Capital: An Abridged Edition (Oxford World's Classics) - Capital: An Abridged Edition (Oxford World's Classics) by Ruth Miles 11 views 8 years ago 31 seconds - <http://j.mp/1Ruko3W>.

Capital, Vol. 1 (Full Audiobook) [1/2] - Capital, Vol. 1 (Full Audiobook) [1/2] by Andrew S. Rightenburg 23,306 views 2 years ago 11 hours, 25 minutes - Capital,, Vol. 1, by Karl Marx. This independent recording is public domain both in content and in audio. This audiobook is also ...

Ch.1: The Commodity

Ch.2: The Process of Exchange

Ch.3: Money, or the Circulation of Commodities

Ch.4: The General Formula for Capital

Ch.5: Contradictions in the General Formula

Ch.6: The Sale and Purchase of Labor Power

Ch.7: The Labor Process and the Valorization Process

Ch.8: Constant Capital and Variable Capital

Ch.9: The Rate of Surplus Value

Ch.10: The Working Day

Ch.11: The Rate and Mass of Surplus Value

Ch.12: The Concept of Relative Surplus Value

Ch.13: Co-operation

Ch.14: The Division of Labor and Manufacture

Ch.15: Machinery and Large-Scale Industry (continued in video 2/2)

Class 01 Reading Marx's Capital Vol I with David Harvey - Class 01 Reading Marx's Capital Vol I with David Harvey by Reading Marx's Capital with David Harvey 1,028,710 views 13 years ago 1 hour, 51 minutes - Class 1 Introduction. An open course consisting of a close reading of the text of Volume I of Marx's **Capital**, in 13 video lectures by ...

This Way Is that Many People Have Taken Courses Where They've Done a Little Bit of Marks a Little Bit of Play but Their Time Is Kind of Stuff They've Read Excerpts from Marx or Something like that but They've Never Actually Read It as a Book and It Is Fantastic Literary Construction so One of the Things I Really Want To What a Highlight Is Is What a Good Read It Is once You once You Get past the Difficulties of the Language and Grappling with All these Kind of Concepts and So on It's a Really Really Dynamic Piece It Flows Very Well and It Flows from the Beginning Point Which Is Just about a Simple Idea of a Commodity Go into a Supermarket You Find a Commodity You Buy the Commodity You Take It Home You Eat It or Wear It or Whatever and and Just Beginning with that Thing Which We all Know about It

Go into a Supermarket You Find a Commodity You Buy the Commodity You Take It Home You Eat It or Wear It or Whatever and and Just Beginning with that Thing Which We all Know about It Takes You Step by Step by Step It's Right the Way through Unraveling How a Capitalist Economy Works and

Then It Builds around that Sort of Insights Stunning Insights as to Why We Have Unemployment or Why There Is a Struggle over Time Why Is It that Capitalists Are Always Trying To Snatch Time Away from You Why Why Do We Live a Life Where Our World Is Kind Of Orchestrated around Tennyson Kind of Concept of Temporality

So What I Have To Ask You at the Beginning Is To Try To Lay Aside a Lot of those Preconceptions a Lot of those Things You Think You Know about Marx and Just Try To Read the Text To Find Out What It Really Was He Was Trying To Say and that of Course Is Not Easy for a Bunch of Other Reasons Which I Want To Talk about by Way of Introduction One of the Other Preconceptions with Which We Tend To Approach a Text of this Kind Is out of Our Particular Kind of Intellectual History and Our Intellectual Formation and for People Who Are Graduate Students for Example

And Then You Kind Of Suddenly See All the Ways in Which Is Drawing upon a Whole Experiential World Full of Goethe Full of Shakespeare You Know All the Rest of It so It's a Very Rich Text in that Kind of Way and You Start To Appreciate It I Think More if You Stop Saying to Yourself Well Who Is He Referring to in History or Which Economists Is He Talking about and So On and the Other Thing That Will Come Across if You Read It that Way as You Actually Find It's a Very Interesting Book It's a Fascinating Book

