 what are you running for?
 is winning the only measurement for you in your life? BE
 who are you running against?
 and if you always win against everybody
 then soon the people will stop cheering for you
 at the end of your life, if you look back..
 did you help them to get across the line?
 did you all finish together?
 because that is the best race you can ever run..
 so run! run this race called life!
 but don't forget it is not important if you win
 it is important how you run this race...

Library of Dreams

The secret dream home of a poor teenaged boy... The recurring nightmare of a federal agent... Stolen dreams sold as drugs... Forbidden dreams running rampant into the waking world... Dream lovers, dream captors, dream saviours and dream kings... Dreams can be hopes, dreams can be visions, dreams can be prophesies, and dreams can be horrors. They cross over into our waking hours or are forgotten just before dawn. They prompt us to take new chances in our lives, or replace a life we can't bear to face. Dreams are both another world and our own. Enter the Library of Dreams. This inaugural short story collection from PSG Publishing contains the work of fourteen authors from six different countries, covering every corner of the literary dreamscape. Featuring new stories from Charlotte Ashley, Emerald Delmara, Dee Drin, Kim Fry, Katherine A. Ganzel, Yzabel Ginsberg, JC McDowell, Tim McFarlane, Alexandra Owen, Milo Petrik, Adam Sigrist, Maya Starling, Josh Vitalie and Len Webster. Proceeds from sales of the Library of Dreams will be donated to LitWorld, a non-profit literacy organization fostering resilience, hope, and joy through the power of story. For more information, visit <http://litworld.org/>.

Unprofitable Dreams

Life. It is slipping by right now. Quietly. Unassumingly. Behind our backs. It happens to husbands and wives, to sculptors and schemers, to the saved and the damned, to me, and to you. Unprofitable Dreams is a collection of eight short stories about dreamers who are blinded by potential, pretense, and past phantoms. Can they wake up to their lives before it is too late? Will Sam be able to see his wife for who she truly is? Will Jane be able to see her new husband for who he is not? Can Daniel and Tricia overcome the scarring events of their pasts? Will Chester ever make it into Heaven? When dreams collide with reality, anything is possible and choices have to be made. Passivity is no longer an option. Hope is no longer an option. Because life lasts for just an instant and then it's .

Complete Short Stories

This is a collection of short stories based on my nightmares and dreams. I decided to compile all the stories into a complete collection. Dreams are a source of inspiration for most of my writing. It is rare for me to remember my dreams. It is even rarer for those dreams to make sense. During the few times that my dreams have something that resembles a plot, I rework it into a short story. Dreams with meat in their bones get turned into novels. This shows the importance of sleeping. A lot of writers have the bad habit of not sleeping. While you dream, the brain in the background is doing all the work for you. Then when you wake up, you have everything you need to write a good story. Without more preambles, I present to you my Complete Short Stories Collection.

Short Story Collection #1

This book is my first short story collection. I have six of my favorite short stories all compiled into one book. Please enjoy and let others know about this great deal! These are stories that teenagers and adults will enjoy all alike.

The Dream Lover

Funny, moving and sharply observed, these stories are confirmation of Boyd's status as one of English fiction's finest writers. Here are twenty-four gripping tales told in bold, distinct voices from Brazil to Africa and from Nice to Hollywood. This eclectic collection by the acclaimed author of *Restless* and *Brazzaville Beach* is a must-read for any lover of the short story.

Dreams

Dreams is a collection of beautifully written short stories based on author's dreams and life on a farm in South Africa. In *Dreams* depicts Olive Schreiner her fascinating looks on the world. Olive Schreiner (1855 –1920) was a South African author, anti-war campaigner and intellectual. Since the late 20th century, scholars have also credited Schreiner as an advocate for the Afrikaners, and other South African groups who were excluded from political power for decades, such as indigenous Blacks, Jews and Indians. Although she showed interest in socialism, pacifism, vegetarianism and feminism amongst other topics, her views escaped restrictive categorizations. Her published works and other surviving writings promote implicit values such as moderation, friendship, and understanding amongst all peoples, and avoid the pitfalls of political radicalism.

