[#Carib chief](#) [#Caribbean indigenous leader](#) [#Kalinago leader](#) [#Pre-Columbian Caribbean](#) [#Antillean native governance](#)

The Carib Chief, also known as a Kalinago leader, was a pivotal figure in the indigenous societies of the Lesser Antilles. These powerful chiefs commanded respect, guided their communities through conflict and peace, and preserved the rich cultural heritage of the Carib people. Their role was central to the social structure and defense of native islanders in the pre-Columbian Caribbean.

The Prairie Chief

'The Prairie Chief' is a Western novel set during the Settlers era, where a Native American chieftain named Whitewing was featured prominently. He was a Red Indian of the North American prairies. Though not a chief of the highest standing, he was a very great man in the estimation of his tribe, for, besides being possessed of qualities which are highly esteemed among all savages—such as courage,

strength, agility, and the like—he was a deep thinker, and held speculative views in regard to the Great Manitou (God), as well as the ordinary affairs of life, which perplexed even the oldest men of his tribe, and induced the younger men to look on him as a profound mystery.

The Prairie Chief

Robert Michael Ballantyne (24 April 1825 - 8 February 1894) was a Scottish author of juvenile fiction who wrote more than 100 books. He was also an accomplished artist, and exhibited some of his water-colours at the Royal Scottish Academy. In 1848 he published his first book *Hudson's Bay: or, Life in the Wilds of North America*, and for some time was employed by the publishers Messrs Constable. In 1856 he gave up business to focus on his literary career, and began the series of adventure stories for the young with which his name is popularly associated.

The Prairie Chief

The Alarm. Whitewing was a Red Indian of the North American prairies. Though not a chief of the highest standing, he was a very great man in the estimation of his tribe, for, besides being possessed of qualities which are highly esteemed among all savages-such as courage, strength, agility, and the like-he was a deep thinker, and held speculative views in regard to the Great Manitou (God), as well as the ordinary affairs of life, which perplexed even the oldest men of his tribe, and induced the younger men to look on him as a profound mystery. Indeed the feelings of the latter towards Whitewing amounted almost to veneration, for while, on the one hand, he was noted as one of the most fearless among the braves, and a daring assailant of that king of the northern wilderness, the grizzly bear, he was, on the other hand, modest and retiring-never boasted of his prowess, disbelieved in the principle of revenge, which to most savages is not only a pleasure but a duty, and refused to decorate his sleeves or leggings with the scalp-locks of his enemies. Indeed he had been known to allow more than one enemy to escape from his hand in time of war when he might easily have killed him. Altogether, Whitewing was a monstrous puzzle to his fellows, and much beloved by many of them. The only ornament which he allowed himself was the white wing of a ptarmigan. Hence his name. This symbol of purity was bound to his forehead by a band of red cloth wrought with the quills of the porcupine. It had been made for him by a dark-eyed girl whose name was an Indian word signifying "light heart." But let it not be supposed that Lightheart's head was like her heart. On the contrary, she had a good sound brain, and, although much given to laughter, jest, and raillery among her female friends, would listen with unflagging patience, and profound solemnity, to her lover's soliloquies in reference to things past, present, and to come. One of the peculiarities of Whitewing was that he did not treat women as mere slaves or inferior creatures. His own mother, a wrinkled, brown old thing resembling a piece of singed shoe-leather, he loved with a tenderness not usual in North American Indians, some tribes of whom have a tendency to forsake their aged ones, and leave them to perish rather than be burdened with them. Whitewing also thought that his betrothed was fit to hold intellectual converse with him, in which idea he was not far wrong. At the time we introduce him to the reader he was on a visit to the Indian camp of Lightheart's tribe in Clearvale, for the purpose of claiming his bride. His own tribe, of which the celebrated old warrior Bald Eagle was chief, dwelt in a valley at a considerable distance from the camp referred to. There were two other visitors at the Indian camp at that time. One was a Wesleyan missionary who had penetrated to that remote region with a longing desire to carry the glad tidings of salvation in Jesus to the red men of the prairie. The other was a nondescript little white trapper, who may be aptly described as a mass of contradictions....

The Prairie Chief

In the preface to *The Great Indian Chief of the West: Or Life and Adventures of Black Hawk*, Benjamin Drake shared with the reader the hope that his book might "contribute to awaken the public mind to a sense of the wrongs inflicted upon the Indians, and to arouse the Christian statesmen of this land to the adoption of a more liberal, upright and benevolent course of policy towards them." Of course, that benevolent course of policy was never adopted. Between the Black Hawk War of 1832 and the Wounded Knee Massacre of 1890, numerous wars, campaigns, and massacres took place west of the Mississippi. Benjamin Drake first published this excellent history on Black Hawk and the war named after him just six years after that war ended.

The Hunters of the Prairie

"The Prairie" was the third in order of Fenimore Cooper's *Leatherstocking Tales*. Its first appearance was in the year 1827. The idea of the story had suggested itself to him, we are told, before he had finished its immediate forerunner, "The Last of the Mohicans." He chose entirely new scenes for it, "resolved to cross the Mississippi and wander over the desolate wastes of the remote Western prairies." He had been taking every chance that came of making a personal acquaintance with the Indian chiefs of the western tribes who were to be encountered about this period on their way in the frequent Indian embassies to Washington. "He saw much to command his admiration," says Mrs. Cooper, "in these wild braves... It was a matter of course that in drawing Indian character he should dwell on the better

traits of the picture, rather than on the coarser and more revolting though more common points. Like West, he could see the Apollo in the young Mohawk."

The Hunters of the Prairie

R. M. Ballantyne is best known for his westerns. As a young boy Ballantyne spent few years on American continent learning the local customs, trading for fur with Native Americans, sleighing and canoeing across the America. These experiences served as a source for his western novels that span from cowboy tales and gold mining stories to tales from Canadian wilderness. Content: Snowflakes and Sunbeams (The Young Fur Traders) The Dog Crusoe and his Master The Golden Dream Away in the Wilderness The Wild Man of the West Silver Lake Over the Rocky Mountains Digging for Gold The Pioneers Fort Desolation The Red Man's Revenge The Prairie Chief Charlie to the Rescue The Buffalo Runners Wrecked but not Ruined

The Hunters of the Prairie, Or the Hawk Chief

Death on the Prairie is a sweeping narrative history of the Indian wars on the western plains that never loses sight of the individual actors. Beginning with the Minnesota Sioux Uprising in 1862, Paul I. Wellman shifts to conflicts in present-day Wyoming, Montana, Idaho, Oklahoma, the Texas Panhandle, and South Dakota, involving, most spectacularly, the Sioux, but also the Cheyennes, Arapahos, Comanches, Kiowas, Utes, and Nez Perces—all being ezed out of their hunting grounds by white settlers. There is never a quiet page as Wellman describes the Sand Creek Massacre (1864), the Fetterman Massacre (1866), the Battle of the Washita (1868), the Battle of Adobe Walls (1874), the Battle of the Little Big Horn (1876), the Nez Perce War (1877), the Meeker Massacre (1879), and the tragedy at wounded Knee (1890) that ended the fighting on the plains. Celebrated chiefs (Red Cloud, Crazy Horse, Black Kettle, Satanta, Joseph, Ouray, Sitting Bull) clash with army officers (notably Custer, Sheridan, Miles, and Crook), and uncounted men, women, and children on both sides are cast in roles of fatal consequence.
