## Math Workbook - Grade 4 (eBook)

This workbook provides practice in fourth-grade mathematics skills. Emphasis is placed on multiplication using one-, two-, and three-digit factors, and on division involving one- and two-digit divisors. Practice is also provided in addition and subtraction of whole numbers and fractional numbers, and in solving word problems. The material correlates with the curriculum in most basic mathematics texts. The pages are presented in a suggested order, but may be used in any order which best meets a child's needs. Parents who wish their children to have practice in mathematics skills will find the book as helpful as classroom teachers will find it. The exercises are presented so that a child can work with a minimum of supervision. Answers are included in a four-page leaflet in the middle of the book. This leaflet can be easily removed. A glossary is available for reference on the inside back cover.

## Math Connects, Grade 4, Student Edition

It's All Connected Math Connects is intended for use in all elementary math classes as a balanced basal approach to teaching mathematics. Math Connects is the elementary portion of the vertically aligned PreK to 8 Math Connects program from Macmillan/McGraw-Hill and Glencoe. This program is designed to excite your students about learning mathematics while at the same time providing you, the teacher, with all the tools and materials you will need to teach the program. Your students will be motivated as they solve real-world problems such as creatures under the sea; emperors of the ice; and roller coaster physics. A variety of teacher materials are available to meet the needs of all your students, from early finisher to English learner

The next generation of Finish Line is here! Finish Line New York Math provides focused instruction to help students think critically and master New York's Common Core Learning Standards (CCLS). This workbook includes 300+ pages of focused practice and a new lesson format. The gradual release model is extended to four parts to promote deeper learning: Skill Introduction, Focused Instruction, Guided Practice, and Independent Practice. Guided questions teach the process of how to answer a question.

The first unit in the book reviews big ideas from the previous grade with four-to-five topics that are key to new concepts in the current grade. This feature allows students to refresh their skills in these areas before building on them to learn new ideas. Units conclude with a review, which covers all skills in the unit. PARCC-type items are included, as well as multiple-choice, open-ended, and multipart questions. A glossary features terms that appear in boldface throughout the book. Flashcards are provided for students to practice important ideas, formulas, and symbols from the book. Finish Line is designed to supplement core basal programs, including GO Math!(tm) and Connected Mathematics® Project 3 (CMP3).
