The Guyde

The Guyde is the most comprehensive men's dating and self-improvement book ever written, designed to be everything you need to transform into the most confident version of yourself. There are no lines or routines; instead you'll find exercises and information to improve your self-esteem, social skills, and other elements integral to social success. Everything in these pages is backed with scientific evidence, and when I say scientific evidence, I mean cited peer-reviewed literature, not pop evolutionary psychology or the "law of attraction." You won't be reading anecdotes telling you about my "successes" or opinions; you'll be learning the practical steps necessary for the specific changes you want to manifest in your life. The Guyde is divided into four sections: Part I - Psychology Part I focuses on the internal elements of social interaction. How do you overcome your toxic self-limiting beliefs that keep

you from being authentic with people? How do you overcome your fears? How can you stay motivated to make your changes? You will learn clinically effective approaches to all of these and more. Part II - Social Skills For many men, the biggest barrier between themselves and social success is a lack of social skills and awareness. In Part II, you'll learn how to shore up this weakness. You will learn how to listen, banter, share stories, and assert yourself with others. You'll learn how to improve your body language and vocal tonality to project confidence and charisma. Part III - Physical Attractiveness Part III will teach you how to improve your physical features. The first two chapters detail the most clinically effective approaches to diet and exercise. We'll also discuss the basics of fashion and how to dress to impress. Master Part III, and when you go out, you will turn heads. Part IV - Dating The final portion of The Guyde deals with dating, in this version, in a heterosexual male context. You'll learn the best places to meet potential dates, how to flirt, and how to ask someone out. You'll learn how to plan brag-worthy romantic evenings and how to address problems like rude cancellations and "ghosting." You'll learn how to interact physically while being sensitive to your date's wishes, as well as how to perform better in bed. You'll learn why relationships fail and how to avoid the pitfalls most couples fall into, and you'll come to understand a bit about what it's like to date from a woman's perspective, including many of the cultural factors they face that most men don't understand. The Guyde is a labor of love. I wrote it to be everything I wish I'd known when I was younger, the sorts of things that turned my life around for the better. I hope it does the same for you.

The Charisma Myth

What if charisma could be taught? The charisma myth is the idea that charisma is a fundamental, inborn quality—you either have it (Bill Clinton, Steve Jobs, Oprah) or you don't. But that's simply not true, as Olivia Fox Cabane reveals. Charismatic behaviors can be learned and perfected by anyone. Drawing on techniques she originally developed for Harvard and MIT, Cabane breaks charisma down into its components. Becoming more charismatic doesn't mean transforming your fundamental personality. It's about adopting a series of specific practices that fit in with the personality you already have. The Charisma Myth shows you how to become more influential, more persuasive, and more inspiring.

How to Be Alone

The former Sex & Relationships Editor for *Cosmopolitan* and host of the wildly popular comedy show *Tinder Live* with Lane Moore presents her poignant, funny, and deeply moving first book. Lane Moore is a rare performer who is as impressive onstage—whether hosting her iconic show *Tinder Live* or being the enigmatic front woman of *It Was Romance*—as she is on the page, as both a former writer for *The Onion* and an award-winning sex and relationships editor for *Cosmopolitan*. But her story has had its obstacles, including being her own parent, living in her car as a teenager, and moving to New York City to pursue her dreams. Through it all, she looked to movies, TV, and music as the family and support systems she never had. From spending the holidays alone to having better “stranger luck” than with those closest to her to feeling like the last hopeless romantic on earth, Lane reveals her powerful and entertaining journey in all its candor, anxiety, and ultimate acceptance—with humor always her bolstering force and greatest gift. *How to Be Alone* is a must-read for anyone whose childhood still feels unresolved, who spends more time pretending to have friends online than feeling close to anyone in real life, who tries to have genuine, deep conversations in a roomful of people who would rather you not. Above all, it's a book for anyone who desperately wants to feel less alone and a little more connected through reading her words.

Nordau to NASDAQ

So how much are we worth, in your opinion? I asked. Just in case someone, maybe you, wants to buy us tomorrow morning, how much are we worth? Rick Gardner, obviously delighting in the wine's clarity as he held it up against the light, replied, In my estimation, New Dimension is worth six hundred, maybe six hundred and twenty million dollars. Then he laughed, and emptied his glass. This exchange,

