A History Of Scotland

The dramatic story of Scotland - by charismatic television historian, Neil Oliver. Scotland is one of the oldest countries in the world with a vivid and diverse past. Yet the stories and figures that dominate Scottish history - tales of failure, submission, thwarted ambition and tragedy - often badly serve this great nation, overshadowing the rich tapestry of her intricate past. Historian Neil Oliver presents a compelling new portrait of Scottish history, peppered with action, high drama and centuries of turbulence that have helped to shape modern Scotland. Along the way, he takes in iconic landmarks and historic architecture; debunks myths surrounding Scotland's famous sons; recalls forgotten battles; charts the growth of patriotism; and explores recent political developments, capturing Scotland's sense of identity and celebrating her place in the wider world.

An Introductory History of Scotland

'Oliver is an evocative storyteller, vividly bringing his tales to life' BBC History From Genghis Khan's domination on earth to Armstrong's first steps on the moon, discover the 100 moments that defined humanity and shaped our world forever. Neil Oliver takes us on a whistle-stop tour around the world and through a million years to give us this unique and invaluable grasp of how human history pieces together. From the east to the west, north to south, these 100 moments act like stepping stones allowing us to make sense of how these pivotal events have shaped the world we know today. Including many moments readers will expect - from the advent of the printing press to the birth of the internet - there are also surprises, and with them, some remarkable, unforgettable stories that give a whole new insight on our past. From the bestselling author of The Story of the British Isles in 100 Places, this is outstanding new history of how our world was made from 5000 BC to the present. ***** Praise for Neil Oliver 'Neil Oliver writes beautifully - bringing the past to life and letting us see ourselves in a new light.' - Professor Alice Roberts 'Brilliantly demonstrates Neil's mastery of the broad sweep of British history and landscape.' - Dan Snow 'Highly-crafted...a vivid, pungent history.' - TLS 'Compelling' - Daily Mail

The Story of the World in 100 Moments

A compelling and beautifully illustrated history of Scottish clans and their leaders.

The Highland Clans

Explore the fascinating history of Scotland in an easy-to-read guide Want to discover how a small country on the edge of Northern Europe packs an almighty historical punch? Scottish History For Dummies is your guide to the story of Scotland and its place within the historical narratives of Britain, Europe and the rest of the world. You'll find out how Scotland rose from the ashes to forge its own destiny, understand the impact of Scottish historical figures such as William Wallace, Robert the Bruce and David Hume and be introduced to the wonderful world of Celtic religion, architecture and monuments. History can help us make connections with people and events, and it gives us an understanding of why the world is like it is today. Scottish History For Dummies pulls back the curtain on how the story of Scotland has shaped the world far beyond its borders. From its turbulent past to the present day, this informative guide sheds a new and timely light on the story of Scotland and its people. Dig into a wealth of fascinating facts on the Stone, Bronze and Iron ages Get to know how Scotland was built into an industrial economy by inventors, explorers and missionaries Discover the impact of the world wars on Scotland and how the country has responded to challenges created by them Find up-to-the-minute information on Scotland's referendum on independence If you're a lifelong learner looking for a fun, factual exploration of the grand scope of Scotland or a traveler wanting to make the most of your trip to this captivating country, Scottish History For Dummies has you covered.

Scottish History For Dummies

In this book, Alistair Moffat brings vividly to life the story of this great nation, from the dawn of prehistory through to the twenty-first century. Ambitious, richly detailed and highly readable, Scotland: A History From Earliest Times skilfully weaves together a dazzling array of fact and anecdote from a vast range of sources. The result is an imaginative, informative, balanced and varied portrait of Scotland, seen not just through the experience of the kings, saints, warriors, aristocrats and politicians who populate the pages of conventional history books, but also through that of ordinary people who have lived Scotland's history and have played their own important part in shaping its destiny.

