Duck Season

A delicious memoir about the eight months food writer David McAninch spent in Gascony—a deeply rural region of France virtually untouched by mass tourism—meeting extraordinary characters and eating the best meals of his life. Though he'd been a card-carrying Francophile all of his life, David McAninch knew little about Gascony, an ancient region in Southwest France mostly overlooked by Americans. Then an assignment sent him to research a story on duck. After enjoying a string of rich meals—Armagnac-flambéed duck tenderloins; skewered duck hearts with chanterelles; a duck-confit shepherd's pie strewn with shavings of foie gras—he soon realized what he'd been missing. McAninch decided he needed a more permanent fix. He'd fallen in love—not only with the food but with the people, and with the sheer unspoiled beauty of the place. So, along with his wife and young daughter, he moved to an old millhouse in the small village of Plaisance du Gers, where they would spend the next eight months living as Gascons. Duck Season is the delightful, mouthwatering chronicle of McAninch's time in this tradition-bound corner of France. There he herds sheep in the Pyrenees, harvests grapes, attends a pig slaughter, hunts for pigeons, distills Armagnac, and, of course, makes and eats all manner of delicious duck specialties—learning to rewire his own thinking about cooking, eating, drinking, and the art of living a full and happy life. With wit and warmth, McAninch brings us deep into this enchanting world, where eating what makes you happy isn't a sin but a commandment and where, to the eternal surprise of outsiders, locals' life expectancy is higher than in any other region of France. Featuring a dozen choice recipes and beautiful line drawings, Duck Season is an irresistible treat for Francophiles and gourmands alike.

Gascony & the Pyrenees

Written by expert travel-writers with more than 40 titles to their name, Bradt's *Gascony & the Pyrenees* is the only current English-language guide to the entirety of this fascinating, relatively under-visited and consequently affordable region of southwest France. Offering advice on where to stay and eat with what to do and see, this new guide provides everything you need for an enjoyable, fulfilling visit. In Gascony, everyone can find their own adventure. Surfers can ride Atlantic waves at Hossegor and Mimizan. Sun-seekers can loll on the Landes' beaches, then stretch their legs by climbing Europe's tallest sand dune, the Dune du Pilat. Hikers can trek high into the Pyrenees to gawp at majestic cirques, while those less energetic can go on a donkey-back. Families can bike along numerous backways, while cycling buffs cheer on the professionals during the Pyrenees stage of the Tour de France. Activity enthusiasts aside, the region will delight anyone who craves a slower-paced holiday in beautiful natural landscapes. Culture buffs can linger in the coastal art havens of Collioure, Port-Vendres and Céret, or discover Palaeolithic cave art at Niaux and Le Mas-d'Azil. Pilgrims can follow the path to Lourdes. Fans of the bizarre can visit Salvador Dali's 'centre of the universe' (Perpignan train station) or La Pourcailhade, the pig festival of Tri-sur-Baïse. Urbanites can enjoy the splendours of Perpignan, Bayonne, Biarritz and Auch, or take it down a notch at medieval Catalan villages. For quirky retail therapy, shopaholics can browse the espadrilles for which Mauléon is famed or the berets synonymous with Oloron-Sainte-Marie. Gourmets will delight in the quality of local cuisine, from cèpe mushrooms and poulet au pot to a flock of duck-based dishes. Cocooned within quiet, natural settings, yoga practitioners can calm mind and body with various wellness therapies. And whatever floats your boat, everyone can relax in some of the hundreds of personally recommended places to stay – from charming inns and spas to restored medieval stables, and even the astronomers' dormitories at the Pic du Midi. All conveyed through the intimate expert insights that characterise Bradt's *Gascony & the Pyrenees*.

"Get ready for a beauty overload. It's food for the soul, it's a book of dreams and details, of flowers so perfect you want to hug them to you." —Carla Coulson, author of *Paris Tango Paris—City of Love, City of Light, City of Flowers*. From elegant floral boutiques to lively flower markets to glorious blooming trees and expansive public gardens, flowers are the essential ingredient to the lush sensory bouquet that is Parisian life. With beautiful photography, *Paris in Bloom* transports readers on a stunning floral tour of the city, and provides recommendations to the best flower markets and a detailed guide to spring blooms. Timeless in content, *Paris in Bloom* is a book for Paris lovers to savor again and again, one to keep on the nightstand to conjure fond memories of their first visit and inspire dreams of the next. "Brilliantly captures the splendor of French fleurs with lush photographs and elegant prose . . . A masterpiece!" —Laura Dowling, former chief floral designer at the White House "I don't know how Georgianna does it. She manages to make Paris, already the most beautiful city in the world, appear even more charming, more elegant and more beautiful than it already is . . . *Paris in Bloom* is filled with a veritable carpet of pinks and whites, pastels and green portraits that make me let out an audible sigh of joy. This book can re-inspire you to believe that yes, life really is quite beautiful." —Doni Belau, author of *Paris Cocktails* "Destined to become a classic of its type, *Paris in Bloom* is Georgianna Lane's love letter to Paris and to flowers." —Gray Levett, editor of *Nikon Owner* magazine

Paris in Bloom

"Sergei Eisenstein (1898-1948), creator of such masterpieces as *Battleship Potemkin*, *Alexander Nevsky* and *Ivan the Terrible*, was perhaps the greatest of all film directors. He wrote his autobiography in 1946, two years before his death, and it is a work of major importance in the light it sheds on his personality and mercurial genius. Vivid, eccentric and free-ranging, *Immoral Memories* is written in a style reminiscent of the brilliant visual effects of montage and dynamic progression that characterize its author's film-making technique. He recounts his life in Russia from the time of the Revolution, during which he served in the Bolshevik army as a volunteer, his travels in the West and his encounters with a remarkable medley of individuals during his long career. He gives us unique insights, too, into his triumphs and tribulations. His disappointments and despair were exemplified by the banning of the film *Ivan the Terrible, Part II*, which was not released until fifteen years after his death. And he never expected his autobiography to be published in Russia. Yet in answer to his query "Has there been life" he replied that there had been "life lived acutely, joyously, tormentedly, at times even sparkling, unquestionably colourful, and such a life that, I suppose, I would not exchange for another" —Publisher's description.

