Michael Taylor

The life and work of the groundbreaking interior designer and inventor of the California Look.

Inventing the California Look

The influential rooms of Elkins, Taylor, Dickinson, and other great talents—as photographed by Fred Lyon—represent the innovation and splendor of postwar Northern California interiors, which continue to inspire the work of designers today. From the 1940s to the 1980s, some of the best residences in Northern California were decorated by a coterie of designers whose names were once recognized only by the cognoscenti of interior design. From Frances Elkins and Tony Hail, with their aristocratic

aesthetics, to Michael Taylor and John Dickinson, with their bold fantasies, these designers created revolutionary settings that were idiomatic of their time and place—fresh, luxurious spaces complementing the various terrains and lifestyles of the northern part of the state. Fred Lyon (b. 1924) is perhaps the only photographer who knew and documented the work of this talented group. Akin to what Julius Shulman was doing in Southern California, Lyon worked closely with the designers and magazine editors to help shape the look for posterity. In the years following the work of these giants, most of the spaces they created are gone or vastly changed, replaced by different tastes and new styles. Now re-appreciated for their artistry, we can relive this exciting era through Lyon's superb photography.

Inspired Design

Most decorating books focus on one designer; the rest focus on one period, one trend, one room. This book, for the first time, has the big picture: ALL the names everybody must know from the entire 100-year history of interior design. Each designer is profiled and illustrated with three to four photographs of their best work; what we can learn from them--and how they changed decorating forever--is clearly highlighted to catch the eye.

Rattan

Rattan furnishings evoke the glamour and laid back elegance of exotic beach houses as well as the informal beauty of plant filled garden rooms and sun dappled verandas. Long fascinated with rattan's versatility, designer Lulu Lytle examines the enduring appeal of this sustainable tropical palm in **RATTAN: A WORLD OF ELEGANCE AND CHARM**. The first book in decades to examine the history and craftsmanship of rattan furniture, this insightful tome showcases rattan's appeal through archival images of beautiful interiors including Madeleine Castaing's winter garden in Paris, Michael Taylor's own Californian beach house, the Titanic's Café Parisian and the Billy Baldwin designed Mr. Kennedy's beauty salon in New York City. Rattan's many personalities are explored through its inclusion in settings as diverse as Impressionist paintings, flamboyant nightclubs and pared down contemporary drawing rooms. A reflection of its inherent beauty and longevity, antique rattan furniture from the nineteenth century is highly collectible, as are rattan pieces created by giants of modern design such as Josef Hoffmann for Thonet, Josef Frank for Svenskt Tenn, Jean-Michel Frank for Ecart, Renzo Mongiardino for Bonacina, Arne Jacobsen for Sika, Paul Frankl and Donald Deskey. Rattan pieces have become iconic and highly prized, including Hiroomi Tahara's Wrap Sofa, Franca Helg's Primavera Chair, and the many iterations of the beloved Peacock Chair. **RATTAN** also highlights some of the many tastemakers who have embraced rattan--from Marella Agnelli, Babe Paley, and Cecil Beaton to leading interior designers including Jeffrey Bilhuber, Veere Grenney, Axel Vervoordt, and Jacques Grange.

The Private House

An elegant manifesto for Rose Tarlow's approach of blending the personal with the aesthetic to create timeless, beautiful spaces. One of the most influential designers working in America, Rose Tarlow's signature approach is as much an emotional matter as it is one of color, light, fabric, and furniture. This essential book encourages readers to decorate with elegance and personal style through simple principles of creative design that are appropriate to any home. Finely designed in a modest size, the book is powerful in its intimacy, offering insights into the mind of a master designer—as well as a glimpse into some of the extraordinary homes she has created. Long out of print, the book is republished in its entirety from the original edition of 2001—with photography from Oberto Gili, Derry Moore, and Tim Street-Porter, among others—and updated with new images and a new afterword by the author. **The Private House** is a classic of modern interior design and an inspiration to creative homeowners.

The New York Times Book of Interior Design and Decoration

An unrivaled survey of the most exciting contemporary interior design across the globe, curated by the editors of ten international editions of *Architectural Digest*. Since 1920, *Architectural Digest* has celebrated design talents, innovative homes, and products--providing endless decoration, lifestyle, and travel inspiration. With ten global editions, the magazine is an authority renowned all over the world for publishing only the very best of today's interior design. In this new volume--spearheaded by AD France's editor in chief, Marie Kalt--the editors of *Architectural Digest*'s international editions have teamed up to thoughtfully curate a collection of today's most exceptional interiors around the globe. These diverse residential spaces span from the United States and China, to France, Italy, Germany, Russia, Spain, India, Mexico, and the Middle East, presenting each country's unique "AD style manifesto" and the

work of design luminaries such as Peter Marino, Martyn Lawrence Bullard, Jacques Grange, Joseph Dirand, and Bijoy Jain, to name a few. The featured projects range from Marc Jacobs's New York townhouse to Tommy Hilfiger's Connecticut abode and Seth Meyers's Manhattan duplex; a sumptuous eighteenth-century Italian villa and a Moroccan palace; Pierre Bergé's apartment and a *hôtel particulier* in Paris; a Majorca summer home; and a country house in Russia. Brimming with stunning images and rich international inspirations, this unparalleled compendium of global interiors is a must for every library of interior design.

Architectural Digest

Interior Design Masters contains 300 biographical entries of people who have significantly impacted design. They are the people, historical and contemporary, that students and practitioners should know. Coverage starts in the late Renaissance, with a focus on the twentieth and twenty-first centuries. The book has five sections, with the entries alphabetical in each, so it can serve as a history textbook and a reference guide. The seventeenth- and eighteenth-century section covers figures from Thomas Chippendale to Horace Walpole. The nineteenth-century section includes William Morris and Candace Wheeler. The early twentieth-century section presents modernism's design heroes, including Marcel Breuer, Eileen Gray, and Gilbert Rohde. The post-World War II designers range from Madeleine Castaing to Raymond Loewy. The final contemporary section includes Ron Arad and the Bouroullec brothers. These are the canonical figures who belong to any design history. The book also contains less well-known figures who deserve attention, such as Betty Joel, the British art deco furniture designer; Paul Veyseyre, the Frenchman active in China in the 1930s; and more recently Lanzavecchia-Wai, the Italian-Singaporean duo whose work ranges from health care to helicopters. Global in its coverage, the book is richly illustrated with over 600 black-and-white and color photographs.

Interior Design Masters

A 100-year visual history of the magazine, showcasing the work of top interior designers and architects, and the personal spaces of numerous celebrities. Architectural Digest at 100 celebrates the best from the pages of the international design authority. The editors have delved into the archives and culled years of rich material covering a range of subjects. Ranging freely between present and past, the book features the personal spaces of dozens of private celebrities like Barack and Michelle Obama, David Bowie, Truman Capote, David Hockney, Michael Kors, and Diana Vreeland, and includes the work of top designers and architects like Frank Gehry, David Hicks, India Mahdavi, Peter Marino, John Fowler, Renzo Mongiardino, Oscar Niemeyer, Axel Vervoordt, Frank Lloyd Wright, and Elsie de Wolfe. Also included are stunning images from the magazine's history by photographers such as Bill Cunningham, Horst P. Horst, Simon Upton, Francois Dischinger, Francois Halard, Julius Shulman, and Oberto Gili. "The book is really a survey of how Americans have lived—and how American life has changed—over the past 100 years." ?Los Angeles Times "A Must-Have Book!" ?Interior Design Magazines "Written in the elevated quality that only the editors of Architectural Digest can master so well, AD at 100: A Century of Style is the world's newest guide to the best and brightest designs to inspire your next big home project." ?The Editorialist

Architectural Digest at 100

"Imogen Taylor started work at Colefax & Fowler in 1949, and spent many years as assistant to John Fowler. She went on to become one of the most prominent interior decorators of the latter part of the twentieth century, working in Britain and the Middle East and extensively in the United States. She retired in 1999, after fifty years at Colefax & Fowler. On the Fringe is a unique chronicle of the twentieth-century decorative scene and the changing social world"--Cover.

On the Fringe

In the work of interior designer Suzanne Tucker, art and artifact collections are displayed to best advantage for daily enjoyment by their owners, custom-mixed wall colors are set off by richly sensual textiles and forms, and inherited pieces are blended with newly found treasures to bestow a subtle aura of age and permanence. She uses her extensive knowledge of antiques and the decorative arts to create finely detailed, inviting rooms that perfectly complement both their architectural setting and their owners' personality. Always looking to the "bones" of a structure first, Tucker works from the outside in to ensure that a house remains true to the conventions of its style while its functions suit a contemporary lifestyle and sensibility. Superb interior architecture, delicate finishes, and fine

furnishings are introduced and layered to form spaces that are balanced, fluid, and comfortable, whether in historically significant properties or modern wine country estates. She brings her perceptive ability to create truly unique, tailored spaces—amassed over years as the protégé of the legendary Michael Taylor as well as from her own extensive travels and twenty-three years as a principal of her firm—to each project. She maintains that even the most exquisite pieces of furniture and art can, and should, be arranged throughout a space in an accessible way to serve the needs of the people who inhabit it. This lavishly illustrated presentation showcases Tucker's diverse and site-specific styles in twenty projects, ranging from formal Mediterranean-style villas to sophisticated city apartments and airy Napa Valley retreats to rustic mountainside houses. Personal, engaging commentary reveals her spirited nature, many sources of inspiration, creative process, and valuable tips that can be applied to interiors of any age, style, or mood.

Rooms to Remember

More than anything else, colour is how people instinctively think about flowers — whether planning for a wedding, commemorating an occasion, or looking for an easy way to bring life into a space. With 400 gorgeously photographed cut flowers organized to span the full spectrum of shades, *Flower Colour Guide* is the essential tool for flower selection and arrangement, and a primer to understanding and appreciating flowers and colour. 'This is the book we wish we had to help us before we started,' say authors Darroch and Michael Putnam, the duo behind New York's leading floral design studio, Putnam & Putnam.

