Your Home a Place of Grace

God's design for the family and the church is a wonderful thing. It's about one generation passing the legacy of faith on to the next. Susan Hunt shows parents what this looks like as they and their children journey through life. Though it's full of practical applications, it is not a how-to-book. It is more about who God is than what we do--and more about grace than guaranteed game plans.

Your Home

To Grace, family has always meant her Ma, her Nana and her cat Paw-Paw, but in all her school reading books families have a mother and a father, a boy and a girl, and a dog and a cat. So when Papa invites her to visit him in the Gambia, she dreams of finding a family straight out of one of her story books. But, when she arrives, she finds that her father has a new family. She has a little sister and a baby brother, and even a dog, but the mother is the wrong one she thinks. Although she has a lovely time, she feels as though there isn't enough of her to go around and that she can't manage two families. It is her Nana who helps Grace realise that families are what you make them, just like stories. A warm and delightful follow-up to the international bestseller and modern classic, *Amazing Grace*, this is an important story for all families and children today.

Grace and Family

Believe it or not, the Catholic family isn't primarily a human institution. It's a divine one. By uniting with the sacramental life of the Church, your common, ordinary, crazy family becomes something sacred, a "domestic church." Family therapist and parent Gregory Popcak and his wife, Lisa, are back with

Parenting Your Kids with Grace. Building on their best-selling book Parenting with Grace, first published twenty years ago, this new volume draws on the same parenting principles and provides up-to-date research to guide parents through each stage of child development from birth to age ten. Practical, faithful, and humorous, Parenting Your Kids with Grace addresses four key questions: Are Catholic families called to be different from other families in the way we relate to one another in the home? If so, how? What does an authentic, family-based approach to Catholic spirituality look like in practice? What can the latest research tell us about creating a faithful home and raising faithful kids? How can Catholic families be outposts of evangelization and positive social change? By checking our basic assumptions about parenting against both the Church's vision and what science can teach about living out that vision in healthy ways, we can discover God's plan for parenting healthy, godly kids.

Learning Together - Grace Place Family Literacy Model

"Their son, Jason, a young man who initially had so much promise, is now serving a life sentence for murder in a maximum-security prison. All their appeals have been exhausted at both the state and federal levels--humanly speaking, they have run out of options. But there's more to the story. Despite their grim situation, Carol and her husband live a life full of grace. Kent reveals how life's problems are a fruitful time to discover the very best divine surprises, including peace, compassion, freedom, and adventure"--Page 2 of cover

Parenting Your Kids with Grace (Birth to Age 10)

Between a Rock and a Grace Place

1910. Pownal, Vermont. At 12, Grace and her best friend Arthur must leave school and go to work as a "doffers" on their mothers' looms in the mill. Grace's mother is the best worker, fast and powerful, and Grace desperately wants to help her. But she's left handed and doffing is a right-handed job. Grace's every mistake costs her mother, and the family. She only feels capable on Sundays, when she and Arthur receive special lessons from their teacher. Together they write a secret letter to the Child Labor Board about underage children working in Pownal. A few weeks later a man with a camera shows up. It is the famous reformer Lewis Hine, undercover, collecting evidence for the Child Labor Board. Grace's brief acquaintance with Hine and the photos he takes of her are a gift that changes her sense of herself, her future, and her family's future.

Give Them Grace

Growing with Grace is a series of children's books that follow the life of Grace and her family as they go through one of the most difficult challenges a family and a child will go through, the death of a loved one.

Counting on Grace

Discover a parenting style that nurtures a healthy family and displaces fear as a motivator for behavior. Learn how to meet your child's three driving inner needs for security, significance and strength with the invaluable gifts of love, purpose and hope. Modern parents are stressed out and tired. They've tried countless parenting books on the market, many of which are harsh, fear-based books that loving parents instinctively reject. As Christians, we frequently believe that the battle for a child's heart and soul is fought on the outside with rigid rules and boundaries, when in fact the opposite is true. Dr. Tim Kimmel, founder of Family Matters ministries, offers a timeless look at parenting. Rejecting rigidity and checklists that don't work, Dr. Kimmel recommends a parenting style that is the opposite, emphasizing the importance of communicating the unconditional love that Christ offers and affirming this timeless message of grace to one's family. In Grace-Based Parenting, you'll learn: A parenting style that mirrors God's love, reflects His forgiveness, and displaces fear as a motivator Why fear-based parenting is a guaranteed method to set children up for failure How to provide a safe space for children to develop into functional adults with purpose, security, and inner strength As we embrace the grace God offers, we begin to give it—creating a solid foundation for growing morally strong and spiritually motivated children. This revolutionary book presents a whole new way to nurture your family.

Growing with Grace

As a teenager, Gary Morland lived in an unhappy, dysfunctional family characterized by addiction and disharmony. When he started a family of his own, he brought with him those same destructive patterns. Yet he sensed there must be a way to have a family shaped by acceptance and grace, a family that was loving, whole, and at peace with one another. The problem was, he didn't know how. In this life-giving book, Morland shares his journey of discovering the timeless tools of family peace that transformed him and his family. He shows how these tools broke the unhealthy patterns of the family he grew up in and saved his relationship with his wife and two daughters. With refreshing honesty and humility, he helps readers believe that they too can start from where they are right now--no matter how broken--to transform their family culture and their family legacy and to generously offer grace to the people who matter most in their lives.

