Jewelry and Gems for Self-Discovery

Have you ever fallen in love with a ring or necklace? Perhaps there's a reason! Gems and crystals have metaphysical and healing qualities that can support you physically, emotionally, and spiritually. This innovative guide will help you choose a piece of jewelry ideal for your unique life path. Diamonds enhance your creativity. Rubies teach us about love. Opals fuel intuition and offer healing. Which stones are right for you? Shakti Carola Navran offers a thorough introduction to astrology to help you identify the challenges and spiritual needs evident in your birth chart. A detailed list of sixty-four gems and crystals--with full-color photos of polished stones and finished jewelry--makes it easy to find the minerals that can balance these conflicting energies. You'll learn how to "program" your stone with joy, peace of mind, self-confidence, or any other quality. There's also helpful information for choosing the form (ring, earrings, or necklace), selecting the metal setting, and incorporating symbols into your unique piece of jewelry.

The Seven Archetypal Stones

A guide to the mystery teachings of the mineral kingdom for catalyzing spiritual growth and healing

- Focuses on 7 essential crystal and gemstone mentors: obsidian, jade, lapis lazuli, emerald, quartz, amethyst, and diamond
- Integrates crystal lore from around the world with mineral science to reveal the archetypal wisdom embodied within each stone
- Provides crystal healing exercises and meditations on the specific spiritual work each stone archetype supports

Stones and crystals are our most ancient teachers. The relationships between the mineral kingdom and the human kingdom are as old as life itself, for the mineral kingdom--comprised of beautiful crystals, dense rocks, sands, clays, and everything in-between--is the very foundation upon which life developed on Earth. Supporting humanity through the eons, these teachers offer curative and restorative properties for healing as well as powerful guidance to catalyze spiritual growth. Integrating gemstone lore from around the world with modern mineral science, Nicholas Pearson guides readers on a journey into the inner realm of the mystery

teachings of the mineral kingdom, a journey that mirrors the soul's path to perfection. He reveals the archetypal wisdom embodied within 7 essential crystal and gemstone mentors--obsidian, jade, lapis lazuli, emerald, quartz, amethyst, and diamond--examining each stone's mythological, historical, and cultural associations in tandem with their crystalline structure and chemical composition. He explores each stone's healing and spiritual properties, providing practical exercises, esoteric revelations, and meditations on the specific spiritual work each stone archetype supports. Obsidian, for example, is the stone of initiation, revealing our shadow side and guiding us to places in need of light. Diamond, the final perfected stone of the seven, illuminates Divine Love, purifying us and leading our consciousness to enlightenment, cutting through any vestiges of fear or illusion because it is the hardest, sharpest, most luminous teacher the mineral kingdom has to offer. Enabling each of us to harness the power of stones for spiritual evolution and healing, this guide to the mystery teachings of the mineral kingdom shows how the ancient call to evolve with the crystals and stones that surround us lives on in an unbroken legacy.

The British National Bibliography

Blessed Threads & Magic Twists Cord magic is one of the easiest and most satisfying ways to make magic. This book shows you how to quickly and effectively twist your own magical cords, with specific tips for choosing colors, setting your intention, charging the cords, and incorporating powerful knot spells. You will discover dozens of hands-on instructional worksheets and specific projects for a myriad of magical purposes, including protection, transitions, finding new love, improving your creative life, celebrating a handfasting, and many more. Author Brandy Williams also includes guidance for working with embellishments, capturing the power of astrological signs, unmaking a cord, and choosing the best materials. Cord magic is portable and versatile—you can twist a cord in a matter of minutes, whether you're at home or out in public. You can wear a magically charged cord as an accessory or simply carry one in a pocket or bag. This book explores the history of cord magic and it teaches everything you need to know about the tools and techniques you need to create your own magical twists and knots.

Cord Magic

Purchasing coloured gemstones can be a magical experience, filled with excitement and anticipation. But lack of information, error, or misrepresentation can make buying gemstones confusing, intimidating, overwhelming, and costly. With more varieties than ever before to choose from, including altogether new gems, revolutionary new cuts, and new ways to buy gems -- such as internet auctions and TV shopping -- there has never been a more exciting time to buy or collect coloured gemstones. But there are also new high-tech treatments and sophisticated frauds to look out for. Lack of information, error, or misrepresentation can make the thrill of buying a gem or piece of jewellery confusing, intimidating, overwhelming, and costly. Buyers need a source of expert guidance. To help you avoid the pitfalls and keep the magic, Antoinette Matlins, an internationally respected expert on buying gems, puts her insider knowledge to work for you in this easy-to-read, easy-to-use guide. Practical, comprehensive, and easy to understand, the guide offers in depth all the information you need in order to know what to look for and what to look out for, including: what qualifies as a 'gemstone'?; how to evaluate colour -- and its impact on price; deciding between a natural gem and an enhanced gem; coloured gemstone synthesis and treatment; what to ask when buying the stone; what to get in writing; how to get what you want within your budget; price guides for popular gems, opals, and synthetic stones; And much, much more!

