An index bursting with 80,000 entries makes the Concise World Atlas an essential desktop reference for homes, schools, and businesses.

The British National Bibliography

This guide includes travel facts for Austria, the Czech Republic, Germany, Hungary, Poland, Slovakia and Switzerland.

Reference World Atlas

In an effort to make knowledge available about how treatment systems for drug users are organised in different countries, and to facilitate bi- and multilateral co-operation and research, this publication presents an overview of the treatment systems of 22 of the 35 Pompidou Group member countries. In most of Europe, The focus of drug treatment in the 1980s and 1990s was on heroin And The introduction of substitution treatment. However, a shift to cater for polydrug use is now taking place across Europe. The diversity of treatment systems reflects the complexity of the local legal, political, economic and cultural context of drug problems. This source of good practices for making treatment accessible and available will be useful not only for policy makers and practitioners, but also for user groups, researchers And The wider public as well

Concise World Atlas

While there may be consensus on the broader issues of the core objectives of the health care system, expectations differ between EU countries, and European national policy-makers. This book seeks firstly to assess the impact of the enlargement process and then to analyse the challenges that lie ahead in the field of health and health policy.

Central Europe

THE UK'S BEST-SELLING ROAD ATLAS for anyone driving large vehicles - every bridge height, width and weight limit you could need. 'A map that beats all others' The Daily Telegraph 'Scale, accuracy and clarity are without parallel' Driving Magazine 'No.1 in the UK for clear maps' Independent research survey - Exceptional scale: 1.5 miles to 1 inch = 1:100,000 (Northern Scotland: 3 miles to 1 inch = 1:200,000) - The Road Atlas for the professionals - Over 6,000 bridge heights, nearly 1,500 weight-restricted bridges and over 250 width-restricted bridges - The only road atlas of Britain offers this level of detail and clarity - Super-detailed 6-page route-planning section - Every street in Britain marked on the maps - Over 3000 roads named - 100 indexed town-centre maps plus approaches maps to 12 major urban areas - Exceptional road detail, from motorways to country lanes, with every junction, roundabout and slip-road shown - Thousands of individually named farms, houses and hamlets Philip's Navigator atlases are widely used by professional drivers and the emergency services, including national police training, and is recommended in the motoring press and national newspapers.

Treatment Systems Overview

This publication contains thirty-five papers written by European historians in relation to five key periods in European history: the year of revolutions 1848, the Balkan wars of 1912-13, the search for peace in 1919, the end of the Second World War and the beginning of the Cold War in 1945, and the events of 1989-90 in central and eastern Europe. The papers are drawn from five conferences organised by the Council of Europe based on the principles of Recommendation Rec (2001) 15 on European history teaching. They consider events based on the concept of 'multiperspectivity' which seeks to facilitate an open approach to historical debate based on critical analysis of different perspectives of historical developments, often involving controversial and sensitive issues. This publication is complemented by two related titles: a teaching manual and a DVD of original documents.

Index to International Statistics

This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

Health Policy and European Union Enlargement

In 1987, the Santiago de Compostela Declaration laid the foundations for the first Council of Europe Cultural Route, highlighting the importance of our rich, colourful and diverse European identities. Today, the Council of Europe Enlarged Partial Agreement (EPA) on Cultural Routes oversees 29 routes connecting culture and heritage across Europe. Cultural Routes are powerful tools for promoting and preserving these shared and diverse cultural identities. They are a model for grass-roots cultural co-operation, providing important lessons about identity and citizenship through a participative experience of culture. From the European Route of Megalithic Culture with its monuments built as long as 6 000 years ago, to the ATRIUM route of Architecture of Totalitarian Regimes, the routes contain elements of our past which help us to understand the present and to approach the future with confidence. The Cultural Routes also stimulate thematic cultural tourism in lesserknown parts of the continent, helping to develop economic and social stability in Europe. This first ever step-by-step guide to the design and

management of Council of Europe Cultural Routes will be an essential reference for route managers, project developers, students and researchers in cultural tourism and related subjects. It addresses aspects ranging from the Council of Europe's conventions to co-creation, fund-raising and governance, and it explores a Cultural Route model that has evolved into an exemplary system for sustainable, transnational co-operation and that has proved to be a successful road map for socio-economic development, cultural heritage promotion and intergenerational communication. The Council of Europe EPA on Cultural Routes is the result of our successful co-operation with the Luxembourg Ministry of Culture and the European Union. Increasingly, other organisations, such as the United Nations World Tourism Organization, are joining this project. This handbook was funded by the third European Commission/Council of Europe Joint Programme on Cultural Routes.