Flower Colour Guide

A geographically organized survey of the world's most desirable and iconic residential interiors from the 1940s to today. 'The Atlas of Interior Design' is an unparalleled global tour of more than 400 captivating residential interiors from the past eight decades. From classic to contemporary, minimal to maximal, the homes included illuminate the design tropes unique to their location's context, while others confound preconceived ideas of vernacular design to spectacular effect. Exceptional photography and a descriptive text accompanying each project enrich this thoroughly researched and comprehensive volume.

Atlas of Interior Design

The history of interior design is punctuated by a few legends-Billy Baldwin, Sister Parish-and should include trailblazing decorator George Stacey. When George Stacey shot to prominence in the 1930s with projects for socialite Frances Cheney and style priestess Diana Vreeland, the audacity of his work caught the eye of Vogue, Harper's Bazaar, Town and Country, and House & Garden. An appealing nonchalance and irreverence, combined with erudition, a flair for color, and an innate grasp of balance, scale, and proportion, produced rooms that were surprising as well as sophisticated. Balancing modern aesthetics and modern living with a lifelong passion for French classicism ensured that Stacey designs were both of the moment and enduring. For the next forty years, he deftly produced a string of stylish rooms for his stylish clientele. While the ground rules of Stacey's approach remained constant, he captured the nuances of mood and culture of an exceptionally dynamic era and established a design vocabulary that defined American chic in the American century and that endures, glitteringly, to this day.

George Stacey and the Creation of American Chic

With over 30,000 copies in print in hardcover, this lavishly illustrated volume is now available in a beautiful paperback edition. Over 200 full-color photographs showcase the work of such acclaimed architects and interior designers as Joseph Esherick, Frank Gehry, Michael Taylor, and Ellinor McGuire, all accompanied by historical commentary and detailed descriptions of 31 of California's most exquisite residences. Entertaining, informative, and inspirational *California Country* is a superb resource for designers and homeowners, or anyone who appreciates gracious living in country setting.

California Country

The career of Frances Adler Elkins (1888-1953), sister of renowned Chicago architect David Adler, spanned more than three decades.

The Finest Rooms

The Interior Architecture Theory Reader presents a global compilation that collectively and specifically defines interior architecture. Diverse views and comparative resources for interior architecture students, educators, scholars, and practitioners are needed to develop a proper canon for this young discipline. As a theoretical survey of interior architecture, the book examines theory, history, and production to embrace a full range of interior identities in architecture, interior design, digital fabrication, and spatial installation. Authored by leading educators, theorists, and practitioners, fifty chapters refine and expand the discourse surrounding interior architecture.

Frances Elkins

From Victorian to neoclassical to Arts and Crafts, San Francisco's interior design style -- like the irrepressible spirit of the city itself -- is innovative, free-thinking, and universally appealing. In *San Francisco Interiors*, Diane Dorrans Saeks, the California editor of *Metropolitan Home*, unveils the finest creations of the Bay Area's preeminent interior designers and artists, leading readers on an intimate tour of some of the city's most coveted residences. Peek inside an art collector's Russian Hill studio or an elegant Pacific Heights mansion. With designs by Anthony Hail, Stephen Shubel, Diane Chapman, Arnell Kase John Dickinson, and Scott Lamb; over 200 lavish, full-color photographs; and a designer's resource guide, this lovely volume will inform and inspire anyone who appreciates gracious living.

The Interior Architecture Theory Reader

Simplicity is the new era of chic. Despite the grandeur in which Louis XIV and his descendants Louis XV and Louis XVI lived in the magnificent Château de Versailles, extravagance rarely suggests elegance these days. Befitting spaces less assumedly scaled than the vast palace, alluring, of-the-moment interiors exude a more discreet cachet. Clean, not stuffy, reflects our culture and the times. Betty Lou Phillips is the author of fourteen books on French and Italian design, including the award-winning *Villa Décor*. A professional member of the American Society of Interior Designers, her work has been featured in countless magazines and newspapers. Additionally, she has appeared on the Oprah Winfrey Show. She lives in Dallas, Texas.

San Francisco Interiors

Leading floral designers Putnam & Putnam are back - now with the ultimate flower-arrangement reference book. The follow-up to Darroch and Michael Putnam's acclaimed bestselling debut, *Flower Colour Theory* is the only guide that uses colour theory as inspiration for flower arrangements. The book features 175 arrangements that show myriad ways to combine flowers of different hues, all built around colour schemes including analogous, complementary, monochromatic, triadic, transitional, and accent colours. *Flower Colour Theory* is both inspirational and a guide to creating lush, romantic, and effortlessly elegant creations of your own.

French Refreshed

The Routledge Companion to Design Research offers a comprehensive examination of design research, celebrating the plurality of design research and the wide range of conceptual, methodological, technological and theoretical approaches evident in contemporary design research. This volume comprises 39 original and high quality design research chapters from contributors around the world, with offerings from the vast array of disciplines in and around modern design praxis, including areas such as industrial and product design, visual communication, interaction design, fashion design, service design, engineering and architecture. The Companion is divided into five distinct sections with chapters that examine the nature and process of design research, the purpose of design research, and how one might embark on design research. They also explore how leading design researchers conduct their design research through formulating and asking questions in novel ways, and the creative methods and tools they use to collect and analyse data. The Companion also includes a number of case studies that illustrate how one might best communicate and disseminate design research through contributions that offer techniques for writing and publicising research. The Routledge Companion to Design Research will have wide appeal to researchers and educators in design and design-related disciplines such as engineering, business, marketing, computing, and will make an invaluable contribution to state-of-the-art design research at postgraduate, doctoral, and post-doctoral levels and teaching across a wide range of different disciplines.

Flower Colour Theory

First compilation of both furniture designs and architectural projects by Samuel Marx.

The Routledge Companion to Design Research

Digital renderings have long served architects and interior designers to help visualize spaces before the building begins. But a new generation of digital artists are taking this craft a step further to create otherworldly scenes that can't, and won't, ever be built. This inspiring compilation of the most innovative projects in digital art covers the work of the artists and creatives at the forefront of this aesthetic. Discover Filip Hodas and his captivating pop culture dystopia artwork series, explore Massimo Colonna's surrealist urban landscapes and dive into the abstract compositions of Ezequiel Pini, founder of Six N. Five studio. Dreamscapes & Artificial Architecture presents the work of leading creatives from across the globe, exploring the infinite ways to conceptualize utopian oases and dystopian nightmares. With their roots in spatial design, their ideas present a new creative current defined by the fusion of digital techniques such as computer rendering and 3D art, and an aesthetic that moves between fantasy and reality. Freed from the constraints of the physical world, these dreamscapes expand the possibilities for architecture and interior design.

Ultramodern

The latest monograph by doyenne of West Coast interior design Suzanne Tucker, who is renowned for her timeless, richly detailed, and luxurious rooms. Over the course of her illustrious career, designer Suzanne Tucker has perfected a unique approach to creating elegant, sumptuously appointed residences eminently suited to their owners and their architectural and geographic context. Tucker describes her process as part anthropology, part archaeology, part psychology: she uncovers her clients' dreams and desires for their home, and the nuances of their lifestyle, and applies her vast knowledge of decorative arts and antiques to compose splendid spaces perfectly tailored for each life. Extraordinary Interiors, Tucker's third monograph, presents a selection of the designer's recent work, including a mountain retreat featuring a symphony of natural tones and textures; a Bay Area pied-à-terre exhibiting international flair; a Manhattan apartment whose muted hues showcase an exceptional art collection; a beach house that marries high sophistication with leisurely living; a magnificent San Francisco townhouse whose intarsia floors, coffered ceilings, and natatorium are inspired by historic Italian palazzos; and Tucker's own oasis-like home in Montecito, California. Across the varied styles and locations of these remarkable residences, Extraordinary Interiors heralds Tucker's passion for architecture and the decorative arts, and consummate skill for creating timeless, luxurious, exquisitely detailed, and art- and antique-filled rooms.

Dreamscapes & Artificial Architecture

A lavish look at the work, over nearly half a century, of one of the last of the great old-guard decorators. One of the deans of American interior decoration, William Hodgins follows in the footsteps of the legendary Billy Baldwin and also Sister Parish and Albert Hadley, for whom he worked early in his career. Based in Boston since the late 1960s, Hodgins's work encompasses residential commissions from New England to Florida, as far west as California, and overseas. His interiors have been celebrated in the pages of *Architectural Digest*, *House & Garden*, *House Beautiful*, and other magazines and books. This is the first publication entirely devoted to his oeuvre, which spans five decades. Hodgins's rooms are beautiful, thoughtful, and poetic; they are airy, light-filled spaces. They are also, in his words, as "extraordinarily luxurious as they can be in a quiet, understated way." Handsome architectural detailing and a soothing palette work their magic and create visual flow; Hodgins is a master artist, his designs reminiscent of Merchant-Ivory films. A Hodgins interior is governed by white, and the decorator invokes the slightest of subtleties and different shades of white. For Hodgins, whites "reflect the quality of life and light in a room." They "glow behind the art and furniture," are restful, timeless, and age gracefully. Yet Hodgins is also noted for his judicious use of exquisitely clear and jewel-like colors: this skillful combination makes his interiors special, inviting, and comfortable. Among the forty notable commissions covered in this generously illustrated book are the private quarters of the American ambassador's residence in Paris (1997), a pied-a-terre in a 1920s Beaux-Arts apartment building on San Francisco's Nob Hill, several prewar cooperative apartments in New York City, and a considerable number of houses and apartments in the Boston and Washington, DC, areas and in Palm Beach, Florida. The majority of his commissions have been carried out for repeat and loyal clients, many of whom have commissioned him to decorate multiple homes. This presentation of his work will be valued not only by professional decorators but also by everyone seeking the best in interior design.

