## Practicing Narrative Mediation

Practicing Narrative Mediation provides mediation practitioners with practical narrative approaches that can be applied to a wide variety of conflict resolution situations. Written by John Winslade and Gerald Monk—leaders in the narrative therapy movement—the book contains suggestions and illustrative examples for applying the proven narrative technique when working with restorative conferencing and mediation in organizations, schools, health care, divorce cases, employer and employee problems, and civil and international conflicts. Practicing Narrative Mediation also explores the most recent research available on discursive positioning and exposes the influence of the moment-to-moment factors that are playing out in conflict situations. The authors include new concepts derived from narrative family work such as "absent but implicit," "double listening," and "outsider-witness practices."

## Building Fiction

No one looks at structure like Jesse Lee Kercheval. She builds a work of fiction just as an architect would design a house—with an eye for details and how all parts of a story or novel interconnect. Even with the most dynamic language, images, and characters, no piece of fiction will work without a strong infrastructure. Kercheval shows how to build that structure using such tools as point of view, characterization, pacing, and flashbacks. Building Fiction will help you envision the landscape of your fiction and build great stories there.

## The Handbook of Conflict Resolution

The Handbook of Conflict Resolution, Second Edition is written for both the seasoned professional and the student who wants to deepen their understanding of the processes involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

#### The Jacket

An incident at school forces sixth grader Phil Morelli, a white boy, to become aware of racial discrimination and segregation, and to seriously consider if he himself is prejudiced.

#### Conflict Coaching Fundamentals

We naturally create stories to help us making meaning of our world, but in conflict situations the kinds of stories we typically tell ourselves can actually make it harder for us to manage and resolve the conflict constructively. This book provides an accessible framework for understanding why people tell their conflict stories the way they do, and how to help them move away from conflict stories that prevent them from understanding and responding to conflict in an effective way. Presented using highly engaging and accessible cases, the book is designed to help people working with others in conflict to fully support them by understanding which areas of the conflict story to focus their attention on, and using practical techniques to support people to rewrite their story into a more constructive one to better manage the situation. The book also provides practical strategies to help people who are themselves in a conflict scenario to rewrite and enact a version of their conflict story that helps them to more constructively manage, and often resolve, their situation. A conflict management coaching system is introduced that is designed to address the particular problems created by dysfunctional conflict stories. This is a book specifically for those who work with people in conflict (mediators, conflict coaches, managers, lawyers, HR staff, teachers) and also for anyone who wishes to better understand their own experience of conflict.

#### High Conflict

"In the tradition of bestselling explainers like *The Tipping Point*, [this] book [is] based on cutting edge science that breaks down the idea of extreme conflict--the kind that paralyzes people and places--and then shows how to escape it"--

#### Characters in Conflict

Conflict is essential to story-regardless of genre. The friction between what a character wants and the lengths they will go to reach that goal is what pulls readers through your book. Great conflict is what leaves readers cheering (or crying) at the end of a story. Using humour and her deep knowledge of human behaviour, counsellor and award-winning author Eileen Cook will guide you through the causes of conflict, the differences between internal and external conflict, and show you how conflict resolution techniques can be turned upside down to ramp up the tension in your book. Filled with practical tips, examples and prompts, this is a craft book you'll keep on your shelf to use again and again. This is the fourth book in the Creative Academy Guides for Writers series. Be sure to check out the rest of the guides for writers in this series. 1. *Scrappy Rough Draft* by Donna Barker 2. *Build Better Characters* by Eileen Cook 3. *Strategic Series Author* by Crystal Hunt 4. *Create Story Conflict* by Eileen Cook

#### Create Story Conflict: How to Increase Tension in Your Writing & Keep Readers Turning Pages

In the stories that people tell about conflict, the relationship narrative is commonly shaped to fit the conflict story. But there are always other relationship stories that can be told. This edition shows how to find and grow a counter story to the conflict story and to help people make choices about which story they want to perform.

#### When Stories Clash

Examines teen conflict resolution and interpersonal relations and provides tips and information about improving them.