which took place in a meeting in Germany, marks a turning point in the history of The New Dimension Software, one of the most successful software companies in Israel in 1999 which was subsequently sold to Texas-based BMC Software for 675 million dollars. Nordau to NASDAQ is the moving story of Roni Einav, a pioneer entrepreneur in Israeli high-tech, whose journey to success began in the modest environments of an apartment on Tel-Aviv's Nordau Boulevard. Encouraged to believe that free enterprise, determination and perseverance are the keys to real achievement, he started to make his way. The book exposes the power struggles, moves and bold decisions that led to the extraordinary success of The New Dimension from its earliest beginnings. Mr. Einav describes his considerable experience and raises the curtain on trade secrets: How do you recognize a good idea? How do you cope with bureaucracy or inner dissent? How do you identify or create a significant share for your software products in the global market? Where can you find financing and what can you do if you are not successful in your search? The book offers an insight into how to balance family and professional life, and still achieve significant success. Mr. Einav, whose personal journey coincides with that of the State of Israel, has served his country in a weapons development unit, and participated in major new urban planning and construction in Iran of the Shah. Nordau to NASDAQ highlights the amazing talents, vision, leadership and dedication of one man, who played an integral role in the development of the Israeli high-tech industry, helping transform this small nation into a land of start-ups, with the largest number of companies traded on Wall Street after the U.S. and Canada.

Modern Romance

The #1 New York Times Bestseller “An engaging look at the often head-scratching, frequently infuriating mating behaviors that shape our love lives.” —Refinery 29 A hilarious, thoughtful, and in-depth exploration of the pleasures and perils of modern romance from Aziz Ansari, the star of *Master of None* and one of this generation's sharpest comedic voices At some point, every one of us embarks on a journey to find love. We meet people, date, get into and out of relationships, all with the hope of finding someone with whom we share a deep connection. This seems standard now, but it's wildly different from what people did even just decades ago. Single people today have more romantic options than at any point in human history. With technology, our abilities to connect with and sort through these options are staggering. So why are so many people frustrated? Some of our problems are unique to our time. “Why did this guy just text me an emoji of a pizza?” “Should I go out with this girl even though she listed Combos as one of her favorite snack foods? Combos?!” “My girlfriend just got a message from some dude named Nathan. Who's Nathan? Did he just send her a photo of his penis? Should I check just to be sure?” But the transformation of our romantic lives can't be explained by technology alone. In a short period of time, the whole culture of finding love has changed dramatically. A few decades ago, people would find a decent person who lived in their neighborhood. Their families would meet and, after deciding neither party seemed like a murderer, they would get married and soon have a kid, all by the time they were twenty-four. Today, people marry later than ever and spend years of their lives on a quest to find the perfect person, a soul mate. For years, Aziz Ansari has been aiming his comic insight at modern romance, but for *Modern Romance*, the book, he decided he needed to take things to another level. He teamed up with NYU sociologist Eric Klinenberg and designed a massive research project, including hundreds of interviews and focus groups conducted everywhere from Tokyo to Buenos Aires to Wichita. They analyzed behavioral data and surveys and created their own online research forum on Reddit, which drew thousands of messages. They enlisted the world's leading social scientists, including Andrew Cherlin, Eli Finkel, Helen Fisher, Sheena Iyengar, Barry Schwartz, Sherry Turkle, and Robb Willer. The result is unlike any social science or humor book we've seen before. In *Modern Romance*, Ansari combines his irreverent humor with cutting-edge social science to give us an unforgettable tour of our new romantic world.

Love in the Time of Algorithms

“If online dating can blunt the emotional pain of separation, if adults can afford to be increasingly demanding about what they want from a relationship, the effect of online dating seems positive. But what if it's also the case that the prospect of finding an ever more compatible mate with the click of a mouse means a future of relationship instability, a paradox of choice that keeps us chasing the illusive bunny around the dating track?” It's the mother of all search problems: how to find a spouse, a mate, a date. The escalating marriage age and declining marriage rate mean we're spending a greater portion of our lives unattached, searching for love well into our thirties and forties. It's no wonder that a third of America's 90 million singles are turning to dating Web sites. Once considered the realm of the lonely and desperate, sites like eHarmony, Match, OkCupid, and Plenty of Fish have been embraced by pretty much every demographic. Thanks to the increasingly efficient algorithms that power these sites, dating has been transformed from a daunting transaction based on scarcity to one in which the possibilities are almost endless. Now anyone—young, old, straight, gay, and even married—can search for exactly what they want, connect with more people, and get more information about those people than ever before. As journalist Dan Slater shows, online dating is changing society in more profound ways than

we imagine. He explores how these new technologies, by altering our perception of what's possible, are reconditioning our feelings about commitment and challenging the traditional paradigm of adult life. Like the sexual revolution of the 1960s and '70s, the digital revolution is forcing us to ask new questions about what constitutes "normal": Why should we settle for someone who falls short of our expectations if there are thousands of other options just a click away? Can commitment thrive in a world of unlimited choice? Can chemistry really be quantified by math geeks? As one of Slater's subjects wonders, "What's the etiquette here?" Blending history, psychology, and interviews with site creators and users, Slater takes readers behind the scenes of a fascinating business. Dating sites capitalize on our quest for love, but how do their creators' ideas about profits, morality, and the nature of desire shape the virtual worlds they've created for us? Should we trust an industry whose revenue model benefits from our avoiding monogamy? Documenting the untold story of the online-dating industry's rise from ignominy to ubiquity—beginning with its early days as "computer dating" at Harvard in 1965—Slater offers a lively, entertaining, and thought provoking account of how we have, for better and worse, embraced technology in the most intimate aspect of our lives