Scotland: A History from Earliest Times

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

When Scotland Was Jewish

THE PERFECT READ FOR TROUBLED TIMES From the bestselling author of *The Story of the British Isles in 100 Places* comes this inspiring and beautifully written meditation on the wisdom inherited from our ancestors. For all we have gained in the modern world, simple peace of mind is hard to find. In a time that is increasingly fraught with complexity and conflict, we are told that our wellbeing relies on remaining as present as possible. But what if the key to being present lies in the past? In *Wisdom of the Ancients*, Neil Oliver takes us back in time, to grab hold of the ideas buried in forgotten cultures and early civilizations. From Laetoli footprints in Tanzania to Keralan rituals, stone circles and cave paintings, Oliver takes us on a global journey through antiquity. A master storyteller, drawing on immense knowledge of our ancient past, he distils this wisdom into twelve messages that have endured the test of time, and invites us to consider how these might apply to our lives today. The result is powerful and inspirational, moving and profound.

Wisdom of the Ancients

"Everyone should have two copies - one for the car and one for the house to plan journeys. . . a reminder to think more about the places you pass and less about your route, because every British journey is through rich history." (Edward Stourton) From much-loved historian Neil Oliver, comes this beautifully written, kaleidoscopic history of a place with a story like no other. The British Isles, this archipelago of islands, is to Neil Oliver the best place in the world. From north to south, east to west it cradles astonishing beauty. The human story here is a million years old, and counting. But the tolerant, easygoing peace we enjoy has been hard won. We have made and known the best and worst of times. We have been hero and villain and all else in between, and we have learned some lessons. The Story of the British Isles in 100 Places is Neil's very personal account of what makes these islands so special, told through the places that have witnessed the unfolding of our history. Beginning with footprints made in the sand by humankind's earliest ancestors, he takes us via Romans and Vikings, the flowering of religion, through civil war, industrial revolution and two world wars. From windswept headlands to battlefields, ancient trees to magnificent cathedrals, each of his destinations is a place where, somehow, the spirit of the past seems to linger.

The Story of the British Isles in 100 Places

AN ACCLAIMED, EMMY-NOMINATED TV SERIES ON AMAZON PRIME VIDEO WINNER OF THE HUGO, LOCUS AND BRAM STOKER AWARDS 'To give him his full title: Neil Gaiman, Architect of Worlds, Svengali of Plot, Shaman of Character, Exploder of Cliché, Master Craftsman of Style, Dreamer Laureate of the Republic of Letters' DAVID MITCHELL 'Original, engrossing, and endlessly inventive' GEORGE R.R. MARTIN 'Brilliant and unique' GUARDIAN --- 'This is about the soul of America, the idea that everyone came here from somewhere' NEIL GAIMAN --- After three years in prison, Shadow Moon is free to go home. But hours before his release, his beloved wife is killed in a freak accident. Numbly, he boards a plane where he meets an enigmatic stranger who seems to know Shadow and claims to be an ancient god - and king of America. Together they embark on a profoundly strange road trip across the USA, encountering a kaleidoscopic cast of characters along the way. But all around them a storm of unnatural proportions is gathering. War is coming, an epic struggle for the very soul of America. And Shadow is standing squarely in its path. NEIL GAIMAN. WITH STORIES COME POSSIBILITIES.

American Gods

The Vikings famously took no prisoners, relished cruel retribution, and prided themselves on their blood-thirsty skills as warriors. But their prowess in battle is only a small part of their story, which stretches from their Scandinavian origins to America in the west and as far as Baghdad in the east. As the Vikings did not write their history, we have to discover it for ourselves, and that discovery, as Neil Oliver reveals, tells an extraordinary story of a people who, from the brink of destruction, reached a quarter of the way around the globe and built an empire that lasted nearly 200 years. Drawing on the latest discoveries that have only recently come to light, Neil Oliver goes on the trail of the real Vikings. Where did they emerge from? How did they really live? And just what drove them to embark on such extraordinary voyages of discovery over 1000 years ago? VIKINGS will explore many of these questions for the first time in an epic story of one of the world's great empires of conquest.

Vikings

In fifteenth-century Constantinople, Prince Constantine saves the life of a broken-hearted girl. But the price of his valour is high. John Grant is a young man on the edge of the world. His unique abilities carry him from his home in Scotland to the heart of the Byzantine Empire in search of a girl and the chance to fulfil a death-bed promise. Lena has remained hidden from the men who have been searching for her for many years. When she's hunted down, at last she knows what she must do. With an army amassing beyond the city's ancient walls, the fates of these three will intertwine. As the Siege of Constantinople reaches its climax, each must make a choice between head and heart, duty and destiny.

