Running from the Devil

"Running from the Devil" is Kissing's poignant and humorous memoir about the remarkable steps he took to hide his "possession"--later discovered to be epilepsy--and exorcise his demons. 20 illustrations.

A Boy's Possession

Dealing with the daily pain and abuse caused by her high school sweetheart, Trent, would prove to be enough stress for any freshman, but when Charlie decides to start a sexual relationship with her best friend's boyfriend, Damien, emotions stir that she wasn't expecting. Charlie is forced to make a decision--reserve her friendship with her best friend, Simone, by letting Damien go or endanger her life by breaking up with her abuser-of-a-boyfriend, Trent, and choosing Damien. With either decision she's bound to lose until the promise of a third option presents itself. Following the trend of the twists and turns presented in Two First Kisses, find yourself entangled in Charlie's web of lovers and mistakes as she learns that sometimes what makes you feel good isn't always good for you.

Demonic Possession and Exorcism in Early Modern England

This book is exclusively devoted to demonic possession and exorcism in early modern England. It offers modernized versions of the most significant early modern texts on nine cases of demonic possession from the period 1570 to 1650, the key period in English history for demonic possession. The nine stories were all written by eyewitnesses or were derived from eyewitness reports. They involve matters of life and death, sin and sanctity, guilt and innocence, of crimes which could not be committed and punishments which could not be deserved. The nine critical introductions which accompany the stories address the different strategic intentions of those who wrote them. The modernized texts and critical introductions are placed within the context of a wide-ranging general Introduction to demonic possession in England across the period 1550 to 1700.

Diabolical Possession and the Case Behind The Exorcist

Reexamining the purported 1949 exorcism of a 13-year old boy in Mount Ranier, Maryland--the most famous and widely documented case in history--the author explores the subject of demonic possession in the light of science. Eyewitness accounts, unpublished photos and never before published documents from the archives of the Rhine Research Foundation provide fresh perspective on the events that inspired the novel, and later the film, *The Exorcist*.

Possession

This is about the demonic possessions of St Louis and the real Emily Rose story. Also touching on demonology.

The Truth Behind Demonic Possession

In a world where Thinkers control the population and Rules are not meant to be broken, 15-year-old Violet Schoenfeld must make a choice to control or be controlled after learning truths about her "dead" sister and "missing" father.

Possession

FROM THE NUMBER ONE SUNDAY TIMES BESTSELLING AUTHOR Terence Cave, owner of Cave Antiques, has already experienced the tragedies of his mother's suicide and his wife's murder when his teenage son, Reuben, is killed in a grotesque accident. His remaining child, Bryony, has always been the family's golden girl and Terence comes to realise that his one duty in life is to protect her from the world's malign forces, whatever that may take. But as he starts to follow his grieving daughter's movements and enforce a draconian set of rules, his love for Bryony becomes a possessive force that leads to destruction.

The Possession of Mr Cave

A thought-provoking study of how knowledge of provenance was not transferred with enslaved people and goods from the Portuguese trading empire to Renaissance Italy In the fifteenth and sixteenth centuries, Renaissance Italy received a bounty of "goods" from Portuguese trading voyages—fruits of empire that included luxury goods, exotic animals and even enslaved people. Many historians hold that this imperial "opening up" of the world transformed the way Europeans understood the global. In this book, K.J.P. Lowe challenges such an assumption, showing that Italians of this era cared more about the possession than the provenance of their newly acquired global goods. With three detailed case studies involving Florence and Rome, and drawing on unpublished archival material, Lowe documents the myriad occasions on which global knowledge became dissociated from overseas objects, animals and people. Fundamental aspects of these imperial imports, including place of origin and provenance, she shows, failed to survive the voyage and make landfall in Europe. Lowe suggests that there were compelling reasons for not knowing or caring about provenance, and concludes that geographical knowledge, like all knowledge, was often restricted and not valued. Examining such documents as ledger entries, journals and public and private correspondence as well as extant objects, and asking previously unasked questions, Lowe meticulously reconstructs the backstories of Portuguese imperial acquisitions, painstakingly supplying the context. She chronicles the phenomenon of mixed-ancestry children at Florence's foundling hospital; the ownership of inanimate luxury goods, notably those possessed by the Medicis; and the acquisition of enslaved people and animals. How and where goods were acquired, Lowe argues, were of no interest to fifteenth- and sixteenth-century Italians; possession was paramount.