The Conservation and Management of the European Badger (*Meles Meles*)

Wes Anderson's beloved films announce themselves through a singular aesthetic - one that seems too vivid, unique, and meticulously constructed to possibly be real. Not so - in *Accidentally Wes Anderson*, Wally Koval collects the world's most Anderson-like sites in all their faded grandeur and pop-pastel colours, telling the story behind each stranger-than-fiction-location. Based on the viral online phenomenon and community of the same name, *Accidentally Wes Anderson* celebrates the unique aesthetic that millions of Anderson fans love - capturing the symmetrical, the atypical, the unexpected, the vibrantly patterned, and distinctively coloured in arresting photographs from around the world. Authorised by Wes Anderson himself, and appealing to the millions who love his films, this book is also for fans of *Cabin Porn* and *Van Life* - and avid travellers and aspiring adventurers of all kinds.

Philip's Navigator Trucker's Britain

Across the West, anti-immigration populists are tearing a path through the usual politics of left and right. Immigration is remaking Europe and North America: over half of American babies are non-white, and by the end of the century, minorities and those of mixed race are projected to form the majority in many countries. Drawing on an extraordinary range of surveys, *Whiteshift* explores the majority response to ethnic change in Western Europe, North America and Australasia. Eric Kaufmann, a leading expert on immigration, calls for us to move beyond empty talk about national identity and open up debate about the future of white majorities. He argues that we must ditch the 'diversity myth' that whites will dwindle, replacing it with *whiteshift* - a new story of majority transformation that can help lift anxieties and heal today's widening political divisions. A bold, original work, *Whiteshift* will redefine the way we think about ethnic diversity and populism.

Crossroads of European Histories

"Central Europe" is a vague and ambiguous term, more to do with outlook and a state of mind than with a firmly defined geographical region. In the immediate aftermath of the collapse of the Iron Curtain, Central Europeans considered themselves to be culturally part of the West, which had been politically handicapped by the Eastern Soviet bloc. More recently, and with European Union membership, Central Europeans are increasingly thinking of themselves as politically part of the West, but culturally part of the East. This book, with contributions from a large number of scholars from the region, explores the concept of "Central Europe" and a number of other political concepts from an openly Central European perspective. It considers a wide range of issues including politics, nationalism, democracy, and the impact of culture, art and history. Overall, the book casts a great deal of light on the complex nature of "Central Europe".

Overtourism

The Report is an annual report, which is presented for the first time this year. It currently comprises 25 national reports regarding each state and the tendencies of Islamophobia in each respective country.

Cultural Routes management: from theory to practice

On 30 September 1938 Neville Chamberlain flew back to London from his meeting at Munich with the German Chancellor, Adolf Hitler. As he paused on the aircraft steps, he held aloft the piece of paper which bore both his and the Führer's signature, the promise that Britain and Germany would never go to war with one another again. He had returned bringing 'Peace with honour - Peace for our Time.' Drawing on a wealth of original archival material, David Faber sheds new light on this extraordinary

story, tracing the key incidents leading up to the meeting at Munich and its immediate aftermath: Lord Halifax's ill-fated visit to Hitler; Chamberlain's secret negotiations with Mussolini, and the Berlin scandal that rocked Hitler's régime. He takes us to Vienna, to the Sudetenland, and to Prague. In Berlin, we witness Hitler inexorably preparing for war; and in London, we watch helplessly as Chamberlain makes one supreme effort after another to appease Hitler.

Euromosaic

This book analyses how the current regulatory processes and practices related to key aspects of the management of the health professions may facilitate or inhibit the development of effective responses to challenges facing health care systems in Europe. The authors document how health care systems in Europe are confronting existing challenges in relation to the health workforce and identify the strategies that are likely to be most effective in optimizing the management of health professionals in the future.