What the Critical Method Does Is To Take What They Have Seen and To Work on It and To Transform It into Something Different and One of the Things He Later Said Which I Think Captures His Method Admirably Is He Says the Way in Which You Do that Transformation Is You Take Radically Different Conceptual Blocks and You Rub Them Together and You Make Revolutionary Fire and that Is an Effect What He's Doing He's Taking Very Very Different Traditions Pushing Them Together Rubbing Them Together and Creating a Completely New Framework of Knowledge

This Isn't Mainly English Not Solely English but It's from Locke and Hobbes and Um-of Course Adam Smith and Ricardo and Malthus and a Host of Other Figures like Stuart and Minor Figures and He Subjected all of these People to a Deep Deep Criticism in Three Volumes Called Theories of Surplus-Value He Didn't Have a Photocopying Machine and He Didn't Have the Web and All those Kinds of Things so He Laborious Lee Copied It Up by Hand Long Passages from Adam Smith and Then Wrote a Commentary on Them Long Passages from James from Stewart Wrong Again Long Sort of Commentaries on Them in Fact What He Was Doing There Was What We Now Call Deconstruction

He Didn't Have a Photocopying Machine and He Didn't Have the Web and All those Kinds of Things so He Laborious Lee Copied It Up by Hand Long Passages from Adam Smith and Then Wrote a Commentary on Them Long Passages from James from Stewart Wrong Again Long Sort of Commentaries on Them in Fact What He Was Doing There Was What We Now Call Deconstruction and One of the Things I Learned from Going through Theories of Surplus-Value Was How To Deconstruct Arguments this Way How in Fact What He Does Is To Say Adam Smith Makes this Argument What Is He Missing Out What Is the Absence What Is the Missing Piece in this That Really Helps Pin It All Together and When We Put It in There Transforms the Argument

The Third Tradition That He Uses and Appeals to a Lot Is the Utopian Socialist Tradition Now this Is Primarily French although There's Robert Owen and some of the British and of Course Thomas More in the British Tradition Who Crops Up every Now and Again in the Text but the Big Socialist Thinkers Was His Tremendous Burst of Utopian Thinking in the 1830s and 1840s in France People's like Etienne Cobb a Who Created the Group Called the Ik Aryans That Came Here and Settled in the United States after 1848 Prudhomme San Simone Fourier Marx Is Very Very Familiar He Spent some Time in Paris Very Familiar with Their Works

There Is no Royal Road to Science and Only those Who Do Not Dread the Fatiguing Crime Which Steep Paths Have a Chance of Gaining Its Luminous Summits So since You Are all Here Zealously Concerned To Pursue the Truth I Have To Warn You Yet Indeed the Reading of the First Few Chapters Is Particularly Arduous It's Particularly Difficult and There Are a Number of Reasons for that One of the Reasons Is His Method Which We'll Talk about in a Minute the Other Reason Has To Do with the Particular Way in Which He's Setting Up His Project His Project Is To Understand How a Capitalist Mode of Production

The Latter That Is a Process of Inquiry Has To Appropriate the Material in Detail To Analyze Its Different Forms of Development and To Track Down the Inner Connection Only after this Work Has Been Done Can the Real Movement Be Appropriately Presented if this Is Done Successfully if the Life of the Subject Matter That Is the Capitalist Mode of Production Is Now Reflected Back in the Ideas than It May Appear as if We Have before Us and a Priori Construction What Marx Is Talking about Here Is His Method of Inquiry Is Different from His Method of Presentation

I Mean We'Re Familiar with Strategies Where People Hammer into You Get the Concept Straight and