Provenance and Possession

This extraordinary collection of essays is the first to approach the phenomenon of spirit possession among Jews from a multidisciplinary perspective. What beliefs have Jews held about spirit possession? Have Jewish people believed themselves to be possessed by spirits? If so, what sorts of spirits were they? Have Jews' conceptions of possession been the same as those of their Christian and Muslim neighbors? These are some of the questions addressed in these thirteen essays, which together explore spirit possession in a wide range of temporal and geographic contexts. The phenomena known as spirit possession are both very widespread and very difficult to explain. The late Raphael Patai initiated study of spirit possession as found in the Jewish world in the post-Talmudic period by taking a folkloric and anthropological approach to the subject. Other scholars have opened up new avenues

of inquiry through discussions of the topic in connection with Jewish mystical and magical traditions. The essays in this collection expand the variety of approaches to the subject, addressing Jewish possession phenomena from the points of view of religion, mysticism, literature, anthropology, psychology, history, and folklore. Scholarly views and popular traditions, benevolent spirits and malevolent shades, exorcism, social control, messianic implications, madness, literary structure, and a host of other topics are brought into the discussion of spirit possession in Jewish culture. This juxtaposition of approaches among the essays in this volume, some of which analyze the same texts in different ways, creates a broad foundation on which to contemplate the meaning of spirit possession.

The Devil Is Alive and Well In The Dark Sacrament, coauthors David M. Kiely and Christina McKenna faithfully recount ten contemporary cases of demon possession, haunted houses, and exorcisms, and profile the work of two living, active exorcists. The authors serve as trustworthy guides on this suspense-filled journey into the bizarre, offering concrete advice on how to avoid falling prey to the dark side.

Consequences of Possession

Demonic possession was a spiritual state that often had physical symptoms; however, in *Demonic Possession and Lived Religion in Later Medieval Europe*, Sari Katajala-Peltomaa argues that demonic possession was a social phenomenon which should be understood with regard to the community and culture. She focuses on significant case studies from canonization processes (c. 1240-1450) which show how each set of sources formed its own specific context, in which demonic presence derived from different motivations, reasonings, and methods of categorization. The chosen perspective is that of lived religion, which is both a thematic approach and a methodology: a focus on rituals, symbols, and gestures, as well as sensitivity to nuances and careful contextualizing of the cases are constitutive elements of the argumentation. The analysis contests the hierarchy between the 'learned' and the 'popular' within religion, as well as the existence of a strict polarity between individual and collective religious participation. Demonic presence disclosed negotiations over authority and agency; it shows how the personal affected the communal, and vice versa, and how they were eventually transformed into discourses and institutions of the Church; that is, definitions of the miraculous and the diabolical. Geographically, the volume covers Western Europe, comparing Northern and Southern material and customs. The structure follows the logic of the phenomenon, beginning with the background reasons offered as a cause of demonic possession, continuing with communities' responses and emotions, including construction of sacred caregiving methods. Finally, the ways in which demonic presence contributed to wider societal debates in the fields of politics and spirituality are discussed. Alterity and inversion of identity, gender, and various forms of corporeality and the interplay between the sacred and diabolical are themes that run all through the volume.

Demonic Possession and Lived Religion in Later Medieval Europe

Demon possession and allied themes; being an inductive study of phenomena of our own times, is a book by American Protestant missionary, John Livingstone Nevius, first published in 1894. Nevius was stationed in China and wrote several books on the subjects of Chinese religion and spirit possession. This book discusses demon possession in China, but also covers India, Japan, and other countries, as well as covering the pathological, biblical, and psychological theories of possession.

The Blue Book of Grammar and Punctuation

External Possession Constructions (EPCs) are found in nearly all parts of the world and across widely divergent language families. The data-rich papers in this first-ever volume on EPCs document their typological variability, explore diachronic reasons for variations, and investigate their functions and theoretical ramifications. EPCs code the possessor as a core grammatical relation of the verb and in a constituent separate from that which contains the possessed item. Though EPCs express possession, they do so without the necessary involvement of a possessive predicate such as “have” or “own”. In many cases, EPCs appear to “break the rules” about how many arguments a verb of a given valence can have. They thus constitute an important limiting case for evaluating theories of the relationship between verbal argument structure and syntactic clause structure. They also raise core questions about intersections among verbal valence, cognitive event construal, voice, and language processing.

