Why You Do the Things You Do

In this transformational book, the authors have used ground-breaking research to develop four primary patterns of relating to one another that shed light on our actions--and how we can learn to love and be loved even better.

Why You Do the Things You Do

"Understanding of why we relate to people and how we can steer away from negative patterns and break free of past mistakes to create satisfying connections with spouse, children, close friends, and God"--Provided by publisher.

Attachments

Unlock the secret to loving and lasting relationships! This book is for anyone who desires closeness, especially in the most intimate relationships: marriage, parenting, close friends, and ultimately with God. The answer to why people feel and act the way they do lies in the profound effect of a child's bonding process with his or her parents. How successfully we form and maintain relationships throughout life is related to those early issues of "attachment." Author Dr. Tim Clinton is recognized as a world leader in mental health and relationship issues—and he knows intimately what it is like to feel unloved. The child of a mentally ill mother who locked him in a closet and a father who was frequently gone, Clinton struggled with attachments for many years before discovering the secret to loving and being loved. Citing four primary bonding styles, you will learn: Why we love, feel, and act the way we do How to conquer depression, anxiety, anger, and grief How to be a sensitive, secure parent to your children How God's love is enough to penetrate the brokenness and remove negative emotions from your life If

you have come out of a painful, damaging, or traumatic past, reading this book will teach you how to experience the love and closeness you long to feel.

God Attachment

Why has the human race, the world over, been so fascinated with . . . some might say obsessed with . . . God? This built-in attachment to God crosses religious, political, ethnic, cultural, and generational barriers. Drs. Clinton and Straub reveal fascinating research about this worldwide phenomenon. From avoidant, anxious, and fearful to secure and personal, the range of responses to our internal attachment to God has a profound influence on the way we do relationships, intimacy, and life choices. With helpful self-assessments, intriguing questions, and surprising revelations, this book moves from worldwide statistics to personal challenge, offering the means to become securely attached to God in a way that can have positive effects on our attitudes, approach to life, and overall life satisfaction.

The New Christian Counselor

Seasoned counselors and professors Ron Hawkins and Tim Clinton offer a comprehensive guide that empowers Christian counselors by clarifying their task: to help people take possession of their souls... through the power of the Spirit under the authority of the Word in a supportive community of accountability that they may be like Christ. The authors address head-on today's enticing new imitations of true peace and tantalizing opportunities for people in pain to anesthetize themselves. But they also

highlight the foundation of hope: God loves, he empowers, and he refuses to abandon his passion for connection with his children. Case studies illustrate how to help people take possession of the thinking self, the feeling self, the decision-making self, the physical self, and the relational self. This comprehensive plan for effective intervention is perfect for lay counselors, students, and professionals looking for ways to integrate their faith and practice.

I Love Jesus, But I Want to Die

A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

Caring for People God's Way

Don't Call It Love

"You complete me" may be a romantic line in a popular movie, but it's not a healthy basis for a real relationship. Unfortunately, many people are drawn into relationships that are unfulfilling precisely because they are looking to other people to fill in the places where they are lacking--they are looking for a person who will "complete" them. At the heart of relationship dependency is a person's belief that he or she alone is not enough. But using others to provide wholeness simply does not work, because while we are made to be relationship dependent, it is God we must turn to in order to find wholeness. In a warm, engaging style, Drs. Jantz and Clinton walk readers through patterns of relationship dependency, helping them unravel why they are drawn back to the same dry well of unfulfilled relationships over and over again. Readers will discover how to break the cycle, banish their fears, and find wholeness in the God who designed them to be in relationship first and foremost with him, thus freeing them to find healthy relationships with others. Includes a twelve-week personal recovery plan.

Am I Codependent?

Drs. Jantz and Clinton help readers unravel why they're drawn back to the same types of unfulfilling relationships over and over again. Readers learn how to break the cycle of relationship dependency, focus on finding wholeness as unique individuals, and discover the key to finding a healthy relationship that lasts.

Leading Christian counselor Tim Clinton and noted author Pat Springle, help you: Identify why you gravitate toward unhealthy relationships Redefine love, trust—and your responsibility to the people you care about Learn which choices and behaviors cause relationship troubles Experience the freedom of forgiveness Learn to say yes when you want to and no when you need to. Give up your need to please,

rescue, fix, or control anyone else. Study questions, checklists, and inspirational stories help you find the moment when you break through to the loving, healthy relationships with the people who matter most!

