Brothers at War

Two descendants of a World War One veteran use letters, a diary and other documentary evidence to uncover the war story of their ancestor Arthur Baker and his brothers.

Brothers in the Great War

This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. Siblings are our longest lasting relationships. Narratives of the Great War abound with the war stories of brothers and sisters. Their emotional experiences span the novelty of departing for war or taking up war work, the turmoil of facing combat, the effort to provide ongoing support for family members, the ever-present anxiety for soldier-brothers, the depth of sibling grief and the multifarious ways surviving siblings sought to preserve the memory of their fallen brothers. This social and cultural history places siblinghood at the heart of our understanding of the war generation and how they balanced conflicting obligations to the nation, the military and their families. Drawing on a range of material, *Brothers in the Great War*, reveals how sibling bonds sustained fighting men and presents a novel insight into twentieth-century familial life.

Dear Jelly: Family Letters from the First World War

The moving story of two brothers who fought in the First World War through the real letters, complete with hand-drawn cartoons, they sent to their sisters. Like so many families across the world, the Semple family were split apart by the First World War. While William and Robert were fighting the Germans in France, their younger sisters, Mabel and Jelly (Eileen), had to carry on with school back in England. To keep in touch, they wrote letters. The sisters treasured these letters, which gave snapshots of their brothers' lives as soldiers. Many of the letters included cartoon illustrations to amuse the sisters. The book presents these letters with their illustrations. After each letter the author has written a short commentary, drawing out the facts about the war that can be taken from it. Altogether the book is a powerful and moving record of one family's experience of the First World War and a moving read for readers aged nine and up. A powerful, moving record of one family's first-hand experience of the First World War. - Education Today

Two Brothers Go to War

The Beecheys were a close-knit family: eight brothers and five sisters under the loving eye of their mother. But swept into the devastation of the Great War, the brothers paid the ultimate price for King and country, one after another. A family sacrifice almost without parallel, it was forgotten and unmarked - until now. In a small case handed down through the family were hundreds of letters from the boys. Scraps of paper scribbled on in the firing line, heartfelt deathbed letters and exasperated notes detailing life in the trenches. Piecing together the Beechey story, Michael Walsh interweaves these letters with a moving account of the war, and its shattering effects at home and abroad.

Brothers in War

The centenary of the First World War has brought with it much attention on the lives of those left behind at home. This book explains how the daily life of children one hundred years ago was affected by war.

Children in the First World War

Using photographs from British history as the starting point for the topic, each book in this series explores what it was like to live in the era. Simple questions are featured throughout allowing children to think more about what is going on in the photographs.

Children and World War II

This book is based on more than a hundred letters sent home by three Swansea brothers during the First World War, almost all of which relate to the period 1916–18 when Richard, Gabriel and Ivor Eustis were serving in different theatres. The run of letters written to different members of the family allow us to build a picture of what the brothers thought about a range of different issues as the war was being waged, and of how their beliefs and ideas evolved as situations changed. In common with other

soldiers' letters to their families, information on the battles fought is scarce – they are rather concerned with keeping the family bonds strong during the men's absence. The dynamics of the family are revealed in letters full of sibling rivalry and affection.

Having a Go at the Kaiser

Everyone has memories of their early family life. This book gives young children access to people's memories alongside photographs to help them build up a picture of the past. From wartime families to holidays and family celebrations, young children can explore what has changed and what remains the same. The book is part of the 'Tell me what you remember' series, which explores changes in living memory through photographs and memories. It is a perfect teaching tool for KS1 or for children up to age 7.

Tell Me What You Remember: Family Life

Remembering the Fallen of the First World War takes a fascinating and detailed look at how servicemen killed during the First World War were commemorated. Beginning during the war itself, the book investigates the options available at the time - repatriation and normal burial were initially considered, but the sheer number of the dead precluded this, so cemeteries close the battlefields became the only realistic option. The book chronicles the work of Sir Fabian Ware and the Imperial (now Commonwealth) War Graves Commission in setting up permanent and beautifully maintained cemeteries after the war as well as local war memorials, plaques in churches, books of remembrance and so forth. The book also includes poetry written and artwork created to honour the fallen, and offers advice on how young readers can find their ancestors' war graves. A must have book on World War One for ages 11 and up.