What intrigued me about this diary was that "The Exorcist" was by far the scariest horror movies of all time based on true events. The actual case involved a boy not a girl as portrayed in the movie. We went to St. Louis to find out the truth and uncover the real diary and we did just that. Documented by 14 priests this diary chronicles the horrific story of "The Exorcist" and a boy possessed by the devil. For the first time read the unedited diary of the boy's possession and exorcism. Learn the facts and truth about one of the most darkest supernatural cases known to man.

Possess The Throne

A riveting account of private art collectors' passion from Roman times to the present Whether it's the discovery of \$1.6 billion in Nazi-looted art or the news that Syrian rebels are looting UNESCO archaeological sites to buy arms, art crime commands headlines. Erin Thompson, America's only professor of art crime, explores the dark history of looting, smuggling, and forgery that lies at the heart of many private art collections and many of the world's most renowned museums. Enlivened by fascinating personalities and scandalous events, Possession shows how collecting antiquities has been a way of creating identity, informed by a desire to annex the past while providing an illicit thrill along the way. Thompson's accounts of history's most infamous collectors--from the Roman Emperor Tiberius, who stole a life-sized nude Greek statue for his bedroom, to Queen Christina of Sweden, who habitually pilfered small antiquities from her fellow aristocrats, to Sir William Hamilton, who forced his mistress to enact poses from his collection of Greek vases--are as mesmerizing as they are revealing.

I have written about seven stories that I put away and have occasionally revised. One story started when I was anchored alone in Viner Sound in 1996. I felt a presence on board that set off my imagination. The book contains the stories of six lives. Two half breeds, Matti Wilson (part Finish and part Indian) and Bessie David (part Kwakuutl Indian and part Chinese). Chief Joseph of the Koeksotenok in the village of Gwayasdums. Shaman Caring-well in the village (cousin of Matti) and shaman to Chief Bell of the Tsawatenok. Lad and Jojo (sons of Chief Bell) held captive at a secret Japanese radio base in Viner Sound during WWII and died there. Jojo had not been given the rites at burial that would send him to Transformer for reincarnation and his spirit is trapped in Viner Sound. Jojo's spirit possesses Matti and shows him how the boys died at the radio base. He asks Matti for assistance in releasing his spirit for passage to Transformer so that he can be reincarnated. The lives of these main characters are interwoven in the novel's narrative. The idea of spiritual possession was reinforced in 2002, when a Haida woman told me about her possession by the bad spirit of Hot Spring Island in the Gwaii Hanas Park on the Queen Charlotte Islands. In 2012 I decided to self-publish, Strange Possession at Viner Sound, to raise funds for my charities.

Possession

The spiritual status of the early modern child was often confused and uncertain, and yet in the wake of the English Reformation became an issue of urgent interest. This book explores questions surrounding early modern childhood, focusing especially on some of the extreme religious experiences in which children are documented: those of demonic possession and godly prophecy. Dr French argues that despite the fact that these occurrences were not typical childhood experiences, they provide us with a window through which to glimpse the world of early modern children. The work introduces its readers to the dualistic nature of early modern perceptions of their young - they were seen to be both close to devilish temptations and to God's divine finger, as illustrated by published accounts of possession and prophecy. These cases reveal to us moments in which children could be granted authority or in which writers and publishers framed children in positions of spiritual agency. This can tell us much about how early modern society perceived, imagined and depicted their young, and helps us to revise the notion that early modern children's lives, which were often fleeting, may have gone unregarded. Both contributing to, and informed by, some of the most recent historiographical directions taken by early modern history, this book engages with three key areas: the history of extreme spiritual experience such

as demonic possession, the 'lived experience' of early modern religion and the history of childhood. In this way, it offers the first scholarly exploration of the dialogue between these three areas of current and widespread historical interest which have, perhaps surprisingly, not yet been considered together.

