This pioneering collection of non-Shakespearean Renaissance drama has now been updated to include more early material, plus Mary Sidney's *The Tragedy of Antony*, John Marston's *The Malcontent* and Ben Jonson's *Masque of Queens*. Second edition of this pioneering collection of works of non-Shakespearean Renaissance drama. Covers the full sweep of dramatic performances, including State progresses and Court masques. Contains material useful for courses on women playwrights or women in Renaissance drama, including Middleton's *Chaste Maid in Cheapside*, Webster's *The Duchess of Malfi* and Thomas Middleton and William Rowley's *The Changeling*. Includes plays and pageants not anthologised elsewhere, such as the coronation entries of Elizabeth I and Queen Anne, and Thomas Heywood's 'A Woman Killed with Kindness'. For the second edition more early material has been added, such as *Noah* and *The Second Shepherd's Play*. The anthology now also includes Mary Sidney's *The Tragedy of Antony*, John Marston's *The Malcontent* and Ben Jonson's *The Masque of Queens*.

The Broadview Anthology of Drama: Plays from the Western Theatre is a chronological presentation of 43 plays in two volumes, ranging from the ancient theatre world to the present day. Each chapter focuses on a specific period and begins with an insightful introduction sketching the historical and theatrical landscape of that period. Contextualization for each play is provided through a thorough account of the literary and dramatic background of the play along with clear and comprehensive annotation. In addition, the editors have provided a glossary of terms used in the anthology to better equip students with a vocabulary for discussing the world of the stage.

The Broadview Anthology of Drama, Volume 1: From Antiquity Through the Eighteenth Century

The Routledge Anthology of Early Modern Drama is the first new collection of the drama of Shakespeare's contemporaries in over a century. This volume comprises seventeen accessible, thoroughly glossed, modernized play-texts, intermingling a wide range of unfamiliar works—including the anonymous *Look About You*, Massinger's *The Picture*, Heminge's *The Fatal Contract*, Heywood's *The Four Prentices of London*, and Greene's *James IV*—with more familiar works such as Marlowe's *Doctor Faustus*, Webster's *The Duchess of Malfi*, and Middleton's *Women Beware Women*. Each play is edited by a different leading scholar in the field of early modern studies, bringing specific expertise and context to the chosen play-text. With an unprecedented variety of plays, and critical introductions that focus on the diversity and strangeness of different early modern approaches to the artistic and commercial enterprise of play-making, *The Routledge Anthology of Early Modern Drama* will offer vital new perspectives on early modern drama for scholars, students, and performers alike.

The Routledge Anthology of Early Modern Drama

"... offers a convenient collection of classic and contemporary plays from Europe, the Americas, Africa, and Asia. Designed to be used in a variety of drama and theater courses, in general surveys of drama and theater, in courses on tragedy and/or comedy, or in classes on modern theater ..."--Pref.

RENAISSANCE DRAMA Experience the best and most noteworthy works of Renaissance drama This Third Edition of *Renaissance Drama: An Anthology of Plays and Entertainments* is the latest installment of a groundbreaking collection of non-Shakespearean Renaissance drama. Covering not only the popular drama of the period, Renaissance Drama includes masques, Lord Mayor shows, royal performances, and the popular mystery plays of the time. The selections fairly represent the variety and quality of Renaissance drama and they include works of scholarly and literary interest. Each work included in this edition comes with an insightful and illuminating introduction that places the piece in its historical and cultural context, with accompanying text explaining the significance of each piece and the ways in which it interacts with other works. New to this edition are: The famous entertainment for Elizabeth at Kenilworth George Peele's remarkably inventive *The Old Wives' Tale* The oft-forgotten history of Thomas of Woodstock, predecessor to Shakespeare's *Richard II* John Lyly's *Gallathea*, a work which explores gender and love, written for the Children's Company at Saint Paul's Ben Johnson's *Volpone* and the controversial *Epicoene* Perfect for scholars, teachers, and readers of the English Renaissance, *Renaissance Drama: An Anthology of Plays and Entertainments* belongs on the bookshelves of anyone with even a passing interest in the drama of its time.

Renaissance Drama

Consistently daring while being solid, W.B. Worthen's selection of plays now includes topical and provocative pieces like Sophie Treadwell's *Machinal* and classroom favorites like William Shakespeare's *Midsummer Night's Dream*, Luis Valdez's *Los vendidos*, and Nobel Laureate Gao Xingjian's *The Other Shore*. --Book Jacket.