Memoirs of the Family of Grace

This sparkling K-drama inspired debut novel introduces irrepressibly charming teen Chloe Chang, who is reunited with her deceased father's estranged family via a DNA test, and is soon whisked off to Seoul to join them... When her friends gift her a 23-and-Me test as a gag, high school senior Chloe Chang doesn't think much of trying it out. She doesn't believe anything will come of it—she's an only child, her mother is an orphan, and her father died in Seoul before she was even born, and before her mother moved to Oklahoma. It's been just Chloe and her mom her whole life. But the DNA test reveals something Chloe never expected—she's got a whole extended family from her father's side half a world away in Korea. Turns out her father's family are amongst the richest families in Seoul and want to meet Chloe. So, despite her mother's reservations, Chloe travels to Seoul and is whisked into the lap of luxury . . . but something feels wrong. Soon Chloe will discover the reason why her mother never told her about her dad's family, and why the Nohs wanted her in Seoul in the first place. Could joining the Noh family be worse than having no family at all?

Rhythms of Grace is a unique, innovative and cutting-edge program resource designed to meet the spiritual needs of children and families living with autism-spectrum disorders. Participant families gather monthly with program leaders and volunteers for sessions that are a hybrid of worship and faith formation. This book helps children and their families feel at the center of a worship/formation experience that is specific to their needs and circumstances, rather than merely at the margins of even a conventionally inclusive program of worship or faith formation. The whole Rhythms of Grace curriculum consists of a 3-year syllabus of distinct scripture-based session plans. This volume, Year 1, includes complete plans for 12 monthly sessions and 6 feast sessions, as well as the background and support material needed to establish and conduct a successful program.

Boundless Grace

A Powerful Approach to Bringing God's Grace to Kids Did you know that the way we deal (or don't deal) with our kids' misbehavior shapes their beliefs about themselves, the world, and God? Therefore it's vital to connect with their hearts--not just their minds--amid the daily behavior battles. With warmth and grace, Jim and Lynne Jackson, founders of Connected Families, offer four tried-and-true keys to handling any behavioral issues with love, truth, and authority. You will learn practical ways to communicate messages of grace and truth, how to discipline in a way that motivates your child, and how to keep your relationship strong, not antagonistic. Discipline is more than just a short-term attempt to modify your child's actions--it's a long-term investment to help them build faith, wisdom, and character for life. When you discover a better path to discipline, you'll find a more well-behaved--and well-believed--kid.

Stepparenting with Grace

Grace joins her friends in a series of dramatic holiday adventures, using her imagination to become anything she wants. In these stories, Mary Hoffman tackles the difficult subject of the absent father and Mum's new boyfriend with an understanding of children's emotional needs.

Rhythms of Grace Year 1

In our pursuit to refute legalistic religion of past generations, the grace movement of the recent decades in some ways has caused an extreme pendulum swing that has left a generation of families with a perverted, deceiving, lawless view of grace; yielding families full of compromising powerless faith. God and His holiness has been dumbed down to suggest that somehow God is as human as we are, leaving the sacrificial and expensive price of grace, and our need for it, of no effect. A generation of families has embraced a grace that has become a get out of jail free card that somehow gives permission for continual and perpetual sin. When the reality is, true biblical and authentic grace is not absent of the law, but is the law fulfilled through a yielded and surrendered soul in Christ Jesus. This devotional is all about moving the grace pendulum to the middle long enough to help families find a holistic and biblical view of grace that they can walk out in their Christian life. Grace defined in its simplest term is the power of the cross at work through the Holy Spirit in a believer. Grace received at salvation is only the beginning of grace; authentic grace is a continual work in progress in a believer. In this devotional your family will be empowered to allow grace to work in your lives to yield righteousness, love, power, true worship, an intimate relationship with Christ, and a passionate desire to go into all the world and impart the grace you have received...wherever your world may be.

You've got us now, like it or not, and we've got you.' When 16 year-old Grace gives up her baby for adoption, she decides that the time has come to find out more about her own biological mother. Although her biological mum proves elusive, her search leads her to two half-siblings she never knew existed. For fans of John Green, Rainbow Rowell and Nicola Yoon, *Far From the Tree* is a raw, compelling, and ultimately uplifting story of what it means to be family. 'Benway's unforgettable novel explores the paradoxes and entanglements of unconventional families ... It's a melodrama, to be sure, but with as much brain as heart. Benway writes with remarkable control and has the rare talent of almost vanishing as an author as she inhabits each character's perspective.' The New York Times 'Family issues are neither airbrushed nor oversimplified... From the first page to the last, this compassionate, funny, moving, compulsively readable novel about what makes a family gets it right.' Kirkus Reviews 'Equally heartwarming and heart-wrenching... Benway delves into the souls of these characters as they wrestle to overcome feelings of inadequacy, abandonment, and betrayal, gradually coming to understand themselves and each other.' Publishers Weekly 'Far from the Tree is the kind of book that strikes close to a reader's heart. I had to know what happened to Grace, Maya, and Joaquin, and I couldn't turn the pages fast enough. Beautiful.' Robin Benway's characters are authentically crafted, full of heart, hurt, and hope.' Stephanie Perkins, New York Times bestselling author of *Isla and the Happily Ever After* 'Emmy & Oliver is wonderful. Funny, heartbreaking, and true. Robin Benway has written characters I felt like I'd known forever, and was so sad to see go. A must-read.' Morgan Matson, author of *Since You've Been Gone*

My Family

A rehearsal dinner brings together two disparate families in this sparkling, witty novel "This vital novel offers delicious echoes of Virginia Woolf and E. M. Forster, and a touch of *A Midsummer Night's Dream*—but its magic is unique. The Garden Party is beautiful and full of life."—Claire Messud, author of *The Burning Girl* and *The Woman Upstairs* The Cohens are wildly impractical intellectuals—academics, activists, and artists. The Barlows are Wall Street Journal–reading lawyers steeped in trusts and copyrights, golf and tennis. The two families are reserved with and wary of each other, but tonight, the evening before the wedding that is supposed to unite them in marriage, they will attempt to set aside their differences over dinner in the garden. As Celia Cohen, the eminent literary critic, sets the table, her husband, Pindar, would much rather be translating ancient recipes for his Babylonian cookbook than hosting this rehearsal dinner. Meanwhile, their son, Adam, the poet (and nervous groom), wonders if