Colored Gemstones

"A complete reference for goldsmiths, collectors, and jewellery makers, this book is a comprehensive guide to identifying, buying, using and caring for a dazzling array of jewels and gems." "Discover the origins of gemstones and understand the process of selecting the raw material. Includes practical advice on how to assess the quality, rarity, grade, durability, and cut of precious and semi-precious stones." "Learn how gems are calibrated, using the industry standard measurements of carats and points, and how they can be treated to improve both colour and clarity. A glossary section clearly explains all of the key terminology used." "Illustrations and colour photographs help you to identify the gemstones available to jewellery makers, from amethysts and diamonds to tourmaline and quartz, and demonstrate how they can be used in different designs and settings."--Jacket

Worn as jewelry, in cosmetics, as gemstone water, placed under your pillow to work as you sleep, used as part of your meditation or in a massage, the gemstones promote strength and wellbeing. Crystal healing expert Michael Gienger explains how healing stones can exert their beneficial and healthy effects on the body, mind and soul. For example: rock crystal acts as antipyretic, malachite promotes detoxification, aquamarine helps to combat allergies, amber improves sleep and amethyst promotes clear thinking. Gemstone Healing is the first guide to list the full range of applications for 36 crystals and will provide all the information you need to treat yourself, your family and friends. The reader will come to understand the effects of the crystals and learn how to choose, use and look after them properly. With full color illustrations throughout and stunning photographs of each of the 36 crystals, this guide gives both the reader new to using crystals and those who have some experience of crystal healing a whole new view of the subject.

Gemstone Healing

It is being increasingly accepted that gems and crystals possess incredible healing powers. They have the capacity to aid us in our spiritual transformation and speed up the healing processes of the body by correcting any imbalances within. Based on the wisdom of the ancients, the author discusses and shares how gemstones can help add years of buoyant health to your life. This complete introduction to the healing properties of gems and crystals discusses how to choose, clean and prepare crystals and gems for healing. The book has been published in US, Germany and France, and this is the first Indian edition.

Healing With Gems And Crystals

Gemstones and crystals are more than pretty pieces of rock to be made into jewellery. For centuries they have been used as an aid to healing and meditation and as a means of increasing personal awareness and stimulating individual growth. This guide to gemstones and crystals introduces the absolute beginner to the most commonly found stones and their uses. It gives advice on choosing the stones that are right for you. It tells you how to cleanse, charge, programme and keep them and how to use them in a surprising number of ways in your everyday life.

Jewelry & Gems - The Buying Guide, 7th Edition

This book provides an exhaustive and comprehensive study of the lore and science of precious and semi-precious stones and crystals. Crystals have commanded the attention of thinkers, artists, mystics, magicians, astrologers, alchemists, and all who appreciate beauty. Intimately and mysteriously formed in the fires of Earth's inner essence, what is the meaning of these exquisitely shaped and colored gifts of the sacred bounty of Nature. Occultist Isidore Kozminsky explores the use of precious and semi-precious stones in fields as far flung as healing and design, practical esoteric energy channeling and decoration, as well as in powerful magical talismans by which specific energies may be invoked, and as artistic objects of great beauty. Inspiring mythic tales are balanced with practical instructions and knowledge about the astrological sympathies of crystals and the energy work and healing properties associated with all the major categories of precious stones. From Plato to Leonardo da Vinci, Kozminsky traces crystal lore through the researches of astrologers, magi, alchemists and Hermetic philosophers--all of whom explored the use of stones in the Universal Order and Harmony of the natural world.

Beginners Guide to Gems and Crystals

to this edition In working with my own clients to acquire gemstones and jewelry since this book was first published in 1984, they have pointed out that most people buy "jewelry" and not "gemstones." Because the book offers so much practical advice and money-saving tips about buying jewelry, they urged me to change the title. So, in this edition The Complete Guide to Buying Gems has been changed

to Jewelry & Gems: The Buying Guide. Consumer and professional response to the book has been very gratifying. Almost 14,000 hardcover copies are in circulation. We have received hundreds of letters, phone calls and in-person comments about the helpfulness and interesting information it provides. We thank you for encouraging us to make the book more widely available by bringing out this softcover edition. We have taken the opportunity of this softcover edition to update the price guides for diamonds and colored gemstones and, in light of the increase in both the popularity and price of pearls, to add a price guide for them in the "Guide to Popular Gems and Their Prices." Also, we want to take this opportunity to comment further on gem investment, taking into account major developments since the original manuscript was written in 1980.

