### Monster Trucks

For the past four decades there have existed a variety of debates concerning the creation of the monster truck. Most of the arguments are flawed, as they are largely based on the fundamental presumption that the monster truck is a static concept in terms of both construction and purpose. This book delineates how the monster truck is not a singular creation but instead the sum of many technologies orchestrated in a manner to achieve purposes that, like the vehicles, have evolved over time. Author Marty Garza takes the reader on a journey through various phases of monster truck development and occasionally provides evidence of the existence of variations of the concept that predate the establishment of the term. Monster truck fans will be provided with not only the nuts and bolts of individual technological developments but also the context in which they were created. Monster Trucks depicts unique images that are true to the very nature of the developments themselves. The imagery may be dated, but it's vitally important for the preservation of the heritage of the monster truck industry and serves to recognize those individuals whose contributions have been largely overlooked though they played a significant role in achieving the spectacular level of technology observed today.

"A searing, chilling sliver of perfection . . . May well turn out to be the year's best thriller." —Charles Finch, *The New York Times Book Review* "This is simply one of the nastiest and most disturbing thrillers I've read in years. I loved it, right down to the utterly chilling final line." —Gillian Flynn A spellbinding, darkly twisted novel about desire and obsession, and the complicated lines between truth and perception, *Our Kind of Cruelty* introduces Araminta Hall, a chilling new voice in psychological suspense. V taught him about love, and in return, Mike has dedicated his life to making her happy. He's found the perfect home, the perfect job; he's sculpted himself into the physical ideal V has always wanted. He knows they'll be blissfully happy together. It doesn't matter that she hasn't been returning his e-mails or phone calls. It doesn't matter that she says she's marrying Angus. It's all just part of the secret game they used to play. If Mike watches V closely, he'll see the signs. If he keeps track of her every move, he'll know just when to come to her rescue . . .

This workbook is a supplement to the book, *The Journey from "I-TO-WE"*. It encompasses the 23-step, comprehensive "Create an Emotionally Intelligent Relationship" program developed to help individuals and couples achieve relationship success at home, at work and within themselves. I highly recommend that both you and your partner have your own personal copy of the workbook. I also advise reading each corresponding chapter in the book twice before you begin the workbook exercises. The book offers in-depth conceptual descriptions of the ideas and principles behind the "Create an Emotionally Intelligent Relationship" program along with vignettes that detail a story of a fictional couple composed from people I have coached over the years. The combined elements convey each concept, skill and technique. A comprehensive program is contained within the book and workbook. The exercises will challenge you to face your fears and stretch beyond your comfort zone. You will examine many aspects of yourself, your partner, and your relationship in a way you have never done before. You will be asked to be vulnerable, empathetic, courageous, and honest, and to accept absolute personal responsibility for your words, actions, and behaviors. Working together and valuing this program is critical. You cannot succeed if you agree to participate in this journey without wholeheartedly being committed. If you take shortcuts or hold back, you will cheat your partner, your relationship and yourself. The more you put in, the more you will gain. Aim to give 101% of yourself and enjoy the full benefit of the program. Remember, it takes two to "Create an Emotionally Intelligent Relationship."