The Wadsworth Anthology of Drama

A groundbreaking compilation of the key movements in the history of modern theatre. Each of the book's parts comprises full reproductions of the plays that defined the period and key critical writings that inform and contextualise their reading. "Here is an anthology of plays and criticism that all teachers of drama should take seriously. The fresh angles and approaches the volume offers on topics such as naturalism, the historical avant-garde, and breakthrough works by innovative performance artists (e.g., Laurie Anderson, SuAndi) all argue in favor of this collection as required reading in courses on modern stagecraft." CHOICE, Feb 2011

The Routledge Drama Anthology and Sourcebook

"The Renaissance saw a dramatic explosion of such force that, four hundred years later, its plays are still amongst the most frequently performed and studied we have. This anthology offers a full introduction to Renaissance theatre in its historical and political context, along with newly edited and comprehensively annotated texts of the following plays: *The Spanish Tragedy* (Thomas Kyd); *Arden of Faversham* (Anon.); *Edward II* (Christopher Marlowe); *A Woman Killed with Kindness* (Thomas Heywood); *The Tragedy of Mariam* (Elizabeth Cary); *The Masque of Blackness* (Ben Jonson); *The Knight of the Burning Pestle* (Francis Beaumont); *Epicoene, or the Silent Woman* (Ben Jonson); *The Roaring Girl* (Thomas Middleton and Thomas Dekker); *The Changeling* (Thomas Middleton and William Rowley); and *'Tis Pity She's a Whore* (John Ford)."

The Routledge Anthology of Renaissance Drama

The HB Anthology of Drama has set the pace in comprehensive coverage of world theatre from Greek to the present. This anthology continues that trend with a strong representation by women writers and by writers of color. Each unit of the third edition begins with an extensive introduction, placing drama in the context of a specific historical era. Each play is accompanied by a brief biography of the playwright and a short introduction to the play and concludes with a selection of critical readings drawn from the period, essays on performance, and a contemporary theater review of one play in that unit. The text can be adapted for a range of courses, such as Theatre History, Modern Drama and various surveys of drama, i.e., by genre (tragedy, comedy), by national origin (American) or as a survey or dramatic literature.

The Broadview Anthology of Drama, Volume 2: The Nineteenth and Twentieth Centuries

This new anthology provides seventeen key plays by twelve dramatists of the Restoration period in an anthology designed specifically for course use, with annotations and judiciously modernized texts. It offers a representative sampling of the types of play of the period, including plays by both men and women - sex comedy, moral comedy, heroic drama, Shakespearean adaptation and political history.

Restoration Drama

The Longman Anthology of Drama and Theater, Compact Edition, is a fully-integrated text/anthology of drama with a global emphasis for the Introduction to Drama course. The Compact Edition is divided

into three parts. Part One examines the roots of theater and the theoretical and critical foundations of theater and drama. Part Two, an anthology of Western Theater, and Part Three, an anthology of non-western theater, are divided into historical and geographical sections, each preceded by a brief overview of the cultural and historical context that shaped the plays. A map and timeline of key historical, cultural, and artistic events precedes each section in Parts II and III. Preceding each section of plays is a brief overview of the history of the theater from its origins in Europe, Asia, Africa, and the Americas to the present. The ideas that inspired the dramas are considered, as well as the particulars of each performance. In the interest of creating a clean, uncluttered text, selected bibliographies are at the end of the book. Questions for Discussion and Writing are included in the accompanying Instructor's Manual, as well as more thorough bibliographies and a comprehensive list of films and videos that illustrate the ideas in the text.

The Longman Anthology of Drama and Theater

This collection of plays from late-medieval England includes a rich selection of noncycle plays and morality plays along with some of the better-known pageants from the cycle plays and some theatrical fragments never before anthologized. These plays and fragments illustrate the most widespread early theatrical practices in England and represent drama that fed directly into the Elizabethan theatrical experience.

Early English Drama

The Routledge Anthology of Restoration and Eighteenth-Century Drama brings together the work of key playwrights from 1660 to 1800, divided into three main sections: *Restoring the Theatre: 1660–1700*, *Managing Entertainment: 1700–1760*, and *Entertainment in an Age of Revolutions: 1760–1800*. Each of the 20 plays featured is accompanied by an extraordinary wealth of print and online supplementary materials, including primary critical sources, commentaries, illustrations, and reviews of productions. Taking in the spectrum of this period's dramatic landscape—from Restoration tragedy and comedies of manners to ballad opera and gothic spectacle—The Routledge Anthology of Restoration and Eighteenth-Century Drama is an essential resource for students and teachers alike.