there is still time to simply elope. One of Adam's sisters, Naomi, a passionate but fragile social activist, refuses to leave her room, while Sara, scorpion biologist turned folklore writer, sits up on the roof mourning an imminent breakup. And Pindar's elderly mother, Leah, witnesses everything, weaving old memories into the present. The lawyers are early: patriarch Stephen Barlow and his bespangled wife, Philippa, who specializes in estates, along with Philippa's father, Nathan, hobbled by age and Lyme disease. Then come the Barlow sons William (war crimes), Cameron (intellectual property), and Barnes (the prosecutor), each with desperate wife and precocious offspring. How could their younger siblings—Eliza, the bride, an aspiring veterinarian, and her twin brother, Harry, recently expelled from divinity school—have issued from such a family? Up and down the dinner table, with its twenty-four (or is it twenty-five?) guests, unions are forming and dissolving while Pindar is trying to figure out whether time is really shaped like baklava, and off in the surrounding forest with its ancient pond different sorts of mischief will lead to a complicated series of fiascoes and miracles before the party is over. Set over the course of a single day and night, Grace Dane Mazur's brilliantly observed novel weaves an irresistible portrayal of miscommunication, secrets, and the power of love. "Lyrical and charming, this comedy of errors is a delightful summer read."—People

"God's Amazing Grace: Reconciling Four Centuries of African American Marriages and Families is an insightful study that will be welcomed by thoughtful practitioners and all who ponder the African American family's complexity. Readers familiar with the deep, rich reservoir of African American family literature will recognize many of the black scholars referenced in this work. Readers unfamiliar with these sources will be grateful to discover them and the effective use of disparate literature. "This work will become a different kind of guide for studying American history through the lens of the African American family. Underneath all the research is the search for answers to the compelling questions: Is there a correlation between slave owners' denial to slaves, God's design for the family, and the familial chaos that has plagued African American families for more than a hundred fifty years? And if there is connection, what is it? "The author has brought something new to a familiar topic of discussion—the Bible. The unique moral compass that steered this study is solidly anchored in the bedrock of holy scripture. In this work, the history and sociology of African American marriages are examined in light of the questions asked by Holy Scripture. In so doing, Dr. Turner skillfully attempts to help readers make sense of the story of black families in America. May this book mark the beginning to a new reality for African American families" (Dr. Willie Peterson, senior executive advisor, adjunct professor of Pastoral Ministries, Dallas Theological Seminary).

Amazing Grace Family Devotional

In *Being Dad*, Dr. Keith brings his Christian faith, a scholarly eye for detail and an ear for story along on the journey and works with the reader to navigate a path to a better country where the Father blesses His children and is honored.

The Reflection Of Grace

Families are equal parts blood, duty, history, fights, and future. Families are beautiful, complicated, and infuriating. Pastors' doors revolve with families looking for healing from one another. Siblings hold grudges for years. Parents stop speaking to their kids. People want to escape their families and fix them, celebrate them, and never speak to them again. But what can break our generational curses? What can shine bright light into our dark hearts? What can change everything - even our ugliest family feuds? God's grace and His forgiveness. *Family Trees and Olive Branches* points readers to the authority and comfort of Scripture as they seek to repair and improve their family relationships. Inspired by Matthew 18:22, *Family Trees and Olive Branches* is a conversation about grace, the oil that unsticks fighting families. No matter how black the sheep of your family is, how hurtful your parents can be, or how long it has been since you've spoken to your brother, God's answer to family fallouts is always grace. In this book, readers will look at the different types of olive branches in the Bible with the purpose of opening their hearts and minds to spiritual transformation through the work of the Holy Spirit. Each chapter offers lessons of forgiveness, tips on reflecting God's grace in our toughest relationships, journal and prayer prompts, and discussion starters.

Family Trees & Olive Branches

Servants of Christ are in the transformation business. This kind of transformation will only happen if we refuse to be seduced by false idols like success, money, fame, and security--to be the church we were called to be. We need to take ownership of the problems around us and work with people who are suffering in order to find solutions and offer lasting change.

The Lifegiving Home

The inspirational story of how a woman with a difficult past befriended a homeless man whose kind, life-affirming spirit taught her and their Texas community about forgiveness, humility, and the boundless love of God. Stopped at a familiar Houston intersection on her way to work, Ginger Sprouse watched the homeless man pacing the garbage-strewn ground in his bare feet. Compelled to pull over and say hello, she was drawn to his exuberant joy and infectious smile. Over the next few months, she would learn that Victor, who was mentally disabled, had been returning to that spot because it was the last place he had seen his mother--three years earlier. Motivated by her faith and their deepening friendship, Ginger set out to help Victor, creating Facebook and GoFundMe pages to raise funds for Victor's medications, clothing, and food. When it became clear that he could not live safely on his own, she and her family

took a leap of faith and offered him a permanent place in their family. What Ginger learned from Victor about forgiveness, humility, and love changed her forever. Kinda Like Grace is a powerful reminder that seemingly insurmountable obstacles can be overcome, that we all deserve second chances, and that each of us has a limitless capacity to love our neighbors, no matter how different from us they may appear to be.

After a while we find ourselves exhausted and discouraged, and we may feel even more alienated from God. Jeff VanVonderen, Dale Ryan and Juanita Ryan understand this problem because they have been there both personally and professionally. And they are prepared to help you rebuild your spiritual life. If you find yourself living out a burdensome and unfulfilling spirituality, this book is for you. If you are longing to have a relationship with God that works, this book can show you the way.

