'A work of formidable imaginative scope' Daily Telegraph The first casualty when war comes is truth . . . Flanders, June 1917: a British officer and celebrated poet, is shot dead. , He is killed not by German fire, but while recuperating from shell shock well behind the lines. A young English soldier is arrested and, although he protests his innocence, charged with his murder. Douglas Kingsley is a conscientious objector, previously a detective with the London police, now imprisoned for his beliefs. He is released and sent to France in order to secure a conviction. Forced to conduct his investigations amidst the hell of The Third Battle of Ypres, Kingsley soon discovers that both the evidence and the witnesses he needs are quite literally disappearing into the mud that surrounds him. Ben Elton's tenth novel is a gut-wrenching historical drama which explores some fundamental questions: What is murder? What is justice in the face of unimaginable daily slaughter? And where is the honour in saving a man from the gallows if he is only to be returned to die in a suicidal battle?

#### Webster's New World Rhyming Dictionary

The first book to explore the value of the motorcycle to communications, and how the despatch rider prevented German victory. When Roger West mounted his motorbike he had no idea he was riding into history or that his King would shake his hand - he was merely doing his duty. That one of his feet was so injured he couldn't wear a boot was beside the point: San Fairy Ann - that didn't matter. To Roger, an amateur despatch rider in the British Expeditionary Force, it seemed a pity that a bridge along the Great Retreat of August 1914 was open to the German armies, so he rode back to blow it up. When he wasn't up to such japes he and his chums in the Despatch Rider Corps, almost all civilians in uniform, were riding day and night to hold a desperate force together, so that it might fight another day. Despatch riders saved the British Army from annihilation. How did these real-life Boy's Own heroes come to be forgotten?

## The Works of John Dryden: Life

Limited by the Imperial War Graves Commission to 66 letters - and that included counting the space between each word as one letter - this first in a short series of books highlights what The Times called, 'the heart of the bereaved'; the thousands of silent voices that 'speak' from the war cemeteries. Voices which stand at the opposite end of the commemorative spectrum to the Cenotaph; an austere 'silent' tribute to the Empire's dead, the other a clamour of individual 'voices', each one a personal tribute to an individual and cultural reference from the world which these soldiers and their families lived in. In this book, the selected epitaphs look at a variety of themes, tones and locations from both ordinary and famous backgrounds, the privileged and the poor - the officers and men who all lie in some corner of a foreign field. Second in the series publishing in 2017 will feature epitaphs from the Battle of Passchendaele (1917). A complete study of these epitaphs will be published to coincide with the centenary of the Armistice in 2018.

#### The Outspan; Tales of South Africa

Excerpt from The Outspan: Tales of South Africa The charm Of the life is indescribable, and none who have tasted it ever weary Of it, ever forget it, or cease to feel the longing to return when once they have quitted it. It was in '91, the year after the pioneers cut their way through the Bush, with Selous to guide them, and occupied Mashonaland. We followed their trail and lived again their anxious nights and days, when they, a small handful in a dense Bush, at the mercy Of the Matabele thousands, did not know at what hour they would be pounced on and massacred. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Trieste Publishing has a massive catalogue of classic book titles. Our aim is to provide readers with the highest quality reproductions of fiction and non-fiction literature that has stood the test of time. The many thousands of books in our collection have been sourced from libraries and private collections around the world. The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original. Our readers see the books the same way that their first readers did decades or a hundred or more years ago. Books from that period are often spoiled by imperfections that did not exist in the original. Imperfections could be in the form of blurred text, photographs, or missing pages. It is highly unlikely that this would occur with one of our books. Our extensive quality control ensures that the readers of Trieste Publishing's books will be delighted with their purchase. Our staff has thoroughly reviewed every page of all the books in the collection, repairing, or if necessary, rejecting titles that are not of the highest quality. This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original, and to the maximum degree possible, gives them the experience of owning the original work. We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality, but also providing value to every one of our readers. Generally, Trieste books are purchased singly - on demand, however they may also be purchased in bulk. Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates.

#### Oom Pauls People a Narrative of the British-Boer Troubles in South Africa with a History of the B - Scholar's Choice Edition

Reexamines the history of South Africa, traces the development of apartheid, and describes the anti-apartheid movement

#### They Were South Africans - Scholar's Choice Edition

This study deals with a particular kind of short story in South African English literature - a kind of story variously called the fireside tale, tall tale, skaz narrative or (the term used here) the 'oral-style' story. Most famously exemplified in the Oom Schalk Lourens narratives of Herman Charles Bosman, the oral-style story has its roots in the hunting tale and camp-fire yarn of the nineteenth century and has dozens of exponents in South African literature, most of them long forgotten. Here this neglect has been addressed. A.W. Drayson's *Tales at the Outspan* (1862) provides a point of departure, and is followed by discussions of works by William Charles Scully, Percy FitzPatrick, Ernest Glanville, Perceval Gibbon,

Francis Carey Slater, Pauline Smith, and Aegidius Jean Blignaut, all of whom used the oral-style story genre. In the work of Herman Charles Bosman, however, the South African oral-style story comes into its own. In his Oom Schalk Lourens figure is invested all of the complexity and 'double-voicedness' that was latent - and largely dormant - in the earlier works. Bosman demonstrates his sophistication particularly in his metafictional use of the oral-style story. The study concludes with a discussion of the use of oral forms in the work of more recent black writers - among them Bessie Head, Mtutuzeli Matshoba, and Njabulo Ndebele.

