

State Owned Enterprises In The Middle East And North Africa

[#State Owned Enterprises MENA](#) [#Middle East North Africa SOEs](#) [#Government Companies MENA](#) [#Public Sector Enterprises North Africa](#) [#MENA Economic Development](#)

Explore the significant role of State Owned Enterprises (SOEs) across the Middle East and North Africa. These government-owned companies are often pivotal to the region's economic development, influencing key sectors from energy to finance and contributing substantially to national economies. Understanding MENA SOEs is essential for grasping the area's unique economic dynamics.

Entorno Economico de los Negocios

Este es un manual para entender el Entorno Económico que afecta a los Negocios. Los manuales de Economía Introductoria o Macroeconomía Intermedia, por lo general, explican las herramientas del análisis macroeconómico pero no cómo aplicar estas herramientas a la compleja realidad de la economía global. El libro está organizado en siete Notas Técnicas (NT) a modo de capítulos. Estas NT pueden ser utilizadas tanto en Escuelas de Negocios como en Universidades e incluso por personas que quieran comprender el funcionamiento de la economía, de una manera sencilla pero completa; de forma que puedan entender la realidad económica y predecir qué puede pasar ante una medida de política económica del Gobierno o algún nuevo acontecimiento económico. Cada NT comprende un texto explicativo, unos test de comprobación y en algunas de ellas algunos ejercicios y casos gráficos, así como consejos para estudiantes y profesores sobre la mejor manera de profundizar en estos conocimientos. Gracias a la posibilidad que Amazon nos brinda de editar libros en formatos diversos, he optado por publicar este curso en tres versiones diferentes: una versión en papel de todas las NT del curso, cada NT en formato electrónico de manera individualizada y, adicionalmente, en papel. De esta forma, habrá profesores y lectores que utilicen todas las NT del curso o algunas de ellas combinadas con otros materiales, sin que se tenga que adquirir el manual completo, sino sólo aquellas NT que interesen. Las Notas Técnicas, a diferencia de los capítulos de los tradicionales manuales de Economía, son materiales de estudio más breves, pensados para asimilar el conocimiento rápidamente y que no aportan ejemplos y otras referencias que, aunque pueden inicialmente ayudar a comprender los conceptos económicos, en la mayoría de los casos son retóricos, distraen la atención y suponen un esfuerzo adicional. Además, estos ejemplos, suelen estar referidos a una economía concreta que muchas veces interesa poco al lector. El origen de estas NT son mis clases en los programas Executive MBA en el Instituto de Empresa de Madrid (IE Business School). Mis alumnos no tienen mucho tiempo para leer cientos de páginas. Además la Economía requiere muchos repases hasta que se consigue entender bien, por eso las NT van al grano de los conceptos y no buscan referencias explicativas que, repaso tras repaso, constituyen una carga para el estudio. También he utilizado estas NT en mis clases en la Universidad y creo que el resultado ha sido muy positivo frente a manuales muy extensos y complejos, pero que no llegan a explicar el conjunto de los problemas económicos que nos afectan, aludiendo siempre a que ya se explicarán en cursos superiores de la disciplina, cuando por lo general en muchas carreras universitarias hay un solo curso de Economía. Son también muchos los correos electrónicos que recibo de profesionales de otras disciplinas, principalmente ingenieros, que ha utilizado las anteriores ediciones de estas NT, publicadas en diversos libros de la editorial McGraw-Hill ("Análisis del Entorno Económico de los Negocios")

