The Emancipation of English Women

This work investigates women's emancipation writing in the second half of the nineteenth and the early twentieth centuries. Many novelists in various national literatures touched upon the theme of an emancipated woman in the long nineteenth century and at the fin de siècle. Philosophers, poets, writers, and journalists were concerned with this problem and began popularizing wholeheartedly the so-called "burning" questions. The new femininity was represented not only in the Christian context; many other traditions and cultures opened the discussion about the women's lot. This volume analyzes women's literary voices from different parts of the world—Turkey, England, the U.S., Italy, Russia, Spain, and others. Imagination, as it is believed, has no borders and is dialogical in its nature.

Women's Emancipation Writing at the Fin de Siecle

There is something particularly fascinating about the study of the literature and philosophy of the eighteenth century, with its gradual evolution of lofty social ideals which the Revolution failed to realise. When the altered circumstances brought promotion within my reach, it completely brought me under its sway, and ultimately came to determine my choice of a subject for an inaugural dissertation. It was while engaged upon tracing the influence of Rousseau's hopebringing theories on his English disciple William Godwin, that the less boldly assertive, but all the more humanly attractive personality of the latter's first wife, Mary Wollstonecraft, attracted my attention. My admiration of her husband's intellect paled before my sympathy for her more modest, but at the same time more emotional character. Where the indebtedness of Godwin to Rousseau and the Encyclopedians has been manifested so clearly in

different works, the absence of any direct attempt to prove and determine the extent of the relations between Mary Wollstonecraft and the early French philosophers struck me as an omission for which I found it difficult to account, and made me turn to a subject to which I am fully aware that a book of the size of the present little volume does but scant justice.

Mary Wollstonecraft and the beginnings of female emancipation in France and England

This reprint of a 1910 volume is a study of the religious, social, educational and legal ways in which English women were denied equality in the period from the Restoration through the 1890's.

The Emancipation of Women and Its Probable Consequences

Female emancipation and the much derided 'New Woman' was a subject of immense fascination in the English Theatre of the 1890s. Associated issues of women's education, freedom of thought, the sexual double standard, and the right to self-determination feature in play after play of the period. However the advent of the New Drama after the turn of the century marked a change of emphasis and figures previously demonized were now heroized. This collection includes two plays from the 1890s, Sidney Grundy's *The New Woman* (1894) and Arthur Wing Pinero's *The Notorious Mrs Ebbsmith* (1895), both much mentioned in recent criticism but neither available, until now, and two of the liveliest examples of the New Drama, Elizabeth Robins's *Votes for Women* (1907) and St John Hankin's *The Last of the De Mullins* (1908).

Emancipation of English Women

Running from Bondage tells the compelling stories of enslaved women, who comprised one-third of all runaways, and the ways in which they fled or attempted to flee bondage during and after the Revolutionary War. Karen Cook Bell's enlightening and original contribution to the study of slave resistance in eighteenth-century America explores the individual and collective lives of these women and girls of diverse circumstances, while also providing details about what led them to escape. She demonstrates that there were in fact two wars being waged during the Revolutionary Era: a political revolution for independence from Great Britain and a social revolution for emancipation and equality in which Black women played an active role. *Running from Bondage* broadens and complicates how we study and teach this momentous event, one that emphasizes the chances taken by these 'Black founding mothers' and the important contributions they made to the cause of liberty.

