Now streaming on Netflix and BBC iPlayer! The Breakfast Club meets Pretty Little Liars in Gretchen McNeil's witty and suspenseful novel about four disparate girls who join forces to take revenge on high school bullies and create dangerous enemies for themselves in the process. Perfect for fans of E. Lockhart, Karen M. McManus, and Maureen Johnson. Bree Deringer, Olivia Hayes, Kitty Wei, and Margot Mejia have nothing in common. At least that's what they'd like the students and administrators of their elite private school to think. The girls have different goals, different friends, and different lives,

but they share one very big secret: They're all members of Don't Get Mad, a secret society that anonymously takes revenge on the school's bullies, mean girls, and tyrannical teachers. But when their latest target ends up dead with a blood-soaked "DGM" card in his hands, the girls realize that they're not as anonymous as they thought—and that someone now wants revenge on them. As the unlikely group searches for the killer, they also uncover secrets and lies that rock their tenuous friendship to the core. Soon the clues are piling up, the police are closing in . . . and everyone has something to lose.

Get Even

This book, written in an accessible style and illustrated with drawings by the author and with many other images, discusses the basic principles of discourse theory and applies them to various aspects of popular culture, media and everyday life. Among the topics it analyzes are speed dating, advertising, jokes, language use, myths, fairy tales and material culture.

The Basic Humor Process

"A psychologically nuanced, tough-minded portrait" of the New York filmmaker and his relationships with Mia Farrow and Soon-Yi Previn (Publishers Weekly). Writer, director, actor, humorist. Woody Allen stands as one of our era's most celebrated artists. Starting in the 1950s, Allen began crafting a larger than life neurotic persona that has since entertained and enlightened millions. In his films, widely thought to be autobiographical explorations of his own comic fears and fixations, Allen carefully controlled the public's view of him as a lovable scamp. But that all came crashing down the day Mia Farrow found a Polaroid on her mantle. What followed was a flurry of sensational headlines and legal battles. His relationship with Soon Yi Previn, thirty-four years his junior and the step daughter of his longtime girlfriend, caused shockwaves in the public's perception of the director, yet few biographers and journalists have explored what happened and why. In this, the first deep investigation of Allen's life and the events surrounding his split with Farrow, biographer Marion Meade tracks down dozens of friends, actors, neighbors, and film historians. They open up with insights and details rare in the world of wealth and celebrity. What results is a fascinating portrait of a flawed genius, as adept at constructing his own image as he is at crafting films. Rereleased and updated, this is an unauthorized biography that neither Woody Allen's fans nor his detractors will be able to put down. The revised and updated edition was reviewed in the Wall Street Journal in 2013 by Carl Rollyson, in a roundup of the five best Hollywood biographies.

Applied Discourse Analysis

Ordinary Americans often bring family and neighborhood problems to court, seeking justice or revenge. The litigants in these local squabbles encounter law at its boundaries in the corridors of busy city courthouses, in the offices of court clerks, and in the church parlors used by mediation programs. *Getting Justice and Getting Even* concerns the legal consciousness of working class Americans and their experiences with court and mediation. Following cases into and through the courts, Sally Engle Merry provides an ethnographic study of local law and of the people who use it in a New England city. The litigants, primarily white, native-born, and working class, go to court because as part of mainstream America they feel entitled to use its legal system. Although neither powerful nor highly educated, they expect the law's support when they face intolerable infringements of their rights, privacy, and safety. Yet as personal problems enter the legal system and move through mediation sessions, clerk's hearings, and prosecutor's conferences, the citizen plaintiff rapidly loses control of the process. Court officials and mediators interpret and characterize the meaning of these experiences, reframing and categorizing them in different discourses. Some plaintiffs yield to these interpretations, but others resist, struggling to assert their own version of the problem. Ultimately, Merry exposes the paradox of legal entitlement. While going to court allows an individual to dominate domestic relationships, the litigant must increasingly yield control of the situation to the court that supplies that power.

The Unruly Life of Woody Allen

In addition, *Brooklyn Is Not Expanding* examines the male/female relationships that are central elements in most of Allen's films, and shows how his characters fit into Lasch's culture of narcissism.