Chaucer and His England

Explores the cuisine of South-West France, looks at traditional ingredients, and features over 150 recipes from both local home cooks and renowned French chefs.

The Exploration of the World

"An indispensable cookbook." —Jeffrey Steingarten, *Vogue* When Paula Wolfert's *The Cooking of Southwest France* was first published in 1983, it became an instant classic. This award-winning book was praised by critics, chefs, and home cooks alike as the ultimate source of recipes and information about a legendary style of cooking. Wolfert's recipes for cassoulet and confit literally changed the American culinary scene. Confit, now ubiquitous on restaurant menus, was rarely served in the United States before Wolfert presented it. Now, Wolfert has completely revised her groundbreaking book. In this edition, you'll find sixty additional recipes—thirty totally new recipes, along with thirty updated recipes from Wolfert's other books. Recipes from the original edition have been revised to account for current tastes and newly available ingredients; some have been dropped. You will find superb classic recipes for cassoulet, sauce perigueux, salmon rillettes, and beef daube; new and revised recipes for ragouts, soups, desserts, and more; and, of course, numerous recipes for the most exemplary of all southwest French ingredients—duck—including the traditional method for duck confit plus two new, easier variations. Other recipes include such gems as Chestnut and Cèpe Soup With Walnuts, magnificent lusty Oxtail Daube, mouthwatering Steamed Mussels With Ham, Shallots, and Garlic, as well as Poached Chicken Breast, Auvergne-Style, and the simple yet sublime Potatoes Baked in Sea Salt. You'll also find delicious desserts such as Batter Cake With Fresh Pears From the Correze, and Prune and Armagnac Ice Cream. Each recipe incorporates what the French call a *truc*, a unique touch

that makes the finished dish truly extraordinary. Evocative new food photographs, including sixteen pages in full color, now accompany the text. Connecting the 200 great recipes is Wolfert's unique vision of Southwest France. In sharply etched scenes peopled by local characters ranging from canny peasant women to world-famous master chefs, she captures the region's living traditions and passion for good food. Gascony, the Perigord, Bordeaux, and the Basque country all come alive in these pages. This revised edition of *The Cooking of Southwest France* is truly another Wolfert classic in its own right.

Immoral Memories

Pierre Koffmann's *Memories of Gascony* is the story of how one of the most influential chefs of our time first learned to love food. With recipes and reminiscences from his grandparents' home in rural Gascony, this is an intimate account of school holidays spent on the farm helping his grandfather to harvest and hunt, and learning to treasure seasonality, simplicity and the best ingredients at his grandmother's side. The finest of Gascony produce is here, with a focus on simplicity. The recipes stand the test of time and speak to the food tastes and trends of today. While you read the charming stories of everyday life on the farm, you'll devour the cuisine as you go along - dandelion salad with bacon and poached egg, grilled chicken with shallots and vinaigrette, and greengages in armagnac in Spring; chicken liver pate with capers, Bayonne ham tart with garlic, oeufs a la neige in Summer; roast hare with mustard and beetroot, salt cod cassoulet and quince jelly in Autumn; and fried eggs with foie gras, potato and bacon pie and tarte aux pruneaux in Winter. This is a book to learn, love and live from.

The Cooking of South-west France

When Jonah was swallowed by the big fish, he was trying to escape to what is now Portugal. Here, Hannibal discovered the warriors, weapons and gold, to march on Rome; and Julius Caesar found the fortune that paid the way to his conquests of Gaul and England. During the Dark Ages further north, Portugal's Arab rulers made it part of the world's most advanced civilization. After the Norman conquest of Lisbon, the new Portugal bankrupted Venice and became the wealthiest nation in Europe. Before he became Pope John XXI, Joao Hispano of Lisbon wrote one of the first modern medical textbooks, consulted through much of Europe more than a century later. Portuguese Jews introduced tulips, chocolate and diamonds to Holland. The Portuguese gave the English afternoon tea, and Bombay, the key to empire. They brought to Africa protection from malaria, and slave-shipments to America; to India, higher education, curry and samosas; to Japan, tempura and firearms. Portugal entered the 21st century as the first European nation to have freed itself from communism, returned to democracy and set about rebuilding itself as a vital part of the new Europe. - Cover flap.