Politica Fiscal y Monetaria y Movilidad de Capitales

Esta es una Nota Técnica (NT) que le enseñara a comprender el efecto de la política fiscal y monetaria en la economía real, es decir, en la producción y el empleo. Repasaremos el ajuste del mercado de bienes y servicios y el equilibrio del mercado de activos financieros, analizados en Notas Técnicas previas, veremos en cuáles variables de la Demanda Agregada incide los instrumentos de política fiscal y monetaria y, para finalizar la primera parte, comprobaremos qué ocurre cuando se llevan a cabo políticas fiscal y monetaria de manera conjunta. En la segunda parte consideraremos que las economías son abiertas y permiten la movilidad de capitales, analizando los efectos de estos flujos financieros cuando los tipos de cambios son fijos y flexibles. Finalmente, consideraremos los efectos de políticas fiscales y monetarias, con movilidad de capitales, en los diferentes regímenes cambiarios y plantearemos las razones por las que los tipos de interés entre países difieren según las primas de riesgo. Esta NT contiene un texto explicativo, unos test de comprobación y casos resueltos, así como consejos para estudiantes y profesores sobre la mejor manera de profundizar en estos conocimientos.

Dirigiendo Empresas En Entornos Globales, Introduccion E Indicadores

En esta Nota Técnica (NT) se aproximará a los principales problemas del Entorno Económico de los negocios, como el crecimiento, el paro, la inflación o los déficits. Comprenderá como abordamos el estudio de la economía global en su conjunto y el significado de los principales indicadores de actividad económica, precios y población. Asimilará igualmente los grandes retos de la sociedad global y el alcance del conocimiento de la Economía y sus principales instrumentos de análisis macroeconómico. Encontrará también test de autocomprobación y ejercicios sobre los indicadores económicos que ayudarán a su comprensión.

Lecturas sobre internacionalización de la empresa

Rafael Ruiz-Villar Ruiz Coordinador del Comité de Reflexión Club de Exportadores e Inversores Españoles Noviembre de 2022 Es un verdadero lujo poder introducir las notas técnicas que el Club de Exportadores e Inversores, a través del Comité de Reflexión, ha ido patrocinando desde la creación de dicho Comité. Y lo es tanto por el prestigio y experiencia de sus autores como por el contenido, oportunidad y rigor de los análisis que contienen. El presente volumen abarca 12 notas escritas desde noviembre de 2019 hasta julio de 2021, sin que el transcurso del tiempo les haya hecho perder ni vigencia ni interés. Iniciando su andadura con el «Decálogo de propuestas para impulsar el sector exterior como motor de la recuperación económica», el Comité de Reflexión ha incidido en su nota, una vez más, en la internacionalización de nuestras empresas como forma de impulsar la economía del país, al igual que ha sucedido en ocasiones anteriores y, de esta manera, garantizar la propia supervivencia y desarrollo de nuestras empresas, verdaderas impulsoras del desarrollo económico de nuestro país. La segunda nota, elaborada por Enrique Feás Costilla, analiza un tema de enorme trascendencia, como es la situación de «España ante la globalización 3.0» y los retos que supone para nuestro país y para nuestras empresas. Enrique Feás, como investigador sénior asociado del Real Instituto Elcano y columnista en el diario digital Vozpópuli, es técnico comercial y economista del Estado y ha sido consejero económico y comercial en las Embajadas de España en Filipinas y en Egipto, desempeñando cargos de responsabilidad en la Administración Pública española. También ha sido profesor en diversos centros universitarios y es fundador y coeditor del blog NewDeal, colaborando habitualmente en diversos medios de comunicación. La solvencia de un currículum tan extenso y sólido otorga a su nota un carácter riguroso y de gran interés para el lector que quiera estar al día de las oportunidades y desafíos de nuestro siglo. «El futuro de las cadenas globales de valor» es una nota elaborada por Carmen Diaz-Mora, doctora en Ciencias Económicas y Empresariales por la Universidad de Castilla-La Mancha, catedrática de Economía Aplicada en la Facultad de Ciencias Jurídicas y Sociales de Toledo, Máster en Economía Europea por el Instituto Universitario Ortega y Gasset (adscrito a la Universidad Complutense de Madrid) e investigadora invitada en la School of Economics de la Universidad de Nottingham (Reino Unido) y en la Scuola di Economia e Management (Universita Degli Studi Firenze), junto con Rosario Gandoy Juste, doctora por la Universidad Complutense de Madrid, profesora de Economía Aplicada en la Universidad de Castilla-La Mancha, adscrita al Departamento de Economía Española e Internacional, Econometría e Historia e Instituciones Económicas, afrontan una problemática que la pandemia ha mostrado en toda su crudeza, poniendo en riesgo la producción y los sistemas de suministro y generando una corriente que aboga por la proximidad y fiabilidad de proveedores y clientes, poniendo en tela de juicio las ventajas de la focalización de las empresas en los costes y destacando otros factores que se han revelado como cruciales. Marta Galiano Sevilla, doctora en Economía, trabaja como economista sénior en el Consejo Económico y Social, es profesora de Economía en la UCM, profesora asociada del Departamento

