#### The London Quarterly Review

Excerpt from The London Quarterly Review, Vol. 124: January-April, 1868 Lockhart says that Walter's regress in horsemanship probably reminds his father that it was time he should be learning other things beyond the department of Aunt Jenny and Uncle Thomas. Be this as it may, the Writer brought his lame son home 1778; and the same car, after trying first a little private school and then a private tutor, sent him with his brothers to the High School. His progress there was, by all accounts, more eccentric than steady. He never had patience, then or in a later life, to attend to the technicalities of grammar or syntax; but his quick apprehension and powerful memory enabled him to perform with little labour the usual routine of tasks. His place in the class was usually about the middle, with a tendency downwards rather than upwards. Yet his exceeding readiness, and a habit into which he fell of versifying such exercises as were taken from the Latin poets, won him the esteem and respect of the Rector, Dr. Adam. The following instance of his readiness is worth giving. It happened on one occasion that a stupid boy, boggling at the meaning of the Latin word cum, was asked, What part of speech is with? The dolt replied, A tantative. The Rector, after a moment's pause, thought it worth while to ask the data, or head boy, whether with was ever a substantitive. No answer was given by him or by others, till it came to Scott's turn, when he replied, And Samson said unto Delilah, if they bind me with seven withs that were never dried, then shall I be weak, and as another man. #### Life of George Eliot

The purpose of this collection is to bring together representative examples of the most recent work that is taking an understanding of children and childhood in new directions. The two key overarching themes are diversity: social, economic, geographical, and cultural; and agency: the need to see children in industrial England as participants - even protagonists - in the process of historical change, not simply as passive recipients or victims. Contributors address such crucial subjects as the varied experience of work; poverty and apprenticeship; institutional care; the political voice of children; child sexual abuse; and children and education. This volume, therefore, includes some of the best, innovative work on the history of children and childhood currently being written by both younger and established scholars.

#### The Quarterly Review (London)

Widely regarded as the greatest German literary figure of the modern era, Johann Wolfgang von Goethe was a prolific author of novels, epic and lyric poetry, prose, plays, scientific treatises and autobiography. A literary celebrity by the age of 25, Goethe achieved enormous success with his first novel, 'The Sorrows of Young Werther'. Inspiring the imagination of a generation, it was the first novel of the Sturm und Drang movement, which exalted nature, feeling, and human individualism, seeking to overthrow Rationalism. 'Faust', Goethe's two-part dramatic masterpiece, is regarded as the supreme work of his later years and is often cited as Germany's greatest contribution to world literature. Based on the traditional theme of the eponymous scholar making a pact with the demon Mephistopheles, the drama explores themes that encapsulate the fullest expression of the European Romantic movement,

Excerpt from The Quarterly Review, Vol. 54: Published in July September, 1835 You were yourself employed by his Majesty's Government in a voyage of observation, were you not -yes. - You communicated the results of that voyage to the King's Government i' - Immediately. You published the result - The Admiralty published the charts that arose from the survey; I published a little description myself.-can you state to the Committee any pecuniary circumstances connected with the result of that voyage - There were no pecuniary circumstances about it. I certainly received no public money for doing it, and my little narrative I gave to a bookseller, as I did not think that materials acquired in the king's service ought to be sold; at least, I should not have felt comfortable in making money by them.' #### The London Quarterly Review, Vol. 54

Excerpt from The London Quarterly Review, Vol. 54: April and July, 1880 It is at this point that the most awful risk of speculation arises. Is man capable of knowing, many legitimate sense of knowing, anything beyond that which the sense reveals Is that which the reason infers from the experience of sensation true or false From that which is known may we conclude the existence of other things and truths which are themselves not found within the sphere of the sensible? May such things, under any circumstances, ever be made known to man? That modern and popular form of the materialistic philosophy which is called Agnosticism, derives all its plausibility from the supposition that man has no knowledge which is not derived and attested by phenomena. It denies that we have any right to assume that anything exists which has any difference of nature from that which the sense apprehends. And since God is not a phenomenon it is asserted that we can predicate nothing concerning Him. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. #### The London Quarterly Review, Vol. 54