Created for Belonging

Ultimately, we belong to God. He created us. He loves us. He provided the world where we live for our benefit. He desires for us to be in relationship, first and foremost, with him and then with one another. We are created in his image, where, if we truly examine ourselves, we find that we cannot find any other way to discover our ultimate meaning and connectedness outside of being connected ultimately to God. Sin separates. That's why God hates sin. He is a relational God, and he hates sin because it separates us from him. The study of psychology reveals to us the need in every human being to feel connected and significant, revealing that without them, the ability to thrive as an individual is hampered or may not occur at all. Coupled with God's Word and the transforming power of the Holy Spirit, we can experience some life-giving truths about our need for belonging.

The Human Face of Church

Until now, Fresh Expressions has been about starting and sustaining mission initiatives among people with little or no church contact. As these projects mature, pastoral problems easily arise - how do you integrate the old with the new? How do you get an established congregation to change its views and practices? How do you cope with conflict? What if newcomers challenge set patterns of church behaviour rather than conform with them? The publication is structured for use for training in local churches, theological colleges and as a research tool in postgraduate study.

The Presidents Club

The New York Times bestselling history of the private relationships among the last thirteen presidents—the partnerships, private deals, rescue missions, and rivalries of those select men who served as commander in chief. The Presidents Club, established at Dwight Eisenhower's inauguration by Harry Truman and Herbert Hoover, is a complicated place: its members are bound forever by the experience of the Oval Office and yet are eternal rivals for history's favor. Among their secrets: How Jack Kennedy tried to blame Ike for the Bay of Pigs. How Ike quietly helped Reagan win his first race in 1966. How Richard Nixon conspired with Lyndon Johnson to get elected and then betrayed him. How Jerry Ford and Jimmy Carter turned a deep enmity into an alliance. The unspoken pact between a father and son named Bush. And the roots of the rivalry between Clinton and Barack Obama. Time magazine

editors and presidential historians Nancy Gibbs and Michael Duffy offer a new and revealing lens on the American presidency, exploring the club as a hidden instrument of power that has changed the course of history.

The Secret Life of Bill Clinton

Breaking the biggest scoop of all: an assiduously documented exposé of "the blackwater scandals"--The scandals that have gone unreported in the American media, but that characterize the Clinton presidency as the most corrupt in history.

Turn Your Life Around

Noted counselor and author Dr. Tim Clinton writes about overcoming the troublesome things of your past in order to face a brighter future.

Focus on the Future

FOREWORD BY JAMES DOBSON The future is bright, victories are destined, and great things await the faithful who prepare. This book will equip you to protect your family, your society, and your convictions in a world that increasingly challenges your Christian faith. Tim Clinton an eminent American counselor and associate of the revered James Dobson, believes this moment in American history is a reprieve. It is a moment to take stock. It is a moment to prepare. It is a moment to focus on the future. We must know the season we are in and prepare to maximize our opportunities as we engage in the cultural battles that are sure to befall us. In his stirring new book, *Focus on the Future*, Clinton provides a learned overview of our embattled liberties, the intents of our Founding Fathers, and the heroic efforts of individuals such as Dobson to preserve those intentions. Clinton arms readers for the days ahead by tackling topics such as the following: The new war on the American family and how we can change America one family at a time The power of righteous masculinity and the forces determined to destroy it The battle against abortion How neuroscience is changing our approach to healing the traumatized, our veterans, and our society as a whole Clinton is not just a wise counselor. He is also a warrior summoning other warriors to their great cause. He challenges readers by chronicling the global persecution of the Christian faith and by telling believers how they can make a difference. *Focus on the Future* is both a culmination of decades of learning and activism as well as a cutting-edge response to today's events. We can indeed have vital families in a thriving nation and see righteousness pervade our land.

