Solaris 8 System Administrator

All the information system administrators need to perform critical tasks with Solaris 8. Covers over 400 commands with comprehensive descriptions and tested examples.

Solaris 8 System Administrators's Reference

As the son of two Jungian therapists, the young Micah Toub got a double dose of insight, ranging from the flaky to the profound. Dreamwork, archetypes, conflict resolution, the mind-body connection--Toub's childhood was a virtual laboratory of psychology. Enriched with excerpts from Carl Jung's own memoir, and informed by readings and conversations with Jungian gurus and unbelievers alike, Growing Up

Jung examines the pros and cons of Jungian philosophy while tackling the question: is it possible for the spawn of two shrinks to reach adulthood mentally unscathed?

Solaris 8 Advanced System Administrator's Guide

Including detailed illustrations and screen shots, this is the ultimate study guide to prepare system administrators for Solaris 8 certification and the only book endorsed by Sun Educational Services. It can also be used as a day-to-day quick reference for Solaris 8.

Sun Certified System Administrator for Solaris 8 Study Guide

Solaris Operating Environment System Administrator's Guide, Fourth Edition by Janice Winsor The definitive, quick-answer resource for every Solaris 9 sysadmin. Fully updated! Covers Solaris 9 new Flash Install and Live Upgrade installation features, Secure Shell network commands, and much more Administering users, devices, systems, networks, and printing Maximizing efficiency, productivity, and system availability Fast solutions for every Solaris 9 system administration challenge-direct from Sun! Solaris Operating Environment System Administrator's Guide, Fourth Edition is the definitive quick-start tutorial for every new Solaris system administrator-and the ideal fast-access reference for every Solaris administrator, regardless of experience. Fully updated to reflect Solaris 9's newest features and management tools, it covers day-to-day administration tools and demonstrates how to maximize efficiency, reliability, and availability in any Solaris environment. Coverage includes all this, and much more- NEW! Secure Shell network commands NEW! Flash Install and Live Upgrade installation features NEW! Allocate/deallocate/list devices commands; cdrw, rmformat, ssh commands; and more Basic administration: superuser status, boot processes, monitoring, and communicating with users Solaris commands: user and environment information, working with files and disks, redirecting output, reading manual pages, and more Solaris shells: Bourne, C, Korn, Bourne-Again, TC, and Z User administration: User accounts, file systems, and roles-including Role Based Access Control (RBAC) Device/system administration: Service Access Facility, configuring additional swap space, creating local e-mail aliases, and more Network services: remote administration, NIS+, IPv6, and more From startup to backup, security to printing, this book delivers clearly written, accessible information you'll use today-and every day. PRENTICE HALL Professional Technical Reference Upper Saddle River, NJ 07458 www.phptr.com Sun Microsystems Press ISBN: 0-13-101401-3 UPC: 076092022015.

Solaris Operating Environment System Administrator's Guide

With over a million licensed users for Solaris 8, Sun Microsystems successfully launched the long awaited Solaris 9 O/S in May 2002. Soon after, Sun revamped their popular certification track to include two tiered certifications. With new objectives, the Certified System Administrator, is positioned to be one of the most popular IT certifications. In order to obtain your Certified System Administrator certification, one must pass two exams. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

Solaris 9 Sun Certified System Administrator Study Guide

This guide includes all the exam objectives covered in the test required to become a Sun Certified System Administrator for Solaris 8. It features unique content that serves as an ideal complement to other training materials in a concise format.

Sun Solaris 8 System Administration

For courses covering UNIX or Solaris System Administration. A tutorial/reference for system administrators that covers the Solaris 8 features most commonly used for basic administration tasks. Contains practical references to key commands and processes with real-life examples.

Solaris System Administrator's Guide

The Smartest Way to Get Certified(TM).- Published under the direction of Series Editor Ed Tittel, the leading authority on certification and the founder of The Exam Cram Method(TM) series - Nearly 1 million copies sold!- The Exam Cram Method(TM) of study focuses on exactly what is needed to get certified now.- CD-ROM features PrepLogic(TM) Practice Tests- Exam Cram2 is Cramsession(TM) Approved Study Material

Sun Certified System Administrator for Solaris 8 Study Guide

The perfect study companion for UNIX system professionals preparing for both Solaris 9 System Administrator exams (310-014 and 310-015). The book contains accurate and efficient coverage of the many new features of the Solaris 9 system. Readers preparing for this exam find the bestselling Exam Cram2 series to be the smartest, most efficient way to become certified.