Strange Possession at Viner Sound

Haunting accounts of real-life exorcisms through the centuries and around the world, from ancient Egypt and the biblical Middle East to colonial America and twentieth-century South Africa. A Penguin Classic. Levitation. Feats of superhuman strength. Speaking in tongues. A hateful, glowing stare. The signs of spirit possession have been documented for thousands of years and across religions and cultures, even into our time: In 2019 the Vatican convened 250 priests from 50 countries for a weeklong seminar on exorcism. The Penguin Book of Exorcisms brings together the most astonishing accounts: Saint Anthony set upon by demons in the form of a lion, a bull, and a panther, who are no match for his devotion and prayer; the Prophet Muhammad casting an enemy of God out of a young boy; fox spirits in medieval China and Japan; a headless bear assaulting a woman in sixteenth-century England; the possession in the French town of Loudun of an entire convent of Ursuline nuns; a Zulu woman who floated to a height of five feet almost daily; a previously unpublished account of an exorcism in Earling, Iowa, in 1928--an important inspiration for the movie *The Exorcist*; poltergeist activity at a home in Maryland in 1949--the basis for William Peter Blatty's novel *The Exorcist*; a Filipina girl "bitten by devils"; and a rare example of a priest's letter requesting permission of a bishop to perform an exorcism--after witnessing a boy walk backward up a wall. Fifty-seven percent of Americans profess to believe in demonic possession; after reading this book, you may too.

Father Damien Karras: 'Where is Regan?' Regan MacNeil: 'In here. With us.' The terror begins unobtrusively. Noises in the attic. In the child's room, an odd smell, the displacement of furniture, an icy chill. At first, easy explanations are offered. Then frightening changes begin to appear in eleven-year-old Regan. Medical tests fail to shed any light on her symptoms, but it is as if a different personality has invaded her body. Father Damien Karras, a Jesuit priest, is called in. Is it possible that a demonic presence has possessed the child? Exorcism seems to be the only answer... First published in 1971, *The Exorcist* became a literary phenomenon and inspired one of the most shocking films ever made. This edition, polished and expanded by the author, includes new dialogue, a new character and a chilling new extended scene, provides an unforgettable reading experience that has lost none of its power to shock and continues to thrill and terrify new readers.

Toys--those celebrated childhood cohorts and lead actors in children's imaginative play--have a fantastic history of heroism in fiction. From teddy bears that guard sleeping babies to plastic soldiers and cowboys who lay siege to wooden block castles, toys are often the heroes of the stories children inspire authors to tell. In this collection of new essays, scholars from a great range of disciplines examine fictional toys as protectors of the children they love, as heroes of their own stories, and as champions for the greater good in the writings of A.A. Milne, Hans Christian Andersen, William Joyce, John Lasseter and many others.

"... For six months in 1980 and for three months in 1981 I lived in Samoan villages and studied healing practices. I observed and interviewed both traditional healers and western trained health professionals in Western Samoa. Now, based on my experiences both in New Zealand and in Western Samoa, I present some of my insights -- gained from observation, interview, group discussions and reflection -- as they relate to the New Zealand scene ... The book should be read as an introduction to cross-cultural communication and health as well as to Samoan and to other non-western health practices. Enough information is provided so that western health professionals can have a sensible conversation with their Samoan patients, and vice versa. Some health professionals will, I hope, stop to reflect on the existence of cultural differences in talking health and in doing sickness. Where a western health professional reads this book and reflects on the nature of medical practice and the usage/provision of health care and begins to talk about western ways of doing sickness as only one possible way, a breakthrough will have occurred. This would amount to the recognition that what it means to be sick is culturally defined, that medical treatment and health services are cultural practices and culturally specific forms ..." -- Introduction.

Dare to Possess-A Good Courage!

“Caroline thinks Valmiki belongs to her . . . People don’t easily give up what they think are their possessions. The English never have.” Anasuya, an Indian writer, meets the wilful Lady Caroline Bell at a party and is soon swept away by the manic energy that surrounds her. She watches as Caroline takes charge of Valmiki, a humble shepherd boy who expresses himself through painting, and whisks him away from his ragged family in a small south Indian village to London, introducing him to modernity,

luxury and high society. Initially dependent on Caroline, Valmiki becomes increasingly like her, learning the ways of the West through her unorthodox methods. But he is also unable to sever all connections with his past as he depends equally on the Swamy, an ascetic who first recognized his talent. As he grows to become his own person, one who sees the people and things around him as his possessions, Valmiki questions whether Caroline's motives for nurturing him are purely altruistic and turns to the Swamy for advice. Anasuya, who has been a mute spectator to Caroline's games and machinations, fears for Valmiki's well-being as the Swamy and Caroline head towards an inevitable clash of egos, one that is sure to end in destruction. In *Possession* Kamala Markandaya deftly explores the ties that bind benefactor and artist, master and disciple, displaying the ease with which boundaries can blur, turning patronage into possession.