Extraordinary Interiors

The first book that reveals the history of 20th-century interior design by showcasing the styles and offering the trade secrets of the key decorators and designers who have shaped -- and continue to shape -- today's taste. The art of interior design as we know it emerged at the beginning of the 20th century, and *Influential Interiors* chronicles the most significant people, styles, and moments in its history. From early stars such as Elsie de Wolfe, Syrie Maugham and Jean-Michel Frank to today's leading practitioners, such as Andree Putman, Peter Marino and Sills & Huniford, biographical details, photographs and explanations of important projects and key designs (e.g. for furniture or fabrics) are supplied and their influence worldwide is discussed. Twenty-four designers are featured in depth; their work, in each case outlined over several spreads, has had a lasting influence on those that followed them. And for six major figures, a full-color scrapbook-like collage breaks down the key elements of the designer's signature style, offering at a glance the types of colors, fabrics, patterns, furniture and accessories that characterize t

William Hodgins Interiors

The 25th-anniversary edition of the 'Bible of the Interior Design World' (Times of London) -- a must-have coffee table book and ideal gift for design lovers. All the latest trends in furnishing, living, and interior design -- including the current winner of the 'Designer of the Year' award. The latest creations of the 100 top interior designers worldwide showcased in some 1,000 color photos in over 500 pages. Vintage or modern? Sleek minimalism or splendid opulence? Scandinavian hygge or Neon Art? For all that is emerging and on trend in the world of interiors, look no further than the *Andrew Martin Interior Design Review Vol. 25*. Compiled by founder Martin Waller, dubbed the "Indiana Jones of Interior Design," this anniversary edition of the interior design bible showcases the diverse creations of 100 leading interior designers, including the winner of the "Designer of the Year" award. Regardless of whether you are looking for inspiring design ideas for your own home or simply want to sneak a peek at beautiful interior spaces, this vibrant coffee table book will delight design lovers around the globe.

Influential Interiors

The long-awaited insider's look at one of the design milestones of the twenty-first century: Michael S. Smith's celebrated decoration of the Obama White House, featuring a foreword by Michelle Obama. **2020 HONORABLE MENTION FOR THE FOREWORD INDIES AWARD IN HOBBIES/HOME** Created for design enthusiasts, political aficionados, and students of Americana, *Designing History* documents Michael Smith's extraordinary collaboration with President Barack Obama and First Lady Michelle Obama. Not since Jacqueline Kennedy's iconic work on the White House has a designer of Michael

Smith's stature been commissioned to bring a new design spirit to the mansion. Through extensive photography, behind-the-scenes stories, and rich archival material, the book places the Obama White House within the context of the building's storied past and its evolution over the past two centuries. The book beautifully documents the process of updating the country's most symbolic residence, revealing how Smith's collaboration on the decoration, showcasing of artworks, and style of entertaining reflected the youthful spirit of the First Family and their vision of a more progressive, inclusive American society. Ultimately, this book will serve as both a historical document and a voyeur's delight, capturing a specific moment in time for the White House, the Obamas, and the American experience.

Andrew Martin

Walter Benjamin observed in his writings on the interior that 'to live means to leave traces.' This interior design theory reader focuses on just how such traces might manifest themselves. In order to explore interior design's links to other disciplines, the selected texts reflect a wide range of interests extending beyond the traditional confines of design and architecture. It is conceived as a matrix, which intersects social, political, psychological, philosophical, technological and gender discourse, with practice issues, such as materials, lighting, colour, furnishing, and the body. The anthology presents a complex and sometimes conflicting terrain, while also creating a distinct body of knowledge particular to the interior. Locating theory on the interior through these multifarious sources, it encourages future discourse in an area often marginalised but now emerging in its own right. Within the reader individual excerpts are referenced to their place in the matrix and sequenced alphabetically. This organising strategy resists both a chronological and themed structure in order to provoke associations and inferences between excerpts. In this way the book offers the possibility of examining the interior from multiple vantage points: a disciplinary focus, the spatial and physical attributes of interiors, historical sequence, and topical issue based. Excerpts from Thomas Hope, Catherine E. Beecher and Harriet Beecher Stowe, Edith Wharton and Charles Eastlake provide contemporary nineteenth century accounts as the profession emerges, whereas Barbara Penner, Penny Sparke, Charles Rice, Georges Teyssot and Rebecca Houze offer re-interpretations of this period. The complexities of the twentieth-century interior are revealed by Robyn Longhurst, Kevin Melchionne, George Wagner, John Macgregor Wise, Joel Sanders and many others.

Designing History

Andrew Fisher and Jeffry Weisman delight in the unexpected. They revel in beautiful contradictions to create interiors that blend the exotic and the traditional and refresh classic ideas with handmade, whimsical details. Both designers contribute an essential element to every project: Andrew Fisher injects opulence and glamour, hand-decorating chandeliers with shells, crafting side tables with delicate branchlike bases, and choosing ornate accent materials like tortoise, gold leaf, and peacock feathers; Jeffry Weisman contributes restrained architecture, calm visual pauses, and impeccable interior finishes. As a firm, Fisher Weisman breathes new life into traditional aesthetics, reinterpreting timeless sensibilities with a lively and contemporary eye. Whether recovering Biedermeier chairs in zebra hide and slipper chairs with repurposed Indian saris found on their travels or finishing formal dining rooms in rich chocolate lacquer, Fisher Weisman subverts expectations to create truly extraordinary interiors. Artful Decoration showcases the exquisite work of this San Francisco-based design firm, revealing the imagination, meticulous attention to detail, and the sense of humor with which they infuse every home. Beguiling touches finish off rooms designed with an enviable knowledge of form, proportion, color, and history to bring traditional spaces into the present and create livable, fresh interiors with an artisanal flair. Artful Decoration features thirteen residences ranging from small but lavish pieds-à-terre to airy Californian estates, from elegant penthouses to one especially elaborate tree house. Two hundred vivid, full-color illustrations reveal these and many other unexpected pleasures on every page to delight the eye and inspire the imagination.

INTIMUS

Moving Objects deals with emotive design: designed objects that demand to be engaged with rather than simply used. If postmodernism depended upon ironic distance, and Critical Design is all about questions, then emotive design runs hotter than this, confronting how designers are using feelings in what they make. Damon Taylor's original study considers these emotionally laden, highly authored works, often produced in limited editions and sold like art – objects such as a chair made from cuddly toys, a leather sofa that resembles a cow, and a jewellery box fashioned from human hair. Tracing the

phenomenon back to the 'Dutch inflection' that began with Droog designers like Jurgen Bey and Hella Jongerius, Taylor conducts an analysis of the development of Design Art and looks for its origins in the uncanny explorations of surrealism. Offering a critique of Speculative Design, and an examination of the work of designers such as Mathias Bengtsson, whose work involves 'growing' furniture inside computers, Taylor asks what happens when the tangible melts into the datascape and design becomes a question of mobilities. In this way, *Moving Objects* examines contemporary issues of how we live with artefacts and what design can do.

Artful Decoration

The first book to focus on the solo residential work of the visionary interior decorator Stephen Sills. Simultaneously classical and modern, Stephen Sills's design work is a dialogue between past and present. Filled with luxurious fabrics, furnishings from across centuries, and unusual finishes, his work is polished, seemingly effortless, and quietly rich, with a muted color palette that serves as a brilliant foil for modern art. In this striking, meditative volume, the follow-up to his best-selling book *Dwellings*, Sills presents sixteen breathtaking homes, gorgeously photographed by the legendary François Halard, in locations as varied as a penthouse on Manhattan's Fifth Avenue, a modern Aspen retreat, an estate on the North Shore of Long Island, and his own country house in Bedford, New York (dubbed the "chicest house in America" by Karl Lagerfeld). Common to them all is a sense of atmosphere, point of view, and soul—the sense of a master craftsman at work.

Moving Objects

Inspiring interiors that have a personal, handcrafted feel. This lavishly photographed interiors book shows how to leave behind design "rules" to create truly beautiful, original interiors. For more than twenty years, Kit Kemp has been at the forefront of the international design community, with her signature style that mixes contemporary elements with antiques and junk-shop finds, luxurious fabrics with printed wallpapers, and hand-finished detailing with collections of simple objects that create impact. She avoids taking design too seriously, playing with scale, color and pattern to create very personal, handcrafted spaces. Alongside the stunning images of room sets and detailed close-ups will be the inspiration behind Kit's work and her tips for creating your own version of her style at home. Interiors are meant for living in, and the key is to create a space that is comfortable and beautiful and reflects who you really are.

Stephen Sills

Working out of The Magic Factory, a 15,000- square-foot think tank in San Francisco, Ken Fulk specializes in interior design, special events, and architecture. Whether he is creating fantastic homes, throwing the opening party of a museum show, or planning large-scale events (like the famous wedding of Facebook's Sean Parker in a redwood forest), Fulk's work is always remarkable and stylish and sometimes over the top. Featuring more than 200 color photos with accompanying narration by the designer, Mr. Ken Fulk's *Magical World* showcases the best of his luxurious environments over the past decade: gorgeous dwellings he has designed for notable clientele; his own three homes; stunning examples of his party and event designs; and even a private jet.

A Living Space

AS READ ON BBC RADIO 4 A SPECTATOR BEST OF THE YEAR - AS CHOSEN BY REVIEWERS
The year is 1742. Goody Brown, saved from drowning and adopted when just a babe, has grown up happily in the smuggling town of Winchelsea. But when she turns sixteen, her father is murdered by men he thought were friends. In a town where lawlessness prevails, Goody and her brother Francis must enter the cut-throat world of her father's killers in order to find justice. Facing high seas and desperate villains, she discovers what life can be like without constraints or expectations, developing a taste for danger that makes her blood run fast. Goody was never born to be a gentlewoman. But what will she become instead?

Mr. Ken Fulk's Magical World

The first and authoritative story of the rise of interior design from an intimate trade industry to celebrity decorators of today, as seen through the eyes of *Architectural Digest* and intimately told by Paige Rense--the magazine's iconic former editor-in-chief for over four decades. Respected as

the international authority on architecture and design, Architectural Digest magazine gives readers an exclusive look into the most spectacular properties and private homes of celebrities and cultural figures, highlighting the work of the world's top architects, designers, and interior decorators. This volume celebrates the evolution of the revered magazine as told through the voice of its legendary editor for four decades, Paige Rense. An epic visual history of the magazine's meteoric rise penned by Rense, this volume documents exclusively and intimately the renowned magazine's history and cultural significance, and celebration of the ever evolving homes and lifestyles. This volume is full of candid recollections, commentary, archival covers, and interior shots of the magazine and also features the work of the world's top architects and interior designers such as Mario Buatta, Philip Johnson, Tony Duquette, and Sally Sirkin Lewis, as well as the homes of celebrities like Truman Capote, Sonny & Cher, Elton John, Diane Keaton and Ralph Lauren. Each chapter, written in the first person--is followed by lavishly illustrated anecdotes from Rense's memories of past issues. As the editor who gave readers a glimpse into the most enviable homes around the world, Rense is uniquely qualified to tell the story of Architectural Digest, a tale that her nearly one million loyal fans and readers of the magazine will be eager to read.