Master of Shadows

History has always mattered to Scots, and rarely more so than now at the outset of a new century, with a new census appearing in 2011 and after more than ten years of a new parliament. An almost limitless archive of our history lies hidden inside our bodies and we carry the ancient story of Scotland around with us. The mushrooming of genetic studies, of DNA analysis, is rewriting our history in spectacular

fashion. In *The Scots: A Genetic Journey*, Alistair Moffat explores the history that is printed on our genes, and in a remarkable new approach, uncovers the detail of where we are from, who we are and in so doing colour vividly a DNA map of Scotland.

The Scots

Chronicles the social, economic, and political history of Scotland, starting with its earliest peoples in 7000 B.C. and wrapping up with a discussion of eighteenth-century author Sir Walter Scott.

Scotland

In search of British Heroes is the story of a quest; a journey into history and across contemporary Britain to discover the truth about five legendary figures. Boudica, Macbeth, King Harold, William Wallace better known as Braveheart and Robin Hood come to us as a mixture of fact and fiction. They are larger-than-life. Their lives and sometimes tragic deaths symbolise something greater than themselves. From the Roman invasion to the Age of Chivalry, they mark milestones in British history and the British Character. Tony Robinson sets out on a journey across the country to retrace the stories of the real people behind these legends, to find out where they lived, loved and fought. In going behind the official story, he not only uncovers even more remarkable facts about some of the greatest Britons who ever lived, but also shows them to be truly local heroes: legends who lived on our doorsteps, who have left their mark not only in the annals but beneath our factories, fields and schools. These heroes belong to a shared heritage and this is a shared journey. Maps and directions enable readers to make the quest with Tony as he burns away the mist of time to reveal the flesh-and-blood characters behind the ghosts that still haunt every corner of our country and culture. *In Search of British Heroes* accompanies the television series *Fact or Fiction* produced by Spire Films for Channel 4.

In Search of British Heroes

On July 20, 1969, the world stood still to watch American astronaut Neil A. Armstrong become the first person ever to step on the surface of another heavenly body. Upon his return to Earth, Armstrong was celebrated for his monumental achievement. He was also--as NASA historian Hansen reveals in this authorized biography--misunderstood. Armstrong's accomplishments as an engineer, a test pilot, and an astronaut have long been a matter of record, but Hansen's access to private documents and unpublished sources and his interviews with more than 125 subjects (including more than fifty hours with Armstrong himself) yield the first in-depth analysis of this elusive, reluctant hero.

First Man

A unique and fascinating look at Victorian society through the remarkable lives of an enlightened and philanthropic aristocratic couple, the Marquess and Marchioness of Aberdeen, who tried to change the world for the better but paid a heavy price. This is a true tale of love and loss, fortune and misfortune. In the late 19th century, John and Ishbel Gordon, the Marquess and Marchioness of Aberdeen, were the couple who seemed to have it all: a fortune that ran into the tens of millions, a magnificent stately home in Scotland surrounded by one of Europe's largest estates, a townhouse in London's most fashionable square, cattle ranches in Texas and British Columbia, and the governorships of Ireland and Canada where they lived like royalty. Together they won praise for their work as social reformers and pioneers of women's rights, and enjoyed friendships with many of the most prominent figures of the age, from Britain's Prime Ministers to Oliver Wendell-Holmes and P.T. Barnum and Queen Victoria herself. Yet by the time they died in the 1930s, this gilded couple's luck had long since run out: they had faced family tragedies, scandal through their unwitting involvement in one of the "crimes of the century" and, most catastrophically of all, they had lost both their fortune and their lands. This fascinating family quest for the reason for their dramatic downfall is also a moving and colorful exploration of society in Victorian Britain and North America and an inspirational feast for history lovers.