Then You Go on to the Next One It's like You Build Brick by Brick by Brick by Brick Marx Is More like You Know Dissecting an Onion I Use this Metaphor It's an Unfortunate One because if Somebody Pointed Out You Know When You Dissect an Onion It Usually Reduces You to Tears but He but What He Does in a Set in Effect Is To Start from the Outside of the Onion Go to the Center of the Onion Find Out What Makes the Onion Grow and Then Come Back to the Surface so You Understand Only Understand at the End of the Day What He's about When

But He but What He Does in a Set in Effect Is To Start from the Outside of the Onion Go to the Center of the Onion Find Out What Makes the Onion Grow and Then Come Back to the Surface so You Understand Only Understand at the End of the Day What He's about When He Comes Back to the Surface and His Argument about What Makes It Grow and if When You Start on the Inner and You Work Outwards in these Sort of Layers and that's What You Do You Perpetually Enrich the Concepts Something That Seems like Very Stark and Very Abstract Concept Gradually Gets Richer and Richer and Richer as You Go on It's a It's an Expansion of these Concepts It's Not a Brick by Brick Approach At All and Most of Us Are Not Used to that So One of the Things You've Got To Get Used to Is that this Is What's Going On

Well until You Get Further On Down into the Text and Then You Start To See How these Concepts Are Working and How They Have and Then if You Like the Proof of the Pudding Is in the Eating that by the Time You Start To Actually Derive some of the the Consequences That Marx Lays Out Lays Out Then of Course You Get some You Get Somewhere and Included in this Is His Choice of Starting Point as You Will See He Starts with a Standpoint from this from the Concept of the Commodity Now this Is a Very Strange Starting Point I Mean Most of You When You Think of Marx Will Think of Phrases like all History Is the History of Class Struggle

Now this Is a Very Strange Starting Point I Mean Most of You When You Think of Marx Will Think of Phrases like all History Is the History of Class Struggle so You Think Well Capital Should Start with Class Struggle I Don't Know It Takes to about Page 300 before You Get to any Class Struggle in Capital Very Frustrating for those of You Who Kind Of Really Want To Get In There and Think about the Class Struggle Why Does He Start with Money Actually in His Early Preparatory Investigations He Wanted To Start with Money but Then He Found It Was More and More Impossible To Start with Money Why Didn't He Start with Labour

Three Concentration of Bourgeois Society in the Form of the State Viewed in Relation to Itself the Unproductive Classes Taxes State Debt Public Credit the Population the Colonies Immigration for the International Relations of Production International Division of Labor International Exchange Export an Import Rate of Exchange another Good Topic Fifth Excellent Topic the World Market and Crises so this Is if You Like the Panorama He Laid Out in the Grundrisse of What It Was He Wanted To Do this Is What He Had in Mind that He Was Going To Do When He Wrote Capital He Never Finished It He Never Took Up Most of those Topics so What You Have in Capital Is the Beginning of this Massive Kind of Project a Massive Project Which He Hinted at Lots

But in Fact What It Then Does Is It Provides the Framework within Which Vol 1 Operates and Vol 1 Is Just One Single Piece of this Whole Puzzle that He's Laid Out and Volume One Is Really Essentially Looking at the Capitalist Mode of Production from the Standpoint of Production Not of the Market Not a Global Trade but the Standpoint of Production and so You're Going To Have To Recognize that What You're Going To Get out of this Course Is an Analysis by Marx of a Capitalist Mode of Production from the Perspective of Production Volume-Does the Perspective of Exchange

And Vol 1 Is Just One Single Piece of this Whole Puzzle that He's Laid Out and Volume One Is Really Essentially Looking at the Capitalist Mode of Production from the Standpoint of Production Not of the Market Not a Global Trade but the Standpoint of Production and so You're Going To Have To Recognize that What You're Going To Get out of this Course Is an Analysis by Marx of a Capitalist Mode of Production from the Perspective of Production Volume-Does the Perspective of Exchange Volume 3 Does Materials about Crisis Formation