Before I Wake

From the critically acclaimed screenwriter of Doctor Strange and author of Sea of Rust and Queen of the Dark Things comes a hair-raising collection of short fiction that illuminates the strange, humorous, fantastical and downright diabolical that tantalise and terrorise us: demons, monsters, zombie dinosaurs and Death itself. In the novella 'The Soul Thief's Son' C. Robert Cargill returns to the terrain of the Queen of the Dark Things to continue the story of Colby Stevens . . . A Triceratops and an Ankylosaurus join forces to survive a zombie apocalypse that may spell extinction for their kind in 'Hell Creek' . . . In a grand old building atop a crack in the world, an Iraq War veteran must serve a one-year term as a punisher of the damned, condemned to consume the sins of others in the hope that one day he may find peace in 'In a Clean, White Room' (co-authored with Scott Derrickson). . . In 'The Town That Wasn't Anymore', the village of Pine Hill Bluff loses its inhabitants one at a time as the angry dead return when night falls to steal the souls of the living . . . And in the title story, 'We Are Where the Nightmares Go', a little girl crawls through a glowing door beneath her bed and finds herself trapped in a nightmarish wonderland - a crucible of the fragments of children's bad dreams. These tales and four more are assembled here as testament to Cargill's mastery of the phantasmagoric, making We Are Where the Nightmares Go and Other Stories a collection of unnerving horror and fantasy will keep you up all night and haunt your waking dreams.

We Are Where The Nightmares Go and Other Stories

In these short stories it's the ordinary things that turn out to be most extraordinary: the history of a length of fabric, say, and a forgotten jacket. Two sisters quarrel over an inheritance and a new baby; a child awake in the night explores the familiar rooms of her home, strange in the dark; a housekeeper caring for a helpless old man uncovers secrets from his past. The first steps into a turning point and a new life are made so easily and carelessly: the stories focus in on crucial moments of transition, often imperceptible to the protagonists. A girl accepts a lift in a car with some older boys, or a young woman reads the diaries she comes across when she's housesitting. Small acts have large consequences, and some of them reverberate across decades; things fantasised in private can reach out to affect other people, for better and worse. An older woman recovering from serious illness speaks to a lonely young man on a train; an old friend brings bad news to a dinner party; a schoolteacher in the throes of a painful affair in 1914 has mixed feelings about her pupils' suffragette-craze. The real things that happen to people, the accidents that befall them, are every bit as mysterious as their longings and their dreams.

Writing in the House of Dreams

Winner of the Sidewise Award for Alternate History All failed actor and unlicensed private eye Clark Gable has to do is impersonate a wealthy scriptwriter for a few hours, and sign a contract for the biopic of the inventor of a device which has transformed the world of entertainment. What could go wrong? True, he's seeing ghosts, but so's everyone else these days, at least when they go to the Feelies. And Europe is devastated by war, and America is sleep-walking toward Fascism. But what's that got to do with him? A great deal, it turns out, as he stumbles into a world of glamour, danger, preternatural forces and political intrigue. A dazzling blend of mystery, fantasy and history, and by turns witty, eerie and romantic, *Wake Up and Dream* is film noir with Technicolor wraiths. Praise for *Wake Up and Dream*: "It's 1940 and Hollywood is dominated by the feelies, movies that use the mysterious Bechmeir Field to transmit emotions into the minds of viewers. Clark Gable, a movie star turned private detective, is hired by April Lamotte to briefly impersonate her reclusive screenwriter husband, who's about to sell a biopic based on the inventor of the Bechmeir Field. After everything is signed, someone tries to kill Gable and pass it off as suicide. Gable's investigation into the incident draws him into a sordid conspiracy involving Hollywood's elite, far too many of whom are turning up dead. It all leads back to something called Thrasis, and a secret worth killing for. MacLeod (*Journeys*) expertly hits all the hard-boiled beats, delivering the creepy, fascinating, strange, and wholly enjoyable story with a noir melancholy, a keen eye for detail, and plenty of snappy dialogue." —Publishers Weekly (Starred Review) "Set in an antisemitic US drifting towards collusion with Nazi Germany, *Wake Up and Dream* slowly picks at the artifice of Hollywood to reveal its morally rotten core. MacLeod won the Arthur C Clarke award in 2009, and on the strength of this novel should do so again." —The Guardian