Getting Justice and Getting Even

Enemies beware! Here's the outrageous sequel to the underground best-seller, *Get Even*, presenting a wide range of all-new dirty tricks people pull to get even with big business bums, footloose spouses, lousy landlords and others. For entertainment purposes only!

Brooklyn is Not Expanding

Innovation is increasingly recognized as a vitally important social and economic phenomenon worthy of serious research study. Firms are concerned about their innovation ability, particularly relative to their competitors. Politicians care about innovation, too, because of its presumed social and economic impact. However, to recognize that innovation is desirable is not sufficient. What is required is systematic and reliable knowledge about how best to influence innovation and to exploit its effects to the full. Gaining such knowledge is the aim of the field of innovation studies, which is now at least half a century old. Hence, it is an opportune time to ask what has been achieved and what we still need to know more about. This is what this book sets out to explore. Written by a number of central contributors to the field, it critically examines the current state of the art and identifies issues that merit greater attention. The focus is mainly on how society can derive the greatest benefit from innovation and what needs to be done to achieve this. However, to learn more about how society can benefit more from innovation, one also needs to understand innovation processes in firms and how these interact with broader social, institutional and political factors. Such issues are therefore also central to the discussion here.

Jewish American writing is an exciting and controversial genre within post-war literature. *Jewish American Literature since 1945* offers a student guide to the major writers, their key works, and their cultural and philosophical backgrounds. The theoretical underpinnings of the literature--including the postmodern, the masternarrative and metafiction--are also introduced in an accessible form. The themes, issues and philosophies of key writers such as Saul Bellow, Erica Jong, Arthur Miller, Cynthia Ozick, Philip Roth, and Isaac Bashevis Singer are inter-related, and wider literary and historical topics are explained.

The Litigation Manual

Professors and students seem to come from different planets (or candy bars). Barriers frequently exist that impede their communication, such as age, income and cholesterol level. Humor can break down these barriers so that professors can better connect with their students and other audiences. It can be used as a teaching tool to facilitate learning. Ron Berk describes and illustrates a wide variety of techniques that can be integrated systematically into instruction and professional presentations. For professors who consider themselves as "jocularly arthritic"

Berger's slim, user-friendly volume on academic writing is a gift to linguistically-stressed academics. Author of 60 published books, the author speaks to junior scholars and graduate students about the process and products of academic writing. He differentiates between business writing skills for memos, proposals, and reports, and the scholarly writing that occurs in journals and books. He has suggestions for getting the "turgid" out of turgid academic prose and offers suggestions on how to best structure various forms of documents for effective communication. Written in Berger's friendly, personal style, he shows by example that academics can write good, readable prose in a variety of genres.

Revenge has never been such fun How would you feel if your best friend at work betrayed you? Was secretly having an affair with an influential colleague? Won a coveted promotion, then teamed you up with a mere junior, leaving you feeling completely demoted? What would you do? For Ivy there's no choice. The only person she has ever trusted, Orianna, has blown it big time. So there's only one way forward: revenge. Ivy's campaign is brilliant, if horribly destructive, and she's determined to get even with the woman who has dared to cross her. But is Ivy really the innocent party? Or is she hiding secrets of her own? From Sarah Rayner, the international bestselling author of *One Moment, One Morning*, comes *Getting Even*, an unputdownable story of jealousy, sex, friendship and backstabbing set in the heart of London's Soho adland.

The Academic Writer's Toolkit

Robert M. Price, a former Evangelical Christian, examines the confusing intersection of Christianity and superstition by asking questions. Is "practicing the presence of God" actually a variety of paranoia? Is having a "personal relationship with Jesus Christ" really akin to a child playing with an imaginary friend? At what point does a religious belief become an obsessive neurosis? Price finds that the source of superstition in Christianity is the objectification of the transcendent. As a result, he argues, many of the most destructive superstitions within Christianity are inessential accretions to the faith, interfering with life-transforming piety to the glad benefit of many of Christianity's adherents. Christians who believe that an unexamined faith is not worth having will profit from struggling with *Jesus Christ Superstition*.