Fortune's Many Houses

Who were the first Britons, and what sort of world did they occupy? In *A History of Ancient Britain*, much-loved historian Neil Oliver turns a spotlight on the very beginnings of the story of Britain; on the first people to occupy these islands and their battle for survival. There has been human habitation in Britain, regularly interrupted by Ice Ages, for the best part of a million years. The last retreat of the glaciers 12,000 years ago brought a new and warmer age and with it, one of the greatest tsunamis

recorded on Earth which struck the north-east of Britain, devastating the population and flooding the low-lying plains of what is now the North Sea. The resulting island became, in time, home to a diverse range of cultures and peoples who have left behind them some of the most extraordinary and enigmatic monuments in the world. Through what is revealed by the artefacts of the past, Neil Oliver weaves the epic story - half a million years of human history up to the departure of the Roman Empire in the Fifth Century AD. It was a period which accounts for more than ninety-nine per cent of humankind's presence on these islands. It is the real story of Britain and of her people.

A History of Ancient Britain

In this volume, Tony Pollard and Neil Oliver visit the sites of six major British battles, from Shrewsbury to Culloden, and carry out a full archaeological investigation at each. As they uncover artefacts abandoned in the heat and chaos of battle they closely follow the progress of each engagement and answer key historical questions, sometimes totally revising the accepted version of events. Each chapter is a fully framed investigation and follows an episode of the BBC television series. By using archaeology to unlock the secrets of the past, Tony and Neil prove that soldiers do not pass through fields of conflict like shadows, and in the process they show that battlefields are some of our most important national monuments.

Two Men in a Trench

You've heard the podcast. Now read along with Season One of the Recording Scripts behind the Peabody-Award winning family audio drama. "The Unexplainable Disappearance of Mars Patel" is the hit, sci-fi mystery adventure drama for middle grade kids and the entire family. Follow along as eleven-year-old Mars Patel and his pals JP, Toothpick, and Caddie set out on an audacious adventure in search of two missing friends. But the mysterious tech billionaire Oliver Pruitt might have a thing-or-two to say about their quest. "To the stars!" he likes to say, and in fact, that's just where they might be headed...

The Unexplainable Disappearance of Mars Patel

Described by Empire Magazine as 'Britain's best ever blues singer', John Martyn was one of rock music's last real mavericks. Despite chronic addiction to alcohol and drugs, he produced a string of matchless albums. Loved by fans and critics, loathed by ex-wives and managers, he survived the music business he despised for forty years. This book documents his upbringing in Glasgow and rise through the Scottish and London folk scenes of the 1960s, his many career highs and lows, and his friendships with the great lost souls of British rock music, Nick Drake and Paul Kossoff.

Some People are Crazy

There are 37,780 First World War memorials in Britain. This work looks at the untold stories that lie behind these lists of names and the impact the war had on Britain, laying the foundations for today's society.

Not Forgotten

The Picts were an ancient nation who ruled most of northern and eastern Scotland during the Dark Ages. Despite their historical importance, they remain shrouded in myth and misconception. Absorbed by the kingdom of the Scots in the ninth century, they lost their unique identity, their language and their vibrant artistic culture. Amongst their few surviving traces are standing stones decorated with incredible skill and covered with enigmatic symbols - vivid memorials of a powerful and gifted people who bequeathed no chronicles to tell their story, no sagas to describe the deed of their kings and heroes. In this book Tim Clarkson pieces together the evidence to tell the story of this mysterious people from their emergence in Roman times to their eventual disappearance.

The Picts

characters.”—Taylor Jenkins Reid, New York Times bestselling author of *The Seven Husbands of Evelyn Hugo*, *Daisy Jones & The Six*, and *Malibu Rising* **ONE OF THE BEST BOOKS OF THE YEAR:** Oprah Daily, NPR, BuzzFeed, Glamour, PopSugar, Book Riot, She Reads We can't choose what we inherit. But can we choose who we become? In present-day California, Eleanor Bennett's death leaves behind a puzzling inheritance for her two children, Byron and Benny: a black cake, made from a family recipe with a long history, and a voice recording. In her message, Eleanor shares a tumultuous story about a headstrong young swimmer who escapes her island home under suspicion of murder. The heartbreaking tale Eleanor unfolds, the secrets she still holds back, and the mystery of a long-lost child challenge everything the siblings thought they knew about their lineage and themselves. Can Byron and Benny reclaim their once-close relationship, piece together Eleanor's true history, and fulfill her final request to “share the black cake when the time is right”? Will their mother's revelations bring them back together or leave them feeling more lost than ever? Charmaine Wilkerson's debut novel is a story of how the inheritance of betrayals, secrets, memories, and even names can shape relationships and history. Deeply evocative and beautifully written, *Black Cake* is an extraordinary journey through the life of a family changed forever by the choices of its matriarch.