Winchelsea

Prior to the 1960s, Andrew Wyeth enjoyed a stellar reputation as a rising star in the art world. Since then, critics and scholars have largely ignored him. Wyeth, however, who is age 88 at the date of publication, has continued to paint, to the delight of his admirers, collectors, and the art-loving public. Now, in association with the High Museum exhibition, Andrew Wyeth: Memory & Magic takes a fresh look at the work of one of America's most beloved artists. In examining his entire oeuvre, the book celebrates the artist's ongoing love affair with everyday life--domestic, natural, and architectural. Found throughout Wyeth's work, these objects form patterns that illuminate core themes and reveal the artist wrestling with issues of memory, temporality, embodiment, and the metaphysical. Organized chronologically and thematically, the book explores how the artist's approach to these subjects was formed in his early career, and has been revisited in new and surprising ways in recent years. Andrew Wyeth: Memory & Magic comprises 150 tempera paintings and 50 drawings and watercolors--including his most-famous works, but also many published here for the first time.

Architectural Digest

"Great design doesn't exist in a vacuum, and" Designers on Designers "proves that behind every bright idea is a startling inspiration. Susan Gray lets the world's top designers tell their own stories about who and what influenced their work. The result is funny and poignant, wry and informed. And truly inspired." -- Mitchell Owens, ELLE Decor "The personal inspiration we gain from others in our field makes for fascinating and thought-provoking reading. I love seeing what my colleagues have learned from others; my own experience has been expanded by their insights."-- Michael Graves, Architect and Product Designer In these pages, you will discover how Orlando Diaz-Azcuy's admiration for the work of John Dickinson led to his firm's perennial quest for design perfection. Married designers Ashley and Allegra Hicks disclose an intimate view of Ashley's father, David Hicks, Britain's most celebrated interior designer -- who was so obsessed with design that he checked himself out of the hospital while dying because of the overabundance of plastic and the nurses' unappealing apparel. For contrast, Cuban-born, multi-talented Manhattan designer Vincente Wolf offers a different and distinctive view of David Hicks's great appeal. You will share Bunny Williams's appreciation of Sister Parish and that designer's comfortable, timeless, and witty sense of style. New York society decorator Thomas Jayne gives you new insight into the Edith Wharton and Ogden Codman classic "The Decoration of Houses," still used as a textbook a century after its original publication. Open this book and meet masters of design -- Billy Baldwin, Donald Deskey, Dorothy Draper, Elsie de Wolfe, Philippe Starck, Michael Taylor, Rose Cumming -- and their admirers Thomas Britt, William Sofield, Carleton Varney, Suzanne Rheinstein, John Stefanidis, and more than a dozen other great names of interior design. With color, wit, and passion, "Designers on Designers" sensuously captures the essence, soul, and inspiration of the mastery of interior design. On designers and by designers, it is a sumptuous work that architects, amateur decorators, and designers themselves will be powerless to resist. THE GREAT on THE GREAT: Pamela Banker on Sir John Soane Mattia Bonetti on Jean Royere Thomas Britt on Billy Baldwin Robert Couturier on Germain Boffrand, Eileen Gray, and Emilio Terry Elissa Cullman on Henry Francis du Pont Orlando Diaz-Azcuy on John Dickinson Jamie Drake on Stephane Boudin Arthur Dunnam on Jed Johnson Ronald A. Grimaldi on Rose Cumming Ashley and Allegra Hicks on David Hicks Thomas Jayne on Edith Wharton and Ogden Codman's "The Decoration of Houses"

Pauline Metcalf on Frances Elkins Juan Pablo Molyneux on Jacques-Ange Gabriel Juan Montoya on Jean-Michel Frank Roberto Peregalli on Renzo Mongiardino Suzanne Rheinstein on Elsie de Wolfe Betty Sherrill on Eleanor Brown Marjorie Shushan on Kalef Alaton William Sofield on Donald Deskey John Stefanidis on Philippe Starck Carleton Varney on Dorothy Draper Bunny Williams on Sister Parish Ron Wilson on Michael Taylor Vincente Wolf on David Hicks

Andrew Wyeth

A memoir of survival, rebellion, and tenacity, this narrative follows the author's incredible life journey, from survivor and outcast to mentor, ground-breaker, and advocate for LGBTQ+ rights. Born a preemie and raised in disfunction and poverty on Toronto's Skid Row, he was deemed a "sissy-boy" and "faggot" at a young age, as well as someone who "thinks he's better than us" for the cardinal sin of dreaming of a better life. Never letting those negative voices define who he was or what he could become, he found his voice and stood firm, knowing that education, curiosity, and a passion for finding his own way in life, through trial and error, were his compass to happiness and success. Becoming the first person in his family to ever go to university—eventually earning a Master's Degree in Interior Design—his outlook grew and evolved, allowing him to finally find and embrace the person his family had always rejected ... the person he was always meant to be. Though touching upon many difficult subjects, from childhood abuse and abandonment to the Aids Epidemic and its devastation impact on the gay community in the 1980s and early '90s, this story manages to be highly entertaining throughout, overflowing with insight, wisdom, humour ... and no small amount of sass.

Designers on Designers

Unmasking of Our Interiors

Basics Interior Design 01: Retail Design

Retail Design.

Retail Design

Consumer behavior -- Branding and identity -- Retail sectors and channels -- The retail environment -- The organisation of retail space -- Retail detail

Basics Interior Design 02: Exhibition Design

Basics Interior Design 02: Exhibition Design explores the role of the exhibition designer as a creative practitioner, and seeks to communicate a better understanding of exhibition design as a discipline. This umbrella term incorporates the development of commercial trade fairs, brand experiences, themed attractions, world expositions, museum galleries, visitor centres, historic houses, landscape interpretation and art installations. Millions of people visit exhibitions of one sort or another every year, constituting a multi-billion dollar global industry. This book offers a comprehensive guide to the practice of exhibition design, and considers the blurring of its borders with other disciplines, such as graphic design.

The Fundamentals of Interior Design

The second edition of The Fundamentals of Interior Design provides a thorough introduction to the key elements of interior design and the ideas that underpin them. The book describes the entirety of the creative process, from researching initial ideas to realizing them in three-dimensional form. Throughout the text, guidelines are given to provide structure to the interior design process and the reader is encouraged to adapt and initiate methodologies to suit individual project needs. This approach is intended to give designers a belief in their own abilities, and the confidence to tackle different projects with the unique challenges that each one brings. The book features a variety of diagrams and talking points to encourage students and practitioners to think about key issues such as understanding spatial relationships and the use of sustainable materials. This second edition includes new case studies focusing on well-known international interior design studios, such as Conran and Partners, UK, Slade Architecture, US, Gensler, US and award winning architects Chae-Pereira in South Korea. The introduction of interviews with contemporary interior designers allows readers an insight in to the

working world of interior design. The new projects allow students to explore what they have learned in each chapter through experimentation and these activities encourage creativity and further learning.

Contemporary Retail Design

The world of retail design operates with a dynamism not often encountered in other commercial sectors. To successfully deliver a retail project, the store planner must possess a good working knowledge of a wide range of disciplines. As well as design, these include matters as diverse as store operations to materials and construction methods. *Contemporary Retail Design: A Store Planner's Handbook* provides a comprehensive overview of the store planning process and is an essential companion for anyone embarking on a retail design project. Written from the perspective of the designer, it contains practical guidance on every step of the design and construction process including: an introduction to store types and their history; what to consider when planning a store; the practicalities of layout versus the psychological response of the shopper; the range of materials and finishes available and how to use them successfully; what to consider when planning for building services, security and store operations. The book's practical advice is supplemented with case studies showing examples of best practice, and is illustrated with 200 drawings and photographs from a wide variety of stores around the world.

Basics Interior Architecture 05

A focused and informative introduction to many of the materials used in the design of contemporary interior spaces. It also explores the use of sustainable materials.

The Interior Design Reference & Specification Book

Guides students and professionals through the interior design process, from planning to execution, in an updated edition that includes new information on project management, building systems and codes, and lighting.

Lighting Design Basics

Lighting is a basic, yet difficult-to-master, element of interior design, and *Lighting Design Basics* provides the information you need in a concise, highly visual format. Two leading designers, both with decades of experience, offer straightforward coverage of concepts and techniques, and present realistic goals you can use as guides to creating simple, typical lighting designs and when collaborating with professional designers on more complex projects. Design scenarios for more than twenty different spaces illustrate real-world case studies for illuminating residential and commercial spaces, from kitchens to doctors' offices. Each scenario includes an in-depth rationale for the proposed solution, insightful lighting distribution diagrams, floor plans, and details for lighting installation and construction. In addition, exercises allow you to develop lighting design skills in preparation for working on actual projects, as well as the NCIDQ and NCARB exams. Packed with informative illustrations, *Lighting Design Basics* is an invaluable resource for students, as well as interior designers and architects studying for professional licensing exams.

Basics Interior Design 02: Exhibition Design

Commercial trade fairs, brand experiences, themed attractions, world expositions, museum galleries, visitor centers, historic houses, landscape interpretation and art installation are all areas that can be categorized under the broad umbrella term of 'exhibition'. Millions of people visit exhibitions of one sort or another every year and globally it is a multi-billion dollar industry. *Basics Interior Design: Exhibition Design* offers a better understanding of the complexity of exhibition design as a discipline, by exploring the role of the exhibition designer as a creative practitioner. It considers the blurring of borders with other design disciplines, but interior, graphic design and marketing in particular. Supported by case study examples and practical in nature, this book offers a guide on how to approach the design of the narrative.

The Interior Design Course

Whether you are keen to develop your interest in interior design and build your skills, or to pursue a career and begin a portfolio, then this book is for you. Specifically designed to cover all aspects of interior design, this intensive course introduces the practice of basic design principles through set projects. Inspiration and imagination are the first key steps to starting your study. Whatever your

background, this course will encourage your individual creativity and help you to explore and further your own design ideas.

