A milieu in which citizens can freely examine information distinguishes a democracy from a fascist society that seeks to control and oppress knowledge. Society's ability to rid itself of COVID-19 has been prevented by groups that seek to repress information because they apparently view the pandemic to be in their interest. The stated official origin of COVID-19—that it was spontaneously generated from nature—is a myth that is being proselytized in a disinformation steamroll against freedom of information and critical thought. Investigative journalist Peter Tremblay suggests that COVID-19 is essentially a weapon of mass destruction (WMD) unleashed against humanity because of ideological goals. COVID-19 was spawned from the minds of evil men who seek to depopulate our planet Earth and pursue unlimited control over the remainder of a population that will no longer be the "humans" we are presently.