The New Woman and Other Emancipated Woman Plays

This groundbreaking collection provides the first comparative history of gender and emancipation in the Atlantic world. Bringing together essays on the United States, Brazil, Cuba, Puerto Rico, West Africa and South Africa, and the Francophone and Anglophone Caribbean, it shows that emancipation was a profoundly gendered process, produced through connections between race, gender, sexuality, and class. Contributors from the United States, Canada, Europe, the Caribbean, and Brazil explore how the processes of emancipation involved the re-creation of gender identities—the production of freedmen and freedwomen with different rights, responsibilities, and access to citizenship. Offering detailed analyses of slave emancipation in specific societies, the contributors discuss all of the diverse actors in emancipation: slaves, abolitionists, free people of color, state officials, and slave owners. Whether considering the construction of a postslavery masculine subjectivity in Jamaica, the work of two white U.S. abolitionist women with the Freedmen's Bureau after the Civil War, freedwomen's negotiations of labor rights in Puerto Rico, slave women's contributions to the slow unraveling of slavery in French West Africa, or the ways that Brazilian abolitionists deployed representations of femininity as virtuous and moral, these essays demonstrate the gains that a gendered approach offers to understanding the complex processes of emancipation. Some chapters also explore theories and methodologies that enable a gendered reading of postslavery archives. The editors' substantial introduction traces the reasons for and patterns of women's and men's different experiences of emancipation throughout the Atlantic world. Contributors. Martha Abreu, Sheena Boa, Bridget Brereton, Carol Faulkner, Roger Kittleson, Martin Klein, Melanie Newton, Diana Paton, Sue Peabody, Richard Roberts, Ileana M. The Emancipated

This book discusses women's emancipation, freedom and self-fulfilment in D. H. Lawrence's fiction. It explores women's realization of their subjugation to patriarchal norms and their endeavor to liberate themselves from these norms in order to be free and self-fulfilled. In fact, in the four novels under study, *Sons and Lovers*, *The Rainbow*, *Women in Love*, and *Lady Chatterley's Lover* women's lives are limited by patriarchal norms and all their love relationships are fraught with conflicts due to men's desire to dominate women as love partners and women's determination and resolution to subvert that male domination. Out of this study, it turns out that D. H. Lawrence promotes, through his writings,

womanist principles of a peaceful love relationship. The promotion of women's education is one of the key issues which are used by the writer as a way towards their emancipation and thereafter towards the harmonious development of all nations.

Woman, and Her Place in a Free Society

David Barry Gaspar and Darlene Clark Hine's *Beyond Bondage* outlines the restricted spheres within which free women of color, by virtue of gender and racial restrictions, were forced to carve out their existences. Although their freedom, represented by the acquisition of property, respectability, and opportunity, always remained precarious, the collection supports the surprising conclusion that women of color often sought and obtained these advantages more successfully than their male counterparts.

Women's Emancipation, Freedom, and Self-Fulfilment in D.H. Lawrence's Fiction: A Feminist Approach to *Sons and Lovers* (1913), *The Rainbow* (1915), *Women in Love* (1920), and *Lady Chatterley's Lover* (1928)

On Human Bondage

Excerpt from *The Emancipation of Women and Its Probable Consequences* Madam, I recently found that I had had the honour to receive, possibly from yourself, your tract on the *Frauen-Emancipation*. The German type is somewhat trying to my failing eye-sight, but I could not resist at once reading it. And, having read it, I cannot resist offering you more than a merely formal acknowledgment. And this is not merely because my mind inclines strongly to agree in your foundation-arguments: but because, apart from mere concurrence in this or that special remark, it seems to me by far the most

comprehensive, luminous and penetrating work on this question that I have yet met with. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Feminist English Literature

First published in 1972, this book contains a collection of ten essays that document the feminine stereotypes that women fought against, and only partially erased, a hundred years ago. In an introductory essay, Martha Vicinus describes the perfect Victorian lady, showing that the ideal was a combination of sexual innocence, conspicuous consumption and worship of the family hearth. Indeed, this model in some form was the ideal of all classes as the perfect lady's only functions were marriage and procreation. The text offers a valuable insight into Victorian culture and society.

Hilda's Home

A sympathetic view of the fallen women in Victorian England begins in the novel. First published in 1984, this book shows that the fallen woman in the nineteenth-century novel is, amongst other things, a direct response to the new society. Through the examination of Dickens, Gaskell, Collins, Moore, Trollope, Gissing and Hardy, it demonstrates that the fallen woman is the first in a long line of sympathetic creations which clash with many prevailing social attitudes, and especially with the supposedly accepted dichotomy of the 'two women'. This book will be of interest to students of nineteenth-century literature and women in literature.

