Forbidden Fruit, Views on Indo-Anglian Fiction

Study on the works of R.K. Narayan, b. 1906, Mulk Raj Anand, b. 1905, and Kota Shivarama Karanth, b. 1902, Indic authors writing in English.

The Indian Novel in English

"Range of readings by Indian and international critics over a period of six decades, or from the beginnings of a critical discourse in the 1930s until the present time. The four chapters of the book offer a critical investigation into the reception of the novel genre as such and of the works of its three 'founding fathers', viz., Mulk Raj Anand, R.K. Narayan and Raja Rao. The latter chapters are supplemented by a list of the respective author's novels, the most comprehensive critical bibliography to date and a list of critics that includes their publications dates. Following the development of both the emergence of the modern Indian novel in English since the mid-1930s and its critical evaluation, Riemenschneider illustrates the, at times controversial reaction to a 'new' literary genre, as well as the national and international shifts of the critical literary discourse from the earlier close-reading approach of New Criticism to the more recent employment of postmodern and postcolonial theorems. The Indian Novel in English thus offers the reader insight into the development of a particular regional critical scene, as well as into the general critical concern with what is now referred to as postcolonial literature. No serious student of the Indian novel in English should miss this comprehensive, informative and balanced critical study."

Indian English Literature, 1980-2000

Critical account of the genre of the short story in Indian English literature in a historical perspective.

Contemporary Indian English Short Story

George Orwell and the Radical Eccentrics celebrates the lives, literature, and politics of a group of four 'radical eccentrics' - the Tory anarchist poet Stevie Smith, the Marxist Indian nationalist Mulk Raj Anand, and the glamour-girl-turned-socialist Inez Holden - who formed a friendly circle around the famously radical and eccentric George Orwell. Demonstrating that Smith, Anand, and Holden matter for literary history just as they mattered for Orwell, George Orwell and the Radical Eccentrics gives name and shape to a neglected movement within interwar and wartime English writing. It focuses on the lives and texts of Smith, Anand, and Holden in order to argue that these three writers throw into question limiting assumptions about art and politics-about standard relations between literary form and sex, gender, race, class, and empire-in ways that their group's most influential radical, Orwell, cannot. Embarking upon a kind of biographical-political-cultural-literary criticism, this book brings the radical eccentrics' vital, potentially transformative conversation to the attention of scholars of English literature for the first time, suggesting fascinating new approaches to the study of literary London during the thirties and forties.

Forbidden Fruit

In the Spring of 1857, with India on the brink of a violent and bloody mutiny, Krishnapur is a remote town on the vast North Indian plain. For the British there, life is orderly and genteel. Then the sepoys at the nearest military cantonment rise in revolt and the British community retreats with shock into the Residency. They prepare to fight for their lives with what weapons they can muster. As food and

ammunition grow short, the Residency, its defences battered by shot and shell and eroded by the rains, becomes ever more vulnerable. The *Siege of Krishnapur* is a modern classic of narrative excitement that also digs deep to explore some fundamental questions of civilisation and life. 'Suspense and subtlety, humour and horror, the near-neighbourliness of heroism and insanity: it is rare to find such divergent elements being controlled in one hand and being raced, as it were, in one yoke. But Farrell manages just this here: his imaginative insight and technical virtuosity combine to produce a novel of quite outstanding quality' *The Times* 'The magnificent passages of action in *The Siege of Krishnapur*, its gallery of characters, its unashamedly detailed and fascinating dissertations on cholera, gunnery, phrenology, the prodigal inventiveness of its no doubt also well-documented scenes should satisfy the most exacting and voracious reader. For a novel to be witty is one thing, to tell a good story is another, to be serious is yet another, but to be all three is surely enough to make it a masterpiece' John Spurling, *New Statesman*

Forbidden Fruit

In this award-winning novel, Tharoor has masterfully recast the two-thousand-year-old epic, *The Mahabharata*, with fictional but highly recognizable events and characters from twentieth-century Indian politics. Nothing is sacred in this deliciously irreverent, witty, and deeply intelligent retelling of modern Indian history and the ancient Indian epic *The Mahabharata*. Alternately outrageous and instructive, hilarious and moving, it is a dazzling tapestry of prose and verse that satirically, but also poignantly, chronicles the struggle for Indian freedom and independence.

Narrating Colonialism

Widely acknowledged as a contemporary classic that has introduced thousands of readers to American literature, *From Puritanism to Postmodernism: A History of American Literature* brilliantly charts the fascinating story of American literature from the Puritan legacy to the advent of postmodernism. From realism and romanticism to modernism and postmodernism it examines and reflects on the work of a rich panoply of writers, including Poe, Melville, Fitzgerald, Pound, Wallace Stevens, Gwendolyn Brooks and Thomas Pynchon. Characterised throughout by a vibrant and engaging style it is a superb introduction to American literature, placing it thoughtfully in its rich social, ideological and historical context. A tour de force of both literary and historical writing, this Routledge Classics edition includes a new preface by co-author Richard Ruland, a new foreword by Linda Wagner-Martin and a fascinating interview with Richard Ruland, in which he reflects on the nature of American fiction and his collaboration with Malcolm Bradbury. It is published here for the first time.

Studies in Indo-Anglian Literature

Across the Black Waters is widely rated as an outstanding novel. It is a simple story about the ultimate futility and sorrow of war. It is a journey not just from a small village in Punjab to Flanders, from father to soldier, field to front — but from a soul that nurtures to one that kills. Overlooking the claims of war classics like *All Quiet on the Western Front*, the British Council selected and adapted this novel into a play to mark the 80th anniversary of the end of World War I. "The foremost of Indian novelists." — *Daily Telegraph* "His descriptions of brutality match in compassion and outrage, and perhaps also in poetic flair, those of Wilfred Owen, Siegfried Sasson, or David Jones." — Alastair Niven, *British Literary Critic*

Journal of South Asian Literature

Coolie portrays the picaresque adventures of Munoo, a young boy forced to leave his hill village to fend for himself and discover the world. His journey takes him far from home to towns and cities, to Bombay and Simla, sweating as servant, factory-worker and rickshaw driver. It is a fight for survival that illuminates, with raw immediacy, the grim fate of the masses in pre-Partition India.

This volume explores the theoretical foundations of postcolonial translation in settings as diverse as Malaysia, Ireland, India and South America. Changing the Terms examines stimulating links that are currently being forged between linguistics, literature and cultural theory. In doing so, the authors probe complex sequences of intercultural contact, fusion and breach. The impact that history and politics have had on the role of translation in the evolution of literary and cultural relations is investigated in fascinating detail.

The Great Indian Novel

Mariam is only fifteen when she is sent to Kabul to marry Rasheed. Nearly two decades later, a friendship grows between Mariam and a local teenager, Laila, as strong as the ties between mother and daughter. When the Taliban take over, life becomes a desperate struggle against starvation, brutality and fear. Yet love can move a person to act in unexpected ways, and lead them to overcome the most daunting obstacles with a startling heroism.
