Hoosiers and the American Story

A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

Retire Inspired

"At the time it was first published in 1962, it framed such an urgent appeal to the American conscience that it actually prompted the creation of the Appalachian Regional Commission, an agency that has pumped millions of dollars into Appalachia. Caudill's study begins in the violence of the Indian wars and ends in the economic despair of the 1950s and 1960s. Two hundred years ago, the Cumberland Plateau was a land of great promise. Its deep, twisting valleys contained rich bottomlands. The surrounding mountains were teeming with game and covered with valuable timber. The people who came into this land scratched out a living by farming, hunting, and making all the things they need-including whiskey. The quality of life in Appalachia declined during the Civil War and Appalachia remained "in a bad way" for the next century. By the 1940s, 50s, and 60s, Appalachia had become an island of poverty in a national sea of plenty and prosperity. Caudill's book alerted the mainstream world to our problems and their causes. Since then the ARC has provided millions of dollars to strengthen the brick and mortar infrastructure of Appalachia and to help us recover from a century of economic problems that had greatly undermined our quality of life."-Print ed.

Night Comes To The Cumberlands: A Biography Of A Depressed Area

Although she is the most popular novelist in history, with over two billion books sold worldwide, Agatha Christie lived a life shrouded in secrecy and fueled by curiosity. Nearly as notorious for her aversion to the press as she was for her 80 books and collections of short stories, Christie made no secret of her need for privacy. Utilizing over 5,000 previously unpublished letters, notes, and documents, award-winning biographer Richard Hack allows Christie to write again, 33 years after her death. *Duchess of Death* is her story, as full of romance, travel, wealth, and scandal as any mystery Christie ever crafted. There have been numerous biographies of the Queen of Crime, all of which claim to be definitive. However, *Duchess of Death* is the first to draw from such an enormous number of previously unpublished correspondence and notes, effectively establishing it as the most authoritative, penetrating look at the personal and literary life of Christie.

The Sanitorium

This is American history told through the stories of an atypical, for Utah, region. Castle Valley is roughly coterminous with two counties, Carbon and Emery, which together formed a rural, industrial enclave in a mostly desert environment behind the mountain range that borders Utah's principal corridor of settlement. In Castle Valley, coal mining and the railroad attracted diverse, multiethnic communities and a fair share of historic characters, from Butch Cassidy, who stole its largest payroll, to Mother Jones, who helped organize its workers against its mining companies. Among the last major segments of the state to be settled, it was also a generally poor region that stretched the capabilities of people to scratch a living from a harsh landscape. The people of Castle Valley experienced complex, unusual combinations of both social cohesion and conflict, but they struggled through poverty, labor disputes, major mining disasters, and other challenges to build communities whose stories reflected the historical course of the nation as a whole. In order to convey her subject's both unique and representative qualities, Nancy Taniguchi has written an epic history that is not just local history, but American history written locally. Nancy J. Taniguchi, who lived for thirteen years in Castle Valley and was previously on the faculty of the College of Eastern Utah in Price, is professor of history at California State University, Stanislaus. She is the author of numerous published articles in mining, legal, women's, western, and Utah history and of one book, *Necessary Fraud: Progressive Reform and Utah Coal*.

It is an unusual blend of memoir and scholarship that takes us back to the years when the East-West conflict came to a sudden end and a new world was born. In this book, senior officials and opinion leaders from the United States, Russia, Western and Eastern Europe who were directly involved in the decisions of that time describe their considerations, concerns, and pressures. They are joined by scholars who have been able to draw on newly declassified archival sources to revisit this challenging period.

On this journey called life, I am now, closer to the end, than I am to the beginning. For this reason, I feel some urgency in completing this book. My mission is to pass on as much information about our family history as possible, for my children. I write with much sadness in my heart. This was never the dream for my children, to learn from a book. As you read through this book, I pray you experience the same emotions, as I did writing it. You will take a journey through time, from Germany, Scotland, Ireland, ending in the United States. On this trip you will share joy and sadness, life and death, marriage and divorce. To some it may seem like a roller-coaster ride, but to me, it's my life. You will be presented with opinions and facts, and ultimately it's your choice for what you believe. On our journey through time, you will see attempts to overthrow corrupt governments, and the following effects. We will explore some unjust laws of government, and the church. We will look at my families' involvement in all of this. Government rebellion, Church reformation, and fighting unjust laws! Stay close, and you too, will brush elbows with some of history's most famous people, just as my ancestors have. The likes of Daniel Boone, Daniel Morgan, and lastly a 23-year-old, George Washington, future president of the United States. If you laugh, and you cry, and you learn, and this makes you think, then my work has been a success.