### Conflict Resolution Smarts

Dis-Solving Conflict from Within presents a new paradigm for looking at conflict. Written by a professional mediator (and an occasional adventure motorcyclist), this book presents a mindfulness-based framework for understanding conflict, and more importantly, responding to conflict with strength, clarity, and ease as opposed to reacting to it with fear, avoidance, or aggression. The first part of the book takes the reader step by step through the method, drawing on famous teachings in both conflict resolution and mindfulness, real-life examples from the author's own practice, and colorful anecdotes from his personal adventures, which included riding a motorcycle across the Himalayas. The rest of the book is a very practical application for how these teachings can transform the way we live our lives – in conflicts ranging from arguments with your spouse and debates about current affairs at your dinner table to greater societal conflicts and existential challenges facing us. At once spiritually based, and yet also immensely practical, this book is relevant not just for conflict resolution professionals, but for anyone who wants to live more peacefully with the people around them. In a signature style that is both educational and funny – and always all his own – Henry Yampolsky draws on his formal education, his life experiences, and his knowledge and acceptance that all people, no matter their beliefs, are infinitely connected. Distilling conflict down to our most basic needs as human beings leads the reader to the inevitable conclusion that we are not so different after all. While acknowledging the validity of the stories of conflicts created by humans, Yampolsky gently but firmly guides the reader to the same conclusion he has come to – that conflict can be transformed into an opportunity for growth, connection, and dialogue once we learn to turn within.

### Dis-Solving Conflict from Within

Educational resource for teachers, parents and kids!

### Creative Conflict Resolution

[This book] provides [an] answer to the age-old riddle of whether there are only a small number of "basic stories" in the world. Using ... examples, from ancient myths and folk tales, via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. -Dust jacket.

### The Seven Basic Plots

We all want to get other people to see our way, but their conflicting views are the reason why frustration and anger occur. No matter who you are dealing with, Street Negotiation can show you how to diffuse conflict and reach agreements.

### Street Negotiation: How to Resolve Any Conflict Anytime

A Lonely pencil timidly draws a boy, a dog and other items, but soon faces a problem as his creations begin demanding changes, and when he draws an eraser to make them happy, the real trouble begins.

### The Pencil

Based on the view that making social concepts and feelings concrete would help children in primary grades to take turns, cooperate, and solve their problems respectfully, this curriculum uses a story about the Rainbow Kids, an imaginary community of children, to introduce children to social concepts and conflict resolution skills. The Rainbow Kids experience emotions that are conveyed by the weather around them. These simple "sunny" and "cloudy" metaphors turn abstract notions of behavior into physical expressions young children can easily comprehend. Part 1 of the curriculum guide describes the impetus for the program, discusses how the program works, summarizes the story, and details the procedures involved in presenting the program. Part 2 contains the seven lessons and two activities comprising the program; this part includes sample program materials in six appendices, and lists selected resources for elementary school teachers. Part 3 is a separate booklet for students containing "The Rainbow Kids" story. (Contains 15 references.) (KB)

### Teaching Conflict Resolution with the Rainbow Kids Program

Conflicts are more effectively managed if people understand the layers meaning in their conflicts and collaborate based on those meanings. In this book, author Peter M. Kellett analyzes and interprets real-life conflict stories as a way to create opportunities for more productive ways to navigate and resolve conflict.

### Conflict Dialogue

"French Short Stories: Hate" delves into the complex and tumultuous realms of human emotions, exploring the darker aspects of love, passion, and resentment. Through a collection of compelling short stories, readers are transported into the intricate web of interpersonal relationships, where love and hate intertwine. ### The 7 Principles of Conflict Resolution