Philip's Germany and Netherlands Road Map

With updated, super-clear, super-detailed mapping, and in a great lie-flat format, the Philip's Navigator Britain Easy-Use Format ensures the Navigator remains unrivalled amongst British road atlases. 'The reigning champion of Road Atlases' The Sunday Times' Scale, accuracy and clarity are without parallel' Driving Magazine' No.1 in the UK for clear maps' Independent research survey- Easy-to-Use Spiral Edition of the UK's Best-selling Road Atlases - Philip's Navigator- Every street in Britain is marked on the maps and over 3000 roads named- Exceptional road detail, from motorways to country lanes, with every junction, roundabout and slip-road shown- Widely used by professional drivers and the emergency services, including national police training- 100 indexed town-centre maps plus approaches maps to major urban areas- Super-detailed 6-page route-planning section- Thousands of individually named farms, houses and hamlets- No other road atlas of Britain offers this level of detail and clarity- Scale: 1.8 miles to 1 inch = 1:113,000 (Northern Scotland: 3.6 miles to 1 inch = 1:226,000) Used by the emergency services and professional drivers, the Navigator range is market-leading best-in-class.

Accidentally Wes Anderson

This comprehensive atlas details all of Britain's major roads as well as wide minor roads and hospitals. In addition there are 76 city, town, and port plans, a full color county, unitary, and administrative area map, and a comprehensive index detailing airports, top tourist sites, motorway services, and more than 30,000 other locations. The OS National Grid is shown on the map, and 6 pages of "jam-busting" guides are included. More than 100 fixed camera sites are mapped, average speed cameras have been highlighted, and 40 of Britain's World Heritage Sites are identified.

Whiteshift

This year, the Vienna Initiative marks its 10th anniversary. For this special occasion, the Steering Committee has prepared a commemorative book, with essays and contributions from the key actors and institutions instrumental to the work of the Vienna Initiative since its inception. This volume provides a unique window on the Vienna Initiative's innovative crisis mitigation activities, its subsequent evolution and its current scope. At the time of the Lehman crisis, international institutions, national authorities and international commercial banks collaborated closely, taking full responsibility for their strategies in the CESEE region and voluntarily providing firm commitments on their activities. In the form of the Vienna Initiative, they built a functioning coordination platform, capable of transforming and evolving according to changing needs. Ten years later, this coordination platform remains an important of effective inter-institutional and private-private sector cooperation. The establishment of the Vienna Initiative was far from easy. However, given the size of euro area banks' cross-border operations in CESEE, a disorderly deleveraging would have been very costly for both CESEE countries and the foreign banks. With this in mind, the main stakeholders eventually got together to participate in the Vienna Initiative and achieve its main objective. The foreign banking groups committed to maintain their presence in the region, while the EIB, EBRD and the World Bank Group provided substantial financing to banks and the real economy. These efforts had a major positive impact on the region. They helped curb liquidity disruptions and restore confidence in the banking system, while alleviating balance of payments pressures. This coordinated response from commercial banks and IFIs was a prerequisite for the success of the IMF-funded macroeconomic adjustment programs in several CESEE countries. Over time, the Vienna Initiative has transformed itself from a crisis mitigation instrument to a broader coordination platform, dealing with the unique challenges of widespread cross-border banking with

regulatory and supervisory interdependence, while supporting the emergence of an efficient, deep and sound banking and financial sector that supports growth in the region. In particular, with CESEE countries on a solid recovery path, the focus has shifted to tackling the legacy problem of high NPLs, or to dealing with the impact of the EU's upgraded institutional framework – particularly the creation of the Banking Union – on the host countries, most of which do not participate in the Banking Union. With the region needing to transform, up-scale its innovation capabilities and adjust to technological change, a dedicated working group has been set up to propose measures that could improve access to finance for innovative firms which typically lack tangible assets and thus may have hard time obtaining standard bank loans in a system that still offers limited alternatives. The Vienna Initiative has been a major achievement of international coordination and an important instrument for the future of the CESEE region.