There Are Ways in Which I Think We're Going To Find that's Not Exactly True that in Fact Marx Revolutionized the Dialectical Method He Didn't Simply Invert It as He Sometimes Said He Then Goes On To Say this I Criticized the Mists Difficult or Li Side of the Hegelian Dialectic Nearly 30 Years Ago What Marx Is Referring to Here Is His Tract Called a Critique of Hegel's Philosophy of Law Critique of Hegel's Philosophy of Right Whichever the Title Is and I Think that that Critique Played a Very Foundational Moment for in Which Marx Defined His Relationship to the Hegelian Dialectic And He Had To Refigure It so that It Could Grasp the Transient Aspects of a Society As Well and He Then Goes On To Talk about this as Being this Dialectical Method Does Not Let Itself Be Impressed by Anything Being in Its Very Essence Critical and Revolutionary Now What He's Talking about Here Is He's Going To Use a Version of Dialectical Method To Establish Relations between Elements within

His System but He's Going To Do It in Such a Way as To Capture Fluidity and Motion Marks above all Is Incredibly Incredibly Impressed with the Fluidity

The General Path of Capital Accumulation

World War Two

Put in Physical Terms the Surplus Product You Have You Generated Yesterday Is Going To Be Taken Up in the Expansion of the System Tomorrow this Gives You Your 3 % Compound Growth if You Like Why You Have To Do It but There's a Time Lag There and that Time Lag Says the Only Way You Can Get from Yesterday to Tomorrow Is Actually by Invoking Credit on Using Money as a Means of Payment so the Financial Institutions Come In at the End of the Story As Well as at the Beginning They'Ve Come Absolutely Fundamental to How this System Works and the Simplest Way To Think

of that Is You Know You Would Find Systems in Southern California

So When the Credit Markets Freeze of Course Everything Comes To Stop because the Other Thing That's Absolutely Crucial about this System Is It Has To Be Kept Moving if It Doesn't Keep Moving Then and It Stops Then all Kinds of Hell Breaks Loose I Mean We've Just Seen an Example of that Okay I Remember Very Clearly I Just Got to New York About Three Weeks before 9 / 11 and I Remember When Everything Stopped and People Who Looked at each Other and They Didn't Consume Much and They Kind Of Talked and You Know It Was Actually Quite an Interesting Period of Sociality

This Then Leads to the Big Problem Which I Try To Address at the End of the Book and I Don't Have Too Much Time To Talk about Here Which Is Okay What Do We Do about this and I Wrote a Piece for the World Urban Farm about Organizing for the Anti-Capitalist Transition in Which You Have To Say Look Anybody in Their Right Minds When You Do this Analysis and You Concern the Systemic Qualities of Capital as Opposed to the Particular Evils of Greediness and You Know Institutional Failure and Blah Blah Blah Anybody Looking at this Would Say We Have To Develop an Alternative And There Are a Lot of Kind of Questions To Be Posed Here and if We're Going To Be in an Anti-Capitalist Movement Then We Have To Think about the Transitional Process Whereby One Mode of Production Show Is Replaced by another So What I Did in the Book Is To Talk about Marx's Theory of Evil of Social Evolution and I Extracted from Capital a Kind of General Idea of How He Really Is Portraying the Transition from Feudalism to Capitalism

And You Can See Where some of the Tensions Lie I Mean All the Fight That's Going On over the Internet and How the Internet Shall Be Used Is a Very Good Example of this but How You Have To Change or Certain if You Want to if You Want To Solve Climate Change for Example and Deal with Climate Change Which Is the Relation to Nature Part You Can't Do It without New Technologies You Can't Do It without Changing Social Relations and Daily Life You Can't Do any I Mean in Other Words It Takes a Revolution in all of those Elements