DIY Conflict Resolution is the first book by New York City Attorney, Mediator and Conflict Resolution Coach, Nance L. Schick. Exploring the less obvious causes of conflicts, she coaches readers to create action plans that reflect their unique beliefs, interests and values. Her process is based on proven mediation techniques and illuminates the power of compassionate "third ear" listening. As she says, "When the third eye is blind, it hinders wisdom. When the third ear is deaf, it hinders connection and resolution." Are you a credentialed professional whose business has plateaued? Are you an artist who has difficulty managing "drama queens" on your projects? Or are you the drama queen? Nance shares stories of how clients resolved conflicts with themselves and others. From body conflicts to marital discord and crime, she shows you how to keep going and keep creating the life you want--from the circumstances you have, not the ones you wish you had. In the book, you will be coached to: \* Build skill in creating solutions from a broad range of options \* Reconnect with your original and unmet expectations \* Free yourself from anger, disappointment and distraction when it appears \* Discover how to listen for the real obstacles to agreement \* Become the Chief Resolution Officer in your life

### Handbook of Conflict Analysis and Resolution

'...effectively fills a long-standing void and will no doubt be hailed as a much-needed new addition to the literature... This text very much exemplifies the strength of Ho-Won Jeong as a theorist and one of the more prolific writers in the larger peace and conflict studies field... the final three chapters on 'De-escalation Dynamics' (which includes a brief section on third party intervention), on 'Conciliation Strategies,' and especially the one on 'Ending Conflict,' which provides a range of outcomes beyond the usual focus on third party intervention (read mediation) epitomizes the value of this new text' - Journal of Peace Research '...an awesome tour d'horizon of modern war, violence, and confrontation within and between nations. Illustrating via just about every conflict in every corner of the world, the author invokes an endless array of insights and interpretations, ranging from the micro to the macro, beautifully written in a seamless sequence of closely linked and discursive essays.' - Professor J. David Singer, University of Michigan 'Ho-Won Jeong has written an illuminating analysis of the dynamics of conflict. He lays out the tools we have to analyze conflict in a literate and comprehensive way. A valuable book for anyone interested in a more comprehensive understanding of conflict, its sources, and its deescalation and termination' - Janice Gross Stein, Belzberg Professor of Conflict Management, Director, Munk Centre for International Studies, University of Toronto 'Jeong has successfully combined behavioral and structural analysis of the dynamics of social conflict. This volume covers the multiple dimensions - escalation, entrapment, de-escalation, termination, and resolution - both of violent and non-violent confrontation between adversaries, as well as the utility and limitations of external intervention. For students of the social sciences, it should serve as an excellent introduction to the complex realities of social conflict.' - Milton Esman, John S. Knight Professor of International Studies, Emeritus, Cornell University By examining the dynamic forces which shape and re-shape major conflicts, this timely book provides students with the knowledge base needed to successfully study conflict sources, processes and transformations. Broad in focus, it addresses the multiple social, political and psychological features central to understanding conflict situations and behaviour. A range of both recent and historical examples (including the Arab-Israeli conflict, the 'War on Terrorism', the Cold War, and the civil wars in Sudan, former Yugoslavia and Sri Lanka) are discussed, illustrating the application of concepts and theories essential to the analysis of inter-group, inter-state and intra-state conflict and conflict resolution in a wider context. Understanding Conflict and Conflict Analysis is key reading for students

of international relations, peace and conflict studies, conflict resolution, international security and international law.

### Ready-to-Use Conflict Resolution Activities for Secondary Students

Conflict Resolution holds the promise of freeing approaches and policies with regard to politics of identity from the fatalistic grip of realism. While the conceptual literature on identity and conflicts has moved in this alternative direction, conflict resolution practice continues to rely on realist frames and acts as an unwanted auxiliary to traditional international relations. Perpetuation of conflict discourses, marginalization, and exclusion of affected populations are widespread. They are caused by the over-reliance of conflict resolution practice on the binary frames of classic IR paradigms and also by the competitive and hierarchical relationships within the field. Philip Gamaghelyan relies on participatory action research and collective autoethnography to expose patterns of exclusion and marginalization as well as the paradoxical reproduction of conflict-promoting frames in current conflict-resolution practice applied to the Nagorno-Karabakh and Syrian crises. He builds on the work of postmodernist scholars, on reflective practice, and on discourse analysis to explore alternative and inclusive strategies with a transformative potential. The IR discipline that has dominated policymaking is only one possible lens, and often a deficient one, for defining, preventing, or resolving contemporary conflicts wrapped in identity politics. Other conceptual frameworks can help to rethink our understanding of identity and conflicts and reconstruct them as performative and not static phenomena. These transformative frameworks are increasingly influential in the conflict resolution field and can be applied to policymaking.

