### Adventures in Starry Kitchen

The behind-the-scenes story of America's most famous underground restaurant, featuring more than eighty-eight deceptively simple and unbelievably delicious pan-Asian recipes and dozens of luscious full color photos. In 2008, as the American economy cratered, newly unemployed Nguyen Tran and his newly unemployed wife-to-be, Thi, opened an off-the-grid eatery in their small Los Angeles studio apartment. Word of their fabulous food quickly spread, turning their culinary "speakeasy," Starry Kitchen, into an underground sensation—and the #1 Asian fusion restaurant in L.A. on Yelp. Threatened by the city's health inspector, Nguyen and Thi transformed Starry Kitchen into an acclaimed and wildly popular pop-up restaurant in a downtown sushi joint. But their success was only beginning. As their clientele exploded, thanks to raves in the Los Angeles Times, Nguyen and Thi moved to a bigger space of their own in Chinatown, where they helped make the neighborhood the epicenter of L.A.'s burgeoning food scene. Adventures in Starry Kitchen chronicles Starry Kitchen's DIY evolution—"this beautiful accident gone right"—the mayhem, mishaps, misdemeanors, milestones, and amazing meals that have contributed to (and nearly derailed) its success. As they tell their story, the Trans share more than eighty-eight easy-to-follow pan-Asian recipes—mouthwatering and flavorful comfort cuisine, including Claypot Striped Bass, Buttermilk Beer Beignets, Singaporean Chili Crab, Double-Fried Chicken Wings and, of course, Starry Kitchen's trademark Crispy Tofu Balls. Whether you're cooking for two, four, or sixty, Adventures in Starry Kitchen demonstrates you don't have to be a desperately hip (or even trained) chef to master sensational modern food that will amaze and delight.

### The Girls' Guide to Love and Supper Clubs

Hannah Sugarman seems to have it all. She works for an influential think tank in Washington, D.C., lives in a swanky apartment with her high-achieving boyfriend, and is poised for an academic career just like her parents. The only problem is that Hannah doesn't want any of it. What she wants is much simpler; to cook. When her relationship collapses, Hannah seizes the chance to do what she's always loved and launches an underground supper club out of her new landlord's town house. Though her delicious dishes become the talk of the town, her secret venture is highly problematic, given that it is not, technically speaking, legal. She also conveniently forgets to tell her landlord she has been using his place while he is out of town. On top of that, Hannah faces various romantic prospects that leave her guessing and confused, parents who don't support cooking as a career, and her own fears of taking a risk and charting her own path. A charming romantic comedy, *The Girls' Guide to Love and Supper Clubs* is a story about finding yourself, fulfilling your dreams, and falling in love along the way.

### The Way We Eat Now

An award-winning food writer takes us on a global tour of what the world eats--and shows us how we can change it for the better Food is one of life's great joys. So why has eating become such a source of anxiety and confusion? Bee Wilson shows that in two generations the world has undergone a massive shift from traditional, limited diets to more globalized ways of eating, from bubble tea to quinoa, from

Soylent to meal kits. Paradoxically, our diets are getting healthier and less healthy at the same time. For some, there has never been a happier food era than today: a time of unusual herbs, farmers' markets, and internet recipe swaps. Yet modern food also kills--diabetes and heart disease are on the rise everywhere on earth. This is a book about the good, the terrible, and the avocado toast. A riveting exploration of the hidden forces behind what we eat, *The Way We Eat Now* explains how this food revolution has transformed our bodies, our social lives, and the world we live in.