Getting Even

In *Blind Men and Elephants*, Arthur Asa Berger uses case histories to show how scholars from different disciplines and scholarly domains have tried to describe and understand humor. He reveals not only the many approaches that are available to study humor, but also the many perspectives toward humor that characterize each discipline. Each case history sheds light on a particular aspect of humor, making the combination of approaches of considerable value in the study of social research. Among the various disciplines that Berger discusses in relation to humor are: communication theory, philosophy, semiotics, literary analysis, sociology, political science, and psychology. Berger deals with these particular disciplines and perspectives because they tend to be most commonly found in the scholarly literature about humor as well as being those that have the most to offer. *Blind Men and Elephants* covers a wide range of humor, from simple jokes to the uses of literary devices in films. Berger observes how humor often employs considerable ridicule directed at diverse groups of people: women, men, animals, politicians, African Americans, Jews, Catholics, Protestants, gay people, straight people, and so forth. The book also explains the risk factor in ridicule as a humorous device. *Blind Men and Elephants* depicts how one entity or one situation can be viewed in as many different ways as the number of people studying it. Berger also shows how those multiple perspectives, the Rashomon Effect, can be used together to create a clearer understanding of humor. *Blind Men and Elephants* is a valuable companion to Berger's recent effort about humor, *An Anatomy of Humor*, and will be enjoyed by communication and information studies scholars, sociologists, literary studies specialists, philosophers, and psychologists.

Jesus Christ Superstition

How do people turn out the way they do? How do they "arrive" at themselves and attain an identity? How are our identities affected by our birth order, our hair color, how tall or short we are, our intelligence, our occupation, our race, our religion, our nationality, the socio-economic level of our parents (or our being raised in a single-parent family), where we are born and where we grow up, the language we learn, the way we use language, our fashion tastes, our gender, our education, our psychological makeup, chance experiences we have, the people we marry (if we marry), and countless other factors? There are numerous matters to consider when dealing with identity, which, as Nigel Denis, the author of *Cards of Identity*, reminds us, "is the answer to everything." *Searching for a Self* takes a deep dive into the question of identity formation from various perspectives; it is written in a reader-friendly accessible style and makes use of insightful quotations from seminal thinkers who have dealt with the topic. Split into two parts, the first "Theories of Identity," offers evaluations of identity from semioticians, psychologists, sociologists and Marxists while the second, "Applications," offers case studies on topics such as Russian identity, Donald Trump's identity, fashion and identity, LGBTQIA+ identity, Orthodox Jewish identity, elite university education and identity, tattoos and identity, travel and identity, and politics and identity. Covering a wide array of subject areas, this book will be a valuable resource for undergraduate students taking courses in identity, sociology, psychology, cultural studies, and other related fields.

Blind Men and Elephants

These deficiencies are ascribed principally to three aspects of modern theoretical schools: the commitment to a non-referential view of language, the rejection of substantive accounts of the individual and a repudiation of moral and aesthetic evaluation. The 'alternative account' offered by Professors Freadman and Miller incorporates the values renounced by contemporary literary theory and places a central emphasis on ethical discourse.

The Large Hadron Collider (LHC), located at CERN, Geneva, Switzerland, is the world's largest and highest energy and highest intensity particle accelerator. Here is a timely book with several perspectives on the hoped-for discoveries from the LHC. This book provides an overview on the techniques that will be crucial for finding new physics at the LHC, as well as perspectives on the importance and implications of the discoveries. Among the accomplished contributors to this book are leaders and visionaries in the field of particle physics beyond the Standard Model, including two Nobel Laureates (Steven Weinberg and Frank Wilczek), and presumably some future Nobel Laureates, plus top younger theorists and experimenters. With its blend of popular and technical contents, the book will have wide appeal, not only to physical scientists but also to those in related fields.

Re-Thinking Theory

This book aims to provide a guide for understanding and following the discoveries that will take place within the next few years at the Large Hadron Collider project at CERN.