The Cruise of the Nona

A food writer and editor of the Time-Life cooking series shares stories and recipes from his friendship with a legendary Provençal chef and vineyard owner. Of all of the culinary treasures that Richard Olney brought home from France for his American audience, the spritely and commanding Lulu Peyraud is perhaps the most memorable. A second-generation proprietor of Provence's noted vineyard Domaine Tempier, and producer of some of the region's best wines and meals, Lulu has for more than fifty years been Provence's best-kept secret. Mother of seven, Lulu still owns and operates Domaine Tempier with her family, serving up wit and warmth with remarkable food at the vineyard. Hosting American tastemakers like Alice Waters, Paul Bertolli, Gerald Asher, Paula Wolfert, and Kermit Lynch through the years, Lulu has willingly shared her sweeping culinary knowledge, wisdom, and resourcefulness with anyone who stopped by. In *Lulu's Provençal Table*, Olney, who shared an unguarded friendship with Lulu, relays the everyday banter, lessons, and more than 150 recipes that have emerged from her kitchen. Peppered with more than 75 photographs, Olney's tribute aptly celebrates the spirit and gifts of this culinary legend. "With good-humored admiration, sharp-eyed description and lucid instruction, Olney—and Lulu—bring readers traditional Provençal cooking at its finest." —Publishers Weekly "The tentative giving and taking of recipes quietly evolved into a book so rich in collaboration that Lulu together with Richard seemed to become as one: a magical, culinary love affair." —Simon Hopkinson, *The Observer*

A landmark of postmodern American fiction, *Letters* is (as the subtitle genially informs us) "an old time epistolary novel by seven fictitious drolls and dreamers each of which imagines himself factual". Seven characters (including the Author himself) exchange a novel's worth of letters during a 7-month period in 1969, a time of revolution that recalls the U.S.'s first revolution in the 18th century - the heyday of the epistolary novel. Recapitulating American history as well as the plots of his first six novels, Barth's seventh novel is a witty and profound exploration of the nature of revolution and renewal, rebellion and reenactment, at both the private and public levels. It is also an ingenious meditation on the genre of the novel itself, recycling an older form to explore new directions, new possibilities for the novel.

Students, teachers, and interested readers will find in this resource a vivid and intimate account of life in the Elizabethan age. The first book on Elizabethan England to rise out of the living history movement, it combines a unique hands-on approach with the best of current research. Organized for easy reference, it is enlivened with how-to sections--recipes, clothing patterns, songs and games, all gathered from original sources. This hands-on approach recreates the daily life of ordinary people, not just the aristocracy, and systematically covers the most basic facts of life in a readily accessible format. Clearly illustrated with 94 drawings, patterns, and diagrams, it provides a treasure trove of information for classroom and library use and for those interested in recreating Elizabethan life. The work is organized into sections on the structure of Elizabethan society, the course of life (birth, childhood, education, marriage, old age, and death), the cycles of time (daily, weekly, and yearly schedules, including a calendar of the Elizabethan year), the living environment (houses, villages, towns, and travel), clothing (including instruction for making complete Elizabethan male and female outfits), food (featuring a selection of recipes), and entertainment (songs with sheet music and instruction for authentic games and dances). A chronology of Tudor England, a glossary, appendices with information and ideas on organizing Elizabethan feasts and fairs, and lists of suggested readings, videos, and recordings complete the work. This is an indispensable resource for classrooms and school and public libraries because it gives readers a true understanding of what it would be like to live in 16th-century England.

The Politics Book

"The Duel on the Beach" is a seafaring adventure novel by the famed Anglo-Italian author Rafael Sabatini. Like the author's earlier book 'Captain Blood', it focuses on piracy in the seventeenth century Caribbean. When Major Sands left Barbados after the death of the governor, Sir John Harradine, he had every reason to congratulate himself that the fortune which he had gone overseas to seek was at last within his reach. For homing with him on the fine ship Centaur was the late governor's daughter, sole heiress to the considerable wealth which Sir John had amassed during his term of office. The long voyage before them with its constant association must afford him opportunities of contriving that the lady and her fortune should be contracted to him by the time they reached Plymouth. But when a French naval officer Monsieur de Bernis takes an interest in the young lady, a collision between the two men is inevitable...

When his twin brother dies in a car accident, Helmer is obliged to return to the small family farm. He resigns himself to taking over his brother's role and spending the rest of his days 'with his head under

a cow'. After his old, worn-out father has been transferred upstairs, Helmer sets about furnishing the rest of the house according to his own minimal preferences. 'A double bed and a duvet', advises Ada, who lives next door, with a sly look. Then Riet appears, the woman once engaged to marry his twin. Could Riet and her son live with him for a while, on the farm?'The Twin' is an ode to the platteland, the flat and bleak Dutch countryside with its ditches and its cows and its endless grey skies. Ostensibly a novel about the countryside, as seen through the eyes of a farmer, 'the Twin' is, in the end, about the possibility or impossibility of taking life into one's own hands. It chronicles a way of life which has resisted modernity, is culturally apart, and yet riven with a kind of romantic longing. --This text refers to an out of print or unavailable edition of this title.

The Complete Book of 1940s Broadway Musicals

"Truly insider access, an authentic look at the traditions of one of the most incredible culinary regions of the world." —José Andrés Named a Best Cookbook for Fall by the New York Times and Food & Wine Tucked away in the northwest corner of Spain, Basque Country not only boasts more Michelin-starred restaurants per capita than any other region in the world, but its unique confluence of mountain and sea, values and tradition, informs every bite of its soulful cuisine, from pintxos to accompany a glass of wine to the elbows-on-the-table meals served in its legendary eating clubs. Yet Basque Country is more than a little inaccessible—shielded by a unique language and a distinct culture, it's an enigma to most outsiders. Until now. Marti Buckley, an American chef, journalist, and passionate Basque transplant, unlocks the mysteries of this culinary world by bringing together its intensely ingredient-driven recipes with stories of Basque customs and the Basque kitchen, and vivid photographs of both food and place. And surprise: this is food we both want to eat and can easily make. It's not about exotic ingredients or flashy techniques. It's about mind-set—how to start with that just-right fish or cut of meat or peak-of-ripeness tomato and coax forth its inherent depth of flavor. It's the marriage of simplicity and refinement, and the joy of cooking for family and friends.