de Economía Aplicada en la Universidad San Pablo-CEU y fue decana y directora de Relaciones Internacionales e Investigación en IEDE Business School (Chile). Analiza Marta Galiano en la nota «El comercio internacional de servicios ante el futuro» la cada vez mayor relevancia de los servicios dentro del comercio internacional, la diferenciación que estos suponen y el enorme valor añadido que incorporan al tradicional comercio de mercancías. Federico Steinberg Wechsler, investigador principal del Real Instituto Elcano, profesor del Departamento de Análisis Económico de la Universidad Autónoma de Madrid y asesor especial del Alto Representante para la Política Exterior y de Seguridad y vicepresidente de la Comisión Europea Josep Borrell, es Doctor en Economía por la Universidad Autónoma de Madrid, Master en Economía Política Internacional por la London School of Economics y Máster en Relaciones Internacionales por la Universidad de Columbia (Nueva York). Ha trabajado como consultor para el Banco Mundial en Washington DC, Ghana y Bolivia, así como en la Oficina Ejecutiva del Secretario General de Naciones Unidas en Nueva York y ha sido profesor y conferenciante en diversos programas de postgrado en Europa y América Latina. En su nota técnica «Cómo adaptar la política comercial europea ante el nuevo entorno internacional» propone las ideas con las que Europa debe enfrentarse a las nuevas corrientes que se desarrollan en los mercados internacionales y desgrana no solo las principales variables que dominan actualmente los mercados internacionales, sino la necesaria actualización de las políticas comerciales europeas para seguir teniendo relevancia en dichos mercados. La pandemia del COVID-19, con sus dramáticas consecuencias humanas y económicas, es analizada por Asier Minondo Uribe, profesor titular de Economía en la Deusto Business School, (Universidad de Deusto), desde la perspectiva de su indudable influencia en las relaciones comerciales y las alternativas que puede ofrecer para España, cuando las crisis suponen, al mismo tiempo, una ventana de oportunidad para aquellos países que saben aprovecharlas. Su nota «¿Cambiará la COVID-19 el comercio internacional? Oportunidades para España» es un clarificador análisis de los efectos de la pandemia y las posibilidades que abre para algunos países. Enrique Fanjul Martín, técnico comercial y economista del Estado, doctor en Ciencias Económicas (Universidad Autónoma de Madrid), periodista (Escuela Oficial de Periodismo de Madrid), Profesor Titular de Economía Aplicada en excedencia, fundador de Iberglobal, con una dilatadísima experiencia como consejero comercial en diversas embajadas y como docente en múltiples instituciones, nos ofrece una nueva visión prometedora y novedosa en su nota «La diáspora de profesionales como activo para la internacionalización de la economía española». La variedad y abundancia de profesionales españoles de todo tipo, dispersos por el mundo, se nos descubre como una fuente relevante de experiencia y conocimiento para la internacionalización de nuestra economía, si somos capaces de sistematizar y capitalizar esos recursos humanos. El Comité de Reflexión firma la nota «Competitividad fiscal española en el marco internacional», presentándonos la importancia que el sistema fiscal supone dentro del marco de las relaciones comerciales de carácter internacional y la posición que ocupa la economía española, en ese relevante aspecto, frente a nuestros competidores. Antonio Bonet Madurga, licenciado en Ciencias Empresariales por la Universidad de Sevilla y Máster en Economía y Finanzas por el Massachusetts Institute of Technology, técnico comercial y economista del Estado, ha sido consejero económico y comercial de España en China así como fundador y CEO de la empresa ACE, empresa consultora especialista en cooperación al desarrollo que ha trabajado en más de 150 países, firma junto con Rafael Ruiz-Villar Ruiz, abogado y Ciencias Empresariales (ICADE), Executive MBA por el Instituto de Empresa (Madrid), socio y directivo con dilatada carrera profesional en diversas empresas privadas, miembro fundador del Club de Exportadores e Inversores Españoles y actividades docentes en ICEX-CECO, E.O.I., etc., la nota «Empresa y cooperación al desarrollo», donde abogan por una participación más activa de la empresa en los proyectos financiados con fondos de ayuda al desarrollo, aprovechando los conocimientos y experiencias de las empresas españolas con actividad en el exterior e igualándonos a los países de nuestro entorno. «La guerra comercial de EE.UU. con China y su impacto en el sector exportador español» es el título de la nota redactada por Ramón Gascón Alonso, licenciado en Derecho, experto en Internacionalización y Relaciones Institucionales, profesor asociado de Negocios Internacionales y Ciencias Empresariales en la Universidad Nebrija. Ha sido director de Relaciones Institucionales para Asia en BBVA. En ella el autor reflexiona sobre las consecuencias que, para las empresas exportadoras españolas, tienen las tensas relaciones que mantienen en los últimos años China y Estados Unidos, en un contexto de rivalidad por el liderazgo mundial. Héctor Izquierdo Triana, licenciado en Derecho por ICADE y doctor en Ciencias Económicas y Empresariales por la Universidad Pontificia de Comillas, Executive MBA por el IE Business School, Máster de Investigación en Economía por el ICADE, profesor en el IE Business School, ICADE y Deusto Business School, ha impartido clases en diversas universidades españolas y extranjeras y desarrollado una extensa actividad empresarial, y en los últimos años política, siendo en la actualidad comisionado especial para la Reconstrucción de la isla de La Palma. Héctor Izquierdo desarrolla la