Perspectives on Lhc Physics

Literature and philosophy have long shared an interest in questions of truth, value, and form. And yet, from ancient times to the present, they have often sharply diverged, both in their approach to these questions and in their relationship to one another. Moreover, the vast differences among individual writers, historical periods, and languages pose challenges for anyone wishing to understand the relationship between them. This Introduction provides a synthetic and original guide to this vast terrain. It uncovers the deep interests that literature and philosophy share while offering a lucid account of their differences. It sheds new light on many standing debates and offers students and scholars of literary criticism, literary theory, and philosophy a chance to think freshly about questions that have preoccupied the Western tradition from its very beginnings up until the present.

Humanistic Anthropology

In this delightful memoir, the book critic for NPR's *Fresh Air* reflects on her life as a professional reader. Maureen Corrigan takes us from her unpretentious girlhood in working-class Queens, to her bemused years in an Ivy League Ph.D. program, from the whirl of falling in love and marrying (a fellow bookworm, of course), to the ordeal of adopting a baby overseas, always with a book at her side. Along the way, she reveals which books and authors have shaped her own life—from classic works of English literature to hard-boiled detective novels, and everything in between. And in her explorations of the heroes and heroines throughout literary history, Corrigan's love for a good story shines.

A Zeptospace Odyssey: A Journey Into the Physics of the LHC

For five decades, no American filmmaker has been as prolific—or as paradoxical—as Woody Allen. From *Play It Again, Sam* (1972) to *Midnight in Paris* (2011) and *Blue Jasmine* (2013), Allen has produced an average of one film a year; yet in many of these movies Allen reveals a progressively skeptical attitude toward both the value of art and the cultural contributions of artists. In this second edition Peter J. Bailey extends his classic study to consider Allen's work during the twenty-first century. He illuminates how the director's decision to leave New York to shoot in European cities such as London, Paris, Rome, and Barcelona has affected his craft. He also explores Allen's shift toward younger actors and interprets the evolving critical reaction to his films—authoritatively demonstrating why the director's lifelong project of moviemaking remains endlessly deserving of careful attention.

The Cambridge Introduction to Literature and Philosophy

The present book assesses the multifaceted phenomenon of revenge and tries to open a hatch to the human comprehension of vengeance, its roots, role and functions in philosophy, history, societies and literature. It introduces studies as they were presented at the Inter-Disciplinary.Net's 2nd Global Conference on Revenge.

cupboards, unlabelled keys, poisoned books and some things that aren't even books, presided over by one deeply eccentric apprentice. Some years ago, Oliver Darkshire stepped into the hushed interior of Henry Sotheran Ltd on Sackville Street (est. 1761) to interview for their bookselling apprenticeship, a decision which has bedevilled him ever since. He'd intended to stay for a year before launching into some less dusty, better remunerated career. Unfortunately for him, the alluring smell of old books and the temptation of a management-approved afternoon nap proved irresistible. Soon he was balancing teetering stacks of first editions, fending off nonagenarian widows with a ten-foot pole and trying not to upset the store's resident ghost (the late Mr Sotheran had unfinished business when he was hit by that tram). For while Sotheran's might be a treasure trove of literary delights, it sings a siren song to eccentrics. There are not only colleagues whose tastes in rare items range from the inspired to the mildly dangerous, but also zealous collectors seeking knowledge, curios, or simply someone with whom to hold a four hour conversation about books bound in human skin. By turns unhinged and earnestly dog-eared, *Once Upon a Tome* is the rather colourful story of life in one of the world's oldest bookshops and a love letter to the benign, unruly world of antiquarian bookselling, where to be uncommon or strange is the best possible compliment.

