

A World For All Global Civil Society In Political Theory And Trinitarian Theory

[#Global Civil Society](#) [#Political Theory](#) [#Trinitarian Theory](#) [#Inclusive Societies](#) [#Social Philosophy](#)

This study delves into the foundations for an inclusive global civil society, examining how "a world for all" can be conceptualized and realized. It critically analyzes the intersections between contemporary political theory and classic Trinitarian theory, offering unique perspectives on universal justice, social cohesion, and governance structures within a global context. This interdisciplinary approach seeks to bridge philosophical and theological insights to foster more equitable and sustainable societies.