Remembering the Fallen of the First World War

Brothers in War is the immensely powerful and deeply tragic story of the Beechey brothers, and how they paid the ultimate price for King and country. All eight went to fight in the Great War on such far-flung battlefields as France, Flanders, East Africa and Gallipoli. Only three would return alive. Even amid the carnage of the trenches, it was a family trauma almost without parallel. Their wives and sweethearts were left bereft, their widowed mother Amy devastated. It is a tragedy that has remained forgotten and unmarked for nearly 90 years. Until now. Kept in a small brown case handed down by the brothers' youngest sister, Edie, were hundreds of letters sent home from the front by the Beechey boys: scraps of paper scribbled on in the firing line, heartfelt messages written from a deathbed, exasperated correspondences detailing the absurdities of life in the trenches. From it all emerges the remarkable tale of the lost brothers. Tragic and moving, poetic in its intensity, Brothers in War reveals first-hand the catastrophe that was the Great War; all told through one family forced to sacrifice everything.

In 1914, three brothers started their First World War service with the Dorset Yeomanry. Only one would survive. This is the story of their wartime experiences told largely in their own words.

Dorset Brothers at War

Family history, four brothers in the British Royal Navy during the Second World War, describing the background to their wartime experiences, their ships and the actions and battles in which they were involved.

Four Brothers at War

They fought at Ypres in the fall of 1915, on the Somme at Courcellette and Regina Trench in 1916, they carried on to Vimy Ridge, Hill 70, and Passchendaele in 1917, and they were part of the battles at Amiens and the Hundred Days campaign of 1918. The 26th New Brunswick Battalion was the only infantry unit from the province to serve on the Western Front from 1915 until the Armistice. More than 5,700 soldiers passed through the battalion during the war, of whom more than 900 were killed and nearly 3,000 were wounded. A Family of Brothers tells the story of the 'Fighting 26th' from their mobilization to the aftermath of the war. Using a wide range of sources, including letters, diaries, newspaper accounts, war diaries, and other official documents, this compelling history recounts the stories of the soldiers at the front and behind the lines and how their wartime service affected them during the war and after they returned. A Family of Brothers is volume 24 of the New Brunswick Military Heritage Series.

A Family of Brothers

This book traces the lives of an ordinary working class family in the North West of England during that traumatic period in our history referred to as the Great War. The story which deals with the exploits of three brothers who fought in the war and the parents left behind to worry is a 'faction'. All of the military details that surround the service of the three brothers is as true and correct a record as can be gleaned from the relevant war diaries of the Regiments in which they served. Each of the brothers in their own way served King and Country while it is true to say the parents who sat at home also served. Harriet Wakefield took solace in her strict Wesleyan beliefs early in the war but found her faith seriously challenged as the war progressed. Her God unfortunately provided her with one great and even more challenge with the war almost at its end. It is a story that is probably repeated in many families up and down the country but it is still a story that needs to be told even though we are 100 years on from those tragic events. I feel sure the reader will associate the feelings, sense of loss and futility that Harriet and Joseph Wakefield felt in their own family history.

This is the extraordinary true story of 11 young Australian men from one extended family and their experiences in the great adventure that would change their lives — the Great War. Author Adam Holloway, a direct descendant, takes the reader into the lives of each of these men as they embark on a journey from which they are unlikely to return. These were young, confident men who revelled in the brash optimism of a young nation. They were desperate to prove themselves, eager to assert the justice of their cause and keen for a taste of the excitement and comradeship of battle. They were not expecting to be plunged into a lingering nightmare characterised by the stench of death and putrefaction, overwhelming fear and despair, and the gnawing uncertainty of survival. Holloway uses personal letters, diaries and family memories to deftly recreate the nail-biting tension as each man experiences his own baptism of fire amid the utter horror of the sights and sounds of battle. From the craggy cliffs of Gallipoli to the insatiable maw of the Western Front, these brothers and cousins step

forward to take their turn in a procession of courage, each determined to do his duty and to look after his battalion brothers. This is a story that portrays the Great War on a personal level, describing in remarkable detail how it felt to fight in the worst conflict the world had known, a conflict that would change these young men and Australian society forever.

