Immune Response to Bacterial Infection (Basics to the Core) - Immune Response to Bacterial Infection (Basics to the Core) by Learn-at-ease 29,209 views 6 years ago 9 minutes, 49 seconds - Hi, I am Dr. Dweipayan Goswami, Welcome to my YouTube channel "Learn at ease" I will be uploading animated videos related to ...

Immune Response to Bacteria - Immune Response to Bacteria by NIAID 211,867 views 12 years ago 1 minute, 47 seconds - This animation shows how the body naturally responds to and destroys invading bacteria.

When neutrophils sense harm, they gather and prepare to fight

Some neutrophils leave the blood stream and make their way through the tissues to the infection site. Eventually neutrophils find the bacteria. On contact, a killing process known as phagocytosis begins. The neutrophil pulls the bacteria into a compartment called a phagosome.

The granules create a hostile environment by releasing killing elements into the phagosome.