Teaching Contemporary English Literature

This highly interesting book studies the cultural context of modernisation of middle-class Muslim women in late 19th and 20th century Bengal. Its frames of reference are the Bengal 'Awakening', the Reform Movements - Brahmo/Hindu and Muslim - and the Women's Question as articulated in material and ideological terms throughout the period. Tracing the emergence of the modern Muslim gentlewomen, the bhadramahila, starting in 1876 when Nawab Faizunnesa Chaudhurani published her first book and ending with the foundation in 1939 of The Lady Brabourne College, the book gives an excellent analysis of the rise of a Muslim woman's public sphere and broadens our knowledge of Bengali social history in the colonial period.

A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Account to the Latter Half of the Nineteenth Century

This revised and updated edition covers English literature, from Chaucerian poetry to the novels of Martin Amis, and contains entries for works, authors, journals and literary movements.

The Bloomsbury Dictionary of English Literature

"A Short Biographical Dictionary of English Literature" by John W. Cousin. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten or yet undiscovered gems of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

A Short Biographical Dictionary of English Literature

Over 15 years in the making, an unprecedented one-volume reference work. Many of today's students and teachers of literature, lacking a familiarity with the Bible, are largely ignorant of how Biblical tradition has influenced and infused English literature through the centuries. An invaluable research tool. Contains nearly 800 encyclopedic articles written by a distinguished international roster of 190 contributors. Three detailed annotated bibliographies. Cross-references throughout.

A Critical Dictionary of English Literature

First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

The Concise Oxford Dictionary of Literary Terms

The bestselling Oxford Dictionary of Literary Terms provides clear and concise definitions of the most troublesome literary terms, from abjection to zeugma. It is an essential reference tool for students of literature in any language. Now expanded and in its fourth edition, it includes increased coverage of new terms from modern critical and theoretical movements, such as feminism, schools of American poetry, Spanish verse forms, life writing, and crime fiction. It includes extensive coverage of traditional drama, versification, rhetoric, and literary history, as well as updated and extended advice on recommended further reading and a pronunciation guide to more than 200 terms. Completely revised and updated, this edition also features brand-new entries on terms such as distant reading, graphic novels, middle generation, and misery memoir. Many new bibliographies have been added to entries and recommended web links are available via a companion website.

A Dictionary of Biblical Tradition in English Literature

This dictionary is a guide to the key authors, concepts, and terms used in the study of literature written in English. Each entry begins with a straightforward definition, and is followed by explanation and examples. Each writer is defined by type, significant preoccupation and/or style, and a selection of notable works. There are a number of entries on writers in a foreign language who have had a major influence on literature in English. One of the most important uses of this book is as a cross-referencing tool. Italicized cross-referenced entries form an interrelated web, presenting a unified overall picture of particular areas of interest.

A Supplement to Allibone's Critical Dictionary of English Literature and British and American Authors

With new entries and sensitive edits, this fifth edition places J.A. Cuddon's indispensable dictionary firmly in the 21st Century. Written in a clear and highly readable style Comprehensive historical coverage extending from ancient times to the present day Broad intellectual and cultural range Expands on the previous edition to incorporate the most recent literary terminology New material is particularly focused in areas such as gender studies and queer theory, post-colonial theory, post-structuralism, post-modernism, narrative theory, and cultural studies. Existing entries have been edited to ensure that topics receive balanced treatment

A Dictionary of English Literature

Contains a fully updated A-Z guide to over 1,200 definitions of terms from the fields of literary theory and criticism, rhetoric, versification and drama. Recommendations for further reading are included.