Making Sense of People

Every day, we evaluate the people around us: It's one of the most important things we ever do. *Making Sense of People* provides the scientific frameworks and tools we need to improve our intuition, and assess people more consciously, systematically, and effectively. Leading neuroscientist Samuel H. Barondes explains the research behind each standard personality category: extraversion, agreeableness, conscientiousness, neuroticism, and openness. He shows readers how to use these traits and assessments to do a better job of deciding who they'll enjoy spending time with, whom to trust, and whom to keep at a distance. Barondes explains: What neuroscience and psychological research can tell us about how personality types develop and cohere. The intertwined roles of genes, nurture, and education in personality development. How to recognize troublesome personality patterns such as narcissism, sociopathy, and paranoia. How much a child's behavior predicts their adult personality, and how personality stabilizes in young adulthood. How to assess integrity, fairness, wisdom, and other traits related to morality. What genetic testing may (or may not) teach us about personality in the future. General strategies for getting along with people, with specific tactics for special circumstances. *Kirkus Reviews* A succinct look at personality psychology. As a psychiatrist and neuroscientist at the University of California, Barondes (*Molecules and Mental Illness*, 2007, etc.) has spent years studying human behavior, and this book reflects his systematic, scientific approach for personality assessment. The average person isn't likely to have time to research a difficult boss or potential love interest, but the

author supplements intuition with a useful cornerstone for gauging human behavior: a table of the "Big Five" personality traits, among them Extraversion vs. Introversion and Agreeableness vs. Antagonism. To learn how to apply the Big Five, Barondes supplies a link for a professional online personality test, in addition to a basic introduction of troubling personality patterns—e.g., narcissism and compulsiveness. While genetics may play a heavy hand in influencing personality, Barondes writes, it's awareness of a person's background, character and life story that is paramount in unearthing reasons for adult behavior. Readers might like to see the author weave more everyday examples into the text—his exercise in fostering compassion by imagining an adult as a 10-year-old child is a gem—but there is plenty here to ponder. Those looking for traditional "self-help" advice won't find it here, but this book clearly lays the groundwork for deeper human interaction and better life relationships.

American Book Publishing Record

Ten years ago one of America's most important public figures, First Lady Hillary Rodham Clinton, chronicled her quest both deeply personal and, in the truest sense, public to help make our society into the kind of village that enables children to become able, caring resilient adults. **IT TAKES A VILLAGE** is a textbook for caring, filled with truths that are worth a read, and a reread. In her substantial new introduction, Senator Clinton reflects on how our village has changed over the last decade, from the internet to education, and on how her own understanding of children has deepened as she has watched Chelsea grow up and take on challenges new to her generation, from a first job to living through a terrorist attack. She discusses how the work she is doing in the Senate is helping children and looks at where America has been successful, improvements in the foster care system and support for adoption, and where there is still work to be done, providing pre-school programmes and universal health care to all our children. This new edition elucidates how the choices we make about how we raise our children, and how we support families, will determine how all nations will face the challenges of this century.

'This is one of those books that will go down as the seminal work — the determinative work — in this field ... Terrifying.' —Rachel Maddow The first definitive account of the rise and fall of the Secret Service, from the Kennedy assassination to the alarming mismanagement of the Obama and Trump years, right up to the insurrection at the Capitol on 6 January 2021 — by the Pulitzer Prize winner and #1 New York Times bestselling co-author of *A Very Stable Genius* Carol Leonnig has been reporting on the Secret Service for The Washington Post for most of the last decade, bringing to light the secrets, scandals, and shortcomings that plague the agency today — from a toxic work culture to dangerously outdated equipment to the deep resentment within the ranks at key agency leaders, who put protecting the agency's once-hallowed image before fixing its flaws. But the Secret Service wasn't always so troubled. The Secret Service was born in 1865, in the wake of the assassination of Abraham Lincoln, but its story begins in earnest in 1963, with the death of John F. Kennedy. Shocked into reform by its failure to protect the president on that fateful day in Dallas, this once-sleepy agency was radically transformed into an elite, highly trained unit that would redeem itself several times, most famously in 1981 by thwarting an assassination attempt against Ronald Reagan. But this reputation for courage and excellence would not last forever. By Barack Obama's presidency, the once-proud Secret Service was running on fumes and beset by mistakes and alarming lapses in judgement: break-ins at the White House, an armed gunman firing into the windows of the residence while confused agents stood by, and a massive prostitution scandal among agents in Cartagena, to name just a few. With Donald Trump's arrival, a series of promised reforms were cast aside, as a president disdainful of public service instead abused the Secret Service to rack up political and personal gains. To explore these problems in the ranks, Leonnig interviewed dozens of current and former agents, government officials, and whistleblowers who put their jobs on the line to speak out about a hobbled agency that's in desperate need of reform. 'I will be forever grateful to them for risking their careers,' she writes, 'not because they wanted to share tantalising gossip about presidents and their families, but because they know that the Service is broken and needs fixing. By telling their story, they hope to revive the Service they love.'