Lulu's Provençal Table

A vibrant, enchanting tour of the Seine from longtime New York Times foreign correspondent and best-selling author Elaine Sciolino. Elaine Sciolino came to Paris as a young foreign correspondent and was seduced by a river. In *The Seine*, she tells the story of that river from its source on a remote plateau of Burgundy to the wide estuary where its waters meet the sea, and the cities, tributaries, islands, ports, and bridges in between. Sciolino explores the Seine through its rich history and lively characters: a bargewoman, a riverbank bookseller, a houseboat dweller, a famous cinematographer known for capturing the river's light. She discovers the story of Sequana—the Gallo-Roman healing goddess who gave the Seine its name—and follows the river through Paris, where it determined the city's destiny and now snakes through all aspects of daily life. She patrols with river police, rows with a restorer of antique boats, sips champagne at a vineyard along the river, and even dares to go for a swim. She finds the Seine in art, literature, music, and movies from Renoir and *Les Misérables* to Puccini and *La La Land*. Along the way, she reveals how the river that created Paris has touched her own life. A powerful afterword tells the dramatic story of how water from the depths of the Seine saved Notre-Dame from destruction during the devastating fire in April 2019. A "storyteller at heart" (June Sawyers, *Chicago Tribune*) with a "sumptuous eye for detail" (Sinclair McKay, *Daily Telegraph*), Sciolino braids memoir, travelogue, and history through the Seine's winding route. The *Seine* offers a love letter to Paris and the most romantic river in the world, and invites readers to explore its magic for themselves.

The Black Count

Perhaps one of the most distinctive and studied geographers of the twentieth century, Carl O. Sauer (1889--1975) had influence that extends well beyond the confines of any one discipline. With a focus on historical and cultural geography, Sauer's essays have garnered praise from poets, natural historians, and social scientists alike who continue to explore Sauer's work. In *Carl Sauer on Culture and*

Landscape, editors William M. Denevan and Kent Mathewson have compiled thirty-seven of Sauer's original works, including rare early writings, articles in now largely inaccessible publications, and transcriptions of key oral presentations that remain little known. A student of the relationships between land and life, people and places, Sauer helped establish landscape studies in cultural geography and paved the way for paradigmatic shifts in the scholarly assessment of Native American history. By strongly advocating a land ethic, "a responsible stewardship of the sustaining earth," for his own and for future generations, Carl Sauer supplied an esthetic rationale and a historical perspective to the environmental movement. The volume opens with two extended essays on Sauer's critics and his works. Essays by prominent geographers and other authorities on Sauer introduce each section of the book, adding a contemporary element to the presentation and interpretation of Sauer's life and scholarship in areas such as soil conservation, man in nature, and cultivated plants. A complete bibliography of his publications and an extensive compilation of commentaries on his life and work make this an indispensable reference. *Carl Sauer on Culture and Landscape* sheds new light on Sauer's contributions to the history of geographic thought, sustainable land use, and the importance of biological and cultural diversity -- all of which remain key issues today.

One More Croissant for the Road

In this new edition, the original topics have been brought up to date, added to and elaborated upon: Abbreviations, for example, now includes an essential array of chat room acronyms: Fashion boasts a complete list of British Hairdressers of the Year; and Music features a comprehensive listing of every top-ten single in the last forty years. And there are a wealth of new subjects to be discovered and enjoyed too, from the Top Tens of 2002 to world coins and paper money, bingo calls to crime and punishment, the Mr Men books to the works of Charles Dickens. What can be Big Boy, Early Girl or Supersonic? Which British Prime Minister links John Lennon and Gary Lineker? Which classic novel begins 'Now, what I want is facts'? (See Reviews for Answers) This monumental work of reference is a must-have title on your bookshelf - both an enjoyable book to dip into and a cornucopia of sheer fact.

Sonnets & Verse

"Open-hearted and buoyant, the book weaves together her hands-on experiences in Europe and introduces us to a rich cast of people who make, sell and care about these traditions." —Jenny Linford, author of *The Missing Ingredient* In this delightful, full-color tour of France, England, and Italy, YouTube star Katie Quinn shares the stories and science behind everyone's fermented favorites—cheese, wine, and bread—along with classic recipes. Delicious staples of a great meal, bread, cheese, and wine develop their complex flavors through a process known as fermentation. Katie Quinn spent months as an apprentice with some of Europe's most acclaimed experts to study the art and science of fermentation. Visiting grain fields, vineyards, and dairies, Katie brings the stories and science of these foods to the table, explains the process of each craft, and introduces the people behind them. What will keep readers glued to the book like a suspense novel is Katie's personal journey as an expat discovering herself abroad; Katie's vulnerability will turn readers into fans, and they'll finish the book feeling like they're her best friends, trusted with her innermost revelations. In England, Katie becomes a cheesemonger at Neal's Yard Dairy, London's preeminent cheese shop—the beginning of a journey that takes her from a goat farm in rural Somerset to a nationwide search for innovating dairy gurus. In Italy, Katie offers an inside look at Italian winemaking with the Comellis at their family-owned vineyard

in Northeast Italy and witnesses the diversity of vintners as she makes her way around Italy. In France, Katie meets the reigning queen of bread, Apollonia Poilâne of Paris' famed Poilâne Bakery, apprentices at boulangeries in Paris learning the ins and outs of sourdough, and travels the country to uncover the present and future of French bread. Part artisanal survey, part travelogue, and part cookbook, featuring watercolor illustrations and gorgeous photographs, *Cheese, Wine, and Bread* is an outstanding gastronomic tour for foodies, cooks, artisans, and armchair travelers alike.