Duty Nobly Done

Edwin Llewellyn Charles was a slim, handsome youth, but Terence John, his brother, was beautiful and he knew it. Technically, the boys were twins, but their personalities could not have been more different. So begins this sweeping true story of a fractured but close-knit Australian family during World War II, focusing on the service of the twins and life on the home front as experienced primarily by their elder sister and mother. When hostilities are declared, Terry joins the Australian Military Forces and is quickly promoted. However, as a militiaman, he is banned from serving overseas. Having watched Edwin join the glamorous RAAF and become a pilot, Terry resigns his commission to follow his twin. Forced to swallow the disappointment of failing to emulate Edwin by winning his wings, Terry becomes a navigator in heavy bombers in the closing stages of the European war. Readers are transported from the Charles family home in northern NSW to Canberra, Africa, England, Scotland, the United States, the Subcontinent and Ceylon between 1939 and the end of 1945 as the perspective shifts between the two protagonists. Little-known aspects of wartime experience are explored, including the so-called 'wet canteens' debate; the international negotiations over the release of interned Allied and Japanese diplomats, and the life of the Raj on the north-west frontier and in India and Ceylon. The author's clever interweaving of primary documents with historical fact gives rare insights into the lives and relationships of the Charles family and creates an authentic snapshot of wartime Australia. The Charles Family's War is a compassionate and multi-layered examination of two intelligent and articulate young men who come of age in the cauldron of global conflict.

This biography of the pioneering WWI flying ace who mentored the Red Baron is "fascinating . . . [it] captures combat aviation at its inception" (MiG Sweep: The Magazine of Aviation Warriors). With a total of forty victories, Oswald Boelcke was Germany's first ace in World War I—and a century later he remains a towering figure in the history of air warfare, renowned for his character, inspirational leadership, organizational genius, development of air-to-air tactics, and impact on aerial doctrine. Paving the way for modern air forces across the world with his pioneering strategies, Boelcke had a dramatic effect on his contemporaries. The famed Red Baron's mentor, instructor, squadron commander, and friend, he exerted a tremendous influence upon the German air force. He was one of the first pilots to be awarded the famous Pour le Mérite, commonly recognized as the "Blue Max." All of this was achieved after overcoming medical obstacles in childhood and later life with willpower and determination. Boelcke even gained the admiration of his enemies: After his tragic death in a midair collision, Britain's Royal Flying Corps dropped a wreath on his funeral, and several of his captured foes sent another wreath from their German prison camp. His name and legacy live on, as seen in the Luftwaffe's designation of the Tactical Air Force Wing 31 "Boelcke." This definitive biography reveals his importance as a fighter pilot who set the standard in military aviation.

For many people the word 'Somme' sums up the carnage and futility of the First World War. The failure of Allied forces to achieve their objectives at such a huge cost in human lives has resonated in military circles for the past 100 years. This book tells the story of the battle and its wider repercussions, and analyses its importance to the overall outcome of the First World War. The Somme investigates the build-up to the battle, why leaders thought the action was necessary and what they thought it would achieve. It looks at the forces involved, including the 'Pals' battalions - patriotic friends who fought, and more often than not died, together. Although not a straightforward timeline, the book outlines the actual course of the battle beginning on 1 July 1916 and the impact of the continuing slaughter on both sides. Quotes from those who took part offer a glimpse of what it must have been like to be there, and maps

show how little was actually achieved in terms of a breakthrough. Poetry, art and music inspired by the Somme campaign bring the soldiers' harrowing experiences to life. Suitable for readers aged 11 and up.