So What I'M Appealing to You Is for God's Sake Be Prepared To Shake Up Your Mental Conceptions of the World and Think about Something Different in Relationship to How To Understand the Current Situation and that Likely Outcomes That Will Follow from Actually Continuing on the Status Quo Which We Are Actually Doing Right Now When I Said that the Neoliberal Trick Which Came Up in the 1980s Was To Save the Banks and Sock It to the People Isn't that Exactly What They'Re Doing Right Now and Furthermore You Would Think the Bankers Would Have some Shame and Say I'M Not Going To Make Three Billion Dollars in One Yeah I Mean and Take Bonuses of Billions You Know but They'Re Doing It and Isn't It Time We Said Enough Is Enough and Actually Thought about Construction of a Movement That's Going To At Least Deal with that and Then Go On To Say Social Control of the Surplus Is What Matters and Social Control Is Not Necessarily

Capital, Vol. 1 - Chapter 1 (New Audiobook) - Capital, Vol. 1 - Chapter 1 (New Audiobook) by Andrew S. Abstract Labor

Concrete Labor

Physical Bodies of Commodities

Simple Average Labor

Abstract Qualities of Labor

Temporal Duration of Labor

Objectivity of Commodities

Line of Argument

Money Commodity

Historical Argument or a Logical Argument

Fetishism Section

The Grand Inflation

The Equivalence Principle

What Is Money

But Further down What We Find He Says Is that this Is Nothing but the Definite Social Relation between Men Themselves Which Assumes Here for Them the Fantastic Form of a Relation between Things Neither Makes Brief Sidebar about Religion but Then Goes On To Say I Call this the Fetishism Which Attaches Itself to the Products of Labour As Soon as They Are Produced as Commodities and Is Therefore Inseparable from the Production of Commodities this Inseparability from the Production of Commodities Is Extremely Important It Says that Fetishism Is Not Something That You Can Still Just Brush Away It's Not a Matter of Consciousness It's a Matter of Something That's Deeply Embedded in the Way in Which Commodities Get Produced and Exchanged

And When You Take the Inputs That Are Going into the Inputs That Are Go to the Inputs the Coal That Makes the Steel Goes into the Tractor That Goes into the Millions and Millions and Millions of People Are Involved in Putting Breakfast upon Our Table and the Big Question Then Arises Well Where Does that Breakfast Come from I Used To Like To Start My Introductory Geography Clark Classes with that Question Where Does Your Breakfast Come from Now Go and Think about It the First Answer Was Well It Came from the Supermarket Okay Well No Come On Go Back a Bit Further than that and What Do You Know about the People Who Produced It and by the Time I Got to about the Third Week People Would Say Things like I Didn't Have Breakfast this Morning

But the Belated Scientific Discovery that the Products of Labour in So Far as They Are Values Are Merely the Material Expressions of the Human Labour Expended To Produce Them Marks an Epoch and History of Mankind's Development but by no Means Banishes the Semblance of Objectivity Possessed by the Social Characteristics of Labour Now Again What He's Talking about Here Is the Generalization of the Exchange Process the the Global the World of Commodities the Global Structure and Again He's Coming Back to this Idea that Value Does Not Walk around Saying What It Is Value Arises the Notion of Value Arises out of all of these Processes

And Then We Get a Whole Kind of Line of Locke and Hume and All these Kinds of People Talking about this and Eventually When You Get to Adam Smith You Get a Labour Theory of Value and Adam Smith and a Labour Theory of Value in In Ricardo so the Labour Theory of Value Is Not Something

That's Been Around Forever It Is Something Which Essentially Arose with the Rise of Capitalism but as We've Seen the Labour Theory of Value as Classical Political Economy Saw It Was Labour Time Not Socially Necessary Labour-Time no Distinction between Concrete and Abstract Labor all of these Things That Marx Has Been Talking

Their Own Movement within Society Has for Them the Form of a Movement Made by Things and these Things Far from Being under Their Control in Fact Control Them That Is the Producers Who's in Control of this System the Producers or Does the System Control Them Now Of Course the Argument of the System Controlled Them Is Not Unique to Marx the Person Who Pushed It Most Strongly Was Adam Smith in the Terms of the Hidden Hand of the Market It's a Hidden Hand of the Market That Guided Things Individuals in a Properly Functioning Perfectly Functioning Market Society Would Not Have any Kind of Control over the System the Market Would Be the Controlling Mechanism