### A History of South Africa

For some reason, which may be either arrogance or apathy, the British are very slow to state their case to the world. At present the reasons for our actions and the methods which we have used are set forth in many Blue-books, tracts, and leaflets, but have never, so far as I know, been collected into one small volume. In view of the persistent slanders to which our politicians and our soldiers have been equally exposed, it becomes a duty which we owe to our national honour to lay the facts before the world. I wish someone more competent, and with some official authority, had undertaken the task, which I have tried to do as best I might from an independent standpoint. There was never a war in history in which the right was absolutely on one side, or in which no incidents of the campaign were open to criticism. I do not pretend that it was so here. But I do not think that any unprejudiced man can read the facts without acknowledging that the British Government has done its best to avoid war, and the British Army to wage it with humanity.

### The Saturday Review of Politics, Literature, Science and Art

### The Athenaeum

Recently vilified as the prime dynamic driving home the breach between poor and rich nations, here the branding process is rehabilitated as a potential saviour of the economically underprivileged. Brand New Justice, now in a revised paperback edition, systematically analyses the success stories of the Top Thirteen nations, demonstrating that their wealth is based on the 'last mile' of the commercial process: buying raw materials and manufacturing cheaply in third world countries, these countries realise their lucrative profits by adding value through finishing, packaging and marketing and then selling the branded product on to the end-user at a hugely inflated price. The use of sophisticated global media techniques alongside a range of creative marketing activities are the lynchpins of this process. Applying his observations on economic history and the development and impact of global marketing, Anholt presents a cogent plan for developing nations to benefit from globalization. So long the helpless victim of capitalist trading systems, he shows that they can cross the divide and graduate from supplier nation to producer nation. Branding native produce on a global scale, making a commercial virtue out of perceived authenticity and otherness and fully capitalising on the 'last mile' benefits are key to this graduation and fundamental to forging a new global economic balance. Anholt argues with a forceful logic, but also backs his hypothesis with enticing glimpses of this process actually beginning to take place. Examining activities in India, Thailand, Russia and Africa among others, he shows the risks, challenges and pressures inherent in 'turning the tide', but above all he demonstrates the very real possibility of enlightened capitalism working as a force for good in global terms.

### Athenaeum and Literary Chronicle

This book studies the Anglo-American media's representation of South Africa in the 1970s - the international media is shown to have been under continuous pressure from both the South African Dept of Information and the anti-apartheid movement.

### The Oral-style South African Short Story in English

For the first time, the 92-metre frieze of the Voortrekker Monument in Pretoria, one of the largest historical narratives in marble, has been made the subject of a book. The pictorial narrative of the Boer pioneers who conquered South Africa's interior during the 'Great Trek' (1835-52) represents a crucial period of South Africa's past. Conceptualising the frieze both reflected on and contributed to

the country's socio-political debates in the 1930s and 1940s when it was made. The book considers the active role the Monument played in the rise of Afrikaner nationalism and the development of apartheid, as well as its place in post-apartheid heritage. The frieze is unique in that it provides rare evidence of the complex processes followed in creating a major monument. Based on unpublished documents, drawings and models, these processes are unfolded step by step, from the earliest discussions of the purpose and content of the frieze, through all the stages of its design, to its shipping to post-war Italy to be copied into marble from Monte Altissimo, up to its final installation in the Monument. The book examines how visual representation transforms historical memory in what it chooses to recount, and the forms in which it is depicted. The second volume expands on the first, by investigating each of the twenty-seven scenes of the frieze in depth, providing new insights into not only the frieze, but also South Africa's history. François van Schalkwyk of African Minds, co-publisher with De Gruyter writes: From Memory to Marble is an open access monograph in the true sense of the word. Both volumes of the digital version of the book are available in full and free of charge from the date of publication. This approach to publishing democratises access to the latest scholarly publications across the globe. At the same time, a book such as From Memory to Marble, with its unique and exquisite photographs of the frieze as well as its wealth of reproduced archival materials, demands reception of a more traditional kind, that is, on the printed page. For this reason, the book is likewise available in print as two separate volumes. The printed and digital books should not be seen as separate incarnations; each brings its own advantages, working together to extend the reach and utility of From Memory to Marble to a range of interested readers. For more material you can browse at Stanford's database "Voortrekker Monumentality: a digital archive".

### The Athenaeum

Presents a comprehensive history of the country, from its earliest human settlements, to events prior to European colonisation, to the Dutch occupation and the years of apartheid, to its success in becoming an independent nation.

### The Examiner

In this thought-provoking reexamination of the history of "racial science" Vernon J. Williams argues that all current theories of race and race relations can be understood as extensions of or reactions to the theories formulated during the first half of the twentieth century. Williams explores these theories in a carefully crafted analysis of Franz Boas and his influence upon his contemporaries, especially W.E.B. DuBois, Booker T. Washington, George W. Ellis, and Robert E. Park. Historians have long recognized the monumental role Franz Boas played in eviscerating the racist worldview that prevailed in the American social sciences. Williams reconsiders the standard portrait of Boas and offers a new understanding of a man who never fully escaped the racist assumptions of 19th-century anthropology but nevertheless successfully argued that African Americans could assimilate into American society and that the chief obstacle facing them was not heredity but the prejudice of white America.

### The War in South Africa

This book documents and analyses the involvement of Norway in the liberation struggle in Southern Africa. Apart from focussing on the formulation of official policies and the extensive cooperation with the liberation movements in the field of humanitarian assistance, mainly based on the Ministry of Foreign Affairs records, the study highlights the popular involvement and commitment to the struggle. Separate chapters are concerned with the churches, trade unions and solidarity movements, such as the Norwegian Council for Southern Africa and the Namibia Committee. The book also includes a case study on the battle for sanctions. The Study forms part of the Nordic Africa Institute's research and documentation project -National Liberation in Southern Africa: The Role of the Nordic Countries-.
