National parks are places of immeasurable beauty, but before them came something else . . . Discover the origin of National Parks, through the lives and adventures of some fantastic creatures. The Creative One fashioned Realms that preceded the parks, as formless and without void until they were filled with remarkable life. In one of the Realms, known as Glacier, there is a formidable being known as the Huckleberry King who reigns supreme over his clan of living warrior berries. The Huckles had lived in relative peace, but have long-ranging disputes with the Redwood Trees, concerning the Ancient Manuscripts. Throughout, the reader is immersed in a transformative adventure as the Huckles journey through the Realms. The Huckles encounter creatures and scenes that move and inspire in them a love for nature and the outdoors, which ushers them to nurture and care for their world. Eventually, the Huckles and Trees lay aside their disputes, as they are taught love and preservation for creation. This leads to the Realms being changed into National Parks that reflect these principles. As the Huckles do on their journey, so too must we fall in love with preservation of our world, in the way that God intends.

Maybe when we die, all the ways we've seen ourselves, all the ways we've learned to exist pass by and we get to thank them for making us who we were in this life. And then only our true nature remains. My granma Shirley's was purple, the color of royalty. In the more than century that she lived, she was the model of a fiercely independent woman and artist and a huge influence on my life.