Black Cake (TV Tie-in Edition)

'A joy from start to finish' Sunday Telegraph Captain Robert Falcon Scott didn't start out life as a hero. In fact, as a boy and young man he was considered small, frail and shy. So what was it that turned this ordinary man into a legend? Through his gripping new account of how this modest naval officer became Scott of the Antarctic, Neil Oliver vividly relates the awe-inspiring tales that inspired Britain's greatest hero. And alongside these epics of courage, fortitude and sacrifice, Oliver tells the astonishing stories of those heroes who followed Scott and whose deeds stood comparison with this iconic explorer's own humbling example. From Rorke's Drift to the Battle of Britain and Nelson to Neil Armstrong, these are men who understood - as Scott always did - that it was more important to die a hero than live a coward's life. 'A great book . . . I shall treasure it' Sir Ranulph Fiennes 'An unashamed celebration of old-fashioned heroism' Scotsman 'A must-have collection' The Times 'Stirring stuff' Daily Telegraph

Amazing Tales for Making Men Out of Boys

Viewed from the air, the countryside becomes a pattern; the coast becomes an edge. Focusing on a specific coastal region of the British Isles, this work contains over 200 aerial photographs that portray the beauty and diversity of our coastline. It includes areas ranging from the Dingle to The Wash, and the seaside towns of England's south coast.

Coast

The first official account of the iconic record label.

Being Human

Scottish Island Bagging by Helen and Paul Webster, founders of Walkhighlands, is a guide to the magical islands of Scotland. Focusing on the ninety-nine islands that have regular trips or means of access for visitors, plus fifty-five other islands which have no regular transport but are still of significant size or interest, the authors have described the best ways to experience each one. Of the islands featured, many are household names – Skye, Lewis, Bute – while some, such as the isolated St Kilda archipelago and the remote Sula Sgeir, will be unknown to all but a hardcore few. When it comes to things to see and do, the islands of Scotland have it all. Wildlife enthusiasts can watch out for otters, orcas and basking sharks, while birdwatchers in particular are spoilt: look out for the rare corncrake on Islay, sea eagles on Mull, or sight puffins, gannets, storm petrels and many other seabirds on any number of islands – although beware the divebombing bonxies. Foodies can sample Arran or Westray cheese, the many islands' world-renowned seafood or learn about the whisky making process and sample a wee dram on a distillery tour. While the human history may not stretch back in time as far as the geology of these ancient lands, it is rich and varied: visit the 5,000-year-old Neolithic village of Skara Brae on Orkney, or Mackinnon's Cave on Mull, following in the footsteps of Samuel Johnson and James Boswell. You can even stay in the house on Jura where George Orwell wrote *Nineteen Eighty-Four*. Hillwalkers can bag a Munro, walk the wild clifftops or take in the sights, or you could just escape from it all on one of the dozens of beautiful and deserted beaches – before joining the locals for a ceilidh into the wee hours. Well served by ferries and other transport links, getting around is easy. You could even take the world's shortest scheduled flight. In *Scottish Island Bagging*, let Helen and Paul Webster be your guides to these enchanting isles.

Scottish Island Bagging

Ranging from Rumi, Kabir and Blake, to Rilke, Emily Dickinson and Paul Celan, this wide-ranging selection includes contemporary poets such as Jane Hirshfield, Denise Levertov, Thomas Merton and Mary Oliver, as well as by many lesser-known writers from all periods and places. The anthology opens with a series of poems on human life and spiritual sustenance, starting with Rumi: --This being human is a guest house. / Each morning a new arrival--The poems which follow explore many ways of keeping body and soul together, offering food for thought on knowing yourself, living with nature, who or what is God ... All are universal illuminations of the meaning of life, speaking to readers of all faiths as well as to searchers and non-believers.