The colorful eyewitness-to-history diary of a young man who loved motorcycles—and used these new machines to serve his country in the Great War. This is the skillfully abridged version of the diary of a First World War motorcycle despatch rider, Sergeant Albert Simpkin, who was attached to the HQ 37th Division. The diary entries, and some longer descriptions of the main actions of the Division, provide a fascinating record of the life of a despatch rider on the Western Front—one day dodging shell holes and ammunition limbers to take his despatches to the front, the next observing the quaint but often courageous lives of the local populace. Throughout the diary are colorful and amusing anecdotes about his fellow soldiers, and critical comments on the strategies and tactics employed by the officers. “It is worth seeking out and reading and if you are a fan of Great War motorbikes and vehicles this is a must.” —War History Online

Despatch Rider on the Western Front, 1915–18

Private Peaceful relives the life of Private Tommo Peaceful, a young First World War soldier awaiting the firing squad at dawn. During the night he looks back at his short but joyful past growing up in rural Devon: his exciting first days at school; the accident in the forest that killed his father; his adventures with Molly, the love of his life; and the battles and injustices of war that brought him to the front line. Winner of the Blue Peter Book of the Year, *Private Peaceful* is by the third Children's Laureate, Michael Morpurgo, award-winning author of *War Horse*. His inspiration came from a visit to Ypres where he was shocked to discover how many young soldiers were court-martialled and shot for cowardice during the First World War. This edition also includes introductory essays by Michael Morpurgo, Associate Director of *Private Peaceful* production Mark Leipacher, as well as an essay from Simon Reade, adaptor & director of this stage adaptation of *Private Peaceful*.

An American story of heroism in the face of discrimination The newly released non-fiction book, *When the Akimotos Went to War: An untold story of family, patriotism and sacrifice during World War II*, captures the story of three Japanese American brothers—Victor, Johnny, and Ted Akimoto—who volunteered for military service while their family members were forced into an internment camp. Despite the nation-wide fear of the Nisei—the first generation of Japanese children born in the United States who were American citizens—the Akimoto brothers pledged their loyalty and bravery to the U.S. military, wanting to prove that being an American ran deeper than race. This story will engage middle school students and above to identify and understand the struggles that Japanese-American soldiers endured during World War II. This content will help students expand their knowledge about U.S. history to include an understanding of training camps, shipping out overseas, loss of life, and prisoner of war camps during World War II.

2019 Winner, Military Fiction, Independent Press Awards 2019 Gold Medal Winner, Historical Fiction, Military Writers Society of America 2019 Finalist, Military Fiction, American Fiction Awards This harrowing journey through World War I begins aboard the RMS *Lusitania* and ends on the edge of the world. For the Scots-American McReynolds brothers, World War I began with a German torpedo that slammed into the *Lusitania*. Despite frantic rescue efforts, they watch their family drown in front of their eyes. Having escaped the doomed ship in frigid waters off Ireland, they are rescued by four young Irishmen and together they vow to strike back in the war that was cutting a bloody swath through Europe in 1915. Searching for a unit that was bound to see action, they enlist with the vaunted Seaforth Highlanders, a Scottish regiment with a fearsome reputation. Soon they are tossed into the bloody cauldron of Gallipoli, where they must learn to fight and struggle to survive in one of the most ill-conceived and brutal campaigns of the war. Under a baking Aegean sun, surrounded by dead and maimed comrades, and facing a brutal and determined enemy sworn to Jihad, the brothers discover crucial differences in their reactions to the carnage of infantry combat. In the reeking, bloody trenches of Gallipoli, war becomes a very ugly school—where few live long enough to graduate. “From the sinking of the *Lusitania* to the battlefield cauldron of Gallipoli, RJ MacDonald weaves an action-packed story

that leaves the reader breathless." Military Writers Society of America "To fans of the genre of military fiction, RJ MacDonald's, 'A Distant Field' might well be the book of the year." World War Media "... the battle sequences are both horrifying and exciting. This is a well-written novel, and if you are a collector of books on the First World War, I suggest you add this novel to your collection." Historical Novel Society "It's straight in at the deep end, as it opens with two brothers and their family on board the Lusitania when it gets torpedoed. This is breathless stuff... It's all well written and a good yarn..." Militaria & History: The Armourer Magazine "RJ MacDonald's writing is vivid and gripping. Excellent historical fiction." Professor Jonathan P. Roth, San Jose State University, Director, Burdick Military History Project "His mastery of descriptive art is reminiscent of some of John Steinbeck's stories..." Professor Hal Elliott, Weber State University and Scots American Military Society "...a very compelling story... attention to detail sentence-for-sentence is stunning, and really builds the world while leaving the reader enough to imagine with." A Distant Field