The Labor Time Socially Necessary To Produce Them Asserts Itself as a Regulated Law of Nature in the Same Way the Law of Gravity Asserts Itself When a Person's House Collapses on Top of Him the Determination of the Magnitude of Value by Labor Time Is Therefore a Secret Hidden under the Apparent Movements of the Relative Values of Commodities by the Ups and Downs of the Market Its Discovery Destroys the Semblance of the Merely Accidental Determination of the Magnitude of Value of the Products of Labor but by no Means Abolish-- Is that Determinations Material Form so within all of these Market Fluctuations in the Hidden Hand of the Market There Is a Regulated Principle Which Emerges

Principle Is Going To Be that of Socially Necessary Labour-Time Embodied in Commodities Which Establishes Their Average Exchange Ratio with Other Commodities and this Is Going To Be the Regulative Principle so this Is if You Like the First Part of the Fetishism Argument the Second Part Begins Immediately after When Marx Takes It into the Realm of Thought How Do We Think about the World When the Physical Indicators Say It Looks like this When We Understand It To Be like that the Notion of Fetishism Suggests that There Is a Deep Way of Looking at Something Which Is Other than It Appears upon the Surface Marks Somewhere Else Kind Of Made the Comment That The Notion of Fetishism Suggests that There Is a Deep Way of Looking at Something Which Is Other than It Appears upon the Surface Marks Somewhere Else Kind Of Made the Comment that if Everything Were as It Appears To Be on the Surface There Would Be no Need for Science and He's Trying To Construct a Science of Political Economy He's Very Serious about that Science so He's Trying To Construct an Apparatus Which Is Going To Get behind the Fetishism Get behind the Surface Appearance How Do You Do that and How Other People Approach that Question and What He Finds of Course Is that Many People Have Not Approached that Question They've Been Deluded by the Surface Appearances

If It's Not about Saying Well Look the Surface Appearance of Behavior Conceals Something Else Then a Psychoanalyst Wouldn't Say Oh Well that Person Who's Aggressive and Wields a Knife like that Is Just Feeling Insecure So Don't Worry about Them Wielding the Knife You Get out of the Way You Don't Say this Is an Illusion No It's Real but You Do Know that There's Something Going On behind It Which Is Other than What It Appears To Be Honest Surfaces over Marxist Making a Similar Kind of Argument that He's a Pioneer of that Mode of Argumentation in Social Science and Many People I Think Have Taken that Ability from Him

He Then Goes On To Talk about the Categories of Bourgeois Economics He Says They Consist Precisely a Forms of this Kind There Are Forms of Thought Which Are Socially Valid and Therefore Objective for the Relations of Production Belonging to this Historically Determined Mode of Social Production the Whole Mystery of Commodities All the Magic and Necromancy That Surrounds the Products of Labour on the Basis of Commodity Production Vanishes Therefore As Soon as We Come to Other Forms of Production and He Then Has a Great Deal of Fun with the Robinson Crusoe Myth Robinson Crusoe Myth Was Used by the Political Economists of the Time To Fantasize about How Somebody Operating in a State of Nature

The Whole Mystery of Commodities All the Magic and Necromancy That Surrounds the Products of Labour on the Basis of Commodity Production Vanishes Therefore As Soon as We Come to Other Forms of Production and He Then Has a Great Deal of Fun with the Robinson Crusoe Myth Robinson Crusoe Myth Was Used by the Political Economists of the Time To Fantasize about How Somebody Operating in a State of Nature Would Decide on How To Regulate Their Law How To Regulate Their Relations in Relation to Nature What To Do How To Do It or this Kind of Thing

