Political Islam

This volume offers a comprehensive discussion of the contemporary debates within political Islam, providing an in-depth analysis of the specific movements, countries and regions in the Arab world and Israel. The contributors contend that the evolution of Islamic movements is contextual rather than ideological. Therefore, Islamic movements are best understood individually within their own historical, socio-political and cultural setting. Political Islam is an essential reference for academi, researchers and the media, as well as general readers with an interest in Islamic political debates. Contributors include Abdullah Baabood, Youcef Bouandel, Abdelwahab El-Affendi, Kamal Helbawy, Roel Meijer, Ibrahim Moussawi, Tariq Ramadan, Tilde Rosmer, Murad Batal al-Shishani, Sara Silvestri and Camille Tawil. '[Hroub's] work on Hamas is exceptional ... a lucid, informative and extremely valuable introduction to this complex organisation.' -- Sara Roy, Harvard University

Islam, Ideology and the Way of Life

The ideology of Islamic fundamentalists is of central importance in the modern world, but it is often distorted or misunderstood by the international media. This insightful study provides a detailed analysis of the Palestinian Hamas movement's world-view, and shows how the theoretical framework developed by thinkers such as Hassan al-Banna, Sayyis Qutb and al-Mawdudi is applied to a specific political, social and economic context. Nusse explains the fundamentalist position on recent events, such as the Gulf War, the Madrid peace negotiations and the Hebron massacre, and helps to dissipate myths surrounding modern fundamentalist movements and their overwhelming success as opposition movements in the modern world.

Understanding Radical Islam

This book sets forth the concepts relating to viewpoints concerning life. It identifies the principle behind these concepts and traces each such concept back to its source and origin, whether it emanates from the capitalist-democratic, communist-socialist, or Islamic principle. At the same time, it calls on people to establish bonds with one another, that is, intellectual bonds based on common principles. It also calls on them to distinguish one concept from another so that they can achieve the correct type of advancement and attain the exemplary ideology. First published in 1996. Routledge is an imprint of Taylor & Francis, an informa company.

Islam & Human Ideology

Political Islam, to be distinguished from Islam as a culture or a religion, and from Islamic Fundamentalism, is an increasingly important feature of the western political scene. The ideologies of Political Islam reflect the fact that some of their adherents live and work within a Western socio-political context. Although Political Islam has been widely written about in Muslim countries, very little has been published the West, and this book attempts to redress that imbalance. With a range of outstanding contributors that includes academics and human rights advocates this book tackles the diversity of Islamist thinking and practice in various Western countries and explores their transnational connections in both East and West. The book analyses developments in Islamist thinking and activities, and their connections to the latest global political and economic trends, and discusses future evolutions of the ideology and its manifestations.

Transnational Political Islam

Few ideals have excited such passions over the years as Pan-Islam, and few have been the subject of so many contradictory interpretations. Based on a shared religious sentiment, the politics of Muslim unity and solidarity have had to contend with the impact of both secularism and nationalism.

Ibn Khaldun and Islamic Ideology

Often called a religion of peace, Islam has become one of the most dangerous threats to the modern way of life. In Essays on the Ideology and Menace of Islam, author Martin Slann explores the impact of the Islamic religion in today's culture. This collection of essays will open your eyes to the truth behind Islam, the effects of Muslim immigration, and the governmental influence aiming to accept this belief system. Slann reveals how this religion from the Middle East is changing social standards in western society, from Europe to the United States of America. This timely work exposes the action of liberal

political leaders to implement the teachings of the Koran while putting the security of the American people at risk. With a focus on politics, as well as religious and historical evidence, Slann's profound work provides a realistic look at the fourteen-century-long conflict between Islam and the west.

