Greenfields Surgery 7

Excerpt from The Principles and Practice of Modern Surgery I must thank Dr. Silver for his kindness in correcting many of the proof-sheets in my absence; and, lastly, I must acknowledge my obligations to my friend Mr. John Wood, now Professor of Surgery in King's College, London, for the careful revision of the whole o'k, and for an unusual share of help which he has rendered me whilst I have been prostrated by illness, and long absent on the Continent. My readers will feel increased confidence in a work sanctioned by a surgeon of such consummate anatomical knowledge and dexterity in surgical manipulation. The Principles and Practice of Modern Surgery

Excerpt from Plastic Surgery Its Principles and Practice About ten years ago my friend Dr. J. M. T. Finney, who knew of my interest in plastic surgery, suggested that I specialize in this work. He said that every general surgeon was operating on these cases because they had to be taken care of, but that no one in this country was doing the work properly and that the field was undeveloped.