Revolution and Constitutionalism in the Ottoman Empire and Iran

In his book on constitutional revolutions in the Ottoman Empire and Iran in the early twentieth century, Nader Sohrabi considers the global diffusion of institutions and ideas, their regional and local reworking and the long-term consequences of adaptations. He delves into historic reasons for greater resilience of democratic institutions in Turkey as compared to Iran. Arguing that revolutions are time-bound phenomena whose forms follow global models in vogue at particular historical junctures, he challenges the ahistoric and purely local understanding of them. Furthermore, he argues that macro-structural preconditions alone cannot explain the occurrence of revolutions, but global waves, contingent events and the intervention of agency work together to bring them about in competition with other possible outcomes. To establish these points, the book draws on a wide array of archival and primary sources that afford a minute look at revolutions' unfolding.

Iran's Constitutional Revolution of 1906 and Narratives of the Enlightenment

The Constitutional Revolution of 1906 opened the way for enormous change in Persia, heralding the modern era and creating a model for later political and cultural movements in the region. Broad in its scope, this multidisciplinary volume brings together essays from leading scholars in Iranian Studies to explore the significance of this revolution, its origins, and the people who made it happen. As the authors show, this period was one of unprecedented debate within Iran's burgeoning press. Many different groups fought to shape the course of the Revolution, which opened up seemingly boundless possibilities for the country's future and affected nearly every segment of its society. Exploring themes such as the role of women, the use of photography, and the uniqueness of the Revolution as an Iranian experience, the authors tell a story of immense transition, as the old order of the Shah subsided and was replaced by new institutions, new forms of expression, and a new social and political order.

Armenians And The Iranian Constitutional Revolution Of 1905-1911

Drawing upon original sources, this study provides the most comprehensive treatment to date of the issue of Armenian politicization and participation in the Iranian Constitutional Revolution (1905-1911). Houri Berberian traces the political, economic, and social situation of Armenians in the nineteenth century with a special emphasis on the Armenian provinces of the Ottoman Empire, which became the focus of the Armenian revolutionary movement in the late nineteenth century, and on the Russian-ruled Caucasus, which became the source of the nationalist and socialist revolutionary movement. Discussion of the Iranian Armenian community includes, for the first time, a look into the roles and

activism of Iranian Armenian women. Berberian explores the ideological, political, and pragmatic motivations of Armenians, and examines the collaboration of Armenian and Iranian constitutionalists, drawing attention to the ideological and military contributions of Armenians to the revolution as well as to the internal and external conflicts among Armenian activists and between Armenian and Iranian constitutionalist elements. Berberian concludes with a discussion of the causes and consequences of the retreat of Armenians from Iranian politics.

Constitutionalism, Revolution and State

Using a 'Historical Institutionalist' approach, this book sheds light on a relatively understudied dimension of state-building in early twentieth century Iran, namely the quest for judicial reform and the rule of law from the 1906 Constitutional Revolution to the end of Reza Shah's rule in 1941.

Law, State, and Society in Modern Iran

The 1906 revolution established the Iranian state—a constitution, legal and political systems, and a Western-style economy—separate from the religious institutions of Shi'ia. Martin (history, London U.) examines the role played by the ulama, the traditional body of the clerical elite, in this change, and surveys the relations between the ulama and the state until the 1979 revolution restored religious primacy. Shahism and Constitutionalism in Iran

An inquisitive socio-historical analysis of the long road Iran has traveled in quest of constitutionalism and democracy. The book explicates the paradox that after over a hundred years of struggle for freedom, the Iranian people currently have less of it than they did a hundred years ago at this time.

Islam and Modernism

The Ottoman revolution of 1908 is a study in contradictions—a positive manifestation of modernity intended to reinstate constitutional rule, yet ultimately a negative event that shook the fundamental structures of the empire, opening up ethnic, religious, and political conflicts. *Shattered Dreams of Revolution* considers this revolutionary event to tell the stories of three important groups: Arabs, Armenians, and Jews. The revolution raised these groups' expectations for new opportunities of inclusion and citizenship. But as post-revolutionary festivities ended, these euphoric feelings soon turned to pessimism and a dramatic rise in ethnic tensions. The undoing of the revolutionary dreams could be found in the very foundations of the revolution itself. Inherent ambiguities and contradictions in the revolution's goals and the reluctance of both the authors of the revolution and the empire's ethnic groups to come to a compromise regarding the new political framework of the empire ultimately proved untenable. The revolutionaries had never been wholeheartedly committed to constitutionalism, thus constitutionalism failed to create a new understanding of Ottoman citizenship, grant equal rights to all citizens, and bring them under one roof in a legislative assembly. Today as the Middle East experiences another set of revolutions, these early lessons of the Ottoman Empire, of unfulfilled expectations and ensuing discontent, still provide important insights into the contradictions of hope and disillusion seemingly inherent in revolution.

Democracy and Constitutional Politics in Iran

The Arab Spring uprising of 2011 is portrayed as a dawn of democracy in the region. But the revolutionaries were—and saw themselves as—heirs to a centuries-long struggle for just government and the rule of law. In *Justice Interrupted* we see the complex lineage of political idealism, reform, and violence that informs today's Middle East.

Shattered Dreams of Revolution

With the ratification of a new constitution in December 1906, Iran embarked on a great movement of systemic and institutional change which, along with the introduction of new ideas, was to be one of the most abiding legacies of the first Iranian revolution - known as the Constitutional Revolution. This uprising was significant not only for introducing secular understandings of government, but also Islamic visions of what could constitute a national assembly. The events of the Constitutional Revolution in Tehran have been much discussed, but the provinces, despite their crucial role in the revolution, have received less attention. Here, Vanessa Martin seeks to redress this imbalance. She does so by