### Notes on K.I.E's The Winner and Other Stories

The contributors of this anthology make up a wide spectrum of South Africans: black, white, men and women, established and budding who write in either English or Afrikaans. Among these are writers who began their careers in the fifties (George Weideman), to those who were active in the black consciousness period of the seventies (Achmat Dangor, Chris van Wyk, Maropodi Mapalakyane) through to writers who first appeared in print in the eighties and nineties (Rayda Jacobs, Finuala Dowling, Zachariah Raphola, Roshila Nair, Roy Blumenthal, Allan Kolski Horwitz). While many of the writers in this anthology have established themselves as poets, novelists, dramatists and oral storytellers, they all choose the short story as another means of expressing a diverse South Africa of rural and urban life, white suburbia, black township, childhood, love, hate, reconciliation, the grim as well as the funny that make up the tapestry of a country as it used to be and as it is today.

### Conflict Resolution Beyond the Realist Paradigm

ESL instructors without a background in conflict resolution (CR) who teach intermediate to advanced courses at colleges, universities, or in Intensive English Programs, may want to provide students with valuable negotiation and mediation skills. Author Barrie J. Roberts is an experienced ESL teacher, lawyer, mediator, and Alternative Dispute Resolution (ADR) Administrator for southern California Superior Courts. In this book, she draws upon her experience using these activities in a variety of ESL settings and courses with students from all over the world to inspire other ESL teachers to add CR approaches to their activities, lessons, and courses. Following an introduction to conflict resolution, *Conflict Resolution Training for the Classroom* shows how much of the teaching of CR is similar to teaching ESL. It outlines ways to apply negotiation and mediation to ESL activities, how to prevent and resolve conflicts, how to use specific types of role-plays to address conflicts, and how to design successful activities. The book also includes a list of resources and sample syllabi.

### Post-Traumatic: South African Short Stories

This book is an anthology of Ahmad Tohari's fifteen short-stories that had appeared in countless newspapers between 1983 and 1997. Like his novels, his short-stories always have distinct characteristics. He always portrays the lives of the poor people or the low working class, with all their pain and struggles. Ahmad Tohari knew their lives well. As a result, he was able to weave the stories with a touching sympathy and empathy that can enrich the readers' mind.

### Changing the Conversation

Our current models for ending conflict don't really work. They waste incredible amounts of time, money, and energy and take an enormous emotional toll on participants. The parties remain embittered, relationships are destroyed, and often the conflict just reappears later in a different form. In this second edition of his classic book, Stewart Levine offers a revolutionary alternative approach that goes beyond compromise and capitulation to provide a satisfactory resolution for everyone involved. Marriages run amuck, neighbors at odds with one another, business deals gone sour, and the pain and anger caused by corporate downsizing are just a few of the conflicts he addresses. The new edition has been thoroughly revised with new examples, new tools, new material about building trust and virtual collaboration, as well as a more global outlook. Levine rejects the adversarial legal model: "If both sides are unhappy, you probably have a good settlement." Resolution, he shows, provides relief and completeness for both sides. No one goes away unhappy. Effective resolution stops anger and resentment cold, drastically cutting the emotional cost and allowing both sides to return to productive, satisfying, functional relationships. Getting to Resolution outlines the ten principles underlying this new approach—what Levine calls "resolutionary thinking. Levine provides a detailed seven-step process for using this new mindset to resolve conflicts in a way that fosters dignity and integrity, optimizes resources, and allows all concerns to be voiced, honored, and woven into the resolution. Levine's model has a thirty-five-year track record. It has been developed, implemented, tested, and proven in business, personal, and governmental contexts. Getting to Resolution will enable readers to shift from thinking about problems, fighting, and breakdowns to thinking about collaboration, engagement, learning, creativity, and the opportunity for creating enduring value.