And He Even Then Goes On and Then Bottom of the Page Hundred Seventy One To Talk about Let Us Finally Imagine for a Change an Association of Free Men Working with the Means of Production Held in Common and Expanding Their Many Different Forms of Labour Power and Full Self-Awareness as One Single Social Labor Force this Is One of the Rare Passages Where Marx Actually Talks about

some Sort of Fantasy of of Socialism and What Socialism Would Be about and Again He Says All the Characteristics of Robinson's Labor Are Repeated Here but with the Difference that They Are Social Instead of Individual and He Goes On To Talk about the Way in Which the Social Relations in a Society That Kind Would 170 To Be Transparent in Their Simplicity in Production As Well as in Distribution

And He Goes On To Talk about the Way in Which the Social Relations in a Society That Kind Would 170 To Be Transparent in Their Simplicity in Production As Well as in Distribution so He's Talking about the Very Specific Quality the Opaque Quality of Social Relations as They Emerge under Capitalism Contrasting Them with Alternative Modes of Production in Order To Highlight the Specificity of the World in Which We Have Our Being and He Then Goes On To Make some Comments Which Are Kind Of Interesting and Controversial for Society of Commodity Producers Whose General Social Relation of Production Consists in the Fact that They Treat Their Products as Commodities Hence as Values

And He Then Goes On To Make some Comments Which Are Kind Of Interesting and Controversial for Society of Commodity Producers Whose General Social Relation of Production Consists in the Fact that They Treat Their Products as Commodities Hence as Values and in this Material Form Bring Their Individual Private Labors into Relation with each Other as Homogeneous Cultural Homogeneous Human Labor Christianity with Its Religious Cult of Man in the Abstract More Particularly in Its Bourgeois Development Protestantism Deism Etc Is the Most Fitting Form of Religion Now as You Know Max Weber Reversed that Thesis Much Later To Say that Capitalism Was Actually an Expression of that Religious Belief Where Marx Is Kind Of Saying Actually that Religious Transformation Was a Refraction the Reflection

They Are Conditioned by a Low Stage of Development of the Productive Powers of Labor and Corresponding Limited Relations between Men within the Process of Creating and Reproducing Their Material Life Hence Also Limited Relations between Man and Nature these Real Limitations Are Reflected in the Ancient Worship of Nature and He Then Goes On To Talk We'll Be Further down the Veil Is Not Removed from the Countenance of the Social Life Process until It Becomes Production by Freely Associated Men the Standard Stands under Their Conscious and Planned Control

And He Then Goes On To Talk We'll Be Further down the Veil Is Not Removed from the Countenance of the Social Life Process until It Becomes Production by Freely Associated Men the Standard Stands under Their Conscious and Planned Control this However Requires Its Earth Society Possess a Material Foundation or a Series of Material Conditions of Existence Which in Their Turn Are Natural and Spontaneous Product of a Long Tormented Historical Development this Is Marx in this Speculative Mode Talking about How Ideas and Beliefs Are Not Immune and that of Course Is Something That Carries Over into the Next Two or Three Pages and of Course There's a Lot of Debate on the Degree

It's a Reductionist Argument That Says that Beginning with an Understanding of the Labor Process and the Nature of the Labor Process of What the Labor Process Is about How Human Beings Are Organizing Their Production on that Basis You Can Say a Great Deal about Politics about Legal Structures Patterns of Belief and the Like You May Not Like the Reductionist Argument and You Can Disagree with It but I Think It You Should Be Very Clear that Marx Is Saying that that Is What He Believes that's What He Thinks Is Significant

But Again I Want To Emphasize and the Footnote 174 towards the Bottom Footnote 34 Is a Very Important Footnote because There He Goes Over Well that He Calls the Chief Failings of Classical Political Economy and What Is Pointing about Here Is that We Should Not Make the Same Mistake of Treating the Value Theory the Labor Theory of Value as the Eternal Natural Form of Social Production It Is a Historical Construct and as Such It Can Be Historically Deconstructed but the Classical Political Economists Treated the Labour Theory of Value Is Natural as Something That Was and that's Why You've Got Back to Sort of Robinson Crusoe

