Q. Tell me about yourself and why you'll make a good Finance Manager?

To work as a Finance Manager, not only do you need to be passionate about working with accounts, but you also need great attention to detail skills, a methodical and thorough approach to all tasks and an ability to ensure the team you are managing, do everything to a high standard.

Q. What has attracted you to our company?

The main thing that attracted me to your company when I saw the position advertised, was the high standing you hold within your industry. It is clear you are an organization who sets high standards, something which is vital to the incoming Finance Manager.

Q. What will you bring to the role of Finance Manager?

Secondly, I will bring an ability to manage, lead and inspire everyone within the finance team to carry out their duties in the best interests of your company with the main focus on helping you to grow and thrive within your industry. Thirdly, I will bring great attention to detail and an insistence that everything financial must be completed to a very high standard

Q. What is your understanding of the Finance Manager role and are you ready for the challenge?

Q. When making a decision that has a wide impact across different parts of our organization, what

factors would you consider?

There would be times where the decisions I would make as a Finance Manager would just need to be implemented, especially in respect of financial conduct or regulation. However, prior to making important organizational-wide decisions, I would conduct a consultation process, especially with senior managers to decide how the decision or change would impact on them and their plans. My priority would always be the financial health of the organization, and I would need to discuss important decisions with key individuals first before implementing them