Three Films of Woody Allen

This revised and updated edition gathers interviews and profiles covering the entire forty-five year span of Woody Allen's career as a filmmaker, including detailed discussions of his most popular as well as his most critically acclaimed works. The present collection is a complete update of the volume that first appeared in 2006. In the years since, Allen has continued making movies, including *Midnight in Paris* and the Oscar-winning *Blue Jasmine*. While many interviews from the original edition have been retained in the present volume, nine new entries extend the coverage of Allen's directorial career through 2015. In addition, there is a new, in-depth interview from the period covered in the first edition. Most of the interviews included in the original volume first appeared in such widely known publications and venues as the *New York Times*, the *Washington Post*, *Time*, the *New Yorker*, *Rolling Stone*, and *Playboy*. A number of smaller and lesser-known venues are also represented, especially in the new volume. Several interviews from non-American sources add an international perspective on Allen's work. Materials for the new volume include pieces focusing primarily on Allen's films as well as broader profiles and interviews that also concentrate on his literary talent. Perhaps Stephen Mamber best describes Allen's distinctiveness, especially early in his career: "Woody Allen is not the best new American comedy director or the best comedy writer or the best comedy actor, he's simply the finest combination of all three."

The Girl Who Reads on the Métro

Although Woody Allen is best known for his cult movies, he is also a writer of wit and skill. This collection offers 52 pieces of hilarity, deadpan weirdness and outlandish ideas.

Woody Allen on Woody Allen

Comprising the classic bestsellers *Getting Even*, *Without Feathers*, and *Side Effects*, this definitive collection of comic writings is from a man who needs no Introduction. Really—this book has no Introduction. The *Insanity Defense* reveals many sides of Woody Allen as he holds forth on the most human of urges ("Why does man kill? He kills for food. And not only for food: frequently there must be a beverage"); reflects on death ("I don't believe in an afterlife, although I am bringing a change of underwear"); and notes the effect on history wrought by trick chewing gum, the dribble glass, and other novelties. There is also an inspiring story of the futile race to beat Dr. Heimlich to the punch: "The food went down the wrong pipe, and choking occurred. Grasping the mouse firmly by the tail, I snapped it like a small whip, and the morsel of cheese came loose. If we can transfer the procedure to humans, we may have something. Too early to tell." All Woody Allen fans will cherish this uproarious treasury—and those who don't enjoy *The Insanity Defense* are just plain crazy. "If you don't care if you break into helpless whoops of laughter on buses, trains, or wherever you happen to be reading it." —Chicago Tribune, on *Without Feathers* "Brilliant flights of fancy whose comic detail and inspired silliness are at once dramatic and controlled." —The New York Times, on *Side Effects*

Woody Allen

A young woman delves into the circumstances of her mother's death ahead of her own marriage, interrogating a woman who witnessed her mother's death and would later come to play a crucial role in her life. An exploration of the human (in)capacity for (self-)deception and knowledge, the story offers a nuanced portrait of contemporary (Korean) social mores. As with all Cheon's work to date this beautifully crafted story places women at its core, and explores form and genre (in this case epistolatory) while subtly weaving into the text a deep interrogation of social issues.

The Complete Prose of Woody Allen

Fifteen philosophers representing different schools of thought answer the question what is Woody Allen trying to say in his films? And why should anyone care? Focusing on different works and varied aspects of Allen's multifaceted output, these essays explore the philosophical undertones of *Annie Hall*, *Crimes and Misdemeanors*, *Manhattan*, *A Midsummer Night's Sex Comedy* and reminds us that just because the universe is meaningless and life is pointless is no reason to commit suicide.

The Insanity Defense

NEW YORK TIMES BESTSELLER • “A simply elegant memoir.”—Newsweek In this exquisitely written memoir, Mia Farrow takes us on a journey into her remarkable life. As the daughter of actress Maureen O’Sullivan and film director John Farrow, she lived what was by all appearances a charmed and privileged childhood. But below the surface, money troubles, marital tensions, drinking, and occasionally violence marred the Hollywood illusion. And when Mia was nine, she would be forever wrenched from childhood by the terrible isolation of a bout with polio. Her father’s death propelled her out into the world, where she embarked onto an acting career that included television, theater, and film—from her debut in *Peyton Place* to her first starring role in *Rosemary’s Baby*, and on to her thirteen films with Woody Allen. Here is a luminous memoir of childhood and motherhood, a thoughtful exploration of a spiritual journey, and a candid examination of her marriages to Frank Sinatra and André Previn and her close but troubled twelve-year relationship with Woody Allen. Told with grace and deep understanding, as well as humor, *What Falls Away* is an unforgettable book, an extraordinary record of an extraordinary life.