Designing Commercial Interiors

The definitive reference on designing commercial interiors-expanded and updated for today's facilities. Following the success of the ASID/Polsky Prize Honorable Mention in 1999, authors Christine Piotrowski and Elizabeth Rogers have extensively revised this guide to planning and designing commercial interiors to help professionals and design students successfully address today's trends and project requirements. This comprehensive reference covers the practical and aesthetic issues that distinguish commercial interiors. There is new information on sustainable design, security, and accessibility-three areas of increased emphasis in modern interiors. An introductory chapter provides an overview of commercial interior design and the challenges and rewards of working in the field, and stresses the importance of understanding the basic purpose and functions of the client's business as a prerequisite to designing interiors. This guide also gives the reader a head start with eight self-contained chapters that provide comprehensive coverage of interior design for specific types of commercial facilities, ranging from offices to food and beverage facilities, and from retail stores to health care facilities. Each chapter is complete with a historical overview, types of facilities, planning and interior design elements, design applications, a summary, references, and Web sites. New design applications covered include spas in hotels, bed and breakfast inns, coffee shops, gift stores and salons, courthouses and courtrooms, and golf clubhouses. In keeping with the times, there are new chapters focusing on senior living facilities and on restoration and adaptive use. A chapter on project management has been revised and includes everything from proposals and contracts to scheduling and documentation. Throughout the book, design application discussions, illustrations, and photographs help both professionals and students solve problems and envision and implement distinctive designs for commercial interiors. With information on licensing, codes, and regulations, along with more than 150 photographs and illustrations, this combined resource and instant reference is a must-have for commercial interior design professionals, students, and those studying for the NCIDQ licensing exam. Companion Web site: www.wiley.com/go/commercialinteriors

Interior Design Basics

Interior Design Basics is a self-help manual with short and concise teaching on the basics of Interior Design. Its purpose is to give the home owner tips on how she can more effectively decorate her home. Over 150 pages of instructional text and black and white illustrations cover topics from designing a furniture layout for a room through to choosing color and fabrics for wall and window treatments and finishing with lighting and accessories. Special consideration has also been given to kitchen and bathroom layout and design. Filled with helpful information, Interior Design Basics is a worthwhile tool for those who want to decorate with more expertise.

Interior Design Visual Presentation

The new, updated edition of the successful book on interior design Interior Design Visual Presentation, Second Edition is fully revised to include the latest material on CAD, digital portfolios, resume preparation, and Web page design. It remains the only comprehensive guide to address the visual design and presentation needs of the interior designer, with coverage of design graphics, models, and presentation techniques in one complete volume. Approaches to the planning, layout, and design of interior spaces are presented through highly visual, step-by-step instructions, supplemented with more than forty pages of full-color illustrations, exercises at the end of each chapter, and dozens of new projects. With the serious designer in mind, it includes a diverse range of sample work, from student designers as well as well-known design firms such as Ellerbee and Beckett Architects and MS Architects.

Drawing for Interior Design

This book covers all stages of visual presentation as part of the interior design process, from the most basic initial sketches, to models, to fully developed computer-generated visualizations. In four chapters this easy-to-follow text explains the basics, conception, presentation and production. With a varied and comprehensive range of images, this book is an invaluable, inspirational and practical resource for interior architecture and design students and practising interior designers alike.

Design for Shopping

'Design For Shopping' showcases a comprehensive selection of recent retail interiors from around the world. Following a brief introduction, the book is divided into seven themed chapters. As a special feature each chapter begins with an interview with a key figure in the world of retail design.

Retail Design

The age of digital communication and the Internet pose new challenges to the retail world in the 21st century. This book offers a comprehensive overview of recent and current projects which rise to the challenges of redefining shopping and display spaces.

Human Dimension and Interior Space

The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With Human Dimension and Interior Space, these standards are now accessible to all designers of interior environments.

Interior Design

This is a benchmark book which encourages interior designers to raise their professional status and offers their clients an insight into the complex profession of modern interior design. It demystifies what an interior designer does, and showcases the range of skills that interior designers can bring to a project to help achieve a successful outcome. The book attempts to explain the broad scope of the interior design profession, including: • the wide range of projects and specialisms • the people, roles and relationships • the skills and knowledge that designers need • the benefits of using a designer • the importance of a good client-designer relationship. Case Studies illustrate key points, pinpointing important project types and showcasing designers working in specialist fields and include comments from clients and end-users.

Interior Design in Practice

Through real-world case studies, master the business of interior design practice Whether you hope to own your own company, grow your company, or rise high in the managerial ranks of a larger practice, you must have a tight grasp of business basics in order to succeed as an interior designer. Interior Design in Practice provides the vital business education an interior designer needs. It describes in detail how to plan and launch an interior design business, and how to grow that business towards success. Through real-world case studies, you'll learn the essentials of building a design practice, including: Deciding how and when to use business planning, strategic planning, and financial planning

to your benefit Techniques to build teams and motivate team members Ways to avoid costly mistakes Advice on branding and marketing your firm and yourself Methods to integrate new technology into your day-to-day practice, marketing, and networking Coauthored by a former ASID national president and an experienced design writer and editor, *Interior Design in Practice* assists interior designers with practical, from-the-field advice, along with enlightening case studies throughout the book. Both budding entrepreneurs and seasoned design practitioners will find this comprehensive, real-world guide a welcome stepping-stone to success.

Designing Commercial Interiors

A practical, comprehensive resource for commercial interior design *Designing Commercial Interiors* is the industry standard reference, now fully revised and expanded to reflect the latest developments in commercial interior design. This book guides you through the entire design process, from planning to execution, to teach you the vital considerations that will make your project a success. This new third edition includes new: Sustainability concepts for a variety of commercial spaces Coverage of accessibility, security, safety, and codes—and how these factors influence commercial design Chapters on design research, project process, and project management Drawings and photographs of design applications Supplemental instructor's resources Commercial interior design entails a much more complex set of design factors than residential design, and many of these considerations are matters of safety and law. This book walks you through the process to give you a solid understanding of the myriad factors in play throughout any commercial project, including how the global marketplace shapes designers' business activities. Whether it's a restaurant, office, lodging, retail, healthcare, or other facility, the interior designer's job is much more complicated when the project is commercial. *Designing Commercial Interiors* is an exhaustive collection of commercial design skills, methods, and critical factors for professionals, instructors, and those preparing for the NCIDQ exam.

Drawing for Interior Design

"This book covers all stages of visual presentation as part of the interior design process, from the most basic initial sketches to fully developed computer-generated visualizations. Following a brief introduction four chapters take the reader through the design process, from the basics to conception, presentation and production. This second edition includes more practical advice on techniques, more case studies, step-by-step sequences and updated examples. With a varied and comprehensive range of images, this book is an invaluable, inspirational and practical resource for interior design students."--

How to Open and Operate a Financially Successful Interior Design Business

Book & CD-ROM. An active real estate market has turned interior design into a boom industry in recent years. Interior designers owning their own firms have a median income of \$75,000. Tens of thousands of homes are for sale in the United States today, and many need the help of an interior designer to be sold. Interior designers create the spaces where we work, play, and live every day. Whether it is a private residence, corporate office, retail store, or a zany restaurant, interior designers use their creativity, as well as their knowledge of colour principles, architecture, and design, to make it work and look amazing. As a result, they are well compensated for the work. This guide provides readers with an understanding of the basic concepts of starting their own interior design business. This book is a comprehensive and detailed study of the business side of interior design. You will learn everything from the initial start-up decisions to working with clients. If you are investigating opportunities in this type of business, you should begin by reading this book. You can build a highly successful business using your talent and understanding of colour and architectural features, while providing a much needed service to home owners. If you enjoy working with people and have that creative knack, this may be the perfect business for you. Keep in mind that this business looks easy but, as with any business, looks can be deceiving. This complete manual will arm you with everything you need, including sample business forms; contracts; worksheets and checklists for planning, opening, and running day-to-day operations; setting up your office; and dozens of other valuable, timesaving tools of the trade that no business should be without. While providing detailed instruction and examples, the author leads you through every detail that will bring success. You will learn how to draw up a winning business plan (the companion CD-ROM has the actual business plan you can use in Microsoft Word® and about choosing a name; getting Started; the who, what, when, why, and how of interior design; equipment; selling your other services to your present customers; home staging and interior redesign; how to build a portfolio; how to get your first clients; how to attract and bid on new jobs; contracts and billing procedures;

advertising; insurance; legal matters; basic cost control systems; market research; getting new clients; tax laws; zoning laws; pricing; leads; sales and marketing techniques; and pricing formulas. You will learn how to set up computer systems to save time and money, how to hire and keep a qualified professional staff if necessary, how to meet IRS requirements, how to manage and train employees, how to generate high profile public relations and publicity, and how to implement low cost internal marketing ideas. You will learn how to build your business by using low and no cost ways to satisfy customers, as well as increase sales and have customers refer others to you. You will learn the basics of accounting and bookkeeping procedures, auditing, successful budgeting, and profit planning development, as well as thousands of great tips and useful guidelines. This manual delivers innovative ways to streamline your business. Learn new ways to make your operation run smoother and increase performance. Successful entrepreneurs will appreciate this valuable resource and reference it in their daily activities as a source of ready-to-use forms, Web sites, operating and cost cutting ideas, and mathematical formulas that can easily be applied to their operations. The companion CD-ROM contains all the forms found in the book, as well as a sample business plan you can adapt for your own use.

Interior Design

Successful interior design requires the resolution of a multitude of problems, from views and connections to lighting and furnishing. In this book interior designer Anthony Sully provides a conceptual approach to analysing structure, function, space and light, and styling forms. Each topic is divided into graspable elements, making this an accessible text for students and a useful handbook for experienced practitioners wishing to recharge their batteries.