Hal Wallis

Hal Wallis (1898-1986) might not be as well known as David O. Selznick or Samuel Goldwyn, but the films he produced—*Casablanca*, *Jezebel*, *Now, Voyager*, *The Life of Emile Zola*, *Becket*, *True Grit*, and many other classics (as well as scores of Elvis movies)—have certainly endured. As producer of numerous films, Wallis made an indelible mark on the course of America's film industry, but his contributions are often overlooked. Bernard Dick offers the first comprehensive assessment of the producer's incredible career. A former office boy and salesman, Wallis first engaged with the film business as the manager of a Los Angeles movie theater in 1922. He attracted the notice of the Warner brothers, who hired him as a publicity assistant. Within three months he was director of the department, and appointments to studio manager and production executive quickly followed. Wallis went on to oversee dozens of productions and formed his own production company in 1944. Dick draws on numerous sources such as Wallis's personal production files and exclusive interviews with many of his contemporaries to finally tell the full story of his illustrious career. Dick combines his knowledge of behind-the-scenes Hollywood with fascinating anecdotes to create a portrait of one of Hollywood's early power players.

The Image of Librarians in Cinema, 1917–1999

From its earliest days to the present, the onscreen image of the librarian has remained largely the same. A silent 1921 film set the precedent for two female librarian characters: a dowdy spinster wears glasses and a bun hairstyle, and an attractive young woman is overworked and underpaid. Silent films, however, employed a variety of characteristics for librarians, showed them at work on many different tasks, and featured them in a range of dramatic, romantic, and comedic situations. The sound era (during which librarians appeared in more than 200 films) frequently exaggerated these characteristics and situations, strongly influencing the general image of librarians. This chronologically arranged work analyzes the stereotypical image of librarians, male and female, in primarily American and British motion pictures from the silent era to the 21st century. The work briefly describes each film, offering some critical commentary, and then examines its librarian, considering every aspect of the total character from socio-economic conditions and motivations for leaving or not leaving the library, to personal attributes (such as clothing, hair, and age) and entanglements with the opposite sex, to commonly used props, plot situations and lines ("Shush!"). The work comments on whether librarians and library work are depicted accurately and analyzes the development of the public's image of a librarian. The accompanying filmography lists librarian characters and notes stereotypes such as buns and eyeglasses. With bibliography and index.

All These Shiny Worlds

The 2016 *ImmerseOrDie* Anthology. What do you get when you ask 34 of today's top indie authors to each submit a story and then ask a team of ruthless judges to scour that ore and pick out the gems? You get *All These Shiny Worlds*: A world of today, divided, black from white, good from evil, and held apart by the taste of a cookie. A world of griffons and glimmer bunnies, wise old mothers, sassy llamas, and the magic of beer. A world of contemplation and serenity, of service and devotion, ruled by a jewel

and guarded by children. Plus 12 more, for a total of 15 worlds to explore. From the brutal curators at ImmerseOrDie.com comes this collection of indie short stories, each a distinct jewel forged in the fires of judgment, and all carrying one simple promise: Guaranteed not to suck.

The Practice of Art and AI

Multidisciplinary explorations of AI and its implications for art In this multidisciplinary volume, European ARTificial Intelligence Lab, in partnership with Ars Electronica, considers the incredibly rapid development of Artificial Intelligence in the context of the cyber-arts. Bringing together 13 cultural and six scientific institutions from across Europe, this publication explores the interdisciplinary exchange between art and science and summarizes the accomplishments of the AI Lab since its opening. This guide to the events and exhibitions for this project includes more than 500 reproductions, profiles on featured exhibitors and essays. In keeping with the project's focus on the interplay between art and technology, the book includes QR codes which link the reader to video lectures and other supplementary materials. Artists and researchers include: Eva Smrekar, Eduardo Reck Miranda, Ian Gouldstone, Aarati Akkapeddi, Cecilie Waagner Falkenstrøm, Tega Brain, Sam Lavigne, Hannah Jayanti, Sarah Petkus, Mark J. Koch, Mimi Onuoha, Caroline Sindors, LaJuné McMillian, Victoria Vesna and many more.

Fumiko and the Finicky Nestmate

She could make a mess of everything. Especially him. The Junzi-also known as the Four Gentlemen-are a set of ancient weapons fashioned from remnants. Dragons refer to them as the Four Storms, and Hisoka Twineshaft believes they will make a difference in the hunt for the rogue. But someone else is interested in gathering up these crystal masterpieces. The so-called Gentleman Bandit is responsible for two thefts already, and Hisoka is concerned for the Bamboo Stave. So he deploys an elite taskforce to guard the treasure. And to catch a thief. Juuyu Farroost and his teammates regroup at a safehouse tucked under the boughs of one of the oldest-and most heavily fortified-orphan trees in the Americas. Fumiko and her tree-twin have enough rooms for all of them. If they can shift enough of the woman's clutter to set up their equipment. Juuyu's expertise is essential to the success of their mission, but he can barely focus thanks to Fumiko, her messes, and Akira, who apparently owes Boon a favor.