Solaris 8 System Administrator

With the Solaris 8 Update 3 release, Sun has replaced its AdminTool and AdminSuite tools with a single, powerful suite of GUI-based system administration tools: the Solaris(r) Management Console 2.0. These new tools can make system administrators dramatically more efficient -- but they come without significant printed documentation. In this book, world-recognized Solaris administration expert Janice Winsor covers virtually every aspect of using these tools, offering expert guidance for maximizing your productivity as a Solaris sysadmin in any environment. Winsor covers every aspect of system administration that has been brought together by these tools, including: booting and halting systems; user administration and disk quotas; permissions; shells; controlling the file system; configuring swap space; administering packages and patches; LAN and Internet connectivity; PPP and DNS; NIS, serial and SCSI connections; RPC, NFS, DFS, AUTOFS, kernel administration, mail system management, and backup/restore. Winsor also shows how to work with the built-in SMC Editor -- and use it to centralize system administration onto a single network server, for maximum efficiency. Originally presented in the PTG 3/2002 Catalog as 0-13-061762-8.

Solaris 9 System Administrator

Annotation The most complete reference for implementing Solaris 9 solutions. Respected author and expert technical reviewers. Gives the in-depth Inside treatment to Solaris 9. Capitalizes on the increased interest in Solaris with the new release, and gives administrators the information they'll need on a daily basis. Inside Solaris 9 gives administrators the information they'll need to upgrade to Solaris 9 and maximize the new features. Author Bill Calkins begins by laying the foundations of Solaris, then explains how to get set up with Solaris 9 (including any potential pitfalls). Next, system maintenance issues are covered such as setting up user accounts, managing file systems and processes, system security, monitoring and tuning, and backup and recovery. Solaris networking and service management issues round out the book, along with some excellent resources and a glossary. Bill Calkins is owner and president of Pyramid Consulting, a computer training and consulting firm near Grand Rapids, Michigan, specializing in the implementation and administration of Open Systems. He is also the owner of www.unixed.com, a web site that provides online UNIX training materials. He has more than 18 years of experience in UNIX system administration, consulting, and training at more than 100 different companies. Bill has authored several UNIX textbooks, which are currently best sellers and used by universities and training organizations worldwide, including Solaris 8 System Administrator Certification Training Guide (1578702496).

Solaris Management Console Tools

The Solaris operating system, along with related Sun products like Java, is one of the most reliable and scalable platforms on which to build e-commerce products, and on which to support all networked-services. Yet, one problem that potential users face is finding out more information about what Solaris offers. In a sense, they want to know how much technical work is involved in migrating to Solaris, and what kind of philosophy Solaris is based on. To answer these questions, Solaris 8 Administrator's Guide covers all aspects of deploying Solaris as a network server, including both basic and advanced network services. Given newfound interest in Solaris as an enterprise network operating system, this guide is aimed squarely at supporting enterprise-level services. It's written for experienced network administrators who want an objective guide to networking with Solaris, and covers installation on both the Intel and Sparc platforms. With it, you will learn how to setup Solaris as a file server, application server, and database server. In its coverage of advanced topics, Solaris 8 Administrator's Guide offers examples of configuration files and the installation of third-party software packages. This comprehensive book also contains more conceptual and difficult material that is absent from other Solaris reference manuals. At all points, emphasis is placed on issues like evaluating the security, scalability, and reliability of specific software packages--at the expense of providing detailed coverage of every available package. The book covers the practical experience and new skills needed to understand the impact of new services and new software products on existing server systems. Author Paul Watters--a

recognized authority on Solaris--avoids so-called "historical" services, like UUCP, which can easily fill chapters but are not commonly found in today's production environments. Indeed, he doesn't bother to provide an in-depth history of Solaris or UNIX at all, assuming that you can find this material elsewhere. Instead, the practical focus is on supporting relevant contemporary networking technologies. Solaris 8 Administrator's Guide provides you with a third-party view that not only praises Solaris, but is critical and realistic in its assessment. This book is for experienced Solaris Administrators as well as and those looking to migrate to this operating system.