Retail Design

The late twentieth century saw rapid growth in consumption and the expansion of retailing and services. This was reflected in the number and type of stores and locations, from regional shopping malls and out-of-town superstores to concept and flagship stores. Retail design became an essential part of its success by creating distinctive brands and formats. However, the economic recession in the developed world and competition for consumer goods from the developing world has led to a re-assessment of the growth-led conventions of the retail industry. In addition, the rapid advance of e-commerce and online shopping has created new challenges for physical stores and the communication and distribution of retail brands. The book will provide students, researchers and practitioners a detailed assessment of retail design, taking a distinctive global approach to place design practice and theory in context. Chapters are devoted to key issues in the visual and structural contribution of design to retail brands and format development, and to the role of design in communication. In the course of the book, the authors engage with problems of convergence between retailing and other services and between the physical and virtual worlds, and also changing patterns of use, re-use and ownership of retail spaces and buildings. Retail Design concerns designers and organisations but also defines its broader contribution to society, culture and economy.

Basics Spatial Design

Architecture does not consist of two-dimensional drawings – it is built space. The volume Basics Spatial Design focuses on what underlies the perception and design of space and helps to create a deep understanding of the conscious design of three-dimensional relationships. It presents possibilities for spatial design clearly and in a manner that is easily adaptable for one's own work. Topics: What is space? How do I perceive space? Design parameters – elements of space Repertoire – using the tools

Detail in Contemporary Retail Design

Good retail design must attract and keep customers, support a brand or store's image, showcase the product, and work as a functional shopping environment. This book features 44 of the best recent examples of retail design from around the world, and examines the details within the larger decorative schemes. Projects range from specialist boutiques to branded high street chain stores, from fashion retailers to eateries, and include descriptive text, color photographs, floor plans, sections, and construction and decorative details. A bonus CD contains all the drawings as printed in the book, in both EPS and DWG (generic CAD) formats.

Building Type Basics for Retail and Mixed-Use Facilities

Publisher description

The Interior Design Handbook

THE BESTSELLING SWEDISH PHENOMENON What looks good and why? Design consultant Frida Ramstedt runs Scandinavia's leading interior design blog. In this book she distils the secrets of successful interior design and styling to help you create a home that works best for your space, taste and lifestyle. Filled with practical tips, rules-of-thumb and tricks of the trade, The Interior Design Handbook will help you to think like a professional designer. 'Frida has created this BIBLE to interior design ... such useful info that has taken me years to learn, all in one place' Rebecca Wakefield, Studio Fortnum 'Beautifully illustrated with handy line drawings ... The Interior Design Handbook gets down to the nitty gritty of successfully putting a room together' Fabric Magazine 'Take it to bed and you'll be utterly engrossed and enlightened' Stylist

Powershop 6: Retail Design Now

The latest volume in Frame's retail design series explores outstanding and inspirational destinations that are setting the direction of the industry today. From gallery-like fashion boutiques to community driven bookstores, 100 projects by a panoply of international designers offer a global overview of the current retail design scene. Projects were selected based on their original concept, creativity and innovative solutions. The book is divided into four chapters illustrating different approaches to the discipline. Interviews with designers Alberto Caiola, Alex Mok and Briar Hickling, and Johannes Torpe introduce the themes of each chapter. All in all, Powershop 6 offers insight into the importance of retail space in the age of e-commerce and the need for brands to value authenticity over tendencies. Features • From pop-ups and luxury boutiques, to food markets and gourmet shops, the projects are divided into chapters that illustrate different approaches to the discipline. • Sharp, easy to navigate, and outstanding graphic design. • This book is the definitive title to feature a wide range of retail space typologies while contextualizing them in the wider scope of contemporary industry trends.

Interior Design Materials and Specifications

Written from the viewpoint of the working designer, this textbook describes each material's characteristics and teaches students how to evaluate, select and specify materials.

Starting Your Career as an Interior Designer

Starting Your Career as an Interior Designer contains all the necessary tools and strategies to successfully launch and grow a professional design business in the competitive world of interior design. Drawing on the authors' extensive experience, this book includes case studies, and personal anecdotes that help teach you how to: - choose a design field - obtain and keep clients - garner referrals - market and position your business - bid competitively on projects - manage sales - organize a budget - manage start-up costs and cash flow - promote your business - branch out into product and architectural design - design within a retail environment - set pricing guidelines - sell to your target demographic - set up your office. Readers will find a history of the business side of interior design as well as various career tracks available to today's budding entrepreneur. Any early career interior designer or student looking for practical advice on the ins and outs of running a design firm will need this one-stop guide. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Store Design

Nowadays, the similarity and uniformity of products and service cannot meet the personalised demands of customers. To meet the requirements of customers in recent years, the design of retail stores has changed dramatically, particularly in designing the retail experience. This book analyses a variety of case studies to outline how designers are crafting an experience within the space, from organising store layout to designing enticing product displays. Projects in the book cover industries ranging from

wine to furniture to electrical appliances. This book provides both useful references and inspiration for professionals and students. AUTHOR: Brendan MacFarlane, born in New Zealand, graduated from the Southern California Institute of Architecture (Sci-Arc) in Los Angeles (1984) and received his Master's degree from the Harvard Graduate School of Architecture in Boston (1990). He has taught at the Bartlett School of Architecture in London, the Ecole Speciale d'Architecture in Paris, the Harvard School of Architecture in Boston, and at Sci-Arc in Los Angeles. Brendan has been regularly invited to participate in conferences and juries around the world, notably at the Architectural Association, the Pompidou Center, and at the Harvard Graduate School of Design. He is partner in the Architectural firm Jakob + MacFarlane, based in Paris, France. SELLING POINTS: * A fascinating and rarely-covered subject: the intersection of store design and retail experience * Pictures, drawings, and design ideas from over 40 case studies, carefully selected to demonstrate a broad range of store concepts * The book focuses on retail experience design in order to meet consumers' demands regarding product experience 280 colour, 80 b/w images

Retail Design

A practical guide to designing retail spaces. Illustrated with 300 color photographs, the book uses international case studies as the basis for examination of such topics as entrances, space planning and traffic circulation, and materials and finishes. Annotation copyrighted by Book News, Inc., Portland, OR

The Interior Design Business Handbook

Thousands of interior design professionals have come to rely on The Interior Design Business Handbook for comprehensive, accessible coverage of the essential procedures, tools, and techniques necessary to manage a successful interior design business. The Fifth Edition of this essential resource has been revised to address the latest trends and changes in the field, with new and updated material on business size and structure, building a brand, client development, social networking and Internet marketing, finances, purchasing, technology and software programs, and other key areas. Complete with more than 75 sample forms and letters, this Fifth Edition is a one-stop resource for all aspects of establishing and running an interior design business—from choosing a location and managing day-to-day operations to growing a business and putting it up for sale. All of the techniques and procedures in the book are rooted in real-world experience and are used daily in successful design firms throughout the United States. Filled with valuable information for solo practices and small firms as well as larger businesses, this book is an indispensable resource for seasoned professionals as well as interior designers who are at the start of their career.

The Fundamentals of Interior Architecture

Each element, or fundamental, uses theory and contemporary and historical references to illustrate the richness and diversity of design practice. The book contains five sections which together encapsulate the principle ideas, skills and knowledge that are employed in the creation of spatial solutions that support the needs of the client and which recognize the qualities of the building and its situation. Using illustrations and photographs these elements are identified and described in a way that makes them accessible to the reader.

Store Design and Visual Merchandising, Second Edition

The creative and science-driven design of the point of sale has become a crucial success factor for both retailers and service businesses. In the newly revised and expanded edition of this book, you will learn some of the shopper marketing secrets from the authors about how you can design your store to increase sales and delight shoppers at the same time. By the time you are through reading, you will have learned how shoppers navigate the store, how they search for products, and how you can make them find the products you want them to see. You will also be able to appeal to shopper emotions through the use of colors, scents, and music, as well as make shopping memorable and fun by creating unique experiences for your shoppers. The focus is on the practical applicability of the concepts discussed, and this accessible book is firmly grounded in consumer and psychological research. At the end of each chapter, you will find several takeaway points. The book concludes with the "Store Design Cookbook," full of ready-to-serve recipes for your own store design and visual merchandising process.

Stylish Retail Store Interiors

Stylish Retail Store Interiors collects the latest trends in retail design, offering inspiration in exploring new ways of creating spaces that capture a store's identity.

Basics Office Design

The dimensions of the core elements of office workplaces – desk and chair – together with the necessary circulation areas determine the design of office buildings. Starting with the module of the individual workplace, larger space configurations result from adding these workplaces in a variety of arrangements, resulting in different office layout typologies. In addition to the space required for desk and chair, it is necessary to provide the required distances as well as floor area for cupboards, movement, and circulation routes within the office rooms. Basics Office Design explains the parameters of this common design task in a clear and easy-to-understand way, placing as much emphasis on ergonomics, comfort, and orientation as on the space requirements, functional relationships, and the different types of offices.

Kelly Hoppen

Kelly Hoppen offers a wealth of experience and advice on achieving your signature style, making this a definitive master class in home design. This book is a must for any home decorator wanting to give their home a touch of Kelly Hoppen's distinctive style, the perfect combination of luxury with simplicity. Here, she reveals her trade secrets and shares her expert knowledge to ensure that your decorating project, however big or small in scale, runs smoothly, stays within budget, and achieves the look you want. In *The Groundwork*, part one of the book, she advises on basics, setting out the design process and weighing the choices, analyzing space, and working out what to do to improve the ergonomics of a home. She also identifies personal requirements and personal style. *Getting Started* looks at each room or key area in the home in detail, offering advice and ideas, highlighting the key issues and fundamental design principles applicable to each space, and providing helpful hints and guidelines on all aspects of decorating and furnishing that room. Ending with an invaluable address book of some of Hoppen's favorite sources, and with space to add the reader's own contacts and recommendations, this book is an essential companion to any home decorating project.

Interior Design Course

Offers step-by-step tutorials to guide readers through the design process and provides a photo gallery of finished examples by professional designers.

New Interior Design

The book is designed to give a stimulating idea of the current direction of international interior design by Nigel Coates, one of the foremost practitioners in the field. The author has selected approximately 30 international designers whose work he thinks is especially interesting. The book will then present a selection of work by these designers in such a way that the relations between different designers (both the differences and similarities) are brought out as well as broader themes in current interior design. While each project selected will be featured over a series of pages, the same project may crop up at various other points through book. The purpose of this is to draw comparisons between each project by letting them cross over into one another's territory. Hence 'Collidoscope', the provisional title of the publication. As such, it should work both as a sourcebook with reference to current tendencies in design and to the ideas that underpin them. It will foreground the designers yet raise challenging differences and overlaps between them.