nota «Inteligencia económica y competitiva en grandes empresas españolas», en la que se muestran las potencialidades que las grandes empresas españolas tienen en el desarrollo de una inteligencia económica y competitiva que permita un mejor posicionamiento en los mercados internacionales. Por último, Fernando Laviña Richi, diplomado en Comunidades Europeas por la Universidad Pontificia de Comillas ICAI-ICADE, MBA (International Business) por el IE Business School, director de comercio digital en IMEX Impulso Exterior y gestor en diversas instituciones públicas y privadas, vinculadas al comercio internacional, redacta la nota «Comercio digital internacional. Una oportunidad para las pymes» en la que aboga por el comercio digital como medio de iniciar a las pequeñas y medianas empresas españolas en la internacionalización de su actividad, dados sus costes asumibles y la facilidad que representa para el inicio de la aventura que supone, para estas empresas, la salida a los mercados exteriores. Como puede constatarse, las trayectorias de los autores de las notas técnicas y los temas que se abordan en ellas permiten asegurar el interés y solvencia de los temas que el lector tendrá la oportunidad de leer y disfrutar en el presente volumen, que esperamos sea el inicio de una larga y fructífera colección, con la internacionalización como eje de su temática.

Entorno económico de los negocios

Esta es una Nota Técnica (NT) que le enseñara a comprender los distintos componentes de la Demanda Agregada y la incidencia que tienen en el PIB. Analizaremos las variables que inciden en cada uno de dichos componentes: el Consumo, la Inversión, el Gasto Público, las Exportaciones y las Importaciones y nos centraremos en las variables de política fiscal: los Impuestos y el Gasto Público. Además del texto explicativo, se incluyen unos test de comprobación y ejercicios y casos gráficos resueltos, así como consejos para estudiantes y profesores sobre la mejor manera de profundizar en estos conocimientos.