firstly analysing the role of the Islamic debate in the late nineteenth and early twentieth centuries, and its relationship with secular ideas, and secondly by examining the ramifications of this debate in the main cities of Tabriz, Shiraz, Isfahan and Bushehr. When Muzaffar al-Din Shah came to power in 1896, on the assassination of his father Nasr al-Din Shah, Iran was in the midst of social and political upheaval, which culminated in the creation for the first time in Iran's history of a constitution and a new majlis (consultative assembly). In this book, Martin looks in particular at the idea of modern Islamic government as it was conceptualized at the time; an idea which had been emerging for some time before the revolution, having its origins in the vision of the reformist pan-Islamist, Jamal al-Din al-Afghani. She therefore traces the evolution of the debate around whether Iran was to be a secular or an Islamic society, or a combination of the two, together with the implications of this discourse in terms of popular perception and public opinion. By looking at the revolution outside of Tehran, she highlights the intra-elite rivalries, and the Islamic response to the Constitutional Revolution, from the moderate views of Thiqat al-Islam to the emergence of Islamic organizations and militancy. It is through this examination of Iran's major provincial cities that Martin concludes that in each region, the Constitutional Revolution took on a character of its own. From an exploration of the elites of Shiraz, including the effective mayor, Qavam al-Mulk, to the power centre of the then governor of Isfahan, Prince Zill al-Sultan, and from the revolutionary fervor of Tabriz to the commercial centre of Bushehr, Martin sheds light on the historical, political, religious and geographical importance of these cities. By examining the interaction between Islam and secularism during this tumultuous time, Iran between Islamic Nationalism and Secularism offers a vital new approach to the understanding of a key moment in Iran's history.

Justice Interrupted

The Iranian Constitutional Revolution was the twentieth century's first such political movement in the Middle East. It represented a landmark in Iranian history because of the unlikely support it received from Shi'ite clerics who historically viewed Western concepts with suspicion, some claiming constitutionalism to be anti-Islamic. Leading the support was Muhammad Kazim Khurasani, the renowned Shi'ite jurist who conceived of a supporting role for the clergy in a modern Iranian political system. Drawing on extensive analysis of religious texts, fatwas, and articles written by Khurasani and other pro- and anti-constitutionalists, Farzaneh provides a comprehensive and illuminating interpretation of Khurasani's religious pragmatism. Despite some opposition from his peers, Khurasani used a form of jurisprudential reasoning when creating shari'a that was based on human intellect to justify his support of not only the Iranian parliament but also the political powers of clerics. He had a reputation across the Shi'ite community as a masterful religious scholar, a skillful teacher, and a committed humanitarian who heeded the people's socioeconomic and political grievances and took action to address them. Khurasani's push for progressive reforms helped to inaugurate a new era of clerical involvement in constitutionalism in the Middle East.

Iran between Islamic Nationalism and Secularism

Three of the formative revolutions that shook the early twentieth-century world occurred almost simultaneously in regions bordering each other. Though the Russian, Iranian, and Young Turk Revolutions all exploded between 1904 and 1911, they have never been studied through their linkages until now. Roving Revolutionaries probes the interconnected aspects of these three revolutions through the involvement of Armenian revolutionaries whose movements and participation within these empires (where Armenians were minorities) and across frontiers tell us a great deal about the global transformations that were taking shape. Exploring the geographical and ideological boundary crossings that occurred, Hourii Berberian's archivally grounded analysis of the circulation of revolutionaries, ideas, and print tells the story of peoples and ideologies amid upheaval and collaboration. In doing so, it illuminates our understanding of revolutions and movements.

The Iranian Constitutional Revolution and the Clerical Leadership of Khurasani

In order to understand Iran's religious revolution of 1978-1979, it is important to look closely at an earlier revolution in the country, the constitutional revolution of 1905-1909. This revolution, which resulted in the establishment of Iran's first parliamentary democracy, was a seminal event in the country's history. The most thorough and comprehensive history of the revolution to date, Bayat's book examines the uneasy alliance of clerical, bureaucratic, landowning, and mercantile elements that won the support of the masses for a more democratic government, especially the clerical dissidents that gave the revolution an aura of religious legitimacy. Bayat argues that the recent religious revival in Iran is much less surprising

when one sees how constitutionalists at the beginning of the century had to couch their calls for reform in the language of the Koran, claiming that political reforms constituted a return to Islam.

Iran's First Revolution

In this thoroughly researched account, Mansour Bonakdarian provides an in-depth exploration of the substantial British support for the Iranian constitutional and national struggle of 1906-1911, illuminating the opposition in Britain to Anglo-Russian imperialist intervention in Iran. In painstaking and compelling detail Bonakdarian analyzes, in particular, the role of the Persia Committee, a lobbying group founded in 1908 for the sole purpose of changing Britain's policy toward Iran. This book's strength lies in its coverage of how Sir Edward Grey's policy toward Iran was shaped and the extent to which this policy was affected by sustained criticism from a number of disparate groups including dissenters, radicals, socialists, liberal imperialists, and conservatives. The volume and breadth of primary archival materials used is extensive. Not only have all the standard collections been examined, such as the Foreign Office files and the Cabinet and Grey papers, but also numerous private archives in international libraries have been consulted. Bonakdarian's deep understanding of the Iranian issues yields a rich and balanced approach to the literature in the field. With clear and systematic arguments, he offers an account of diplomatic history that is accessible and persuasive. His scholarship is certain to reinvigorate dialogue on the subject of Anglo-Iranian relations.

The Oxford Handbook of Contemporary Middle-Eastern and North African History

Focusing substantially on the relation between the concept of constitutionalism and Islamic Law in general and how such relation is specifically reflected in the Shiite jurisprudence, this volume explores the juristic origins of constitutionalism, especially in the context of 1905 Constitutional Revolution in Iran.