Kaleidoscope

From joyful full house case studies that are lightly speckled or heavily doused in color, to interviews with renowned designers about the rooms they've designed that showcase the beauty in brightness, this book explores ways to use color in the home to varying degrees, taking the reader into the world of the colorful, happy house. The trend for designing homes with a move away from neutral spaces, towards bringing enlivening color, is steadily growing. This color movement isn't about fleeting Instagram trends, though; it's about bringing brightness into your life to uplift your mood and add joy to a space to positively impact everyday life. By exploring 20 of the world's most inspiring, colorful homes and talking

to interior designers, stylists, tastemakers and creatives, Amy explains how they incorporate color into their projects, and what their tips can teach us about embracing color, too.

Fusion Interiors

The new Home series from Beta-Plus invites you to take a fascinating journey through the most beautiful and inspiring interiors. The thirty volumes in this series are thematically divided by room (living rooms, bathrooms, kitchens and so on), and also by style (including designer homes, country houses and contemporary interiors). The reports in these books combine to create a unique voyage of discovery through modern trends in decoration and architecture, reflecting the lifestyle and outlook of people who live in these beautiful homes. Home series is a unique collection of thirty titles, eclectic and stylish, devoted to interior design and decoration, and presented in a handy format. Every book shows the finest projects by leading architects and interior specialists, in a kaleidoscope of styles and genres, and is packed with ideas for your own home. With over 100 colour photographs, this book provides the ultimate pocket guide to fusing design ideas from around the world into a coherent, lucid living space. 130 colour illustrations

Kaleidoscope

'Kaleidoscope' is a showcase of surprisingly different residences that range from the beautiful to the bizarre. While some of the featured examples are reminiscent of time capsules and others of film sets, all of them defy categorisation.

Home Decor

'Design For Shopping' showcases a comprehensive selection of recent retail interiors from around the world. Following a brief introduction, the book is divided into seven themed chapters. As a special feature each chapter begins with an interview with a key figure in the world of retail design.

Design for Shopping

This handbook offers a compelling collection of original essays that seek to examine the shifting role of interior architecture and interior design, and their importance and meaning within the contemporary world.

The Handbook of Interior Architecture and Design

The subject of interior architecture currently lacks a detailed and educationally focussed text. The new Basics Interior Architecture series will fill this gap, and expand students knowledge of interior design/interior architecture and give an insight into some of the principles and methods of professional interior architects. The first book in the Basics Interior Architecture series, Form & Structure will propose a method of analysis, understanding and exploitation of the existing building that can be used to realise the design of a new insertion.

Toward a New Interior

The Interior Design Reference & Specification Book collects the information essential to planning and executing interior projects of all shapes and sizes, and distills it in a format that is as easy to use as it is to carry. In this new, revised edition, you'll also find interviews with top practitioners drawn across the field of interior design. Some of the topics this excellent reference will explore with you include: -Fundamentals: Provides a step-by-step overview of an interior project, describing the scope of professional services, the project schedule, and the design and presentation tools used by designers. -Space: Examines ways of composing rooms as spatial environments while speaking to functional and life-safety concerns. -Surface: Identifies options in color, material, texture, and pattern, while addressing maintenance and performance issues. -Environments: Looks at aspects of interior design that help create a specific mood or character, such as natural and artificial lighting, sound, and smell. -Elements: Describes the selection and specification of furniture and fixtures, as well as other components essential to an interior environment, such as artwork and accessories. -Resources: Gathers a wealth of useful data, from sustainability guidelines to online sources for interiors-related research.

Basics Interior Architecture 01: Form and Structure

Home Décor invites readers on a fantastic journey into the heart of inspiring homes. The collection contains ten useful volumes categorized by different rooms, different interior design elements and different kinds of houses. Featuring something for every home and every need, Home Décor allows readers to explore various eclectic atmospheres in a range of styles from country to contemporary. With the countless pages of colourful spaces with great personality, each volume of this collection is a true kaleidoscope of great ideas in interior design and decoration. The thirtieth, and final, volume in the Home Decor series charts the work of architects and interior designers who have gone in search of the essence of living close to the sea.

The Interior Design Reference & Specification Book updated & revised

Maximizing reader insights into interior design as a conceptual way of thinking, which is about ideas and how they are formulated. The major themes of this book are the seven concepts of planning, circulation, 3D, construction, materials, colour and lighting, which covers the entire spectrum of a designer's activity. Analysing design concepts from the view of the range of possibilities that the designer can examine and eventually decide by choice and conclusive belief the appropriate course of action to take in forming that particular concept, the formation and implementation of these concepts is taken in this book to aid the designer in his/her professional task of completing a design proposal to the client. The purpose of this book is to prepare designers to focus on each concept independently as much as possible, whilst acknowledging relative connections without unwarranted influences unfairly dictating a conceptual bias, and is about that part of the design process called conceptual analysis. It is assumed that the site, location, building and orientation, as well as the client's brief of activities and needs have been digested and analysed to provide the data upon which the design process can begin. Designed as a highly visual illustrative book, as the interior design medium demands, the hands-on creative process of designing is detailed with original drawn illustrations. Concentrating on the conceptual process of designing interiors, and defining what these concepts are, this book will help the designer to organise his/her process of designing and to sharpen the links between the various skill bases necessary to do the job. This book will be stimulating for students and instructors alike and is aimed at any student who maybe majoring in interior design, interior architecture, architecture, design thinking or furniture design. It could also be a useful reference for students of design management and design leadership.

Seaside Living

Newly updated and overflowing with color, this well-established history of interior design describes and illustrates each movement and change in taste throughout the twentieth century. Interior design experienced an extraordinary amount of changes in taste and style during the twentieth century. From William Morris and the Arts and Crafts movement to expressionism, postmodernism, and green design, Interior Design Since 1900 charts them all. Featuring more than two hundred color illustrations of interiors from around the world, this book reveals the fundamental changes in style that occurred throughout the century. The 1900s saw the emergence of professional designers and a growing appetite to redesign homes to keep up with popular fashion. In recent decades, the focus has shifted toward public spaces and sustainable design. In this survey, Anne Massey explores the social, political, economic, and cultural contexts of these developments. This book has been a classic introduction to interior design for almost thirty years. The new, fourth edition is brought up-to-date with a chapter on transnational design, encompassing mid-century modernist work in Singapore and Sri Lanka, as well as more recent interior spaces, including luxury hotels in Dubai and a contemporary art museum in Cape Town. Through this book, Massey shows how a shared language of design and cutting-edge technology are reshaping interiors around the globe.

Interior Design: Conceptual Basis

Interior design, as a relatively young discipline within the academic world of design, has historically been interpreted as an extension of other fine arts. Narratives exist, but they all too often treat interior design as a function of architecture or display rather than experience. An independent interior design theory is virtually nonexistent. Professor Lois Weinthal envisions a future where interior design is treated with parity to architecture and industrial design, a future with a new interior. A reader for architects and interior designers, Weinthal has carefully curated a collection of forty-eight essays that will form the foundation of interior design theory and shape future interior space. Her introductory essays illuminate each source, prefacing and directing discussion of the material as it relates to interior design theory. Alluding to Le Corbusier's classic text, she has organized this material into a

framework that inspires conversation, marking a break with the past and forming a new vocabulary for the discourse. Contributions to the book's eight sections include essays by David Batchelor, Aaron Betsky, Petra Blaisse, Andrew Blauvelt, Beatriz Colomina, Le Corbusier, Robin Evans, Adolf Loos, Ellen Lupton, Charlotte Perkins Gilman, Michel Serres, Henry Urbach, Wim Wenders, and Mark Wigley.

Interior Design Since 1900

Home Decor invites readers on a fantastic journey into the heart of inspiring homes. The collection contains ten useful volumes categorized by different rooms, different interior design elements and different kinds of houses. Featuring something for every home and every need, Home Decor allows readers to explore various eclectic atmospheres in a range of styles from country to contemporary. With the countless pages of colourful spaces with great personality, each volume of this collection is a true kaleidoscope of great ideas in interior design and decoration. Offering an inspirational glimpse into the houses of architects, this book shows you how the professionals design their own homes.

Toward a New Interior

First published in 1997. Routledge is an imprint of Taylor & Francis, an informa company.

Home Decor: Architect's houses

Take a holistic approach to contemporary interior design. The interior design process is changing. In order to create truly engaging work, designers are developing a deeper and broader understanding of how design theory, research, and existing practice can help them make better decisions. This inquiry provides answers on how design is experienced, and its impact over time. At the same time, the profession is becoming increasingly collaborative. Designers today work closely with other professionals—such as architects, landscape designers, product designers, anthropologists, and business consultants—in new ways, engaging an expanding network of experts in the design process more than ever before. Written by renowned scholars Joy Dohr and Margaret Portillo, the book brings interior design theory and research to life utilizing a narrative inquiry approach that offers highly accessible coverage of the interior design world as it exists today. By looking at real-life stories that demonstrate what makes a memorable design, coupled with photographs and drawings to further illustrate these concepts, this book is a must-read for anyone interested in keeping abreast of interior design in the twenty-first century.

Encyclopedia of Interior Design

The second edition of *The Fundamentals of Interior Design* provides a thorough introduction to the key elements of interior design and the ideas that underpin them. The book describes the entirety of the creative process, from researching initial ideas to realizing them in three-dimensional form. Throughout the text, guidelines are given to provide structure to the interior design process and the reader is encouraged to adapt and initiate methodologies to suit individual project needs. This approach is intended to give designers a belief in their own abilities, and the confidence to tackle different projects with the unique challenges that each one brings. The book features a variety of diagrams and talking points to encourage students and practitioners to think about key issues such as understanding spatial relationships and the use of sustainable materials. This second edition includes new case studies focusing on well-known international interior design studios, such as Conran and Partners, UK, Slade Architecture, US, Gensler, US and award winning architects Chae-Pereira in South Korea. The introduction of interviews with contemporary interior designers allows readers an insight into the working world of interior design. The new projects allow students to explore what they have learned in each chapter through experimentation and these activities encourage creativity and further learning.

