'Forget the Vet' focuses on the many health benefits of practicing natural remedies. Cooking easy homemade holistic recipes, and treating your pet to a homeopathic agenda, may prevent many trips to your vet's office. When we look holistically at all the natural cures for ailments in our pets, we ask ourselves, should we go all natural or use supplements that contain processed ingredients? There is no hard or fast rule to this. It is obvious that most products that come from natural sources have higher levels for benefiting our pets than others. The combination of processed substances and natural sources only arise due to the shortage of natural materials in certain locations. It is important to always use products that are as natural as possible. This saves the stress of getting your pets hooked on medications that may do them more harm than good. For instance, steroid injections used to treat Asthma hold ingredients that may cause Diabetes. The way you treat your pets and groom them, goes a long way in determining their overall health. This book lists a few of the natural cures for common ailments in pets. Some of the ingredients listed here are preventive, while others are curative. What is essential, is to help your pets live longer, and for them to lead fuller healthier lives.