### Istanbul and Beyond

The most extensive and lushly photographed Turkish cookbook to date, by two internationally acclaimed experts Standing at the crossroads between the Mediterranean, the Middle East, and Asia, Turkey boasts astonishingly rich and diverse culinary traditions. Journalist Robyn Eckhardt and her husband, photographer David Hagerman, have spent almost twenty years discovering the country's very best dishes. Now they take readers on an unforgettable epicurean adventure, beginning in Istanbul, home to one of the world's great fusion cuisines. From there, they journey to the lesser-known provinces, opening a vivid world of flavors influenced by neighboring Syria, Iran, Iraq, Armenia, and Georgia. From village home cooks, community bakers, caf chefs, farmers, and fishermen, they have assembled a broad, one-of-a-kind collection of authentic, easy-to-follow recipes: "The Imam Fainted" Stuffed Eggplant; Pillow-y Fingerprint Flatbread; Pot-Roasted Chicken with Caramelized Onions; Stovetop Lamb Meatballs with Spice Butter; Artichoke Ragout with Peas and Favas; Green Olive Salad with Pomegranate Molasses; Apple and Raisin Hand Pies. Many of these have never before been published in English.

### The Diet Myth

Fully updated throughout and with a new foreword for this edition. Why do most diets fail? Why does one person eat a certain meal and gain weight, while another eating the same meal loses pounds? Why, despite all the advice about what to eat, are we all still getting fatter? The answers are much more surprising - and fascinating - than we've been led to believe. The key to health and weight loss lies not in the latest fad diet, nor even in the simple mantra of 'eat less, exercise more', but in the microbes already inside us. Drawing on the latest science and his own pioneering research, Professor Tim Spector demystifies the common misconceptions about fat, calories, vitamins and nutrients. Only by understanding what makes our own personal microbes tick can we overcome the confusion of modern nutrition, and achieve a healthy gut and a healthy body.

### The Revolution Will Not Be Microwaved

An instant classic for a new generation of monkey-wrenching food activists. Food in America is cheap and abundant, yet the vast majority of it is diminished in terms of flavor and nutrition, anonymous and mysterious after being shipped thousands of miles and passing through inscrutable supply chains, and controlled by multinational corporations. In our system of globalized food commodities, convenience replaces quality and a connection to the source of our food. Most of us know almost nothing about how our food is grown or produced, where it comes from, and what health value it really has. It is food as pure corporate commodity. We all deserve much better than that. In The Revolution Will Not Be Microwaved, author Sandor Ellix Katz (Wild Fermentation, Chelsea Green 2003) profiles grassroots

activists who are taking on Big Food, creating meaningful alternatives, and challenging the way many Americans think about food. From community-supported local farmers, community gardeners, and seed saving activists, to underground distribution networks of contraband foods and food resources rescued from the waste stream, this book shows how ordinary people can resist the dominant system, revive community-based food production, and take direct responsibility for their own health and nutrition.

## Dining in New York

PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when we say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is dependent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream-fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

## Red Velvet Underground

"Not only a rock memoir and recipe book but also a poignant work of personal self-discovery and the challenges yet joys of parenting." —Huffington Post Part memoir, part cookbook, and all rock and roll, Red Velvet Underground tells the story of how musician Freda Love Smith's indie-rock past grew into her

family—and food-centric present. Smith, born in Nashville and raised in Indiana, is best known as the drummer and co-founder of bands such as the Boston-based Blake Babies, Antenna, and the Mysteries of Life. *Red Velvet Underground* is loosely framed around cooking lessons Smith gave to her eldest son, Jonah, before he left for college. Smith compares her son's experiences to her own—meeting Juliana Hatfield and starting the Blake Babies, touring in Evan Dando's hand-me-down station wagon, and crashing with Henry Rollins, who introduced the band to local California fare—all while plumbing the deeper meanings behind the role of food, cooking, and family. Interspersed throughout these stories are forty-five flexitarian recipes—mostly, but not exclusively, vegetarian—such as red pepper-cashew spread, spinach and brazil nut pesto, and vegan strawberry-cream scones. Throughout the book, Smith reveals how food, in addition to music, has evolved into an important means for creativity and improvisation. *Red Velvet Underground* is an engaging exploration of the ways food and music have informed identity through every stage of one woman's life. "These are sweet, unsentimental scenes from the ever-evolving life of a woman of many shifting and balancing roles: mother, wife, drummer, student, teacher, friend, daughter, food enthusiast. It's all tied together with tantalizing recipes that have been lovingly improvised and tweaked into a life-affirming doneness." —Juliana Hatfield, musician