Design Thinking for Interiors

The new Home series from Beta-Plus invites you to take a fascinating journey through the most beautiful and inspiring interiors. The thirty volumes in this series are thematically divided by room (living rooms, bathrooms, kitchens and so on), and also by style (including designer homes, country houses and contemporary interiors). The reports in these books combine to create a unique voyage of discovery through modern trends in decoration and architecture, reflecting the lifestyle and outlook of people who live in these beautiful homes. Home series is a unique collection of thirty titles, eclectic and stylish, devoted to interior design and decoration, and presented in a handy format. Every book

shows the finest projects by leading architects and interior specialists, in a kaleidoscope of styles and genres, and is packed with ideas for your own home. Details in Architecture: Home Series Volume 24 focuses on the all-important details within your home; the smallest points that make all the difference to the overall look and design. 130 colour illustrations

The Fundamentals of Interior Design

Offering a thorough grounding in the principles of interior design, this book describes the qualities and skills needed to become an interior designer, examines the varied career opportunities available and gives a balanced inside view of the business today. Its broad, up-to-date approach unites history, theory and practice. Subjects covered include: how to develop a brief with a client; presentations and sample boards; choosing materials and designs; project planning and management. The book aims to inform and inspire as well as to equip new designers with a valuable route-guide to the profession. Principally written for interior design students, it will also serve as a reliable manual for aspiring amateurs.

Details in Architecture

An Essential Resource for Interior Designers, Students, and Design Teachers The Interior Design Reader is an essential source for the interior designer or design student, incorporating excerpts of key works on design theory from the ancient world to the twenty-first century. By documenting the ideas and philosophies that provided the foundations of design styles and movements through history, this rich book deals with design theory in its application to interior design. The compiled excerpts from writings about design range from classic to contemporary. Such luminaries include: Vitruvius Palladio Ruskin Morris Charles Eastlake Ellen Key Edith Wharton Elsie de Wolfe Walter Gropius Le Corbusier Dorothy Draper Billy Baldwin William Pahlmann Angelo Donghia Mark Hampton And many other prominent designers, living and deceased. The Interior Design Reader is a guide into design education, and will help students and practitioners alike form a deeper understanding of the connection between traditional theory and contemporary design practice. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Interior Design

Keep current with the latest trends in interior design today with this informative and inspiring guide in the 150 Best series, packed with 500 pages of color and black-and-white photography. Discover how internationally renowned architects and designers are revitalizing modern design in this must-have compendium showcasing 150 full-color living spaces. Renowned architects and designers from around the globe experiment with arrangement, color, texture, material, and finishes to create personalized spaces to suit every aesthetic preference. With full-color photographs, diagrams, and detailed descriptions, this exciting volume in the 150 Best series is a fount of ideas that will inspire students, young professionals, and seasoned pros alike to create beauty in everyday surroundings. A gorgeous, up-to-date chronicle of current design trends, 150 Best New Interior Design Ideas is an essential reference for designers, decorators, architects, and homeowners.

The Interior Design Reader

In the act of enclosing space and making rooms, we make and define our aspirations and identities. Taking a room by room approach, this fascinating volume explores how representations of domestic space have embodied changing spatial configurations and values, and considers how we see modern individuals in the process of making themselves 'at home'. Scholars from the US, UK and Australasia re-visit and re-think interiors by Bonnard, Matisse, Degas and Vuillard, as well as the great spaces of early modernity; the drawing room in Rossetti's house, hallways in Hampstead Garden Suburb, the Paris attic of the Brothers Goncourt; Schütte-Lihotzky's Frankfurt Kitchen, to explore how interior making has changed from the Victorian to the modern period. From the smallest room - the bathroom

- to the spacious verandas of Singapore Deco, Domestic Interiors focuses on modern rooms 'imaged' and imagined, it builds a distinct body of knowledge around the interior, interiority, representation and modernity, and creates a rich resource for students and scholars in art, architecture and design history.

150 Best New Interior Design Ideas

The new Home series from Beta-Plus invites you to take a fascinating journey through the most beautiful and inspiring interiors. The thirty volumes in this series are thematically divided by room (living rooms, bathrooms, kitchens and so on), and also by style (including designer homes, country houses and contemporary interiors). Compact Spaces is magnificently illustrated with over 100 colour photographs that show how to maximise your space through use of colour as well as the most efficient use of existing space. ILLUSTRATIONS 190 Colour Illustrations.

Domestic Interiors

The practice of interior design has become ever more specialised as new technologies have expanded how designers can use light, space, colour and decoration. At the same time, the study of the interior - private, public and corporate - has become a complex field. Interior design is now a rich and sophisticated discipline which draws on many others: psychology, cultural theory, philosophy, gender studies, anthropology, and history, as well as design history, architecture, art and craft, furniture, and fashion. Interior Design presents a critical introduction to contemporary theory and practice. The book highlights the key concepts behind the study of interiors in order to present an inter-disciplinary overview of the subject. Always aware that design is a practical discipline, the book is illustrated throughout with examples and detailed case studies of interior design practice.

Spaces for Leisure

Small Spaces

"From the Arts and Crafts movement to the present day - including discussions of Art Nouveau, Bauhaus, the Modern Movement and Art Deco through to Hi-Tech and green design - every style of interior since 1900 is charted in this concise, wide-ranging critical survey. Interior design in the twentieth century saw many changes in direction, all documented here, with the emergence of professional 'interior decoration' and its evolution into interior design. Interiors, domestic and other, are explored and placed within their social, political, economic and cultural context. This new and expanded edition

is brought up to date with a chapter on sustainable design, focusing on public spaces such as hotels, offices, factories and shops."--BOOK JACKET.

Design: The Key Concepts

A photographic tour through designers' own spaces, from a Greenwich Village town home to a Park Slope brownstone and beyond. Designers' homes often serve as laboratories where they are free to experiment. These spaces are filled with the designer's most personal and cherished objects, furnishings, and artwork that are concentrated expressions of their style and interests. New York Design at Home profiles 27 homes and looks at how these creative professionals—among them David Gresham, Ellen Hanson, Benjamin Pardo, Ariel Ashe, and many more—approach design in their personal space. Like most New York City residents, they are decorating with much smaller budgets than they have on their work projects, but they find creative ways to deal with tiny bathrooms, awkward and unusable kitchens, and shared living spaces. Photographed by Noe DeWitt, New York Design at Home highlights the carefully considered details within each interior—the Pablo Picasso painting reproduced as wallpaper, the kitchen utensils on display, textiles that provide pops of color in an otherwise monochromatic space—and captures the creative essence of these homes with new, never-before-published images.

Designer Bathrooms

The new Home series from Beta-Plus invites you to take a fascinating journey through the most beautiful and inspiring interiors. The thirty volumes in this series are thematically divided by room

(living rooms, bathrooms, kitchens and so on), and also by style (including designer homes, country houses and contemporary interiors). New York Design at Home

Home Decor invites readers on a fantastic journey into the heart of inspiring homes. The collection contains ten useful volumes categorized by different rooms, different interior design elements and different kinds of houses. Featuring something for every home and every need, Home Decor allows readers to explore various eclectic atmospheres in a range of styles from country to contemporary. With the countless pages of colourful spaces with great personality, each volume of this collection is a true kaleidoscope of great ideas in interior design and decoration. This book, the twenty-first in the series, highlights some of the most beautiful dining rooms from around the world.

Contemporary Kitchens

What is taste? This well-curated collection documents new theories and emerging critical practices in the field of interior design. It investigates taste, a concept central to the formation of the discipline in the eighteenth century that was repudiated by architects in the early twentieth century, but which continues to play an important role in interior design today. Essays by historians and critics are complemented by interviews with practitioners on the margins of normative practice and portfolios of the work of contemporary designers.

Home Decor invites readers on a fantastic journey into the heart of inspiring homes. The collection contains ten useful volumes categorised by different rooms, different interior design elements and different kinds of houses. Featuring something for every home and every need, Home Decor allows readers to explore various eclectic atmospheres in a range of styles from country to contemporary. With the countless pages of colourful spaces with great personality, each volume of this collection is a true kaleidoscope of great ideas in interior design and decoration.

After Taste

The new Home series from Beta-Plus invites you to take a fascinating journey through the most beautiful and inspiring interiors. The thirty volumes in this series are thematically divided by room (living rooms, bathrooms, kitchens and so on), and also by style (including designer homes, country houses and contemporary interiors). The reports in these books combine to create a unique voyage of discovery through modern trends in decoration and architecture, reflecting the lifestyle and outlook of people who live in these beautiful homes. Home series is a unique collection of thirty titles, eclectic and stylish, devoted to interior design and decoration, and presented in a handy format. Every book shows the finest projects by leading architects and interior specialists, in a kaleidoscope of styles and genres, and is packed with ideas for your own home. Compact Spaces is magnificently illustrated with over 100 colour photographs that show how to maximise your space through use of colour as well as the most efficient use of existing space. ILLUSTRATIONS 190 Colour Illustrations.

Bedrooms

"Adaptation Strategies for Interior Architecture and Design outlines a number of different approaches utilized when designing the interior. The book presents a series of processes that are based upon the responses to a space outlined for new occupation. These processes are exemplified by a series of strategies, which filter and synthesize a mixture of information, ideas and resources, in order to form a new, clear and meaningful spatial design. The book introduces readers to recombinant cultures, methods and processes that explore the importance of context in both its site specific and cultural meaning. It examines a number of approaches that show how the adaptation of existing and, in particular, old buildings, can provide unique and unusual transformative solutions for the historic and contemporary built environment. Each strategy is demonstrated through highly-illustrated case studies and will be contextualised with an introduction explaining exemplary or key developments in other creative and spatially related fields such as installation art, painting, sculpture and furniture design"--

Small Spaces

Interior Provocations: History, Theory, and Practice of Autonomous Interiors addresses the broad cultural, historical, and theoretical implications of interiors beyond their conventionally defined architectural boundaries. With provocative contributions from leading and emerging historians, theorists, and design practitioners, the book is rooted in new scholarship that expands traditional relationships between architecture and interiors and that reflects the latest theoretical developments in the fields of interior design history and practice. This collection contains diverse case studies from the late eighteenth century to the twenty-first century including Alexander Pope's Memorial Garden, Design Indaba, and Robin Evans. It is an essential read for researchers, practitioners, and students of interior design at all levels.