So What the Marginalist Economists Did in the Middle of the 19th Century Was Faced with this Kind of Criticism They Kind Of Said the Only Way We Can Deal with this Is Junk the Whole Labor Theory of Value and So We End Up with a Marginalist Theory of Value Which Is You Know Completely Different Value Structure and Economics Is Reconstructed as a Neoclassical Economics Rather than Classical Political Economy but with this Kind of Thing Going on It's Very Hard To Hang On to a Labor Theory of Value and Had To Be Had To Be Junked or Else You Know You Would End Up Being a Marxist and Nobody Wanted To Be that

And They Trade It In under Non-Coercive Conditions That Is There's a Reciprocity of Respect for Juridical Rights of Individuals and this Is Actually a Description of the Kind of Legal and Political Framework for Properly Functioning Markets and in that Context He Points Out the Commodities Are

as He Says on 179 Born Levellers and Cynics Is Always Ready To Exchange Not Only Soul but Body with each and Other every Other Commodity the Owner Is Willing To Dispose of It the Buyer Is Willing To Take It all as He Says all Commodities Are Non Use Values for Their Owners
So What We Then Go Through to some Degree in Here Is It Is a Recapitulation of the Way in Which Money Crystallizes Out as He Says 181 Money Necessarily Crystallizes out of the Process of Exchange and the Historical Broadening and Deepening of the Phenomenon of Exchange Develops the Opposition between Use Value and Value Which Is Latent in the Nature of the Commodity across this Idea this Opposition before He's Now Going Back to It Expanding It a Bit the Need To Give an External Expression to this Opposition for the Purposes of Commercial Intercourse Produces the Drive towards an Independent Form of Value Which Finds neither Rest nor Peace
We Have Seen that the Money Form Is Merely the Reflection Thrown upon a Single Commodity by the Relations between all Other Commodities the Money Is a Commodity That that Money Is a Commodity Is Therefore Only a Discovery for those Who Proceed from Its Finished Shape in Order To Analyze It Afterwards this Then Leads Him To Talk a Little Bit about the Way in Which Money Can Take On Symbolic Forms but He Then Goes On To Say in a Sense every Commodity Is a Symbol a Symbol of What Well a Symbol of Value It Is Only the Material Shell of the Human Labour Expended on It Now Frequently You'll Find People Talking about You Know Well You Know What Do We Do about Symbolic Aspects of Economies How Does Symbolic Economies
Then Comes a Very Very Important Sentence Men Are Henceforth Related to each Other in Their Social Process of Production in a Purely Atomistic Way Their Own Relations of Production Therefore Assume a Material Shape Which Is Independent of Their Control and Their Conscious Individual Action this Situation Is Manifested First by the Fact that the Products of Men's Labor Universally Take on the Form of Commodities the Riddle of the Money Fetish Is Therefore Riddle of the Commodity Fetish They Become Visible and Dazzling to Our Eyes What Marx Is Doing Here Is Accepting Adam Smith's Vision of a Perfectly Functioning Market Economy in Which the Hidden Hand Guides Decisions no One Person Is in Charge
And I Think It's Very Important To Understand Why Marx's Capital Is a Critique of Classical Political Economy Classical Political Economy Held that if Only You Would Let the Market Do Its Work Everything Would Be Great if Only You Would Get the State out of the Picture if Only You Would Eradicate Monopoly Control if Only You Would Do all of those Things You Would End Up with the Social Order That Would Be Incredibly Dynamic and Socially Just that Was Adam Smith's Utopian Dream That Was Ricardo's Utopian Dream That Was the Utopian Dream of Liberal Theory Continues To Be the Utopian Dream of Neoliberal