Precious Stones and Gems

Since early 1989, a gem dealer I've known for years has been calling me every few weeks to brief me on mounting mayhem in Colombia's lucrative emerald market. The troubling gist of these calls is always this: There is a full-fledged turf war going on between that South American country's bustling drug and gem trades for control of its emerald export business. According to this dealer and several others, anywhere from two to four thousand emerald industry people, mostly miners and dealers, have been murdered since 1980. No doubt the gem sector, itself never gun shy, has retaliated in full and in kind. After all, the two groups have banded together in an intermittent alliance against a common enemy-Communist guerillas-with results the CIA would envy. I mention this bloodshed because of something the gem dealer once said to me: "I bet you never think of what a gem has to go through to get to a jewelry store." He's right. I tend to think of colored stones as things of beauty, not objects of gruesome power struggles between mining kingpins and drug lords. Can you blame me, or anyone with insider knowledge, if a gem sheds any connection with its past once sculpted by a cutter into the glittering marvel we see in a jeweler's showcase? Like Odysseus listening to the sirens' song, we become victims of an aesthetics-induced amnesia.

Crystals, Jewels, Stones

This fascinating work provides a truly stunning visual guide to the beautiful world of gemstones. It brings together a wealth of information in clearly worded text accompanied by a dazzling collection of color photographs showing gems in their natural and cut states. From subjects as diverse as identifying and collecting minerals and advanced testing, to ethical sourcing of gems, every aspect of gemstones is covered, and is presented with a wealth of research in easy-to-understand sections, making it a must-have reference work for anyone who wants to delve into the exciting world of gems.

Jewelry & Gems The Buying Guide

"Crystal Bliss provides you with all the information you need to harness the innate energy and vibrations of crystals to help boost your own energy and focus your intention so you can beat back negative vibes open your heart to love, manifest wealth, and promote good health. This guide walks you through the process of selecting crystals, cleansing them and preparing them for use, and incorporating them into your meditation and energy healing practice"--

Precious Stones and Gems

Explains in non-technical terms how to use the dichroscope to identify colored gems, and how to separate natural gems from imitations, treated gemstones, synthetics, and look-alikes. The approach is direct and practical, and its style is easy to understand. With this highly accessible guide booklet, anyone can begin to master gem identification using the dichroscope.

Modern Jeweler's Consumer Guide to Colored Gemstones

Gemstones

A scientific history of gemstones and crystals around the world. Featuring the origin, symbolism, and uses of various precious stones. This detailed article explores the history of gemology and crystallography and is an excellent read for those wishing to deepen their knowledge of the subjects. First published in 1939, Precious Stones and Their Stories was written by A. Hyatt Verrill, a respected nature historian.

Crystal Bliss

As the sub-title suggests, this is the consumer's guide to precious gemstones. Divided into two parts: In plain non-technical language, Part I redefines preciousness and gently guides the reader toward a real understanding of those criteria that make a gemstone. Part II contains a series of individual essays that apply the criteria of connoisseurship to 35 of today's most important gemstones. The book covers precious stones old and new including diamond, pearl, tourmaline, sapphire, chalcedony, spinel, ruby, and garnet.

Dichroscopes Made Easy

This guide helps buyers to evaluate these spectacular gems and it updates professionals on new treatments and sources of corundum and emerald. Using close-up photographs, the book shows how to make visual judgements about clarity, transparency, cut quality and brilliance. In addition, it helps you to understand lab reports and find appraisers and labs. You will also get tips on detecting imitations and synthetic stones. Let this guide provide the in-depth information you will need to be a smart buyer. Topics in this guide include: Quality evaluation; Gem treatments; Fakes and synthetics; Lab reports; Geographic sources; Appraisals; Gem cleaning & care; Savvy buying.

Precious Stones and Their Stories - An Article on the History of Gemstones and Their Use

Crystals and Stones: A Complete Guide to Their Healing Properties helps readers to incorporate the healing power of stones into daily life. Aimed at both beginners and experts, the book showcases nearly 200 crystals and stones, describing their impact on human beings' physical, mental, emotional, and spiritual states. The book begins with historical background and practical considerations, such as how stones work and how to clean and recharge their energy. The relationship of stones to chakras is explored, as are practices such as channeling via certain powerful crystals. The heart of the book is an A to Z guide covering everything from amber to zoisite that explains which stones are most effective for particular medical conditions, emotional and energy blockages, and spiritual impasses. Stones and crystals have been important tools for health and spiritual transformation for millennia. This book shows modern readers how to best utilize those tools. "If we could follow the step by step transformation of coal into diamond, we would discover what enabled Prince Siddhartha to 'awaken' and become this Being of Light known to this day as the Buddha."—from the book

Secrets of the Gem Trade