The Mystery Method

"One of the most admired men in the world of seduction" (The New York Times) teaches average guys how to approach, attract and begin intimate relationships with beautiful women For every man who always wondered why some guys have all the luck, Mystery, considered by many to be the world's greatest pickup artist, finally reveals his secrets for finding and forming relationships with some of the world's most beautiful women. Mystery gained mainstream attention for his role in Neil Strauss's New York Times bestselling exposé, The Game. Now he has written the definitive handbook on the art of the pickup. He developed his unique method over years of observing social dynamics and interacting with women in clubs to learn how to overcome the guard shield that many women use to deflect come-ons from "average frustrated chumps." The Mystery Method: How to Get Beautiful Women Into Bed shares tips such as: *Give more attention to her less attractive friend at first, so your target will get jealous and try to win your attention. *Always approach a target within 3 seconds of noticing her. If a woman senses your hesitation, her perception of your value will be lower. *Don't be picky. Approach as many groups of people in a bar as you can and entertain them with fun conversation. As you move about the room, positive perception of you will grow. Now it's easy to meet anyone you want. *Smile. Guys who don't get laid, don't smile.

Travels With My Aunt

'The only book I have ever written just for the fun of it' Graham Greene proves a wonderful storyteller in this hilarious tale of the eccentricity of families and the pomposity of the middle class. Henry Pulling, a retired bank manager, meets his septuagenarian Aunt Augusta for the first time in over fifty years at what he supposes to be his mother's funeral. Soon after, she persuades Henry to abandon Southwood, his dahlias and the Major next door to travel her way, Brighton, Paris, Istanbul, Paraguay. Through Aunt Augusta, a veteran of Europe's hotel bedrooms, Henry joins a shiftless, twilight society: mixing with hippies, war criminals, CIA men; smoking pot, breaking all the currency regulations and eventually coming alive after a dull suburban life. In Travels With My Aunt Graham Greene not only gives us intoxicating entertainment but also confronts us with some of the most perplexing of human dilemmas.

Confessions of a Tinderella

The laugh-out-loud true story of one girl's experience of life on Tinder. Rosy Edwards is the epitome of a contradictory twenty-something year old. She's frugal when it comes to food shopping, but is willing to splash out on shampoo. She's career minded, she just doesn't know which career to have in mind right now. And although she's happy being single, a part of her kind of wants a boyfriend. So after a few unsuccessful dates with friends of friends (read: being forced to date their shortest/dullest/oddest

acquaintance), she put herself on Tinder, the app that has transformed the world of online dating. And she soon learns the unspoken rules the hard way: always reject a guy with black and white profile pics (he is ginger and/or ugly); is wearing a hat (bald); has a shot of his torso (moron) or is not standing beside anything scaleable (5'8 and under). And then there are the dates themselves. From a sky-high dinner date to a borderline drug bust in Chelsea, Rosy has experienced it all, swinging through her love life on the trapeze of Tinder. She falls for the wrong guys, ditches the nice ones, but can she finally find her happy ending. Brilliantly honest and hilariously funny, Rosy's story shows us all that the key to a successful love life could just be a swipe away.

The chestnut nightmare that was then hers was the most imperfect horse a beginner could ask for in life, but the mare was hers. Together they learned from very difficult lessons in respect, riding, showing, and life. Amanda credits the mare, named Molly, with getting her through some very difficult teenage years. Molly stayed with her until she died at the age of 26. Throughout the years, Amanda had several other horses, rode for others, and even worked as a groom. The numerous people she had the blessed opportunity to get to know have offered words of caution and wisdom over the years. Most of these words were from highly experienced horse men and women and have been shared in the pages of this book. Hopefully you will gain and knowledge and inspiration from what is shared. How intelligent are horses? Why do they toss their heads, and what makes them paw the ground? Why do they swish their tails, and what makes them flare their nostrils? In Illustrated Horsecatching Desmond Morris gets out to answer these and numerous other questions of consuming interest to horse-lovers. As a zoologist and a lifelong student of animal behaviour, Desmond Morris approaches the horse world in an unusual way, dealing with topics often ignored in the equine literature. In addition to examining the details of horse behaviour he answers a wealth of fascinating cultural and sociological questions, such as why horseshoes bring good luck, why we (at least in this country) don't eat horses, why jockeys are allowed to whip their mounts, and why we call a bad dream a nightmare.