Japanese Demon Lore

Oni, ubiquitous supernatural figures in Japanese literature, lore, art, and religion, usually appear as demons or ogres. Characteristically threatening, monstrous creatures with ugly features and fearful habits, including cannibalism, they also can be harbingers of prosperity, beautiful and sexual, and especially in modern contexts, even cute and lovable. There has been much ambiguity in their character and identity over their long history. Usually male, their female manifestations convey distinctively gendered social and cultural meanings. Oni appear frequently in various arts and media, from Noh theater and picture scrolls to modern fiction and political propaganda. They remain common figures in popular Japanese anime, manga, and film and are becoming embedded in American and international popular culture through such media. Noriko Reider's book is the first in English devoted to oni. Reider fully examines their cultural history, multifaceted roles, and complex significance as "others" to the Japanese.

Ghosts from Our Past

Yosano Akiko (1878–1942) has long been recognized as one of the most important literary figures of prewar Japan. Her renown derives principally from the passion of her early poetry and from her contributions to 20th-century debates about women. This emphasis obscures a major part of her career, which was devoted to work on the Japanese classics and, in particular, the great Heian period text *The Tale of Genji*. Akiko herself felt that *Genji* was the bedrock upon which her entire literary career was built, and her bibliography shows a steadily increasing amount of time devoted to projects related to the tale. This study traces for the first time the full range of Akiko's involvement with *The Tale of Genji*. *The Tale of Genji* provided Akiko with her conception of herself as a writer and inspired many of her most significant literary projects. She, in turn, refurbished the tale as a modern novel, pioneered some of the most promising avenues of modern academic research on *Genji*, and, to a great extent, gave the text the prominence it now enjoys as a translated classic. Through Akiko's work *Genji* became, in fact as well as in name, an exemplum of that most modern of literary genres, the novel. In delineating this important aspect of Akiko's life and her bibliography, this study aims to show that facile descriptions of Akiko as a "poetess of passion" or "new woman" will no longer suffice.

The Inhabitants of the Philippines

The 'International Military Tribunal for the Far East' (IMTFE), held in Tokyo from May 1946 to November 1948, was a landmark event in the development of modern international criminal law. The trial in Tokyo was a complex undertaking and international effort to hold individuals accountable for core international crimes and delivering justice. The Tribunal consisted of 11 judges and respective national prosecution teams from 11 countries, and a mixed Japanese–American team of defence lawyers. The IMTFE indicted 28 Japanese defendants, amongst them former prime ministers, cabinet ministers, military leaders, and diplomats, based on a 55-count indictment pertaining to crimes against peace, war crimes, and crimes against humanity. The judgment was not unanimous, with one majority judgment, two concurring opinions, and three dissenting opinions. The trial and the outcome were the subject of significant controversy and the Tribunal's files were subsequently shelved in the archives. While its counterpart in Europe, the 'International Military Tribunal' (IMT) at Nuremberg, has been at the centre of public and scholarly interest, the Tokyo Tribunal has more recently gained international scholarly attention. This volume combines perspectives from law, history, and the social sciences to discuss the legal, historical, political and cultural significance of the Tokyo Tribunal. The collection is based on an international conference marking the 70th anniversary of the judgment of the IMTFE, which was held in Nuremberg in 2018. The volume features reflections by eminent scholars and experts on the establishment and functioning of the Tribunal, procedural and substantive issues as well as receptions and repercussions of the trial.

Yosano Akiko and *The Tale of Genji*

To what extent can music be employed to shape one culture's understanding of another? In the American imagination, Japan has represented the "most alien" nation for over 150 years. This perceived difference has inspired fantasies--of both desire and repulsion--through which Japanese culture has profoundly impacted the arts and industry of the U.S. While the influence of Japan on American and European painting, architecture, design, theater, and literature has been celebrated in numerous books and exhibitions, the role of music has been virtually ignored until now. W. Anthony Sheppard's *Extreme Exoticism* offers a detailed documentation and wide-ranging investigation of music's role in shaping American perceptions of the Japanese, the influence of Japanese music on American composers, and the place of Japanese Americans in American musical life. Presenting numerous American encounters with and representations of Japanese music and Japan, this book reveals how music functions in exotic representation across a variety of genres and media, and how Japanese music has at various times served as a sign of modernist experimentation, a sounding board for defining American music, and a tool for reshaping conceptions of race and gender. From the Tin Pan Alley songs of the Russo-Japanese war period to Weezer's Pinkerton album, music has continued to inscribe Japan as the land of extreme exoticism.

The Tokyo Tribunal: Perspectives on Law, History and Memory

The development of the use of computers and software in art from the Fifties to the present is explained. As general aspects of the history of computer art an interface model and three dominant modes to use computational processes (generative, modular, hypertextual) are presented. The "History of Computer Art" features examples of early developments in media like cybernetic sculptures, computer graphics

and animation (including music videos and demos), video and computer games, reactive installations, virtual reality, evolutionary art and net art. The functions of relevant art works are explained more detailed than usual in such histories.