Sun Certified System Administrator for Solaris 8 Study Guide

Author Bill Calkins is the leading voice of this industry, and he's once again delivered the perfect study companion for UNIX system professionals preparing for the Solaris 9 System Administrator exams (310-014 and 310-015). Readers preparing for this exam find our Training Guide series to be the most efficient self-study tool in the market. This book is their one-stop shop because of its teaching methodology, the accompanying PrepLogic testing software, and superior Web site support at www.quepublishing.com/certification. Training Guides are subjected to rigorous technical review by a team of industry experts, and are Cramsession Approved Study Material! The accompanying CD features PrepLogic(TM) Practice Tests, Preview Edition. This product includes one complete PrepLogic Practice Test with approximately the same number of questions found on the actual vendor exam. Each question contains full, detailed explanations of the correct and incorrect answers. The engine offers two study modes, Practice Test and Flash Review, full exam customization, and a detailed score report.

Inside Solaris 9

The aim of this IBM Redbooks publication is to provide a technical reference for IT system administrators in organizations that are considering a migration from Sun Solaris to IBM AIX 5L-based systems. This book presents a system administrator view of the technical differences that exist and the methods that are necessary to complete a successful migration to AIX 5L-based systems. This book is designed primarily as a reference for experienced Sun Solaris 8 or 9 system administrators who will be working with AIX 5L. This book is not an AIX 5L administration how-to book for system administrators who are beginners, but rather a guide for experienced administrators who have to translate a given Solaris system administration task to AIX 5L.

Solaris 8 Administrator's Guide

With this guide, the only one that covers this newly updated certification, candidates can skip expensive three-week training program and study at their own pace for exams 310-009 and 310-010. The CD includes Test Yourself Testing Center for both exams and the electronic version of the book.

Solaris 9 System Administration Training Guide (Exam CX-310-014 and CX-310-015)

This authoritative reference offers complete coverage of all material on the Sun Certified Solaris 8 System Administrator exam. You'll find exam objectives at the beginning of each chapter, helpful exam tips, end-of-chapter practice questions, and photographs and illustrations. The bonus CD-ROM contains practice tests, hundreds of questions, and video clips. This comprehensive guide not only helps you pass this challenging certification exam, but will also serve as an invaluable on-the-job reference.

Sun Solaris to IBM AIX 5L Migration: A Guide for System Administrators

Ideal for Windows or Linux administrators looking to learn Solaris, this easy-to-use introductory guide covers the basics of Solaris 9 single host administration and explains how to manage Internet and intranet services.

Sun Certified System Administrator for Solaris 8 (Exam 310-011 and 310-012)

Solaris 10 System Administration Part II Exam CX-310-202 Bill Calkins In this book you'll learn Advanced Topics in Solaris 10 System Administration for SPARC and x86-based systems including: Administering the network environment in Solaris 10 Setting up RAID metadevices using SVM Configuring ZFS storage pools and file systems Configuring and administering Solaris zones and containers Administering virtual file systems and swap space Creating and administering user and Role-Based access accounts (RBAC) Using advanced installation tools to install, clone, and upgrade

the operating system Bill's original Cert Prep guides were used throughout Sun's service organization as the SEs studied for Certification. This was not mandated by Sun management but happened through word-of-mouth by those software engineers who had successfully passed the exam. In this new edition, Bill adds a chapter for ZFS. It includes Live Upgrade conversion to a ZFS root filesystem and Zone/ZFS inter-operation. Plus, all chapters have been updated to reflect the Solaris 10 10/08 enhancements. This new guide remains the best source of preparation for the Solaris 10 Cert exam. –Brian Howard, Systems Engineer / Solaris Ambassador WRITTEN BY A LEADING SOLARIS EXPERT! Bill Calkins is owner and president of Pyramid Consulting, a computer training and consulting firm specializing in the implementation and administration of open systems. He works as a consultant with Sun Microsystems and has contributed extensively to the Solaris certification program and simulation technology. He also owns www.unixed.com, a website that provides online UNIX training materials. Bill has more than 20 years of experience in UNIX system administration, consulting, and training at more than 250 different companies and government agencies and has authored several books on Solaris. informit.com/examcram ISBN-13: 978-0-7897-3817-2 ISBN-10: 0-7897-3817-1

Sun Certified Solaris 8 System Administrator

This administration handbook not only prepares readers for the exam, it provides them with the real-world insight necessary to administer Solaris 8 on a daily basis. It contains maps to the actual exam objectives, providing readers with an excellent study tool that is thorough, accurate, and reader-friendly. These study tools include objective explanations, case studies, lab and step-by-step exercises, multiple self-assessment opportunities, and fast facts.