Demanda Agregada Y Política Fiscal

Esta es una Nota Técnica (NT) que le enseñara a comprender qué es el dinero, cómo se crea, quién lo crea y la incidencia que tiene en los mercados financieros. El lector, comprenderá el funcionamiento de los bancos comerciales (bancos ordinarios) y cómo lleva a cabo el Banco Central la política monetaria, incidiendo en los tipos de interés de los activos financieros. Aprenderá también a diferenciar los diferentes tipos de activos y la relación entre el precio de los activos y su tipo de interés. También encontrará en esta NT los principales indicadores de Bolsa y a diferenciar los mercados financieros primarios de los secundarios. Esta NT comprende un texto explicativo, unos test de comprobación y ejercicios y casos gráficos resueltos, así como consejos para estudiantes y profesores sobre la mejor manera de profundizar en estos conocimientos.

Dinero, Bancos y Política Monetaria

Esta obra tiene por objeto de realizar una revisión actual de los hechos más destacables, o de mayor interés que han acontecido en los últimos tiempos en los mercados financieros, y que deben ser de obligado conocimiento para todas aquellas personas que por interés profesional o personal siguen habitualmente este sector.

Situación Y Perspectivas de Los Mercados Financieros

En los últimos años, la economía española ha experimentado un importante desarrollo al que no ha sido ajeno el sector bancario. La transformación que ha sufrido la banca española se pone de manifiesto en aspectos tan importantes como la composición, dimensión y actividad del sector, la especialización productiva, la mejora de la eficiencia, la evolución de la competencia o su internacionalización, entre otros. En este contexto, la presente monografía analiza la evolución reciente del sector bancario español (SBE) en el contexto europeo, así como los retos futuros a los que se enfrenta, y permite señalar sus fortalezas y debilidades. Las principales conclusiones del estudio indican que, en relación con la banca europea, la solidez de la banca española reside en su mayor eficiencia y rentabilidad, su elevada solvencia, su menor tasa de morosidad y su mayor nivel de provisiones. A pesar de la fortaleza del SBE, el actual clima de incertidumbre que afecta a los mercados financieros, la ralentización en el ritmo de crecimiento económico y la desaceleración del mercado inmobiliario justifican la conveniencia de no sobrevalorar la solidez de la banca española, y aconsejan un análisis de las debilidades en este contexto. La monografía ofrece a los estudiosos del sector -profesionales, académicos, investigadores y público en general- respuestas a preguntas relevantes para un mejor conocimiento del comportamiento de la banca española en el contexto europeo.

El sector bancario español en el contexto internacional

Esta obra fue escrita pensando en los estudiantes que cursan carreras relacionadas directamente con el desarrollo de las empresas, como: contadores, administradores, economistas, licenciados en informática y carreras afines. El texto presenta los elementos económicos principales concernientes al desarrollo empresarial, teniendo como base el programa de estudios de la materia Microeconomía de la FCA de la UNAM. Además, pueden recurrir a este libro todas las personas interesadas en la comprensión y análisis de la problemática empresarial en general y de México en particular.

Primer Curso Regional Mercadeo de Bancos de Semillas Forestales

O Centro de Cidadania Fiscal (CCiF) é um think tank independente que tem como objetivo contribuir para a simplificação do sistema tributário brasileiro e para o modelo de gestão fiscal do país.

Revista petroquímica

El pronóstico estratégico, desde una perspectiva empresarial, es un tema que no está suficientemente documentado, ni actualizado, y existen pocos autores que se han preocupado por conocer su estado al interior de las empresas. El presente libro busca llenar este vacío, a partir del análisis de la percepción de un grupo de empresas pertenecientes a diferentes sectores, con el objetivo de evaluar si el proceso de pronóstico de dichas empresas se articula con la planificación estratégica para la toma de decisiones.