The First World War, with its mud and the slaughter of the trenches, is often taken as the ultimate example of the futility of war. Generals, safe in their headquarters behind the lines, sent millions of men to their deaths to gain a few hundred yards of ground. Writers, notably Siegfried Sassoon and Wilfred Owen, provided unforgettable images of the idiocy and tragedy of the war. Yet this vision of the war is at best a partial one, the war only achieving its status as the worst of wars in the last thirty years. At the time, the war aroused emotions of pride and patriotism. Not everyone involved remembered the war only for its miseries. The generals were often highly professional and indeed won the war in 1918. In this original and challenging book, Dan Todman shows views of the war have changed over the last ninety years and how a distorted image of it emerged and became dominant.

"These are the stories of ordinary men and women caught up in the terrible tragedy of the Great War of 1914-1918. They tell of the brave men who fought and died for King and Country and the courageous women - the unsung heroes - who kept the home fires burning while husbands, sons and brothers battled for a few precious years of dirt at Gallipoli, Pozieres and Passchendaele. They tell too of the wounded, the gassed, the maimed and the lucky ones who returned home from the greatest adventure of their lives. Stories from home and abroad bring powerful personal insights from the men and women whose lives were changed forever by the War to end all wars."--back cover.

"Brothers Four: Reliving the Great Depression and World War II" is one man's personal story of growing up during the Great Depression and going off to war with all three of his brothers. Jock Davis' story epitomizes the grit, determination, and striving for excellence that resonates from our accurately named "Greatest Generation." Despite years of economic hardship, the horrors of war, and the challenges of getting a college education and a job in postwar Arkansas, Davis climbed the ladder to success in the fledgling poultry industry and left a legacy of military achievement and business success for his family. In this intensely personal story, Davis walks readers through the history of his boyhood home, his career in the National Guard after WWII, and his many civic achievements and service opportunities. "Brothers Four" will again remind you why the WWII generation represents the very best of what America has to offer. But for the sake of love of family and friends during this traumatic time, plus Patriotism and love of country, victory would not have been possible.

Tell Me What You Remember: Pastimes and Toys

In spite of all the books written on the First World War, some remarkable stories still remain untold, and that of the 58th London Division is one of the most neglected. A territorial formation, lacking the glamour of the old army or the Kitchener Volunteers, the 58th never received an official history and apart from the odd mention and a poignant memorial on the Somme battlefield depicting a rider cradling a dying horse, it has faded from memory. Yet the Division saw hard service and won through at Passchendaele where it won fame for capturing the Wurst Farm ridge many of its soldiers were decorated for this action, and the ridge afterwards renamed London Ridge in its honour. This book will tell the fascinating story of the 58th Division's war, and through this cast new light on the wider story of how the BEF struggled through the hard years and developed into such a formidable force. Passchendaele is remembered for mud and waste, but the 58th Division's experience shows the immense scale of the preparations supporting the offensive and show both how these worked and when they fell short. A history of the 58th Division is long overdue. It is also a way of bringing a good deal of new research on the war to the general reader. As featured in the Shropshire Star and Epping Forest Guardian.

Intro

Sollte die AfD verboten werden?

Inwiefern fühlst du dich durch die AfD bedroht?

Warum bist du für eine Prüfung aber gegen ein Verbot?

Warum ist es undemokratisch, eine Partei zu verbieten?

Sollten wir mit Rechtsextremen sprechen?

Wärst du mit einer Verbotsprüfung einverstanden?

Verbieten wir mit einem Parteiverbot auch die Meinung von AfD-Wählern und -Wählerinnen?

Sollten wir einzelne AfD-Landesverbände statt der Partei verbieten?

Was müsste passieren, damit du mehr Vertrauen in demokratische Institutionen bekommst?

Sollten wir die Parteienfinanzierung der AfD stoppen?

Können wir uns darauf einigen, dass wir einigen, dass wir eine Prüfung des AfD-Verbots anstreben sollten?

Keine Kompromissfindung der gelben Seite.

Können wir uns darauf einigen, dass eine Klageschrift für ein AfD-Verbotsverfahren geschrieben werden soll, ein Verbot allein aber nicht reicht?