Britain and the Iranian Constitutional Revolution of 1906-1911

Born out of a fundamental tension between the old-fashioned and inadequate Qajar monarchy of Mozaffar al-Din Sah and Mohammad Ali Shah, and new reformist democratic ideals, the Iranian Constitutional Revolution of 1906 represents a pivotal moment in the formation of modern Iran. The collapse of the state through financial indigence and foreign pressure - which in the end also consumed the new regime - created a vacuum, which became the subject of many different visions. These included the anti-constitutionalist arguments of Fazlollah Nuri; the moderate Shi'i vision of Tabatabai'i; the more gradualist secular approach of bureaucrats such as Sani-e Dowleh and Nasser Al-Molk; the various radical visions of Taqizadeh and Sattar Khan, as well as the Bakhtiaris. What were the reformists' various aims and how much did they accomplish in the years before Reza Shah seized power? How do events in Iran compare with similar uprisings in other parts of the world? And what role does the Constitutional Revolution continue to play in defining Iranian self-identity? This important and authoritative new book explores all the many different facets of the Revolution, drawing on newly available sources as well as cutting edge research from around the globe to present a definitive account.

The Persian Revolution of 1905-1909

First published in 1998, *Revolutionary Iran* investigates two major political transformations in the modern history of Iran: the Constitutional Revolution of 1905-09 and the Islamic Revolution 1976-79 and their relation to the modernization of Iran in this century. It addresses a core question: Why did the clergy not take political power in the Constitutional Revolution when Iran was a traditional society and they played a key leadership role in the revolution; yet they succeeded in the more modern Iran of 1979. Characterization of socio-economic relationships between the two major influential groups of civil society in Iran and their role in political transformation is considered central for answering such a question. The book deals with revolution in terms of relationships between civil society and state; which,

it is argued, are central to analysing and understanding modern movements in Iran and other Islamic countries. The major contribution of the book can be summarized as follows: It identifies a socio-political division of power and influence between state and civil society during a long period of Iran's Islamic history as the key theoretical basis for understanding modern transformations of Iranian society. Such a division has, so far, been largely ignored. It explores the clergy and bazaris as the social basis of civil society in Iran, and challenges Gellner's viewpoint that an Islamic civil society is an impossibility. It argues that the modernization of religion and the creation of modern political theories by the clergy were both crucial means for defeating a modern authoritarian state and seizing political power. It identifies the main social group without whom the Islamic Revolution of Iran would not have achieved political victory, i.e., the dispossessed. It presents a theoretical basis for analysing and understanding new Islamic movements in the Islamic world.

Shi'i Jurisprudence and Constitution

Rival Conceptions of Freedom in Modern Iran is an original historiographic examination of the idea of freedom in early modern Iran within a larger context of the formation of modern Muslim thought. The study develops an appropriate method for the historiography of ideas by taking into consideration cultural, linguistic, and socio-political limitations and obstacles to free thinking in closed societies. The research shows how most locutions about freedom, uttered during early modern Iran, were formed within the horizon of the question of Iran's decline and were somehow related to remedying such situations. It challenges previous studies which employed Isaiah Berlin's distinction between positive and negative freedom as two fundamentally different concepts of freedom. It replaces Berlin's dichotomy of positive and negative liberties with MacCallum's triadic concept of freedom and argues that thinkers in early modern Iran could noticeably present rival interpretations of three variables of the concept of freedom, namely the agent, the constraint, and the purpose of freedom. *Rival Conceptions of Freedom in Modern Iran* is a unique contribution to the histories of the 1905-11 Constitutional Revolution in Iran and comparative political thinking between Iran and Europe. It is an essential resource for scholars interested in Constitutionalism, History, Political Theory and Sociology within Middle Eastern Studies.

Iran's Constitutional Revolution

Three of the formative revolutions that shook the early twentieth-century world occurred almost simultaneously in regions bordering each other. Though the Russian, Iranian, and Young Turk Revolutions all exploded between 1904 and 1911, they have never been studied through their linkages until now. *Roving Revolutionaries* probes the interconnected aspects of these three revolutions through the involvement of the Armenian revolutionaries—minorities in all of these empires—whose movements and participation within and across frontiers tell us a great deal about the global transformations that were taking shape. Exploring the geographical and ideological boundary crossings that occurred, Hourii Berberian's archivally grounded analysis of the circulation of revolutionaries, ideas, and print tells the story of peoples and ideologies in upheaval and collaborating with each other, and in so doing it illuminates our understanding of revolutions and movements.

Revolutionary Iran

Few terms in political theory are as overused, and yet as under-theorized, as constitutional revolution. In this book, Gary Jacobsohn and Yaniv Roznai argue that the most widely accepted accounts of constitutional transformation, such as those found in the work of Hans Kelsen, Hannah Arendt, and Bruce Ackerman, fail adequately to explain radical change. For example, a "constitutional moment" may or may not accompany the onset of a constitutional revolution. The consolidation of revolutionary aspirations may take place over an extended period. The "moment" may have been under way for decades—or there may be no such moment at all. On the other hand, seemingly radical breaks in a constitutional regime actually may bring very little change in constitutional practice and identity. Constructing a clarifying lens for comprehending the many ways in which constitutional revolutions occur, the authors seek to capture the essence of what happens when constitutional paradigms change.

Rival Conceptions of Freedom in Modern Iran

In the mid-to-late nineteenth-century, the Ottoman Empire, and specifically its capital Istanbul, became the home and socio-intellectual base of some of the most renowned Iranian intellectuals and dissidents of Qajar Iran (1785-1925). These emigres and scholars, from sites across the Ottoman Empire,

produced much of the literature of reform and dissent that decades later would be regarded as some of the most important texts circulated in Iran prior to and during the Iranian Constitutional Revolution (1905-1911). Despite the fact that these Iranian emigres spent considerable proportions of their careers in the Ottoman Empire, remarkably little information on their "Ottoman lives" is available. Drawing on the archives of the Ottoman Empire, Republican Turkey, Iran, Britain and France, this dissertation attempts to address this gap in the literature by examining the lives and careers of Iranian emigre-scholars and intellectuals in the late Ottoman Empire. It weaves together previously untapped resources in Persian, modern and Ottoman Turkish, French and English, and argues that late-nineteenth and early-twentieth century Iranian emigres in the Ottoman Empire were mediating agents who facilitated the circulation of ideas in Iran, the Ottoman Empire and the Caucasus. The consideration of the formation of expansive socio intellectual networks within and across a region which spanned Iran, the Ottoman Empire and Caucasus thereby offers avenues for putting inter-imperial politics in the frame of writing Ottoman and Iranian history.

