In *The Carrier Bag Theory of Fiction*, visionary author Ursula K. Le Guin retells the story of human origin by redefining technology as a cultural carrier bag rather than a weapon of domination. Hacking the linear, progressive mode of the Techno-Heroic, the Carrier Bag Theory of human evolution proposes: 'before the tool that forces energy outward, we made the tool that brings energy home.' Prior to the preeminence of sticks, swords and the Hero's long, hard, killing tools, our ancestors' greatest invention was the container: the basket of wild oats, the medicine bundle, the net made of your own hair, the home, the shrine, the place that contains whatever is sacred. The recipient, the holder, the story. The bag of stars. This influential essay opens a portal to terra ignota: unknown lands where the possibilities of human experience and knowledge can be discovered anew. With a new introduction by Donna Haraway, the eminent cyberfeminist, author of the revolutionary *A Cyborg Manifesto* and most recently, *Staying with the Trouble* and *Manifestly* Haraway. With images by Lee Bul, a leading South Korean feminist artist who had a retrospective at London's Hayward Gallery in 2018.

Surveying for the first time the Century Guild of Artists (CGA) and its influential periodical, the *Century Guild Hobby Horse*, this original publication asserts the significance of the CGA in the development of the Arts and Crafts movement and its modernist successors. Founded by the architect Arthur Heygate Mackmurdo and his 18-year-old assistant Herbert Percy Horne (afterwards joined by the artist and poet Selwyn Image), the three men were driven by the ambition to answer John Ruskin's radical call to regenerate art and society. Motivated by the concept of 'the Unity of Art', the CGA embraced a spectrum of arts which included architecture, painting, sculpture, metalwork, textiles and stained glass. It also reached out to music and literature, aiming to educate its public in practical form. Skilfully weaving chronology with the impressive artistic achievements of the collective, the authors also draw out the lively personalities of each of the protagonists and their wider circle. For anyone fascinated by the Arts and Crafts movement, this is essential reading.

A Foodie Afloat is the story of a cook's journey through France on a barge. Di Murrell takes us on a gentle journey across France; her main preoccupation being to make sure that tasty food arrives on the table each day. As she voyages across the country she shows, through her recipes, how the cuisine changes with the landscape. Whether bought in the market, dug from a lock-keeper's garden or even foraged along the towpath, the food she finds and cooks is always seasonal and local to the region. This book is more than just a collection of recipes though. It is the result of a life spent on the waterways of Europe. She talks to lock-keepers, skippers of working barges and those, who, like her, find their sustenance on or near the canal. Di's enjoyment of good champagne, foie gras and truffles leads to an eclectic mix of simplicity and sophistication in her cooking. The boating life, though rarely sensational, is full of small events and chance encounters. This is an enticing story of slow boats and slow food. Di makes it come alive, and her combination of travel and recipe book tempts us to give up everything and join her on the waterways of Northern and Central France. A Foodie Afloat is the 2020 UK winner of the World Gourmand Cookbook Awards in the Food Tourism category.