The Politics of Pan-Islam

Despite the intense media focus on Muslims and their religion since the tragedy of 9/11, few Western scholars or policymakers today have a clear idea of the distinctions between Islam and the politically based fundamentalist movement known as Islamism. In this important and illuminating book, Bassam Tibi, a senior scholar of Islamic politics, provides a corrective to this dangerous gap in our understanding. He explores the true nature of contemporary Islamism and the essential ways in which it differs from the religious faith of Islam. Drawing on research in twenty Islamic countries over three decades, Tibi describes Islamism as a political ideology based on a reinvented version of Islamic law. In separate chapters devoted to the major features of Islamism, he discusses the Islamist vision of state order, the centrality of antisemitism in Islamist ideology, Islamism's incompatibility with democracy, the reinvention of jihadism as terrorism, the invented tradition of shari'a law as constitutional order, and the Islamists' confusion of the concepts of authenticity and cultural purity. Tibi's concluding chapter applies elements of Hannah Arendt's theory to identify Islamism as a totalitarian ideology.

Essays on the Ideology and Menace of Islam

"Analysts and pundits from across the American political spectrum describe Islamic fundamentalism as one of the greatest threats to modern, Western-style democracy. Yet very few non-Muslims would be able to venture an accurate definition of political Islam. Mohammed Ayoob's *The Many Faces of Political Islam* thoroughly describes the myriad manifestations of this rising ideology and analyzes its impact on global relations"--

Islamism and Islam

Maulana Maududi was an influential personality among Muslims of the World, in General and particularly among the Indian Muslims. Many of the Western writers regard him as the rejuvenator of the Political Islam in twentieth century. Many of them ascribed the present terrorism to him and his ideology, though it is yet to be proved. This work provides an immense insight into his political ideology, his vision of state as an instrument of social change, his coined term Theo-democracy, Form of Govt and relations among various organs of state in his proposal, his views on Fundamental Rights, status of Non-Muslims, his assigned role for Women in his proposed state whether she has to be segregated from the men's world or what?. All these questions are answered in this book. This work also analyses about his handi-work, Jamat -e Islami, that became a political force in Pakistan Politics and spread across borders. After the reader would be in a better position to judge him and his ideology impartially.

The Many Faces of Political Islam

"The aim of this book is to encourage mutual understanding between the Islamic and Western worlds. The majority of Muslims are peaceable, law-abiding citizens. However, Muslim fundamentalists, described here as ""Islamists""

The Concept of an Islamic State

While much current research on political Islam revolves around militant Islamism, the genesis of this ideology remains little understood. *A System of Life* is a pioneering examination of the earliest attempt at a systematic outline of Islamist ideology, namely that proposed in the 1930s and early 1940s by the renowned Indo-Muslim intellectual Sayyid Abu'l-A'la Mawdudi. Hartung reconstructs his thought in the light of the competing ideologies at play at the time, especially his claim to recast Islam as an all-comprehensive, self-contained and inner-worldly system of life. His analysis is embedded in an understanding of the history of ideas that assumed increasingly global dimensions through colonial encounters. By showing how Mawdudi -- depicted as a major protagonist of this development -- attempted to align elements of Western philosophical thought with selected traditional Islamic ideas and concepts, 'Islamism' is established as an Islamic contribution to a universalistic notion of modernity. Along with offering a detailed portrayal of Mawdudi's system of thought, Hartung also discusses the reception and modification of his ideas in the Middle East, predominantly among intellectuals of the Egyptian Muslim Brotherhood, and among their imitators in postcolonial South Asia.

Islam

The Muslim Brotherhood is one of the most influential Islamist organisations today. Based in Egypt, its network includes branches in many countries of the Near and Middle East. Although the organisation has been linked to political violence in the past, it now proposes a politically moderate ideology. The book provides an in-depth analysis of the Muslim Brotherhood during the years of al-Hudaybi's leadership, and how he sought to steer the organization away from the radical wing, inspired by Sayyid Qutb, into the more moderate Islamist organization it is today. It is his legacy which eventually fostered the development of non-violent political ideas. During the years of persecution, 1954 to 1971, radical and moderate Islamist ideas emerged within the Brotherhood's midst. Inspired by Sayyid Qutb's ideas, a radical wing evolved which subsequently fed into radical Islamist networks as we know them today. Yet, it was during the same period that al-Hudaybi and his followers proposed a moderate political interpretation, which was adopted by the Brotherhood and which forms its ideological basis today.

Political Ideology of Abul Ala Maududi

Describes the attitudes, aspirations and frustrations of the key players in Indonesian politics as they struggle to shape the future.

