistant to retired realtor, and town recluse, Seth Thomas--a decision her great-grandmother Tandy is dead-set against. Seth isn't happy about it, either. The eighty-two-year-old doesn't want a "babysitter"--much less a Massey--something he makes clear when Emmy arrives at his house, an empty mansion built for the woman who broke his heart. But as Emmy stays and the two eventually open up to each other, she learns the reason behind a feud between Seth, Tandy, and Logan's grandfather Jesse Grady that goes back six decades. She also uncovers a secret that forever changes how she sees her past and her future...

### Come High Water

Bridget O'Shea had sworn she'd never fall in love again. She had a hotel, The Black Swan, to operate alone, since her sisters--Catherine and Alice--had both married the previous year. And then there was Ella, her lovely baby daughter. The hotel and Ella took up all her time and energy. Wyatt Ferguson had planned on staying in Huttig, Arkansas, just long enough to wait for the next train going south. But a red-haired lady who thought he was another out-of-work soldier just home from the war insisted on hiring him to kill a rat for her. The Black Swan seemed a good place to stay for a while. After all it was only for six weeks and what could happen in that time?

### EBOOK: Evidence-Based Research

"A most valuable resource setting health care research into a contemporary philosophical setting" Dr Colin Thunhurst, Course Director, University College Cork \* Why is the philosophy of science important for health care research? \* What impact do world-views and paradigms have on the research process and the knowledge it generates? \* Why do some kinds of concepts get replaced by others? This book covers the major perspectives in the philosophy of science and critically discusses their relevance to health care research, using examples of paradigms, concepts, theories and research findings in the health sciences. It makes sense of the bewildering variety of assumptions, world-views and epistemological implications of the different research methods. It enables the reader to become an informed consumer of scholarship on health care issues. The authors describe how health care research has been influenced by positivistic and interpretative approaches, and how it has recently been challenged by postmodernist philosophies. All of these approaches have research methods aligned with them which have taken their place in the panoply of tools at the disposal of the health scientist. Written in a clear and accessible style, Evidence-Based Research demonstrates how the different philosophical bases to research impact in real-life health care work and research. It is key reading for the growing number of people involved in health care research in universities and health settings, and is particularly suitable for advanced undergraduate and masters students researching in the health care sciences.

### Cooking in Other Women's Kitchens, Enhanced Ebook

As African American women left the plantation economy behind, many entered domestic service in southern cities and towns. Cooking was one of the primary jobs they performed, feeding generations of white families and, in the process, profoundly shaping southern foodways and culture. In *Cooking in Other Women's Kitchens: Domestic Workers in the South, 1865-1960*, Rebecca Sharpless argues that, in the face of discrimination, long workdays, and low wages, African American cooks worked to assert measures of control over their own lives. As employment opportunities expanded in the twentieth century, most African American women chose to leave cooking for more lucrative and less oppressive manufacturing, clerical, or professional positions. Through letters, autobiography, and oral history, Sharpless evokes African American women's voices from slavery to the open economy, examining their lives at work and at home. The enhanced electronic version of the book includes twenty letters, photographs, first-person narratives, and other documents, each embedded in the text where it will be

most meaningful. Featuring nearly 100 pages of new material, the enhanced e-book offers readers an intimate view into the lives of domestic workers, while also illuminating the journey a historian takes in uncovering these stories.

### Freedom's Teacher, Enhanced Ebook

Civil rights activist Septima Poinsette Clark (1898-1987) developed a citizenship education program that enabled tens of thousands of African Americans to register to vote and to link the power of the ballot to concrete strategies for individual and communal empowerment. Clark, who began her own teaching career in 1916, grounded her approach in the philosophy and practice of southern black activist educators in the decades leading up to the 1950s and 1960s, and then trained a committed cadre of grassroots black women to lead this literacy revolution in community stores, beauty shops, and churches throughout the South. In this engaging biography, Katherine Charron tells the story of Clark, from her coming of age in the South Carolina lowcountry to her activism with the Southern Christian Leadership Conference in the movement's heyday. The enhanced electronic version of the book draws from archives, libraries, and the author's personal collection and includes nearly 100 letters, documents, photographs, newspaper articles, and interview excerpts, embedding each in the text where it will be most meaningful. Featuring more than 60 audio clips (more than 2.5 hours total) from oral history interviews with 15 individuals, including Clark herself, the enhanced e-book redefines the idea of the "talking book." Watch the video below to see a demonstration of the enhanced ebook:

### Think and Eat Yourself Smart

Science is beginning to understand that our thinking has a deep and complicated relationship with our eating. Our thoughts before, during, and after eating profoundly impact our food choices, our digestive health, our brain health, and more. Yet most of us give very little thought to our food beyond taste and basic nutritional content. In this revolutionary book, Dr. Caroline Leaf packs an incredible amount of information that will change readers' eating and thinking habits for the better. Rather than getting caught up in whether we should go raw or vegan, gluten-free or paleo, Leaf shows readers that every individual is unique, has unique nutritional needs, and has the power to impact their own health through the right thinking. There's no one perfect solution. Rather, she shows us how to change the way we think about food and put ourselves on the path towards health. Anyone who is tired of traditional diet plans that don't work, who struggles with emotional eating, or who simply isn't satisfied with their level of health will find in this book the key to discovering how they can begin developing a healthier body, brain, and spirit.

### Adventure at the Reef: Read-Along eBook

Lilah can't wait to spend her vacation in Key West, scuba diving with her dad. But when a powerful current separates the two, Lilah must stay calm and find her way back to the boat. She'll have to deal with the creatures she bumps into along the way—and not all of them seem very friendly! Fifth grade students will enjoy this adventure story that features full-color illustrations, compelling text, and chapter format to build reading comprehension, vocabulary, and fluency. This hi-lo reader is perfect for students who need high-interest, low-readability books.

### The Remarkable Cause

In icy March winds, pounded by the Americans' cannon, General Howe evacuates British troops and Loyalists from Boston. James Lovell is forced into a ship bound for Halifax, while his father and family take passage for the British stronghold in the ship's upper berth. In jail in Halifax, James can only write letters and pray for release, hoping General George Washington will hear his appeal. In *The Remarkable Cause*, experience conflict and courage in the roots of the American Revolution: • protests over the Stamp Act and Townshend Acts • hanging in effigy, tar and feathering • tension of the Boston Massacre trials • troops charging Bunker Hill • dreadful conditions in British jails for James and his fellow prisoners • the strength of a friend, Ethan Allen of the Green Mountain Boys • James's passion for his family, in his own words Jean C. O'Connor, a high school English teacher for over thirty years, researched this story using letters, journals, and documents written by James Lovell and his contemporaries. Inspired by a few sentences in her grandmother's journal, Jean discovered details of that time far away—yet still relevant. Images from early newspapers and pictures enliven the narrative's pages.

### Race, Law, and the Struggle for Racial Equality in the U.S.

"Casebook on race law with emphasis on American history"--

### Deaths of Despair and the Future of Capitalism

"This book documents the decline of white-working class lives over the last half-century and examines the social and economic forces that have slowly made these lives more difficult. Case and Deaton argue that market and political power in the United States have moved away from labor towards capital--as unions have weakened and politics have become more favorable to business, corporations have become more powerful. Consolidation in some American industries, healthcare especially, has brought an increase in monopoly power in some product markets so that it is possible for firms to raise prices above what they would be in a freely competitive market. This, the authors argue, is a major cause of wage stagnation among working-class Americans and has played a substantial role in the increase in deaths of despair. [The authors] offer a way forward, including ideas that, even in our current political situation, may be feasible and improve lives"--

### Monthly Catalogue, United States Public Documents

With the twelve-volume series *Feasting on the Word*, Westminster John Knox Press offers one of the most extensive and well-respected resources for preaching on the market today. When complete, the twelve volumes will cover all of the Sundays in the three-year lectionary cycle, along with moveable occasions. The page layout is truly unique. For each lectionary text, preachers will find brief essays--one each on the exegetical, theological, pastoral, and homiletical challenges of the text. Each volume will also contain an index of biblical passages so that nonlectionary preachers may make use of its contents. The printed volumes for Ordinary Time include the complementary stream during Year A, the complementary stream during the first half of Year B, the semicontinuous stream during the second half of Year B, and the semicontinuous stream during Year C. Beginning with the season after Pentecost for Year C, the alternate lections for Ordinary Time not in the print volumes will be available online at [feastingontheword.net](http://feastingontheword.net).