Excerpt from The London Quarterly Review, Vol. 54: July and September, 1835 But enough of these not very agreeable matters preliminary. Notwithstanding the bulk of the knight's book, a summary of his voyage need not cost us many pages; for though its duration was long, the incidents were few, and the results are next to nothing. Had he, on his arrival, published a small octavo volume, detailing the toils and sufferings of his band - their cares and anxieties - their hopes and disappointments - their domestic economy and mode of employing their time in the long and irksome nights of four successive winters - and their laborious land journeys, the most harassing and fatiguing of all - he might have furnished a powerfully interesting, though painful narrative, which would have been in the hands of every one; but his cumbersome part, in the form of a journal, reiterating the same uninteresting kind of objects through 740 huge pages, is enough to set the most resolute reader at defiance. It is whispered about that the Captain has endeavored to enliven matters by procuring the aid of a practised embroiderer of periods - viz. One Dr. McCulloch, who has (or had) some little reputation as a writer for the encyclopedias - this is very probable - there are many signs of patchwork in the performance - but the patches are more gaudy than beautiful, and at best they but make the coarse druggery of the original manufacturer look more dingy. #### The Church Quarterly Review, Vol. 54

Excerpt from The Church Quarterly Review, Vol. 54: For April, 1902 July, 1902 In our last article we discussed the question of the custom of acclaiming the king at the act of coronation. We will just mention the matter here in passing, because it is in Sanicroft's recension of the service that the custom appears for the first time in the rubrics. It is most probable that it is an innovation. Evelyn, who gives a very good account of the coronation of Charles II., mentions only the music. By this he presumably alludes to the singing of the anthem, The king shall rejoice, ' which followed the reading of Confortore by the archbishop. At the same time it is well to remember that arguments from the silence of eye-witnesses must be accepted with caution but the silence of the rubrics, Coupled with Evelyn's, suggests that there was no acclamation at the crowning of Charles II. ## Methodist Quarterly Review, 1872, Vol. 54 (Classic Reprint)

Excerpt from The Law Magazine, or Quarterly Review of Jurisprudence, Vol. 54: August-November, 1855; Vol. XXIII, New Series Such being the component elements of our Law Merchant, we would next remark that its history may properly be treated as divisible into three several portions, the first of these periods commencing with the Norman Conquest, and extending down to the time of Sir E. Coke, who became Chief Justice of the Common Pleas on the 30th of June, am. 1606, and presided in the Queen's Bench from 1613 - 1616; the second of the three periods above referred to extending from the last mentioned epoch down to the appointment of Lord Mansfield, in the year 1756; and the third reaching down to the present time, from the date last mentioned. During the first of these periods we shall find commerce slowly, and with difficulty. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. #### The Quarterly Review, Volume 84

This book explores the use of Confucianism by the Chinese Communist Party in its assertion of political legitimacy. Confucian thought offers an enduring framework for political legitimacy in East Asian societies, including China. All states strive to acquire legitimacy, and despite once denouncing Confucianism as the remnants of feudal poison, the Party is turning towards Confucianism as part of its legitimization efforts. This suggests that the Party is suffering from an ideological void in terms of legitimacy and legitimation due to the diminishing relevance of Marxism in Chinese societal practices. The book will devise a non-liberal legitimacy framework, drawing on the ideas of Habermas and Bernard Williams, to examine the legitimacy of the Party, and use an analysis of the elite discourse to determine the nature of the Confucian turn, in a sharp polemic that will interest scholars of Chinese politics, of the role of traditional beliefs in Asian modernity, and in China's future.

#### The Quarterly Review, Vol.125

George Orwell (1903-1950) is one of the most influential authors in the English language. His landmark novels *Animal Farm* (1945) and *Nineteen Eighty-Four* (1949) have been translated into many foreign languages and inspired numerous stage and film adaptations. His well-known essays "A Hanging" and "Shooting an Elephant" are widely anthologized and often taught in college composition classes. The writer is credited with inventing the terms "Big Brother," "thought crime," "unperson" and "double think." His name itself has become an adjective--"Orwellian." Seventy years after its publication, *Nineteen Eighty-Four* remains very popular, its sales surging in an era of enhanced surveillance and media manipulation. This literary companion provides an extensive chronology and more than 175 entries about both his literary works and personal life. Also included are discussion questions and research topics, notable quotations by Orwell and an extensive bibliography of related sources.

#### The British Quarterly Review

This collection of articles relates to a research area currently developing in the Humanities, which calls for philosophical and historical approaches to questions of sustainable development and waste management. The title of the issue reflects the central questions raised by all contributors: how are

waste and abundance represented, how may we conceptualize these representations, and what ethical problems do they raise? Particular attention is paid to the cultural and moral factors that condition our attitudes to waste and the ways in which literature addresses the problematic relationship that binds production, consumption and waste to social and political systems.