The 'West', Islam and Islamism

Ibn Warraq argues that we must take the beliefs of the jihadists seriously. He believes that the acts of ISIS or other Taliban are carefully and strategically planned operations that are a part of a long campaign by educated, affluent Muslims who wish to bring about the establishment of an Islamic state based on the Shari'a, the Islamic Holy Law derived from the Koran, the Sunna and the Hadith. He doesn't believe that the United States was targeted because of its foreign policy, or that it has to do with their socioeconomic background, with poverty as the favorite explanation.

A System of Life

This book highlights the conflict between jihadist militants and the West as essentially ideological in character. It has serious implications internalized by Muslim societies, with the boundaries of faith changed by the interplay of socio-political variables. Violence emerged in Muslim societies as a means of emancipation or identity when the state could not resolve the conflict situation. Although the militants were influenced by socio-political factors, they have always looked to religion to justify their acts of violence. This book, exposing the fallacy of the narrative evolved by the militants, offers a counter narrative. It reinterprets the primary sources, unravels the historical and socio-political constructs, unmask the heroes and enemies, challenges the dichotomies between theory and practice, re-establishes the boundaries between heresy and faith, and attempts to transform the current ideological discourse. ~ This book will be of interest to students and scholars of the discourse between religion and security, political Islam, Islamic history, jihad, Middle Eastern studies, and South Asian studies.

The Muslim Brotherhood

Based on original research into women's participation in the workforce, this book is the most up-to-date study of women in Iran available. The Islamisation of state and society which followed the 1979 revolution involved an attempt by the Islamic state to seclude women within the home. However, the power of the state was constrained by many factors - the Iran-Iraq war, economic restructuring - and women's own responses to oppression. In spite of continual attempts by the state to strengthen patriarchal relationships, women's participation in the labour force in 1999 is greater than it was before the revolution. Women's participation in both the economy and in political movements has led to a much greater level of gender consciousness in the 1990s than at the height of westernisation in the 1960s and 70s. Religious and secular women in urban areas have demanded reforms and forced the Islamic state to return to the position of the pre 1979 reforms. Providing a history of Iran, an introduction to Islamism and an analysis of the women and Islam debate, this book will be necessary reading for students and academics of Middle East studies, women's studies and labour studies.

Politics in Indonesia

Islamization is commonly seen as the work of Islamist movements who have forced their ideology on ruling regimes and other hapless social actors. There is little doubt that ruling regimes and disparate social and political actors alike are pushed in the direction of Islamic politics by Islamist forces. However, Islamist activism and its revolutionary and utopian rhetoric only partly explain this trend. Here, Nasr

argues that the state itself plays a key role in embedding Islam in the politics of Muslim countries. Focusing on Malaysia and Pakistan, Nasr argues that the turn to Islam is a facet of the state's drive to establish hegemony over society and expand its powers and control.

The Islam in Islamic Terrorism

"Despite increasingly frantic calls - especially after the London bombings of July 7, 2005 - for western leaders to 'understand Islam better', there is still a critical distinction that needs to be made between 'Islam' as religion and 'Islamism' in the sense of militant mindset. As the author of this provocative new book sees it, it is not a more nuanced understanding of Islam that will help the western powers defeat the jihadi threat, but rather a proper understanding of Islamism: a political ideology which is quite distinct from religion. While Islamism may be draped in religious imagery and suffused by apocalyptic language, it nevertheless is similar in nature to secular ideologies of terror. And once, the author holds, this is properly appreciated, the ways to defeat it will become much better evident. Historically sophisticated and passionately argued, "Rethinking Islamism" makes a powerful case by a master theorist of political philosophy. It will be essential reading for students and policy-makers in the fields of politics, current affairs and religion."--Bloomsbury Publishing.