BOOKS OF THE YEAR 2017 - GOURMET TRAVELLER AUSTRALIA 'My approach to food favours intuition over strict rules and is about using your hands, rushing a little less and savouring the details. It is food that slowly weaves its way into the fabric of your daily life - food for living and sharing.' Julia Busuttil Nishimura has gained a strong and loyal following for her generous, uncomplicated, seasonal food. Her interpretations of dishes from Italy and the Mediterranean feel both timelessly familiar and altogether fresh and new. This is modern Australian eating with respect for the past. Julia guides us through the uniquely satisfying experience of making pasta or pizza dough from scratch, with recipes such as ricotta tortelloni with butter, sage and hazelnuts or taleggio and potato pizza. She also shares plenty of flavourful salads and simple meals for days when time is scarce, such as roasted cauliflower and wheat salad or tray-roasted chicken with grapes, olives and walnuts. Baking and desserts, too, needn't be overly complicated. As Julia shows us, some of the best recipes are those that have been passed down the generations and streamlined to perfection along the way, such as the perfect lemon olive oil cake. But we also need the odd show-stopper like a chocolate layer cake with espresso frosting on standby for special occasions! This is simple food that is comforting and generous in spirit. Slow down, take your time and enjoy it. This is a specially formatted fixed layout ebook that retains the look and feel of the print book. PRAISE FOR OSTRO "This is classy, quirky - and perfect for anyone of us wanting to remember that life is, in the end, about friendships and family." Readings "Nishimura produces aspirational dishes - simple, diverse and encouraging us to finally give things like handmade pasta a go" Broadsheet

Conformist, mute and malleable? Andrews tackles head-on this absurd caricature of Japanese society in his fascinating history of its militant sub-cultures, radical societies and well-established traditions of dissent. Following the March 2011 tsunami and Fukushima nuclear crisis, the media remarked with surprise on how thousands of demonstrators had flocked to the streets of Tokyo. But mass protest movements are nothing new in Japan and the post-war period experienced years of unrest and violence on both sides of the political spectrum: from demos to riots, strikes, campus occupations, faction infighting, assassinations and even international terrorism. This is the first comprehensive history in English of political radicalism and counterculture in Japan, as well as the artistic developments during this turbulent time. It chronicles the major events and movements from 1945 to the new flowering of protests and civil dissent in the wake of Fukushima. Introducing readers to often ignored aspects of Japanese society, it explores the fascinating ideologies and personalities on the Right and the Left, including the student movement, militant groups and communes. While some elements parallel developments in Europe and America, much of Japan's radical recent past (and present) is unique and offers valuable lessons for understanding the context to the new waves of anti-government protests the nation is currently witnessing.

Rogue Plunder

The films of John Carpenter cover a tremendous range and yet all bear his clear personal stamp. From the horrifying (*Halloween*) to the touching (*Starman*) to the controversial (*The Thing*) to the comic (*Big Trouble in Little China*), his films reflect a unique approach to filmmaking and singular views of humanity and American culture. This analysis of Carpenter's films includes a historical overview of his career, and in-depth entries on each of his films, from 1975's *Dark Star* to 1998's *Vampires*. Complete cast and production information is provided for each. The book also covers those films written and produced by Carpenter, such as *Halloween II* and *Black Moon Rising*, as well as Carpenter's work for television. Appendices are included on films Carpenter was offered but turned down, the slasher films that followed in the wake of the highly-successful *Halloween*, the actors and characters who make repeated appearances in Carpenter's films, and ratings for Carpenter's work. Notes, bibliography, and index are included.

The Persuasion Code

This critically acclaimed play by Luis Valdez cracks open the depiction of Chicanos on stage, challenging viewers to revisit a troubled moment in our nation's history. From the moment the myth-infused character El Pachuco burst onto the stage, cutting his way through the drop curtain with a switchblade, Luis Valdez spurred a revolution in Chicano theater. Focusing on the events surrounding the Sleepy Lagoon Murder Trial of 1942 and the ensuing Zoot Suit Riots that turned Los Angeles into a bloody war zone, this is a gritty and vivid depiction of the horrifying violence and racism suffered by young Mexican Americans on the home front during World War II. Valdez's cadre of young urban characters struggle with the stereotypes and generalizations of America's dominant culture, the questions of assimilation and patriotism, and a desire to rebel against the mainstream pressures that threaten to wipe them out. Experimenting with brash forms of narration, pop culture of the war era, and complex characterizations, this quintessential exploration of the Mexican-American experience in the United States during the 1940's was the first, and only, Chicano play to open on Broadway. This collection contains three of playwright and screenwriter Luis Valdez's most important and recognized plays: *Zoot Suit*, *Bandido!* and *I Don't Have to Show You No Stinking Badges*. The anthology also includes an introduction by noted theater critic Dr. Jorge Huerta of the University of California-San Diego. Luis Valdez, the most recognized and celebrated Hispanic playwright of our times, is the director of the famous farm-worker theater, El Teatro Campesino.

Science Education: A Global Perspective is 'global' both in content and authorship. Its 17 chapters by an assemblage of seasoned and knowledgeable science educators from many parts of the world seek to bring to the fore current developments in science education and their implications. The book thus covers a wide range of topics in science education from various national and international perspectives. These include the nature of science, science and religion, evolution, curriculum and pedagogy, context-based teaching and learning, science and national development, socially-responsible science education, equitable access for women and girls in science and technology education, and the benefits of science education research. It ends on an optimistic note by looking at science education in 50 years' time with a recommendation, among others, for stakeholders to take the responsibility of preparing children towards a blossoming science education sector in an anticipated future world. This book is suitable for use by discerning researchers, teachers, undergraduate and postgraduate students in science education, and policy makers at all levels of education. Other educationalists and personnel in science and technology vocations will also find it interesting and useful as the reader-motivated approach has guided the presentation of ideas. Science Education: A Global Perspective is a rich compendium of the components of science education in context, practice, and delivery. Dr Bulent Cavas, Professor of Science Education, Dokuz Eylul University, Buca-Izmir, Turkey/President-Elect, International Council of Associations for Science Education (ICASE) This book will be of immense relevance for current and future global strides in training and research in science education. Surinder K. Ghai, Chairman, Sterling Publishers Pvt. Ltd., New Delhi, India This book provides a refreshing insight into the current status and future direction of science education. It will be very useful to researchers, those pursuing undergraduate and post-graduate courses in science education, and all other personnel involved in the policy and practice of science education. The Films of John Carpenter