Solaris 9 Administration: A Beginner's Guide

This is the ultimate study guide to prepare system administrators for Solaris Network Administrations Certification. This guide explains TCP/IP network administration with practice questions, key learning points and tips.

Solaris 10 System Administration Exam Prep

Solaris™ 10 System Administration Essentials is the first book to concisely yet comprehensively cover all of the breakthrough features of the Solaris 10 operating system. The Solaris OS has a long history of innovation, and the Solaris 10 OS is a watershed release that includes features such as Zones, which provide application isolation and facilitate server consolidation ZFSTM, the file system that provides a new approach to managing your data with an easy administration interface The Fault Management Architecture, which automates fault detection and resolution The Service Management Facility, a unified model for services and service management on every Solaris system Dynamic Tracing (DTrace), for troubleshooting OS and application problems on production systems in real time In addition, the Solaris 10 OS fully supports 32-bit and 64-bit x86 platforms, as well as the SPARC® architecture. The book's key topics include Installing, booting, and shutting down a system Managing packages and patches (software updates) Controlling system processes Managing disks and devices Managing users Configuring networks Using printing services Solaris™ 10 System Administration Essentials is part of a new series on Solaris system administration. It is a practical guide to deploying and managing the Solaris 10 operating system in a business or academic environment. The book is easy to read and rich with examples—a perfect companion for system administrators who are deploying the Solaris OS for the first time.

Solaris 8

This book helps certified Solaris System Administrators pass the Network Administrator exam. This exam is rapidly increasing in popularity. This book follows the successful Training Guide format, which delivers superior solutions in the form of lab examples, self-assessment opportunities, summary tables, and several effective learning tools - including ExamGear -- that enhance the learning experience.

Sun Certified Network Administrator for Solaris 8 Operating Environment Study Guide

Written by a leading Solaris expert, this new guide covers everything needed to pass the CX-310-200 Exam. All chapters have been updated to reflect the Solaris updates including detailed coverage of the x86 platform. Includes a CD-ROM.

Solaris 8 System Administrator Instructor Resource Manual

This book focuses on exactly what readers need to get certified now featuring test-taking strategies, timesaving study tips, and a special CramSheet that includes tips, acronyms, and memory joggers that are not available anywhere else.

Solaris 8

Oracle® Solaris 11 System Administration covers every skill required to effectively install and administer the Oracle® Solaris 11.1 operating system in production environments. It features dozens of step-by-step "learn by example" procedures, demonstrating how to apply complex solutions in real-world data center environments. Author Bill Calkins has administered and taught Oracle Solaris and its predecessors for more than twenty years. He also helped develop the newest Oracle Certified Associate (OCA) and Oracle Certified Professional (OCP) exams, which raise the bar for Solaris certification. This guide covers every new 1Z0-821 exam topic in detail and also covers many 1Z0-822 exam topics. Calkins also reviews the changes that system administrators will face when upgrading to Solaris 11.1 and presents new ways to perform familiar tasks on both SPARC and x86 hardware. You'll learn how to Install the Solaris 11 Operating Environment with Live Media or Text Interactive installers Install, manage, and update software with the Image Packaging System and IPS repositories Understand, customize, and troubleshoot SPARC and x86 boot processes from system power-up to loading the OS (including coverage of ILOM, OpenBoot, and GRUB 2) Administer and create services through the service management facility (SMF) Configure system messaging using SMF notifications, syslog and rsyslog Configure and administer ZFS storage pools, including ZFS on the boot drive, local disks, LUNs, and a SAN Configure and manage ZFS file systems: encryption, redundancy, snapshots, clones, network sharing, monitoring, device replacement, and legacy UFS migration Create, migrate, contain, and administer zones, including solaris10 branded and immutable zones Use RBAC to create custom rights profiles and grant special privileges Manage and monitor system process scheduler (including FSS process schedulers and proc tools) Configure Solaris networking and network services, including Reactive and Fixed Network Configurations, VNICs, and Virtual Networking A companion website (unixed.com/solaris11book.html) includes new 1Z0-821 and 1Z0-822 study strategies and self-assessment exams.