Ideology of Pakistan

Excerpt from The Manifesto of Islam, an Exposition of Islam as the Inevitable World Ideology, of the Future The present crisis in world affairs, threatening the total collapse of civilization and even the total extinction of the human race, is forcing mankind to search for a remedy. Of late their interest in religion has suddenly revived. Is religion, properly understood, the only refuge of mankind from these impending calamities! They are searching for an answer to this question. On the other hand the Muslims are claiming openly and repeatedly before the whole world that Islam is the only ideology that can permanently unite the human race, establish a lasting peace on earth and carry man to that highest stage of his mental, moral, material and spiritual evolution of which there is a promise in the potentialities of his nature. This devolves upon the Muslims the responsibility to tell the world what Islam is, how it differs from other religions, what are the intellectual foundations of its claims, what are its aims and objects and how it intends to realize them. "The Manifesto of Islam" is an endeavour to provide a brief answer to these questions. The word "manifesto" has been generally used for a declaration, by a sovereign, a state or a body of individuals, making known past actions and motives of actions announced as forthcoming. But since the appearance, a century ago, of the 'Communists Manifesto' as an instrument of world-wide propagation of Communism leading ultimately to the emergence of that ideology as a great political power in the world - this word has acquired a new significance, as a statement setting forth the historical bases, the fundamental principles and the expected achievements of an ideology demanding a world-wide recognition. I am using the word only in this latter sense. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Fallacy of Militant Ideology

By crossing disciplinary boundaries in the field of the humanities, this volume aims to elucidate Muhammad's visualization in the West vis-à-vis his image in Islam. It does so not by relegating materials to geographical and/or linguistic spheres or by separating texts from images. Rather, it seeks to place various articles in thematic and theoretical conversation so as to explore more broadly how the Prophet has been constructed, visualized, narrated, encountered, revised, adapted, and adopted in multiple cultural traditions, in European and American traditions and in the world of Islam from the medieval era until the modern period.

State and Ideology in the Middle East and Pakistan

This book studies the parameters of Islamic political practice. It examines the emergence of Islam as conjoint religio-political world view, wherein the establishment of an Islamic state is considered as

important for salvific purposes as prayer and pilgrimage. This book seeks to foreground the ideological imperative behind projection of religious identity through political idioms in Islam.

Culture and Ideology

An indispensable reference for academics, researchers, the media and the informed general reader with an interest in Islamic political debates.

Women, Work and Islamism

This powerful argument reassesses radical Islam and the set of ideas and assumptions at its core. Olivier Roy offers a challenging and highly original view that no-one trying to understand Islamic fundamentalism can afford to overlook.

The Concept of an Islamic State in Pakistan

This is a short guide aimed at helping non-Muslims of different beliefs and backgrounds to understand the foundations of Islam, what is required of Muslims by their faith, their duties towards non-Muslims and the societies within which they live. It addresses the historical foundations of the ideology of al-Qaeda and ISIS, the nature of the deviation of these groups and the Islamic judgement regarding them. The views of al-Qaeda and ISIS ideologists on the "caliphate" and "jihad" are also analysed. In addition, parameters for identifying genuine signs of extremism as well as misinformation regarding Islam and Muslims have been presented. This information should enable the reader to recognise and be wary of hate propaganda spread by right-wing extremists and well-funded anti-Islam hate networks. To further their own political agendas, these groups use journalism, print and media to foster negativity and hatred against one quarter of the world's population - innocent, ordinary, peaceful Muslims going about their daily lives.

Islamic Leviathan

Based on four years anthropological research within prisons and Muslim communities in the UK, this book offers a unique discussion of the relationship between the experience of prison among Muslims and the formation of religious identity. Gabriele Marranci thoroughly examines Muslim religious life in prison, the work of Muslim chaplains and imams (and the overall impact that they have on Muslim prisoners), providing an analysis of the current prison policies aiming to prevent radicalisation, and discusses the counterproductive results of an increasing young Muslim presence in prisons, as well as the reaction of the Muslim communities to this increase. Marranci suggests that the prison environment, and increasing restrictions therein, are linked to the fear of radicalization, and are facilitating identity processes in which Islam turns into an ideology. This important study goes on to make a thorough examination of the lives of former Muslim prisoners, showing how they are particularly vulnerable to extremists' recruitment, and explaining the dynamics which have led, in certain cases, to their recommitting offences, or embarking on a path of radicalization.