Though Blackwood wrote a number of horror stories, his most typical work seeks less to frighten than to induce a sense of awe. Good examples are the novels *The Centaur*, which climaxes with a traveler's sight of a herd of the mythical creatures; and *Julius LeVallon* and its sequel *The Bright Messenger*, which deal with reincarnation and the possibility of a new, mystical evolution in human consciousness.

The late modernists were the ones who let down the side; they saw the wave of the future, the erosion of literary and political borders, and they let the world in and so distinguished themselves from the refinements of the early modernists. This is the first book to make this fascinating distinction and to highlight this aspect of intellectual history and to situate Mina Loy, Djuna Barnes, Wyndham Lewis, and Samuel Beckett at this critical juncture.

Designed primarily as a text this volume is an up-to-date and integrated overview of physiological sleep mechanisms, brain function, psychological ramifications of sleep, dimensions of dreaming, and clinical disorders associated with sleep. It is accessibly written with specially boxed material that enhances

the text. Authored by a researcher/clinician/professor with more than 25 years of experience in sleep studies, *Understanding Sleep and Dreaming* provides a solid basis for those who are not expert in this area. It offers a good foundation for those who will continue sleep studies, while at the same time offering enough information for those who will apply this knowledge in other ways such as clinicians in their individual practices or researchers for whom sleep may be part of a specific study. It is an excellent text for courses on sleep at the undergraduate and graduate levels.

Haruki Murakami's passion for music runs deep. Before turning his hand to writing, he ran a jazz club in Tokyo, and the aesthetic and emotional power of music permeates every one of his much-loved books. Now, in *Absolutely on Music*, Murakami fulfills a personal dream, sitting down with his friend, acclaimed conductor Seiji Ozawa, to talk about their shared interest. They discuss everything from Brahms to Beethoven, from Leonard Bernstein to Glenn Gould, from record collecting to pop-up orchestras, and much more. 'Absolutely on Music is an unprecedented treasure... Talking about music is like dancing about architecture, it's often said, but what joy to watch these two friends dance.' *Guardian*

Dream Escapes is a collection of short stories by Beth McGirt Adams. Some of the best stories start as dreams. I have tons of story pieces written down on various pads and notebooks and in computer files, so I thought I would share some of them in this short story format. I titled this "Dream Escapes" because truly some of these snippets were just dreams. Some will only ever be these small glimpses, and some will hopefully turn into more developed novels one day.

Dialecticoma Dreaming is a journey into the imagination of dreams and philosophical minefields. I am often asked the question, where does that wild imagination of yours come from? It usually follows my recounting of a curious story of a grand or mysterious adventure on earth or in outer space, of strange happenings, or of events of incredible horror. My response to the question is almost always the same - I had this really weird dream last night. For as long as I can remember, my nights (and days) have been filled with a landscape of idiosyncratic symbol-filled stories. These are the tangents of life in my mind. This book pulls together a small number of short stories that have been inspired by my dreams.

Old Stories Retold explores the ways modern Chinese narratives dramatize and embody the historical sense that links them to the past and to the Chinese literary tradition. Largely guided by Walter Benjamin's discussions of history, G. Andrew Stuckey looks at the ways Chinese narrative engages a historical process that pieces together fragments of the past into new configurations to better serve present needs. By examining intertextual connections between separate texts, Stuckey seeks to discover traces of an "original," whether it be thought of as the past, history, or tradition, when it has been rewritten in modern and contemporary Chinese fiction. Old Stories Retold shows how the articulation of the past into new historical configurations disrupts accepted understandings of the past, and as such, can be intentionally pitted against modernist historical knowledge to resist the modernist ends that this knowledge is mobilized to achieve.
