El Libertador

General Simón Bolívar (1783-1830), called El Libertador, and sometimes the "George Washington" of Latin America, was the leading hero of the Latin American independence movement. His victories over Spain won independence for Bolivia, Panama, Colombia, Ecuador, Peru, and Venezuela. Bolívar became Colombia's first president in 1819. In 1822, he became dictator of Peru. Upper Peru became a separate state, which was named Bolivia in Bolívar's honor, in 1825. The constitution, which he drew up for Bolivia, is one of his most important political pronouncements. Today he is remembered throughout South America, and in Venezuela and Bolivia his birthday is a national holiday. Although Bolívar never prepared a systematic treatise, his essays, proclamations, and letters constitute some of the most eloquent writing not of the independence period alone, but of any period in Latin American history. His analysis of the region's fundamental problems, ideas on political organization and proposals for Latin American integration are relevant and widely read today, even among Latin Americans of all countries and of all political persuasions. The "Cartagena Letter," the "Jamaica Letter," and the "Angostura Address," are widely cited and reprinted.

Roderick, the Last of the Goths

Memory and mourning in Colombia. This book provides the first in-depth examination of a representative range of contemporary Colombian cultural engagements with the conflicts known simply as La Violencia that began in Colombia in the late 1940s. These include Gustavo Alvarez Gardeazábal's now classic revision of the 'novela de la Violencia', the autobiographical cycle of acclaimed author Fernando Vallejo, versions of the testimonio by Alfredo Molano and internationally renowned novelist Laura Restrepo, as well as cinematic works by Carlos Mayolo and Luis Ospina. These cultural icons, many of whom are remarkably understudied, show how the heterogeneity of social and cultural processes condensed in La Violencia demands a deconstruction of 'violence' in Colombian culture. This argument is developed in dialogue with European and Latin American cultural theory and contributes to theoretical debates surrounding issues of memory and mourning developed in other Latin American contexts. The narratives explored in this book provide alternatives to abstract historicism and show us how to imagine ways out of deeply rooted cycles of violence. Yet their insistence on haunting and

spectres signals the problems besetting the task of mourning in Colombia, positing history rather than psychology as a remainder that troubles efforts to forge collective memories and enact social reconciliation. RORY O'BRYEN lectures in Latin American literature and culture at the University of Cambridge.

Literature, Testimony and Cinema in Contemporary Colombian Culture

Tourism—one of the world's largest industries—has long been appreciated for its economic benefits, but in this volume tourism receives a unique systematic scrutiny as a medium for cultural exchange. Modern developments in technology and industry, together with masterful advertising, have created temporarily leisured people with the desire and the means to travel. They often in turn effect profound cultural change in the places they visit, and the contributors to this work all attend to the impact these "guests" have on their "hosts." In contrast to the dramatic economic transformations, the social repercussions of tourism are subtle and often recognized only by the indigenous peoples themselves and by the anthropologists who have studied them before and after the introduction of tourism. The case studies in *Hosts and Guests* examine the five types of tourism—historical, cultural, ethnic, environmental, and recreational—and their impact on diverse societies over a broad geographical range

Hosts and Guests

When the first European missionaries arrived on other continents, it was decided that the indigenous languages would be used as the means of christianization. There emerged the need to produce grammars and dictionaries of those languages. The study of this linguistic material has so far not received sufficient attention in the field of linguistic historiography. This volume is the first published collection of papers on missionary linguistics world-wide; it represents the insights of recent research, containing an introduction and papers on methodology, meta-historiography, the historical and cultural background. The book contains studies about early-modern linguistic works written in Spanish, Portuguese, English and French, describing among others indigenous languages from North America and Australia, Maya, Quechua, Xhosa, Japanese, Kapampangan, and Visaya. Topics dealt with include: innovations of individual missionaries in lexicography, grammatical analysis, phonology, morphology, or syntax; creativity in descriptive techniques; differences and/or similarities of works from different continents, and different religious backgrounds (Catholic or Protestant).