The Routledge Anthology of Restoration and Eighteenth-Century Drama

The first half of the Twentieth Century was a vibrant period for U.S. theatre. As the United States emerged as a significant military, economic, political and cultural power, so its theatre began to distinguish itself from the prevailing European model. The plays and dramatic texts in this anthology demonstrate the vital and volatile relationship between U.S. theatre, its society, and the ways in which that theatre has both supported and challenged prevailing systems of thought and action. This collection is organized around key thematic perspectives from colonialism to psychoanalysis, viewing the artistic output of this era through the socio-political events and controversies that shaped it. Each play is accompanied by a critical commentary from a leading scholar and a set of archive source materials, including playbills, production shots, reviews, essays, poems, newspaper articles and official documents. These supplements bring to life the rich and diverse theatre cultures that operated in the United States during this period and explore the essential ways that these cultural artifacts engaged with the national debates that surrounded them. The plays themselves both support and challenge the existing canon of U.S. dramatic literature; a selection that speaks not only to aesthetic innovation, but also to the critical moments of political change and national definition that helped to shape the United States. From Miller, Williams and O'Neill to Angelina Grimké, David Belasco and Mae West, this is the ideal collection for any course in U.S. theatre.

The Routledge Anthology of U.S. Drama, 1898-1949

This is the first new full-scale anthology of Restoration and eighteenth-century drama in over sixty years. Concentrating on plays from the heyday of 1660-1737, it focuses especially on Restoration drama proper (1660-1688) and Revolution drama (1689-1714), with a smaller selection of plays

from the early Georgian period (1715-1737) and a glimpse at the later Georgian period's "laughing comedy" (1770s and 80s). It includes nine sub-genres (heroic romance, political tragedy, personal tragedy, tragicomic romance, social comedy, subversive comedy, corrective satire, menippean satire, and laughing comedy), with the preponderance of exposure given to the jewel of this theatre, its comedy. The core canonical plays from the era—from Dryden's *All for Love* and Behn's *The Rover* to Congreve's *The Way of the World* and Sheridan's *School for Scandal*—are all here, but so are a remarkably wide range of non-canonical works. There are many more plays by women than in any previous general anthology of drama of the period. Also included are a number of works from the neglected 1660s, whose comedies feature delightful, subversive, levelling folk elements. In all there are forty-one plays; each is fully annotated and prefaced with an historical introduction. Also included are a general introduction, head-notes for each genre, and a glossary.

Longman Anthology of Drama and Theatre

This pioneering edition provides access to some of the most popular plays of the nineteenth century.

The Wadsworth Anthology of Drama, Brief Edition

This comprehensive anthology brings together a diverse collection of dramatic writing from the late fourteenth century to the onset of the Renaissance. The volume presents for the first time the key plays of the period in their entirety, alongside more unusual selections, covering religious narrative, religion and conscience, and politics and morality. The first section focuses on Biblical plays, including coherent sequences of the narrative Cycle plays from York and N-Town and supporting pageants from Chester and Wakefield. This approach allows a clear narrative line to develop, and permits the comparison of the treatment of key stories between the Cycles. The selected material demonstrates how the drama of the towns and cities of East Anglia and the North of England mediated religious culture to a heterodox urban audience, and explored biblical events in an intensely contemporary setting. In the second and third sections, the attention turns to secular drama, and the Moral Plays and Interludes. The featured texts illustrate the range of themes and issues covered, from the salvation of the individual human soul to the renovation of the political nation, and the variety of settings and audiences for which the plays were designed. The flexibility of the Interlude form is explored, as are the ways in which it was utilised by playwrights and their patrons to address issues of direct political and social concern to them and their audiences. *Medieval Drama: An Anthology* is an indispensable guide to the breadth and depth of dramatic activity in medieval Britain.

The HBJ Anthology of Drama

Equestrian Drama: An Anthology of Plays is a collection of four representative equestrian dramas. It includes four annotated plays: *Timour the Tartar* by Matthew G. Lewis, *The Battle of Waterloo* by J. H. Amherst, *Mazeppa* by Henry M. Milner, and *The Whip* by Henry Hamilton and Cecil Raleigh. An introduction precedes the collection, providing the information necessary to understand and contextualize the genre and the plays as both written and performance texts, and within the time period of their original productions, as well as within the larger histories of theatre and equestrian entertainments. Additional related plays are identified, excerpted, and explored, providing readers with a wide range of examples to better understand the development and significance of this unique form of popular theatre. Also identified and explored are significant contributions made to stage technology and design by the patented stage machinery designed for the production of the mechanized form of equestrian drama, which became popular in the late nineteenth century. *Equestrian Drama* is suitable for undergraduate, graduate, and professional students in theatre history, dramatic literature, performance studies, and equine studies. An online supplement to this book is available to provide readers with additional content relating to this collection, including original English language translations of *La Fille Hussard* and *Rognolet* and *Passe-Carreau*, as well as the full annotated text of *Turpin's Ride to York*.

