Consumer Action Handbook, 2010 Edition

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The Financial Crisis Inquiry Report, published by the U.S. Government and the Financial Crisis Inquiry Commission in early 2011, is the official government report on the United States financial collapse and the review of major financial institutions that bankrupted and failed, or would have without help from the government. The commission and the report were implemented after Congress passed an act in 2009 to review and prevent fraudulent activity. The report details, among other things, the periods before, during, and after the crisis, what led up to it, and analyses of subprime mortgage lending, credit expansion and banking policies, the collapse of companies like Fannie Mae and Freddie Mac, and the federal bailouts of Lehman and AIG. It also discusses the aftermath of the fallout and our current state. This report should be of interest to anyone concerned about the financial situation in the U.S. and around the world. THE FINANCIAL CRISIS INQUIRY COMMISSION is an independent, bi-partisan, government-appointed panel of 10 people that was created to "examine the causes, domestic and global, of the current financial and economic crisis in the United States." It was established as part of the Fraud Enforcement and Recovery Act of 2009. The commission consisted of private citizens with expertise in economics and finance, banking, housing, market regulation, and consumer protection. They examined and reported on "the collapse of major financial institutions that failed or would have failed if not for exceptional assistance from the government." News Dissector DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film In Debt We Trust warned of the economic meltdown in 2006. He has since written three books on the subject including Plunder: Investigating Our Economic Calamity (Cosimo Books, 2008), and The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail (Disinfo Books, 2011), a companion to his latest film Plunder The Crime Of Our Time. Kiplinger's Personal Finance

This is the first annual supplement to Antitrust Law Developments (Fifth), a guide that surveys and describes all significant developments in antitrust law.

Congressional Record

This fifth volume in the series comprises ten contributions written by an expert team of academics and practitioners. Collectively they analyse and expound many of the contemporary legal issues and debates in the law and practice of marine insurance. The new volume is not to be considered as a "new edition" superseding the earlier volumes. To the contrary, it extends on the previous coverage and contributes to the expanding coverage of the series. It achieves this by introducing new topics for analysis and by noting significant developments in themes considered in earlier volumes, thereby providing a useful tool for keeping abreast of an ever developing body of judicial law. This volume tackles topics such as the impact of the Insurance Act 2015 on remedies and the pre-contractual duty of insurers, as well as a contribution from Professor Wilhelmsen on the state ship arrest as a peril under the Nordic Marine Insurance Plan and London terms. It explores the impact of Brexit on jurisdiction in marine insurance whilst also dedicating time to the comparison of US and English law relating to the duties of brokers, and analyses the "but for" test in marine insurance as well as historical development of the law relating to fraudulent claims. Alongside many other important topics, this book meticulously examines Direct and Third-Party claims against P & I Insurers, Passenger liabilities and class actions, Seaworthiness and the operation of the MIA 1906 s.39 post Insurance Act 2015 and the insuring of autonomous and remote-controlled vessels. This book is essential reading for maritime lawyers, brokers and insurance market practitioners, academics, and companies associated with the marine insurance markets worldwide.

The Code of Federal Regulations of the United States of America

A comprehensive history of fraud in America, from the early nineteenth century to the subprime mortgage crisis In America, fraud has always been a key feature of business, and the national worship of entrepreneurial freedom complicates the task of distinguishing salesmanship from deceit. In this sweeping narrative, Edward Balleisen traces the history of fraud in America—and the evolving efforts to combat it—from the age of P. T. Barnum through the eras of Charles Ponzi and Bernie Madoff. This unprecedented account describes the slow, piecemeal construction of modern institutions to protect consumers and investors—from the Gilded Age through the New Deal and the Great Society. It concludes with the more recent era of deregulation, which has brought with it a spate of costly frauds, including corporate accounting scandals and the mortgage-marketing debacle. By tracing how Americans have struggled to foster a vibrant economy without encouraging a corrosive level of cheating, Fraud reminds us that American capitalism rests on an uneasy foundation of social trust.