Four Films of Woody Allen

Three delightful one-act plays set in and around New York, in which sophisticated characters confound one another in ways only Woody Allen could imagine Woody Allen's first dramatic writing published in years, "Riverside Drive," "Old Saybrook," and "Central Park West" are humorous, insightful, and unusually readable plays about infidelity. The characters, archetypal New Yorkers all, start out talking innocently enough, but soon the most unexpected things arise—and the reader enjoys every minute of it (though not all the characters do). These plays (successfully produced on the New York stage and in regional theaters on the East Coast) dramatize Allen's continuing preoccupation with people who rationalize their actions, hide what they're doing, and inevitably slip into sexual deception—all of it revealed in Allen's quintessentially pell-mell dialogue.

Evanier tackles the themes that Allen has spent a lifetime sorting through in art: morality, sexuality, Judaism, the eternal struggle of head and heart. Woody will be the definitive word on a major American talent as he begins his ninth decade, and his sixth decade of making movies.

What Falls Away

In a hilarious send-up of sex, scandal, and the Golden Age of Hollywood, legendary cartoonist Edward Sorel brings us a story (literally) ripped from the headlines of a bygone era. In 1965, a young, up-and-coming illustrator by the name of Edward Sorel was living in a \$97-a-month railroad flat on Manhattan's Upper East Side. Resolved to fix up the place, Sorel began pulling up the linoleum on his kitchen floor, tearing away layer after layer until he discovered a hidden treasure: issues of the New York Daily News and Daily Mirror from 1936, each ablaze with a scandalous child custody trial taking place in Hollywood and starring the actress Mary Astor. Sorel forgot about his kitchen and lost himself in the story that had pushed Hitler and Franco off the front pages. At the time of the trial, Mary Astor was still only a supporting player in movies, but enough of a star to make headlines when it came out that George S. Kaufman, then the most successful playwright on Broadway and a married man to boot, had been her lover. The scandal revolved around Mary's diary, which her ex-husband, Dr. Franklyn Thorpe, had found when they were still together. Its incriminating contents had forced Mary to give up custody of their daughter in order to obtain a divorce. By 1936 she had decided to challenge the arrangement, even though Thorpe planned to use the diary to prove she was an unfit mother. Mary, he claimed,

had not only kept a tally of all her extramarital affairs but graded them—and he'd already alerted the press. Enraptured by this sensational case and the actress at the heart of it, Sorel began a life-long obsession that now reaches its apex. Featuring over sixty original illustrations, Mary Astor's *Purple Diary* narrates and illustrates the travails of the Oscar-winning actress alongside Sorel's own personal story of discovering an unlikely muse. Throughout, we get his wry take on all the juicy details of this particular slice of Hollywood Babylon, including Mary's life as a child star—her career in silent films began at age fourteen—presided over by her tyrannical father, Otto, who "managed" her full-time and treated his daughter like an ATM machine. Sorel also animates her teenage love affair with probably the biggest star of the silent era, the much older John Barrymore, who seduced her on the set of a movie and convinced her parents to allow her to be alone with him for private "acting lessons." Sorel imbues Mary Astor's life with the kind of wit and eye for character that his art is famous for, but here he also emerges as a writer, creating a compassionate character study of Astor, a woman who ultimately achieved a life of independence after spending so much of it bullied by others. Featuring ribald and rapturous art throughout, *Mary Astor's Purple Diary* is a passion project that becomes the masterpiece of one of America's greatest illustrators.

Woody Allen

Although Woody Allen's films have received extensive attention from scholars and critics, no book has focused exclusively on Jewishness in his work, particularly that of the late 1990s and beyond. In this anthology, a distinguished group of contributors whose work is richly contextualized in the fields of literature, philosophy, film, theater, and comedy examine the schlemiel, Allen and women, the Jewish take on the morality of murder, Allen's take on Hebrew scripture and Greek tragedy, his stage work, his cinematic treatment of food and dining, and what happens to New York when Woody takes his films out of New York City. Considered together, these essays delineate the intellectual, artistic, and moral development of one of cinema's most durable and controversial directors.