Equestrian Drama

Schwab's first play was performed in 1990; in 1992 German critics elected him playwright of the year; he died in 1994, leaving behind a total of some fifteen plays. Many of his plays created a furore when produced, but their stage effectiveness made them very successful with theatre audiences. His disrupted language constantly breaks the rules of syntax and ignores the conventions of expression. Yet it still works. Indeed, it is a very effective instrument for revealing the violence which lies not so far below the surface of "respectable" society, which is Schwab's major theme.

Medieval Drama

English drama between the late fifteenth century and the late sixteenth centuries is as diverse as it is engaging; this anthology brings together eighteen of the most interesting and important dramatic works from the period. The plays have been chosen to give a broad view of the drama produced in Tudor England. They testify to the eclectic tastes of sixteenth-century audiences, ranging from morality plays (*Mankind*, *Everyman*), to comedies inspired by the Roman plays of Terence and Plautus (*Ralph Roister Doister*), to tragedies inspired by the plays of Seneca (*Gorboduc*, *Cambises*). In later plays, morality plots rub shoulders with slapstick comic business (*The Longer Thou Livest The More Fool Thou Art*, *The Three Ladies of London*), and classical gods intervene in the affairs of England's regions (*Gallathea*). While some of the plays offer pure entertainment, others have a clear political agenda. King Johan is presented as a prototype for English resistance to Rome's Catholicism; *Gorboduc's* decision to abdicate and divide his kingdom highlights the vexed question of the English succession under a childless queen. Other plays comment more obliquely on contemporary events. *Play of the Four Elements* reflects on England's nascent maritime expeditions to the New World, while *The Three Ladies of London* comments topically on immigrant overcrowding in England's port towns, and the dangers of England's trade in the Mediterranean. Some plays push the boundaries of what the theatre can do in staging violence (*Cambises*) and questioning gender roles (*Gallathea*). Designed for undergraduate use, the anthology includes extensive explanatory annotations and a substantial introduction to each play; spelling and punctuation have been partially modernized in the interests of making the texts more accessible to students. In all this, the anthology follows principles similar to those developed for Christina M. Fitzgerald's and John T. Sebastian's *Broadview Anthology of Medieval Drama*; several of the plays from that anthology are also included here, while the rest have been newly edited for this volume, under the supervision of General Editor Alan Stewart.

Theatre Through the Ages

This diverse anthology features eight contemporary plays founded in testimonies from across the world. Showcasing challenging and provocative works of theatre, the collection also provides a clear insight into the workings of the genre through author interviews, introductions from the companies and performance images which illustrate the process of creating each piece. *Bystander 9/11* by Meron Langsner is an impressionistic but wholly authentic response to the catastrophe as it unfolded and in the days following. *Big Head* by Denise Uyehara is an interrogation of current perceptions of "the enemy now" as seen through the lens of Japanese American internment during World War II. Urban Theatre Projects' *The Fence* is a tale of love, belonging and healing. It is a tender work that looks at the adult lives of five family and friends who spent their childhoods in orphanages, institutions and foster homes in Australia. *Come Out Eli: Christmas 2002 in Hackney, London*, saw the longest siege in British history. Using interviews collected at the time and further material gathered in the aftermath, Alecky Blythe's play explores the impact of the siege on the lives of individuals and the community. *The Travels*: members of Forced Entertainment undertook a series of journeys during one summer, each travelling alone to locations in the UK to complete tasks determined only partially in advance. This began a mapping process and the creation of a landscape of ideas, narratives and bad dreams. *On the Record* by Christine Bacon and Noah Birksted-Breen circumnavigates the globe to bring true stories from six independent journalists, all linked by their determination to shed light on the truth. Created by Paula Cizmar, Catherine Filloux, Gail Kriegel, Carol K. Mack, Ruth Margraff, Anna Deavere Smith and Susan Yankowitz, *Seven* is based on personal interviews with seven women who have triumphed over huge obstacles to catalyse major changes in human rights in their home countries of Russia, Pakistan, Nigeria, Northern Ireland, Afghanistan, Guatemala and Cambodia. *Pajarito Nuevo la Lleva: The Sounds of the Coup* by María José Contreras Lorenzini focuses upon sense memories of witnesses who were children at the time of the 1974 military coup in Chile.