Economía y emprendimiento 4º ESO - LOMLOE - Novedad 2023

"El fondo de la crítica de Emilio Betti (política e ideológica, y lo decimos sin atribuir algún significado negativo a la expresión) se refiere al poder autonormativo de los privados, la que se acoge con aquiescencia, reposa en una perspectiva de funcionalización de la autonomía privada, dirigida a limitar la esfera de acción de los privados a perseguir valores solidarios: «si existe un dato seguro en la más reciente evolución de esta sociedad no sólo en Italia, sino en toda Europa continental, es la creciente afirmación de las exigencias de solidaridad social a través de múltiples caminos, que conducen a circunscribir la libertad individual. Y también fuera de Europa sociedades nacionales que, por su tendencia individualista y su riqueza de recursos económicos, parecen las más reacias a los citados vínculos, han mostrado en tiempos más recientes arribar al imperio de tales exigencias»". Mauro Grondona Profesor Asociado de Derecho Privado Universidad de Génova (Italia)

Comision de comercio interior. II Plan de desarrollo economico y social

Buscando refletir as atualizações normativas internacionais e nacionais ocorridas nos últimos anos, a 5ª edição da obra *Convenções da OIT e outros instrumentos de Direito Internacional (...)* sofreu uma minuciosa revisão, atualização e ampliação. O espaço aqui disponível é insuficiente para elencar os diversos instrumentos internacionais e nacionais conexos incluídos nessa edição. A título de ilustração, foram incluídas normas internacionais e nacionais relativas à defesa da democracia e combate ao terrorismo; normas relativas à Internet (por ex., Convenção sobre o Crime Cibernético) e inteligência artificial; informações sobre instrumentos da OIT ratificados pelo Brasil e que perderam vigor internacional recentemente, notadamente em 2021; normas da OIT em processo de ratificação pelo Brasil, consoante mensagens presidenciais enviadas ao Congresso em 2023 (Convenções C-156, C-187, C-190, P-029); seleção de normas e orientações do CNJ, CNMP, do Conselho Nacional de Imigração (CNIg) e do Ministério da Justiça envolvendo questões relevantes às relações laborais; instrumentos relativos à promoção dos objetivos de desenvolvimento sustentável da ONU; normas do Mercosul relativas à repressão à violência contra a mulher, trabalho forçado e tráfico de pessoas; inclusão de diversas recomendações da OIT. Em sintonia com o reconhecimento em 2022 pela Assembleia Geral da ONU do direito ao meio ambiente equilibrado como direito humano e com a emenda da Declaração da OIT de 1998, foram incorporadas diversas normas sobre tutela do meio ambiente e saúde e segurança no trabalho (por ex., Convenção de Minamata sobre mercúrio). Na esteira das edições anteriores, a presente edição contempla: Convenções da OIT ratificadas pelo Brasil, organizadas pelos critérios cronológico e temático; Seleção de convenções da OIT não vigentes no Brasil, mas juridicamente relevantes; Normas de direito internacional privado para solucionar conflitos de leis trabalhistas no espaço; Seleção de outros instrumentos da OIT (declarações, recomendações), do MERCOSUL e dos sistemas Universal (ONU), Africano, Europeu e Interamericano de proteção dos direitos humanos; Seleção de diplomas legais nacionais conexos com os instrumentos internacionais incluídos na compilação; Normas internacionais de direito humanitário (Convenções de Genebra); Instrumentos pouco disseminados no Brasil, tais como: Princípios de Ruggie da ONU, princípios marco sobre direitos humanos e meio ambiente (ONU), princípios de Yogyakarta +10, Convenção Interamericana sobre Direitos dos Idosos, os Princípios de Paris, os Princípios de Bangalore sobre conduta judicial, a Declaração de Friburgo sobre direitos culturais, as Regras de Nelson Mandela, Bangkok e Beijing, Regulamento Sanitário da Organização Mundial da Saúde, dentre outros. O sumário da obra é um de seus diferenciais, o qual agrupa em dezenas de temas instrumentos internacionais e nacionais conexos, como forma de fomentar o indispensável diálogo entre o direito pátrio e o internacional, cada vez mais valorizado pelos órgãos do Sistema de Justiça. Digno de nota que o sumário temático da obra foi ampliado, reorganizado em diversos pontos e aperfeiçoado, com vistas a facilitar a utilização da obra. Dentre os temas, pode-se mencionar: Sistemas de proteção dos DHs, direito antidiscriminatório, trabalho escravo e tráfico de pessoas, questões coletivas e sindicais, migrantes, criança e adolescente, direitos das mulheres, pessoas com deficiência, aquaviário e portuário, proteção de dados, meio ambiente, jornada, terceirização, processo coletivo para tutela de direitos metaindividuais, acesso a órgãos judiciais e quase-judiciais internacionais, professores, povos indígenas, rurais, etc. Obra indispensável aos profissionais do Direito e aos estudantes em geral com foco em Direito do Trabalho e Direitos Humanos.

