Employer Aid for Postsecondary Education

A study examined the use of educational aid provided by employers to employees, including the types of employees and educational and training programs that employers support. Two National Center for Education Statistics data sets provided the data for the analysis: National Household Education Survey, which provides information describing all educational activities of adults, and National Postsecondary Student Aid Survey, which provides detailed information about how employers help students pay for postsecondary education. Some of the findings were the following: (1) 13 percent of adults participated in credential programs in 1995, compared with about 20 percent who participated in work-related or other structured programs; (2) 72 percent of adults employed as engineers, surveyors, or architects who enrolled in credential programs received financial assistance from their employers, compared with 50 percent of employees who were executives, administrators, and managers, 10 percent of employees who were marketing and sales workers, and 4 percent who were low-skilled manual laborers; (3) adults who worked part time were less likely to receive employer financial aid if they enrolled in credential programs (7 percent) than those who worked full time (37 percent); (4) 6 percent of all undergraduates received financial aid from their employers, averaging \$932, and 13 percent of graduate and first-professional students received employer assistance averaging \$2,451; and (5) male graduate students received approximately one-third more employer financial aid than female students. (The report includes 16 tables and 7 figures, a glossary, and technical notes.) (KC)

I will walk you through how to get business, how to maintain and grow business relationships with asset companies, and how to become a fully functional bpo producer that can yield more than 10,000 in monthly revenue. Here is the kicker, I don't even work 8 hours a day, and I have every weekend to spend with my family. BPOs are guaranteed money, with very little expenditures and checks paid to you on a monthly basis. They easily become something to depend on in today's market. Even while doing traditional real estate sales, BPOs can become that extra income you have been looking for and will also help you stay abreast on local market activity in the process. Are you new to real estate? Are you tired of getting leads that never pan out? Tired of driving clients around to 20 houses before they decide not to buy? Have you put your license on inactive status until the market changes? In real estate, only the strong survive. If you have been doing the same thing and yielding poor results, maybe it's time to try something new. Are you ready to start making the income you deserve?

Labor Cases

Foundational socio-legal study of lawyers in solo and small practice in Chicago in the 1950s and early 1960s, updated with later contributions from 1994 and 2011. Jerome Carlin's **LAWYERS ON THEIR OWN** is a recognized, foundational study of lawyers in individual practice in an urban setting. It became the template for an important form of social science research into lawyers in solo practice. The first extensive and grounded study of individual practitioners and their candid quotes in interviews, Carlin's book exposed the unique practices, class divides, ethical dilemmas and ultimate resentments of a little-viewed subgroup of attorneys and their clients. This book's findings and research methodology influenced many such studies of attorneys in action that followed it. The author's succinct and supported writing has proved to be an enduring and important study in this field of socio-legal research. Updated with the author's extensive introduction to the second edition, as well as a new foreword by law professor William Gallagher, this modern republication is presented to a new generation of readers and researchers into the daily lives, work, business angles and unique challenges of solo and individual-client law practice. Quality ebook formatting from Quid Pro Books includes linked notes, active Contents, legible tables and graphs, and careful proofreading. In addition, this ebook (and the new edition in paperback) embeds the original pagination from prior editions so that the reader, even of digital formats, has continuity in research, referencing, and classroom assignments.

Employer Aid for Postsecondary Education

A study examined the use of educational aid provided by employers to employees, including the types of employees and educational and training programs that employers support. Two National Center for Education Statistics data sets provided the data for the analysis: National Household Education Survey, which provides information describing all educational activities of adults, and National Postsecondary Student Aid Survey, which provides detailed information about how employers help students pay for postsecondary education. Some of the findings were the following: (1) 13 percent of adults participated in credential programs in 1995, compared with about 20 percent who participated in work-related or other structured programs; (2) 72 percent of adults employed as engineers, surveyors, or architects who enrolled in credential programs received financial assistance from their employers, compared with 50 percent of employees who were executives, administrators, and managers, 10 percent of employees who were marketing and sales workers, and 4 percent who were low-skilled manual

laborers; (3) adults who worked part time were less likely to receive employer financial aid if they enrolled in credential programs (7 percent) than those who worked full time (37 percent); (4) 6 percent of all undergraduates received financial aid from their employers, averaging \$932, and 13 percent of graduate and first-professional students received employer assistance averaging \$2,451; and (5) male graduate students received approximately one-third more employer financial aid than female students. (The report includes 16 tables and 7 figures, a glossary, and technical notes.) (KC)

When a loved one with mental illness comes into contact with the law, trying to advocate for them can be an overwhelming and frustrating endeavor. Mental illness adds a layer of complexity to legal processes, and the justice system can be downright bewildering, even for the most well-intentioned. How can families find out if their loved one is being mistreated or ignored, and how can they make sense of their rights under various laws and regulations? Family Guide to Mental Illness and the Law offers the nuts-and-bolts legal information and problem-solving steps families need. This accessible resource explains how common legal issues uniquely impact people with various forms of mental illness and what family members can do to help. Readers will learn how to - help protect a loved one's job, housing, or medical care - participate in hearings about guardianship, involuntary commitment, bankruptcy, and more - assist in making financial arrangements - navigate federal laws surrounding the Family and Medical Leave Act, HIPAA, disability claims, and workers' compensation - steer criminal proceedings away from jail and toward treatment Beyond the legal system, this book also guides readers in interacting with officials and authorities, lobbying for better laws, and working with local governments towards improving policies that affect those with mental illness. Complete with real-world examples, Family Guide to Mental Illness and the Law provides practical advice and eases the feelings of isolation that often accompany loving someone with mental illness.

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of The No Asshole Rule and The Asshole Survival Guide 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of The Life-Changing Magic of Not Giving a F*ck A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career.