A Critical Dictionary of English Literature and British and American Authors

Excerpt from Dictionary of English Literature: Being a Comprehensive Guide to English Authors and Their Works Further, the Noms de Plume assumed by literary men and women are given and explained, many for the first time. Familiar Quotations, Phrases, and Proverbs are entered in considerable numbers, with distinct and accurate references to their original sources. These are arranged, so far as possible, according to their first striking word - a plan which has seemed to the Author the most useful and intelligible that could be adopted. Characters in Poetry and Fiction are largely indexed - to an extent, indeed, not hitherto attempted, and with the result, it is believed, that few of any importance are omitted. Illustrative Quotations are frequently appended. The most celebrated Poems, Songs, and Ballads are entered, not only by their titles, but by their First Lines, which are frequently remembered when the titles are forgotten. A feature of the Work is the introduction of references to Translations of the Works of prominent Foreign Writers of all times and countries. Another feature is the insertion of notices of some of the most celebrated Libraries throughout the kingdom, and of Societies connected with English Literature. Space is also devoted to brief, but, it is hoped, sufficient explanations of the various kinds of Literature, such as Epics, Odes, Masques, Mysteries, and so on. Finally, Special Articles, as exhaustive as their limits would permit, have been introduced on such subjects as The Drama, Newspapers, Novels, and Poetry, with the view of enabling the reader to systematise, if he please, the varied information given in other portions of the work. A work so comprehensive in aim - necessitating the survey of so wide, so inexhaustible a field - can hardly be quite free from error. Yet the Author would fain hope that no signal inaccuracy will be detected; and while committing his pages to the consideration of the public, he feels it due to himself to say that, during the years occupied in the preparation of the work, he has grudged no labour to make it worthy of the favourable reception he trusts it will obtain. A Companion to Old and Middle English Literature

Old and Middle English literature can be obscure and challenging. So, too, can the vast body of criticism it has elicited. Yet the masters of medieval literature often drew on similar texts, since imitation was admired. For this reason, recent scholarship has often focused on the importance of genre. The genre in which a work was written can illuminate the author's intentions and the text's meaning. Read in light of a genre's parameters, a given work can be considered in relation to other works within the same category. This reference is a comprehensive overview of Old and Middle English literature. Chapters focus on

particular genres, such as Allegorical Verse, Balladry, Beast Fable, Chronicle, Debate Poetry, Epic and Heroic, Lyric, Middle English Parody/Burlesque, Religious and Allegorical Verse, and Romance. Expert contributors define the primary characteristics of each genre and discuss relevant literary works. Chapters provide extensive reviews of scholarship and close with detailed bibliographies. A more thorough bibliography of major scholarly studies closes the book.

The Oxford Handbook of Medieval Literature in English

The study of medieval literature has experienced a revolution in the last two decades, which has reinvigorated many parts of the discipline and changed the shape of the subject in relation to the scholarship of the previous generation. 'New' texts (laws and penitentials, women's writing, drama records), innovative fields and objects of study (the history of the book, the study of space and the body, medieval masculinities), and original ways of studying them (the Sociology of the Text, performance studies) have emerged. This has brought fresh vigour and impetus to medieval studies, and impacted significantly on cognate periods and areas. The *Oxford Handbook of Medieval Literature in English* brings together the insights of these new fields and approaches with those of more familiar texts and methods of study, to provide a comprehensive overview of the state of medieval literature today. It also returns to first principles in posing fundamental questions about the nature, scope, and significance of the discipline, and the directions that it might take in the next decade. The Handbook contains 44 newly commissioned essays from both world-leading scholars and exciting new scholarly voices. Topics covered range from the canonical genres of Saints' lives, sermons, romance, lyric poetry, and heroic poetry; major themes including monstrosity and marginality, patronage and literary politics, manuscript studies and vernacularity are investigated; and there are close readings of key texts, such as *Beowulf*, *Wulf and Eadwacer*, and *Ancrene Wisse* and key authors from Ælfric to Geoffrey Chaucer, Langland, and the Gawain Poet.