#### Monthly Catalog of United States Government Publications

His Royal Highness Prince Edward The Duke of Kent KG GCMG GCVO ADC(P), first cousin to Her Majesty Queen Elizabeth II, has devoted his life to the service of his country. Even before he served twenty-one years as a regular soldier in the British Army, he was introduced to this life of service by his widowed mother, HRH Princess Marina, The Duchess of Kent, during an extensive tour of the Far East at the time of his seventeenth birthday. His interest in modern technology, especially computing and engineering, in issues of health, fitness and social welfare, and in the development of the intellect, has seen him become the patron, president or active member of more than one hundred charities and social organisations. His military service, and deep interest in military history, sees him making a particularly important contribution to many military-related organisations - the chief of which must be the Commonwealth War Graves Commission. At the time of his eightieth birthday on October 9, 2015, Prince Edward remains one of the busiest members of the royal family. This book is offered as a tribute to his life of service, and to the myriad organisations, large and small, local, national and international, that make up the fabric of the United Kingdom in the twenty-first century.

#### Feasting on the Word: Pentecost and season after Pentecost 1 (Propers 3-16)

Institutions of education are in an age of transformational change in which learning has a wider scope of understanding and long-term impact than ever before. Those involved in teaching and learning require additional training and subject matter support towards developing a broader and more profoundly complex understanding of the learners affected by evolving sociological events and associated needs. More than ever, a broader understanding of the learner is needed, inclusive of a learner-centered approach to both teaching and learner cognitive engagement. The *Handbook of Research on Learner-Centered Approaches to Teaching in an Age of Transformational Change* examines the abundant transformational changes that have occurred and provide strategies to understand and address them. It draws from a wide range of experts and provides a burgeoning understanding of the effects of these rapidly-moving transformational changes that are occurring in the processes of teaching and learning. Exploring a wide range of issues such as community engagement scholarship, motivation-driven assignment design, and trauma-informed practices, this major reference work is an invaluable resource for educators of K-12 and higher education, educational faculty and administration, pre-service teachers, government officials, non-profit organizations, sociologists, libraries, researchers, and academicians.

Island Studies can be deceptively challenging and rewarding for an undergraduate student. Islands can be many things: nations, tourist destinations, quarantine stations, billionaire baubles, metaphors. The study of islands offers a way to take this 'bewildering variety' and to use it as a lens and a tool to better understand our own world of islands. An *Introduction to Island Studies* is an approachable look at this interdisciplinary field - from the islands as biodiversity hotspots, their settlement, human migration and

occupation through to the place of islands in the popular imagination. Featuring geopolitical, social and economic frameworks, James Randall gives a bottom-up guide to this most modern area of study. From the geological analysis of island formation to the metaphorical use of islands in culture and literature, the growing field of island studies is truly interdisciplinary. This new introduction gives readers from many disciplines the local, global, and regional perspectives that unlock the promise of island studies as a way to see the world. From the struggles and concerns of the Anthropocene—climate change, vulnerability and resilience, sustainable development, through to policy making and local environments— island studies has the potential to change the debate.

#### Handbook of Research on Learner-Centered Approaches to Teaching in an Age of Transformational Change

People in poverty suffer daily under misconceptions about economic hardship and its causes. Providing the most comprehensive consideration to date of poverty in the United States, Elizabeth Seale tackles how we think about issues of culture, behavior, and poverty, cutting straight to the heart of debates about social class. The book addresses tough questions, including how being poor affects individual behavior, and how we can make sense of that in a larger social and political context. The central premise is that to understand the behavior and lives of people in poverty, one must consider their relational context, especially relations of vulnerability and the human need for dignity. Poverty is a social problem we should address as a society by changing social relations that, as a matter of course, cause unnecessary and immense suffering. To do so, we must directly confront our lack of regard for people in poverty by recognizing that they are in fact worthy of an effort to induce major social change. This critical introduction to poverty will be an important read for undergraduate students and above in sociology wanting to learn more about the growing social problems of poverty, inequality, and stratification.

#### Conversations on Chemistry; in which the Elements of that Science are Familiarly Explained and Illustrated by Experiments

It's been three months since the events that transpired in Nimbus. Three months in which Sam, Sean, and Elise have tried to get over the nightmare that wanted to kill them; the same nightmare that ended the lives of those they loved. Now, time is up—somewhere else is calling them; somewhere else desires to test their strength. A new place beckons for Elise to learn its ways. It pleads for Sam not to shy away from the horrors he may experience. It begs Sean to show his strength when he least believes he can. And the longer they wait, the stronger the call becomes; the more it dares to make them suffer until they

find and answer it. In Halcyon, Sam, Elise, and Sean search for a new world, a new home by leaving everything they've ever known behind. With no clue what lies ahead, will they discover a new society and a new way of living, or will their haunted pasts catch up with them?