"Take a walk down Madison's iconic State Street -- from the State Capitol to UW-Madison's Library Mall -- to witness the images and feel the emotion that dozens of artists felt after the killing of George Floyd. This publication encompasses striking photographs and the artists' own words to understand their motivation and appreciate what they hope readers will feel when they see their work. More than a hundred murals originally commissioned by the City of Madison on storefronts generously provided by downtown business owners are celebrated in this striking collection of art and protest. Also included are original essays from noteworthy Black scholars and a special poem by Madison's former poet laureate. We hope this book encourages you to reflect, to consider and to "Talk About It" when it comes to issues of racial justice."--Jacket flap.

TSQ aims to be the journal of record for the rapidly emerging field of transgender studies. The inaugural issue, "Postposttranssexual: Key Concepts for a 21st-Century Transgender Studies," pays homage to Sandy Stone's field-defining "Posttranssexual Manifesto" and assesses where the field is now

and where it seems to be heading. Comprising over eighty short essays by authors ranging from graduate students to senior scholars, the issue takes on such topics as biopolitics, disability, political economy, childhood, trans-of-color critique, area studies, translation, pathologization, the state, and animal studies. Some keyword entries resemble encyclopedia articles (sports, psychoanalysis); others are poetic meditations on concepts (capacity, transition); still others offer whimsical and eccentric expositions of words that are more unexpected-and unexpectedly productive (perfume, hips). Some entries pose trenchant resistances to the keyword concept itself. The issue includes a substantive introduction by the editors and serves as a primer for readers encountering transgender studies for the first time.

Teaching Race in the 21st Century

The Unlike Us Reader offers a critical examination of social media, bringing together theoretical essays, personal discussions, and artistic manifestos. How can we understand the social media we use every day, or consciously choose not to use? We know very well that monopolies control social media, but what are the alternatives? While Facebook continues to increase its user population and combines loose privacy restrictions with control over data, many researchers, programmers, and activists turn towards designing a decentralized future. Through understanding the big networks from within, be it by philosophy or art, new perspectives emerge. Unlike Us is a research network of artists, designers, scholars, activists, and programmers, with the aim to combine a critique of the dominant social media platforms with work on 'alternatives in social media', through workshops, conferences, online dialogues, and publications. Everyone is invited to be a part of the public discussion on how we want to shape the network architectures and the future of social networks we are using so intensely.

"The Design of "The Waste Land" offers a detailed, comprehensive explanation of T. S. Eliot's enigmatic poem. It relates The Waste Land to earlier and later poems by Eliot, demonstrating that the major poems describe a continuous spiritual odyssey or quest undertaken by the same individual, initiated by the moment of ecstasy in the Hyacinth garden." "Blistein's analysis of Eliot's sources reveals that the protagonist's glimpse of "the heart of light" is equivalent to drinking from the Grail, or communing with God. The incarnate deity momentarily transforms the Hyacinth garden into the likeness of the Edenic paradise. With the inevitable passing of the moment of communion, the protagonist in effect is expelled from the paradisiacal garden as mankind was from Eden. By contrast, the familiar world appears to him a wasteland. The protagonist seeks to drink again from the divine Source and return again to the garden as it was when transfigured by the divine presence. His is a quest for grail and homeland."--BOOK JACKET.

Workings of the Spirit

Urban slum dwellers—especially in emerging-economy countries—are often poor, live in squalor, and suffer unnecessarily from disease, disability, premature death, and reduced life expectancy. Yet living in a city can and should be healthy. *Slum Health* exposes how and why slums can be unhealthy; reveals that not all slums are equal in terms of the hazards and health issues faced by residents; and suggests how slum dwellers, scientists, and social movements can come together to make slum life safer, more just, and healthier. Editors Jason Corburn and Lee Riley argue that valuing both new biologic and "street" science—professional and lay knowledge—is crucial for improving the well-being of the millions of urban poor living in slums.

An Introduction to the Profession of Social Work

For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The *Encyclopedia of Film Composers* features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail.

Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

Science Education: A Global Perspective

A Library Journal Horror Best Seller From Nebula Award winner Sam J. Miller comes a frightening and uncanny ghost story about a rapidly changing city in upstate New York and the mysterious forces that threaten it. Ronan Szepessy promised himself he'd never return to Hudson. The sleepy upstate town was no place for a restless gay photographer. But his father is ill and New York City's distractions have become too much for him. He hopes that a quick visit will help him recharge. Ronan reconnects with two friends from high school: Dom, his first love, and Dom's wife, Attalah. The three former misfits mourn what their town has become—overrun by gentrifiers and corporate interests. With friends and neighbors getting evicted en masse and a mayoral election coming up, Ronan and Attalah craft a plan to rattle the newcomers and expose their true motives. But in doing so, they unleash something far more mysterious and uncontrollable. Hudson has a rich, proud history and, it turns out, the real-state developers aren't the only forces threatening its well-being: the spirits undergirding this once-thriving industrial town are enraged. Ronan's hijinks have overlapped with a bubbling up of hate and violence among friends and neighbors, and everything is spiraling out of control. Ronan must summon the very best of himself to shed his own demons and save the city he once loathed.