Lingüística Misionera

Poetry. Afterword by María Negroni. Translated by Rebekah Smith. Susana Thénon (1935-1991) is a key poet of the '60s generation in Argentina. In *OVA COMPLETA*, her final, most radical collection, Thénon's poetics expands to incorporate all it touches--classical and popular culture, lyrics to songs and vulgarities, incoherence and musicality--embodying humor and terror while writing obliquely of femicide, Argentina's last dictatorship, the Malvinas / Falklands war, the heritage of colonialism. Or, as Thénon writes, me on earth; me with the others; me ignorant, rude, all mixed in Latin, Greek, shit, noodles, culture and barbarism... *OVA COMPLETA* is a collection full of stylistic innovation, language play, dark humor, and socio-political insight, now available to English-language readers for the first time. A fragmented textual surface, a language all too common, a violent humor, and a voice multiple and heterogeneous.--Delfina Muschietti Experiments with language, with writing, with discursive genres, with situations and communicative actions or with pragmatic effects ... a bleak and acidic gaze on a world that 'enduring--until when?--it destroys itself' and that incessantly longs to see reconstruction rising up over destruction.--Ana María Barrenechea

Ova Completa

This edited volume summarizes the work of a research group, called Social Bonds and Cultures of Peace that accompanies and supports victims of socio-political violence in Columbia. The individual chapters focus on the ongoing violence in the Colombian context, a complex and dynamic area in which various groups (drug traffickers, national armed forces, guerrilla fighters, self-defence groups) have been engaged in organized violence for more than 60 years. Emphasis is placed on the psychological consequences of violence and various forms of psychosocial support that psychologists have been providing to the victims of violence. Central to their work is the notion of "accompanying" those who have been victims of violence, listening to them, engaging them in dialogue and working together to strengthen the resources of victims. The recovery of individual and collective memories of atrocities is

discussed as an important avenue for healing and for the empowerment of individuals and groups. The solidarity among victims creates opportunities at the grassroots level to pursue truth, reveal perpetrators of violence, seek public acknowledgment and attain social justice. For perpetrators of violence and members of armed groups, the book addresses a host of psychosocial issues related to disarming, demobilizing and reintegrating former combatants, including children, into society. Throughout the book, in the spirit of peace psychology, the researchers are engaged in a form of praxis that is cognizant of the wider geohistorical context within which victims and perpetrators are embedded and the dialectical relationship between micro and macro-level events and change. Researchers in Latin American studies, peace psychology, social justice and transitional justice, will find this volume to be an excellent resource.

Psychosocial Approaches to Peace-Building in Colombia

Back to the Stone Age Edgar Rice Burroughs - The fifth installment of Edgar Rice Burroughs's Pellucidar series, *Back to the Stone Age* recounts the strange adventures of Lieutenant von Horst, a member of the original crew that sailed to Pellucidar with Jason Gridley and Tarzan who is left behind in the inner world. Von Horst wanders friendless and alone from one danger to the next among the Stone Age peoples, mighty reptiles, and huge animals that have been extinct on the outer crust for thousands of years. But woven among the tales of savage cave men in the country of the Basti, the hideous Gorbuses in the caverns beneath the Forest of Death, and the terrible Gaz is the story of the love this cultured hero feels for a barbarian slave girl who has spurned and discouraged him, working instead toward her own mysterious goal.

Some chapters are: *On the Faith of Judges*, *The Prime Requisite of Lawyers*; *On Etiquette (Or Discretion) in The Court*; *On the Relationship Between the Lawyer and the Truth*, or on the *Necessary Partisanship of the Lawyer*. The Jesuits

Saxo Grammaticus, who's believed to have lived from 1150 until 1220 (though the dates are uncertain), wrote a sixteen-volume history of the Denmark that he lived in. Volumes X through XVI (oddly -- or perhaps not so oddly -- written first) are a conventional history of Saxo's day and age. But the first the volumes are the stuff of myth and legend, delightful tales of mythic Norse persons and circumstances. This book is comprised of those mythic volumes, and it's special stuff indeed.

Back to the Stone Age

Juan de Solorzano Pereira (1575-1654) was a lawyer who spent eighteen years as a judge in Peru before returning to Spain to serve on the Councils of Castile and of the Indies. Considered one of the finest lawyers in Spain, his work, *De Indiarum Jure*, was the most sophisticated defense of the Spanish conquest of the Americas ever written, and he was widely cited in Europe and the Americas until the early nineteenth century. His work, and that of the Spanish School of international law theorists generally, is often seen as leading to Hugo Grotius and modern international law. However, as James Muldoon shows, the *De Indiarum Jure* represents the fullest development of a medieval Catholic theory of international order that provided an alternative to the Grotian theory.

Eulogy of Judges

This third volume on Missionary Linguistics focuses on morphology and syntax. It contains a selection of papers derived from the international conferences on missionary linguistics held in Hong Kong/Macau and Valladolid. As with the previous two volumes (2004, on general issues, and 2005, on orthography and phonology), this volume looks at methodology and descriptive techniques from a historical point of view, offering articles of interest to historiographers of linguistics, typologists, and descriptive linguists. It presents research into languages such as Tarasco (Pur'êpecha), Massachusett, Nahuatl, Conivo, Sipibo, Guaraní, Vietnamese, Tamil, Southern Min Chinese dialects, Mandarin Chinese, Arabic, Tagalog and other Austronesian languages, such as Yapese and Chamorro.