Media Ownership and Its Impact on Media Independence and Pluralism

The Fifth Enlargement that took place in 2004 and 2007 was a milestone in the history of the European Union. Not only because of the large number of acceding countries but also because of their recent political and economic experience. Ten of them had undergone a profound transition from a totalitarian regime to democracy, and from a centrally planned economy to a market-based system. Most of them had income levels significantly below those of the then EU-15. Now, 6 years later, we can clearly see that the process of European integration, both before and after 2004, was what enabled Europe to overcome the gaps between various parts of the continent. The enlargement made Europe a better and wealthier place and strengthened its position in the world. Integration into the European Union has always been one of the strongest incentives for reform in the new Member States. Particularly important in my view have been the development of financial markets through foreign direct investment and capital inflows, and the opening of labour markets – which was a two-way phenomenon, with markets being opened up in acceding as well as the incumbent Member States. The Fifth Enlargement was thus an exercise of globalisation in miniature, a practice run for the Union to tackle the challenges of the ever smaller world.

Understanding Central Europe

This A-Z map of Great Britain and Northern Ireland is a full colour, large scale, spiral bound road atlas approximately A3 in size. -Fully updated for 2020-176 pages of clear detailed road mapping at a mainland map scale of 2.5 miles to 1 inch-11 pages of main route mapping covering Greater London, Birmingham and Manchester-Route planning maps-Mileage chart with average journey times-Information on motorway junctions with limited interchanges-70 city and town centre street plans-16 port and airport plans-Channel Tunnel terminus maps-Index to cities, towns, villages, hamlets and major destinations-Index to selected places of interest with postcodes for satnav use-Map reference information also in French and German Instantly recognizable and easy to use, A-Z road mapping includes the following features: -Clear standard road classification colours for easy identification-Full motorway junction detail-Under construction and proposed roads-Primary route destinations-Service area-Selected safety camera locations with maximum speed limits*-Selected fuel stations*-Selected truckstop locations-National and county boundaries-A wide range of tourist and ancillary information, including Blue Flag Beaches A combination of a great map scale, large book size and a spiral binding makes this a popular choice for those wanting superb map clarity in an easy to keep open publication.*Safety camera & fuel station locations supplied by www.PocketGPSWorld.com Copyright 2019 (c) PocketGPSWorld.com.

European Islamophobia Report 2015

One of the most important challenges concerning the future of the European Union is the demographic reproduction of the European population. Decreasing birth-rates and the retirement of the baby boomers will dramatically reduce the labour force in the EU, which will entail not only a lack of manpower but also lower contributions to European social systems. It seems clear that the EU will have to counterbalance this population decrease by immigration in the coming years. Migration Between the Middle East, North Africa and Europe takes this challenge as a point of departure for analysing the MENA region, in particular Morocco, Egypt and Turkey, as a possible source of future migration to the European Union. At the same time, it illustrates the uncertainties implied in such calculations, especially at a time of radical political changes, such as those brought about by the Arab Uprising.

Munich

Statistical information is an important tool for analysing changing patterns of urban development and the impact that policy decisions have on life in our cities, towns and suburbs. Urban Europe - statistics on cities, towns and suburbs provides detailed information for a number of territorial typologies that can be used to paint a picture of urban developments and urban life in the EU Member States, as well as EFTA and candidate countries. Each chapter presents statistical information in the form of maps, tables and figures, accompanied by a description of the policy context and a set of main findings. The publication is broken down into two parts : the first treats topics under the heading of city and urban developments, while the second focuses on the people in cities and the lives they lead. Overall there are 12 main chapters, covering : the urban paradox, patterns of urban and city developments, the dominance of capital cities, smart cities, green cities, tourism and culture in cities, living in cities, working in cities, housing in cities, foreign-born persons in cities, poverty and social exclusion in cities, as well as satisfaction and the quality of life in cities.

Human Resources For Health In Europe

Introduction: East-central European media as digital peripheries -- Post-socialist producer: the production culture of a small and peripheral media industry -- Managing the 'Ida effect': an art-house producer breaking out of the periphery -- The service producer and the globalization of media production -- Breaking through the East European ceiling: minority co-production and the new symbolic economy of small-market cinemas -- Public service television as a producer -- HBO Europe's original programming in the era of streaming wars -- Digital producers: short-form web television positions itself between clickbait and public service -- Conclusion: 'Hi circumscription' in the era of global streamers, and more questions to be asked.