#### Anything That Moves

The popular *New Yorker* writer combines the style of Mary Roach with the on-the-ground food savvy of Anthony Bourdain. Dana Goodyear's narrative debut is a highly entertaining, revelatory look into the raucous, strange, fascinatingly complex world of contemporary American food culture. At once an uproarious behind-the-scenes adventure and a serious attempt to understand the implications of an emergent new cuisine, it introduces a cast of compelling and unexpected characters—from Los Angeles Times critic Jonathan Gold, to a high-end Las Vegas purveyor of rare and exotic ingredients, to the traffickers and promoters of raw milk and other forbidden products, to the hottest chefs who rely on them—all of whom, along with today's diners, are changing the face of American eating. Ultimately, Goodyear looks at what we eat, and tells us who we are. As she places all of this within a vivid historical and cultural framework, she shows how these gathering culinary trends may eventually shape the way all Americans dine. What emerges is a picture of America at a moment of transition, designing the future as it reimagines the past.

#### The Adventures of Fat Rice

With 100 recipes, this is the first book to explore the vibrant food culture of Macau—an east-meets-west melting pot of Chinese, Portuguese, Malaysian, and Indian foodways—as seen through the lens of the cult favorite Chicago restaurant, Fat Rice. An hour's ferry ride from Hong Kong, on the banks of the Pearl River in China, lies Macau—a modern, cosmopolitan city with an unexpected history. For centuries, Macau was one of the world's greatest trading ports: a Portuguese outpost and crossroads along the spice route, where travelers from Europe, Southeast Asia, South Asia, and mainland China traded resources, culture, and food. *The Adventures of Fat Rice* is the story of how two Chicago chefs discovered and fell in love with this fascinating and, at least until now, unheralded cuisine. With dishes like Minchi (a classic Macanese meat hash), Po Kok Gai (a Portuguese-influenced chicken curry with chouriço and olives), and Arroz Gordo (if paella and fried rice had a baby), now you, too, can bring the eclectic and wonderfully unique—yet enticingly familiar—flavors of Macau into your own kitchen.

#### The Great Curries of India

"In this stunningly illustrated book, Camellia Panjabi takes the reader on a journey through the sights, smells, and tastes of the centerpiece of the Indian meal, the curry." -- inside cover.

Here is food that is refined, inventive, and full of startling flavours: sandalwood infused tandoori chicken breast, king prawns with saffron almond sauce, clove smoked roast rump of lamb with corn, asparagus, curried avocado and beetroot salad, Hyderabad style aubergine steaks with coconut rice, roganjosh pie, pan seared Kolkata betki with bottle gourd stir fry and fenugreek sauce, steamed mango idlis with wild berry sorbet, saffron poached pear with cinnamon ice cream. A fresh, glamorous, and utterly creative approach, Cinnamon Club blends western techniques and presentation with the best of traditional Indian cuisine. Beautifully designed and photographed, it will become an instant classic and a book that will inspire many extraordinary meals.

### In the Quarantine Kitchen

This book is a product of quarantine. People from all over the US and beyond came together on a Facebook page and united. No politics. No negativity and NO corona. We supported each other, allowed only cooking and food to be on the page, and our page commanded over 34k people since 3/18/2020. This book is a compilation of 116 recipes that were submitted, photos, stories and dedications from the members of this page. The proceeds of our book will benefit a local charity (Stephen Siller Foundation/Tunnel to Towers Covid19 Heroes Fund) that is supporting front line heroes. This book will also serve as a piece of history. It will remind any one who purchases it that during a very dark time in our country's history there was that one group who stuck together and supported one another through cooking and meals for our families. It has been nothing short of amazing to have created this with my daughters and to now turn it into a much asked for book. We have many front line members/family who contributed to our book and the stories will reflect it. The feedback on this project has been amazing. People love it and so do we.