The Danish History of Saxo Grammaticus

In a world characterized by an encroaching homogeneity induced by the growth of multi-national corporations and globalization, the causes of difference accrue new levels of importance. This is as true of tourism as in many other spheres of life – and one cause of differentiation for tourism promotion is the culture of Indigenous Peoples. This offers opportunities for cultural renaissance, income generation and enhanced political empowerment, but equally there are possible costs of creating commodities out of aspects of life that previously possessed spiritual meaning. This book examines these issues from many different perspectives; from those of product design and enhancement; of the aspirations of various minority groupings; and the patterns of displacements that occur – displacements that are not simply spatial but also social and cultural. How can these changes be managed? Case studies and analysis is offered, derived from many parts of the globe including North America, Asia and Australasia. The contributors themselves have, in many instances, worked closely with groups and organizations of Indigenous Peoples and attempt to give voice to their concerns. The book is divided into various themes, each with a separate introduction and commentary. The themes are Visitor Experiences, Who manages Indigenous Cultural Tourism Product, Events and Artifacts, Conceptualisation and Aspiration. In a short final section the silences are noted – each silence representing a potential challenge for future research to build upon the notions and lessons reported in the book. The book is edited by Professor Chris Ryan from New Zealand, and Michelle Aicken of Horwath Asia Pacific.

Lingüística Misionera III

Las Indias Occidentales de antaño son nuestra actual Hispanoamérica. Como es sabido, entre finales del siglo XV y principios del XIX formaron parte de la Monarquía española, entidad compuesta de posesiones o dominios que se extendieron por casi todos los continentes. ¿Mediante qué procesos particulares y generales se incorporaron a ella dichos territorios? Este libro da respuesta a esta interrogante. En él se hallan también comprendidos el Brasil y las posesiones portuguesas de África y Asia, en vista de que las dos coronas ibéricas (España y Portugal) se mantuvieron unidas entre 1581 y 1640. El conjunto de los textos es testimonio de una renovación historiográfica muy importante, actualmente en curso, así como de las III Jornadas de estudio de la Red internacional Columnaria que organizó El Colegio de México.

Indigenous Tourism

In *Inventing America*, José Rabasa presents the view that Columbus's historic act was not a discovery, and still less an encounter. Rather, he considers it the beginning of a process of inventing a New World in the sixteenth century European consciousness. The notion of America as a European invention challenges the popular conception of the New World as a natural entity to be discovered or understood, however imperfectly. This book aims to debunk complacency with the historic, geographic, and cartographic rudiments underlying our present picture of the world.

Literature as System

The authors have focused this book on the serious, beginning, qualitative researcher - theoretically rigorous, yet with an understandable perspective.; The book has three main features. First, it provides a strong theoretical base for the understanding of competing research paradigms. Secondly, it features a "methods" section consistent with the non-linear nature of naturalistic inquiry, yet it allows the beginner to see direction. Thirdly, the authors include examples of actual research studies conducted (and completed) in a single year.

This volume reflects the advances in research and methodology that have been made since 1960, as well as the increasing number of topics covered by the historiography of the European expansion. The studies selected demonstrate the range of this material, focusing in particular on the beginnings of trans-oceanic expansion by the Iberian powers. The volume has the further purpose of showing how the early encounters set precedents for subsequent patterns of interaction.

Les Origines Du Structuralisme. --

The General History of the Vast Continent and Islands of America, Commonly Call'd, the West-Indies, from the First Discovery Thereof

When the paralyzed cripple Domingo Vidal is rescued unsinged from a burning house, the people of Chima believe they have witnessed a miracle. Domingo becomes their patron "saint," and tales of his miracles multiply. Domingo makes the rains come, cures the blind and lame, and swells barren wombs with new life. But is Domingo really a saint, or is he a pagan idol? Padre Berrocal calls the people heretics, but they are afraid not to worship Domingo. To what excesses will superstition and ignorance drive the frightened people of Chima? This novel, published in 1963 as *En Chimá nace un santo*, makes important connections between the frustrations of poverty and the excesses of religious fanaticism. Zapata Olivella indicts the dogmatic attitudes of religious and civil institutions as a major cause of the creation of local cults like the one that grows up around "Saint" Domingo. In Zapata Olivella's compelling narrative, the struggle over Domingo points up both the inflexibility of established institutions and the potential power for change that lies within the hands of a determined populace.
