The Water Question and Answer Book

This is the complete biography of the third James Stewart, who was unfortunate from his birth. The slander that he was not really the son of James II. and Mary of Modena persisted long after its absolute falsity had been proved. William of Orange, whose hopes of succeeding quietly to the throne for which he had long intrigued were blasted by the event, and all the enemies of the rightful king did their utmost for years to keep it alive. Sent with his mother to France before his father was forced to abdicate, the young prince was in perpetual peril; the usurper who sanctioned the Massacre of Glencoe would not have hesitated to connive at his assassination. He was a delicate boy, and, indeed, all through his life he suffered from ill-health. There were times when he wearied of the task to which he was in honour bound; but his strong sense of duty held him. We search the chronicles in vain for any justification of the accusations brought against him by Thackeray. He was sincerely religious, scrupulously moral in an immoral age, intelligent, conscientious and faithful to every obligation. He had, of course, the defects of his virtues. He sometimes hesitated where a bold course was essential; he shrank from bringing misfortune to his adherents or shedding the blood of his adversaries; he had not the buoyant temperament and the personal magnetism with which Bonnie Prince Charlie set the heather on fire. Yet he was loved by those who knew him best; and for years Scotland watched in vain for "Jamie" to "come hame." Probably he might have regained his lost throne had he consented to forswear his faith. There is nothing to indicate that he contemplated any subversive designs upon the Anglican Church. But hatred of Romanism was deep rooted among the English people; and however much they might despise the first two Georges they would not consent to be ruled over by a "Papist." James III. had promised the fullest protection to the established faith, and he was one who kept his promises; he was no propagandist, like his father, but rather inclined to Quietism; and yet the dread of Papal aggression inherited from the days of Elizabeth stood in his path. This book is annotated with a rare extensive biographical sketch of the author, Andrew Lang, written by Sir Edmund Gosse, CB, a contemporary poet and writer.

Water King

“An engaging look at the violent struggle of the surprisingly diverse Jacobites... Swift and cinematic with neatly sketched character portraits.” —Financial Times This is the first modern history for general readers of the entire Jacobite movement in Scotland, England and Ireland, from the ‘Glorious Revolution’ of 1688 that drove James II into exile to the death of his grandson, Cardinal Henry, Duke of York, in 1807. The Battle of Culloden and Bonnie Prince Charlie’s flight through the heather are well known, but not the other risings and plots that involved half of Europe and even revolutionary America. Based on the latest research, *The King over the Water* weaves together all the strands of this gripping saga into a vivid, sweeping narrative, full of insight, analysis and anecdote. “Few causes have aroused a more gallant response from the peoples of these islands than the Honest Cause,” writes Desmond Seward, “whether they were fighting for it at Killiecrankie, Prestonpans or Culloden, at the Boyne, Aughrim or Fontenoy, or dying for it on the scaffold.” “Highly readable, with brilliantly rendered characters, and thrilling tales of deceit and espionage.” —Military History Monthly “A bracingly revisionist history.” —Telegraph “Seward’s detailed descriptions of the Princes, Princesses, Kings, and Queens create a sense of theatre and allow the reader to fully immerse themselves into the dramatic events of the period . . . an engaging and easy read.” —Scottish Field “A rollickingly, splendidly chronological history.” —Herald “Seward’s clear-sighted examination of the Jacobite movement shows how close it came to succeeding.” —Scotsman “This lively book is a welcome addition.” —BBC History

Plain Talk about Drinking Water

The groundbreaking new concept that reveals the true and hazardous extent of our everyday water consumption. How much water does it take to make a cup of coffee? The answer may shock you: 140 litres! That's the true amount of water used in growing, producing, packaging and shipping the beans you use to make your morning coffee. Your lunchtime hamburger takes 2,400 litres and that favourite pair of blue jeans a whopping 11,000 litres. In fact, all the goods we buy - from food to clothing to computers - have a water cost in the form of virtual water: the powerful new concept that reveals the hidden facts of our real water consumption. At a time when the world's resources are being used up at increasingly alarming rates what can we do to help tackle the threat to our planet's most precious resource? World water expert Tony Allan - creator of the virtual water concept - shows the way. In this stimulating and enjoyable book he exposes the real impact of our modern lifestyle and shows how we as individuals, and governments globally, can make a vital contribution to managing our water use in a more sustainable and planet-friendly way.

King's Treatise on the Science and Practice of the Manufacture and Distribution of Coal Gas

It is a tale of three men who survived the horror of Nazi Germany during the second world war. the men were able to stay alive during interment in a concentration camp. A struggle was carried out each and every day. Finally they were freed at the end of the war. They came to America and found freedom. Some lost their families and one lost his wife and child. Anger and hate was always in their minds, but they found their faith to be strong and eventually were able to give of themselves to others. It is a remarkable journey. God always finds those in need and hears your prayers. When one finds love in your heart, you can touch the souls of other hearts. Their reward was to be found in the afterlife. There they will continue their struggle to witness and remember those that died during the Holocaust. Their new affirmation was to help people remember and to do good deeds by directly loving others.