Guía rural del Perú

La obra está estructurada en dos partes: una primera en la que se hace un análisis profundo, en forma literaria, de la crisis financiera, así como de la gestación de la actividad financiera pública para 2009 por medio de dos extensos artículos que no solo presentan efectos, sino que también analizan las causas. Mientras que, en la segunda parte, se presenta una recopilación de notas informativas, de corta extensión, que a modo de circular informativa, nos presenta una serie de hechos relevantes acaecidos en los mercados, así como la evolución particular de algunos de estos.

Notas para oradores

Nono volume da série Estudos Estratégicos, esta obra discute tema de extrema importância para os que pensam o futuro do Brasil: os desafios para o desenvolvimento das regiões e microrregiões do país. O estudo propõe a criação dos Centros de Desenvolvimento Regional e debate como esta solução pode aproximar academia e setor produtivo para buscar soluções e realizar um planejamento estratégico específico para o desenvolvimento de cada localidade na qual estão inseridos. "Instituições de Ensino Superior e Desenvolvimento Regional: Potencialidades e Desafios" é um projeto de relatoria do deputado Vitor Lippi e conta com a participação de importantes órgãos públicos, como CAPES, Finep, CNPq e MEC.

Modalidades de lavado de dinero y técnicas para la prevención

Elaborado por el Instituto para cada una de las 32 entidades federativas, en un trabajo coordinado con los gobiernos de éstas. Contiene la información más reciente disponible al momento de su integración, organizada en capítulos que dan a conocer un panorama completo del territorio, la población y economía de la entidad. Incluye información sobre los siguientes temas: aspectos geográficos, medio ambiente, población, vivienda y urbanización, salud, educación y cultura, gobierno, seguridad y justicia, y trabajo. También se incorporan estadísticas de información económica agregada, agricultura, ganadería, aprovechamiento forestal, pesca, así como la relativa a la minería, industria manufacturera, construcción, electricidad, comercio, turismo, transportes y comunicaciones, indicadores financieros y finanzas públicas.

Proyectos y negocios en el entorno mediático digital

Los principales temas tratados en esta Nota Técnica de Orientación (TNM) son los siguientes: • Se analizan la finalidad de un plan de cuentas y su importancia en la gestión financiera pública. • Se analizan las necesidades de los actores interesados en un marco típico de gestión financiera pública que deben reflejarse en un plan de cuentas • Se analiza la función del plan de cuentas en la contabilidad presupuestaria y financiera. • Se analiza la relación entre el plan de cuentas y los sistemas integrados de información sobre gestión financiera (SIIGF). • Se explican los pasos fundamentales para identificar los requerimientos de datos y estructuras para elaborar un plan de cuentas.