Roving Revolutionaries

Iranian history was long told through a variety of stories and legend, tribal lore and genealogies, and tales of the prophets. But in the late nineteenth century, new institutions emerged to produce and circulate a coherent history that fundamentally reshaped these fragmented narratives and dynastic storylines. Farzin Vejdani investigates this transformation to show how cultural institutions and a growing public-sphere affected history-writing, and how in turn this writing defined Iranian nationalism. Interactions between the state and a cross-section of Iranian society—scholars, schoolteachers, students, intellectuals, feminists, and poets—were crucial in shaping a new understanding of nation and history. This enlightening book draws on previously unexamined primary sources—including histories, school curricula, pedagogical materials, periodicals, and memoirs—to demonstrate how the social locations of historians writ broadly influenced their interpretations of the past. The relative autonomy of these historians had a direct bearing on whether history upheld the status quo or became an instrument for radical change, and the writing of history became central to debates on social and political reform, the role of women in society, and the criteria for citizenship and nationality. Ultimately, this book traces how contending visions of Iranian history were increasingly unified as a centralized Iranian state emerged in the early twentieth century.

Constitutional Revolution

Iranian women tell in their own words what the revolution attempted and how they responded. The Islamic revolution of 1979 transformed all areas of Iranian life. For women, the consequences were extensive and profound, as the state set out to reverse legal and social rights women had won and to dictate many aspects of women's lives, including what they could study and how they must dress and relate to men. *Reconstructed Lives* presents Iranian women telling in their own words what the revolution attempted and how they responded. Through a series of interviews with professional and working women in Iran—doctors, lawyers, writers, professors, secretaries, businesswomen—Haleh Esfandiari gathers dramatic accounts of what has happened to their lives as women in an Islamic society. She and her informants describe the strategies by which women try to and sometimes succeed in subverting the state's agenda. Esfandiari also provides historical background on the women's movement in Iran. She finds evidence in Iran's experience that even women from "traditional" and working classes do not easily surrender rights or access they have gained to education, career opportunities, and a public role.

Iranian Dissidents in Late Ottoman Empire

During the Iranian Constitutional Revolution of 1906 to 1911 a variety of forces played key roles in overthrowing a repressive regime. Afary sheds new light on the role of ordinary citizens and peasantry, the status of Iranian women, and the multifaceted structure of Iranian society.

Making History in Iran

A comprehensive account of how revolutions begin, unfold and end, featuring a wide range of cases from across modern world history. Drawing on international relations, sociology, and global history, Lawson outlines the benefits of a 'global historical sociology' of revolutionary change, in which international processes take centre stage.

Reconstructed Lives

"By the dawn of the twentieth century, Iran was sinking deeper into crisis. It was losing its economic and political Independence to the Russian and British empires as a profligate absolute monarchy threw the country ever deeper into debt. A few intellectuals saw the rule of law as the solution to this, and eventually their ideas were taken up by a broad coalition of merchants, clerics, and artisans. In 1906, it forced the Shah to grant Iran a constitution and soon a parliament (Majlis) was elected - both firsts in the Muslim world." "Ahmad Kasravi's History of the Iranian Constitutional Revolution chronicles this event and the ensuing struggles. Alternately elegiac and brutally honest, Kasravi's work is central to modern Iranian political consciousness in a way few other author's works are to their nation's. It is respected across the political spectrum. It will strike the reader how fresh the issues raised by the revolution and the ensuing struggles are today. For example, the history presents a spirited defense of secular nationalism but gives a refreshingly honest view of the Islamic polemic against it."--BOOK JACKET.

The Iranian Constitutional Revolution, 1906-1911

Many dangers and many anxious days lie without doubt before the new Persia. Over eight decades later, Edward Browne's fears and hopes have a special resonance in the minds of contemporary readers. The Persian Revolution of 1905-1909, an account of one episode in Iran's eventful annals, has maintained its relevance and freshness, even after the occurrence of a revolution more intense and all-embracing than the Constitutional Revolution of 1906-11. When the aspirations of the Constitutional period are contrasted with those of the more recent revolution, the irony is poignant and inescapable, especially when it is noted that the occurrence of the second revolution was a distant protest against the failure of the first. What Browne primarily intended to achieve in his book was to allow the voice of the Persian people to be heard by his Western audience. He tried to demonstrate to his readers that the tumultuous events they were witnessing in Iran, often with suspicion if not disdain, were in fact no less than a genuine struggle by an oppressed and impoverished nation to establish a constitutional order despite the overwhelming odds of domestic tyranny, foreign intervention, and ideological divisions. The Persian Revolution was more than a simple record of a revolution, for it influenced the very course of events it covered in its pages. An essential volume for anyone attempting to understand Persia's past and present, this new edition features an introduction by Abbas Amanat, Browne's correspondences, and contemporary reviews of the book, all of which provide a rich context for The Persian Revolution of 1905-1909. Also included are 56 period photographs. Originally published in 1910 by Cambridge University Press.