Solaris 10 System Administration

This authoritative reference offers complete coverage of all material on the Sun Certified Solaris 8 System Administrator exam. You'll find exam objectives at the beginning of each chapter, helpful exam tips, end-of-chapter practice questions, and photographs and illustrations. The bonus CD-ROM contains practice tests, hundreds of questions, and video clips. This comprehensive guide not only helps you pass this challenging certification exam, but will also serve as an invaluable on-the-job reference.

Solaris 9 Network Administrator

A guide to Sun's new Solaris 2.x system environment. Defines the duties of the system administrator, and examines the basics of Solaris 2.x such as open windows, virtual file system, virtual memory, the Solaris kernel, and shells. Covers administration issues including utilities, backups and restores, network managing, security, troubleshooting, and interoperability. Includes examples of code and file excerpts. For system administrators, application developers, and Intel users unfamiliar with UNIX. Annotation copyright by Book News, Inc., Portland, OR

Solaris 10 System Administration

Authored by a team of Solaris experts at Sun Microsystems, this book offers rock-solid reliable information on every facet of system administration. This book is packed with step-by-step guidance, tested examples, and expert troubleshooting solutions gleaned from real-world enterprise deployments.

Oracle® Solaris 11 System Administration

With this guide, the only one that covers this newly updated certification, candidates can skip expensive three-week training program and study at their own pace for exams 310-009 and 310-010. The CD includes Test Yourself Testing Center for both exams and the electronic version of the book.

Sun Certified Solaris 8 System Administrator

"When you need fast, detailed answers about the Solaris Operating Environment, the manual pages aren't enough: you need Solaris 9 Operating Environment Reference. Award-winning technical writer Janice Winsor delivers over 1,600 pages of rock-solid information on 550+ commands, including over 100 new commands for IP networking, remote access, compression, printing, NIS, NFS, and more. Winsor also provides tested examples and clear, easy-to-understand explanations for the new LDAP-related commands, NCA (Network Cache Accelerator), PERL, RBAC (Role-Based Access Control), SSH, and Kerberos security commands. You'll find thorough descriptions, practical usage examples, and detailed reference tables - all organized for maximum accessibility and quick problem solving."--BOOK JACKET.

Solaris 2.x

Mail services; NIS+; Automounter services; Service access facility; Application software; System security.

Solaris 10 System Administration Essentials

Teaches how to work smart and avoid the many pitfalls of managing Solaris systems Covers the latest release of Solaris, Solaris 9, as well as earlier versions Written by experts with years of Solaris experience Packed with practical, hands-on solutions to tough problems, showing how to avoid costly mistakes Tackles managing system performance; the Sun Fire line of Solaris enterprise servers; installing, configuring, and patching Solaris; and ensuring security

Sun Certified System Administrator for Solaris 9.0 Study Guide

The only classroom-based training and self-assessment system! Osborne's Sun Certified System Administrator for Solaris 8 Study Guide provides 100% complete coverage of all official exam objectives for both exams. Based on 200,000+ hours of IT training exp

Solaris 9 Operating Environment Reference

As with all corporate documentation, there is a large hole between the steps necessary to install and support a solaris computing environment and the real world of day-to-day system administration. This

book attempts to bridge the gap between the real day-to-day world of system administration and the documentation from Sun.

Solaris Advanced System Administrator's Guide

The only book to cover both the Solaris exams 310-009 and 310-010, this title covers version 7 of the Solaris operating system from Sun Microsystems. It features an exclusive tear-out cram sheet with tips and memory joggers, proven test-taking strategies and shortcuts, and practice tests that mimic the actual exam.

Using the Medisoft appointment scheduler, the coordinator can view appointments in a number of ways including by day, week or month, single or multiple physicians, multiple resources and by group of providers.

If Cynthia had been a new patient, the coordinator would use the patient quick entry tool to quickly and easily enter the required fields and defaults per carrier.

While Cynthia is checking-in, Medisoft alerts the coordinator of the patient's co-payment and balances due.