Anatomies of Revolution

A masterfully researched and compelling history of Iran from the sixteenth century to the twenty-first

History of the Iranian Constitutional Revolution

"Bringing together historians of US foreign relations and scholars of Iranian studies, American-Iranian Dialogues examines the cultural connections between Americans and Iranians from the constitutional period of the 1890s through to the start of the White Revolution in the 1960s. Taking an innovative cultural approach, chapters are centred around major themes in American-Iranian encounters and cultural exchange throughout this period, including stories of origin, cultural representations, nationalism and discourses on development. Expert contributors draw together different strands of US-Iranian relations to discuss a range of path-breaking topics such as the history of education, heritage exchange, oil development and the often-overlooked interactions between American and Iranian non-state actors. Through exploring the understudied cultural dimensions of US-Iranian relations, this book will be essential reading for students and scholars interested in American history, international history, Iranian studies and Middle Eastern studies"--

The Persian Revolution of 1905-1909

Using a plethora of hitherto unused and under-utilized sources from the Ottoman, British and Iranian archives, Ottoman-Iranian Borderlands traces seven decades of intermittent work by Russian, British, Ottoman and Iranian technical and diplomatic teams to turn an ill-defined and highly porous area into an internationally recognized boundary. By examining the process of boundary negotiation by the international commissioners and their interactions with the borderland peoples they encountered,

the book tells the story of how the Muslim world's oldest borderland was transformed into a bordered land. It details how the borderland peoples, whose habitat straddled the frontier, responded to those processes as well as to the ideas and institutions that accompanied their implementation. It shows that the making of the boundary played a significant role in shaping Ottoman-Iranian relations and in the identity and citizenship choices of the borderland peoples.

Iran

This is a study of modern Iranian political history and is set in the international context of the Second World War and its aftermath. The rise and fall of the autonomous state in Iranian Azerbaijan can be said to be the beginning of the Cold War, and the issues it threw up - nationalism, ethnicity and citizenship - are vital towards understanding the present Azeri crisis. The book covers the essential background in Iranian political history in the 20th century including the role played by Azerbaijani politicians in the Constitutional Revolution of 1905-6, the drastic reforms of the autocratic Reza Shah regime and its effect on ethnic identity in Iranian Azerbaijan, the abdication of the Shah and the role of the Allied Powers and the occupations of Iran. The core of the study is the establishment of the autonomous government in 1945-6 and its demise, and an assessment of its achievements and organization - a vignette perhaps on the stage of international history but one which brings to the fore vital elements in the political history of the 20th century. The book draws on Turkish, Persian and Azeri sources as well as British, French, American and Soviet materials and interviews with surviving members of the period of autonomous government in Iranian Azerbaijan. It contains biographical details of the leading protagonists of the period.

American-Iranian Dialogues

The book examines the challenges and limits of contemporary *ijtihad* in the context of diverse needs of Muslim cultures and communities living in Muslim and non-Muslim nations and continents, including Europe and North America.

Ottoman-Iranian Borderlands

This study entails a theoretical reading of the Iranian modern history and follows an interdisciplinary agenda at the intersection of philosophy, psychoanalysis, economics, and politics and intends to offer a novel framework for the analysis of socio-economic development in Iran in the modern era. A brief review of Iranian modern history from the Constitutional Revolution to the Oil Nationalization Movement, the 1979 Islamic Revolution, and the recent Reformist and Green Movements demonstrates that Iranian people travelled full circle. This historical experience of socio-economic development revolving around the bitter question of "Why are we backward?" and its manifestation in perpetual socio-political instability and violence is the subject matter of this study. Michel Foucault's conceived relation between the production of truth and production of wealth captures the essence of hypothesis offered in this study. Foucault (1980: 93–94) maintains that "In the last analysis, we must produce truth as we must produce wealth; indeed we must produce truth in order to produce wealth in the first place." Based on a hybrid methodology combining hermeneutics of understanding and hermeneutics of suspicion, this monograph proposes that the failure to produce wealth has had particular roots in the failure in the production of truth and trust. At the heart of the proposed theoretical model is the following formula: the Iranian subject's confused preference structure culminates in the formation of unstable coalitions which in turn leads to institutional failure, creating a chaotic social order and a turbulent history as experienced by the Iranian nation in the modern era. As such, the society oscillates between the chaotic states of socio-political anarchy emanating from irreconcilable differences between and within social assemblages and their affiliated hybrid forms of regimes of truth in the springs of freedom and repressive states of order in the winters of discontent. Each time, after the experience of chaos, the order is restored based on the emergence of a final arbiter (Iranian leviathan) as the evolved coping strategy for achieving conflict resolution. This highly volatile truth cycle produces the experience of socio-economic backwardness and violence. The explanatory power of the theoretical framework offered in the study exploring the relation between the production of truth, trust, and wealth is demonstrated via providing historical examples from strong events of Iranian modern history. The significant policy implications of the model are explored. This monograph will appeal to researchers, scholars, graduate students, policy makers and anyone interested in the Middle Eastern politics, Iran, development studies and political economy.

The Political Economy of Iran

How did the vast Ottoman empire, stretching from the Balkans to the Sahara, endure for more than four centuries despite its great ethnic and religious diversity? The classic work on this plural society, the two-volume *Christians and Jews in the Ottoman Empire*, offered seminal reinterpretations of the empire's core institutions and has sparked more than a generation of innovative work since it was first published in 1982. This new, abridged, and reorganized edition, with a substantial new introduction and bibliography covering issues and scholarship of the past thirty years, has been carefully designed to be accessible to a wider readership.

Both Eastern and Western

A masterfully researched and compelling history of Iran from 1501 to 2009 This history of modern Iran is not a survey in the conventional sense but an ambitious exploration of the story of a nation. It offers a revealing look at how events, people, and institutions are shaped by currents that sometimes reach back hundreds of years. The book covers the complex history of the diverse societies and economies of Iran against the background of dynastic changes, revolutions, civil wars, foreign occupation, and the rise of the Islamic Republic. Abbas Amanat combines chronological and thematic approaches, exploring events with lasting implications for modern Iran and the world. Drawing on diverse historical scholarship and emphasizing the twentieth century, he addresses debates about Iran's culture and politics. Political history is the driving narrative force, given impetus by Amanat's decades of research and study. He layers the book with discussions of literature, music, and the arts; ideology and religion; economy and society; and cultural identity and heritage.
