The Sun in the Church

Between 1650 and 1750, four Catholic churches were the best solar observatories in the world. Built to fix an unquestionable date for Easter, they also housed instruments that threw light on the disputed geometry of the solar system, and so, within sight of the altar, subverted Church doctrine about the order of the universe. A tale of politically canny astronomers and cardinals with a taste for mathematics, "The Sun in the Church" tells how these observatories came to be, how they worked, and what they accomplished. It describes Galileo's political overreaching, his subsequent trial for heresy, and his slow and steady rehabilitation in the eyes of the Catholic Church. And it offers an enlightening perspective on astronomy, Church history, and religious architecture, as well as an analysis of measurements testing the limits of attainable accuracy, undertaken with rudimentary means and extraordinary zeal. Above all, the book illuminates the niches protected and financed by the Catholic Church in which science and mathematics thrived. Superbly written, "The Sun in the Church" provides a magnificent corrective to long-standing oversimplified accounts of the hostility between science and religion.

Sun Worship in the Catholic Church

Sometimes there is a thin line between following good and following evil. The world is full of lies and deception. If you're not careful, you might wake up one day living a lie and not even realize it. This book tells the story of an average guy who found himself caught up in a "Christian" cult. By the grace of God, he found his way back. Read how easy it is to be deceived if you don't "know the red flags".

The Sun Of Righteousness

This pioneering study of Christian sun symbolism describes how biblical light motifs were taken up with energy in the early Church. Kevin Duffy argues that, living in a world of 24/7 illumination, we need to reconnect with the sun and its light to appreciate the meaning of light in the Bible and Christian tradition. With such a retrieval we can appreciate Pope Francis's insistence that, like the moon, the Church does not shine with its own light, and assess the claim that the Eucharist is to be celebrated 'Ad Orientem', that is towards the rising sun in the East. Liturgy, architecture, poetry and the writings of saints and theologians such as Augustine, Hildegard of Bingen, Francis of Assisi, and Thomas Traherne offer abundant resources for a much needed ressourcement. While Christ was preached as the True Sun among sun-worshipping Aztecs, and the consecrated host was placed in a solar monstrance on Baroque altars, in the modern era solar themes have been neglected. In this accessible work, the author suggests that we rebalance a spiritual symbolism that has over-emphasised darkness and cloud at the expense of light and sun. He proposes a creative retrieval of the traditional title of Christ as the Sun of Justice. This title blends the personal, the social and the cosmic/ecological, and speaks powerfully to a secularising era that contemporaries Friedrich Nietzsche and Thérèse of Lisieux both described as one where the sun does not shine.

Christian Solar Symbolism and Jesus the Sun of Justice

The drawing, Christ of the Breadlines, by Fritz Eichenberg (1953) probably says all that this book wants to say about being church. The church is a space in this world where heaven and earth reach out to each other. It is a space in the world, but not of the world, as it is touched by heaven. Christ is in the breadline, yet one can recognise Him as He stands out in the breadline. One can recognise him, because of the hallow that surrounds him. He is the incarnation within reality and through the incarnation the place within reality becomes holy, not sacred as in separated, but sanctified as differentiated offering an alternative within reality. He brings a space that is marked, not by the darkness and the vicious cycles of the world which dominate and enslave creation, such as poverty, but a space that breaks into this darkness with light as it is hallowed in hope. What more can the church hope for than to be allowed to be a space of hallowed hope in the vicious systems of death in a postmodern and post-Christian

world? This book would like to propose that it does not really matter if you start with theory (Scripture and tradition) or with context and practice because theology is circular or spiral, and therefore there is no starting point as the two continually influences each other, or one could even say the one interprets the other. So for this book the best place to start is with where we are now ? the now of experience as this now of experience includes both theory and praxis. There is no such thing as experience pure and simple, as experience is always interpreted-experience and the interpretation is done through the theory that has shaped and formed us. Thus, in this book we work with ?theory-laden practice?.

Sun Myung Moon and the Unification Church

Many people today, especially among emerging generations, don't resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it's because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Following the Trail of the Sun

16th Annual Outreach Magazine Resource of the Year - Culture We live in conflicted times. Our newsfeeds are filled with inequality, division, and fear. We want to make a difference and see justice restored because Jesus calls us to be a peacemaking and reconciling people. But how do we do this? Based on their work with diverse churches, colleges, and other organizations, Grace Ji-Sun Kim and Graham Hill offer Christian practices that can bring healing and hope to a broken world. They provide ten ways to transform society, from lament and repentance to relinquishing power, reinforcing agency, and more. Embodying these practices enables us to be the new humanity in Jesus Christ, so the church and world can experience reconciliation, justice, unity, peace, and love. With small group activities, discussion questions, and exercises in each chapter, this book is ideal to read together in community. Discover here how to bring real change to a dehumanized world.

Church emerging from the cracks

If you're not daring to believe God for the impossible, you may be sleeping through some of the best parts of your Christian Life. "This book is not a Snuggie. The words on these pages will not go down like Ambien. I'm not writing to calm or coddle you. With God's help, I intend to incite a riot in your mind. Trip your breakers and turn out the lights in your favorite hiding places of insecurity and fear. Then flip the switch back on so that God's truth can illuminate the divine destiny that may have been lying dormant inside you for years. In short, I'm out to activate your audacious faith. To inspire you to ask God for the impossible. And in the process, to reconnect you with your God-sized purpose and potential." —Steven Furtick, from Sun Stand Still

They Like Jesus but Not the Church

An enlightening anthology by world-renowned theologians, historians and researchers that exposes and challenges misrepresentations and age-old beliefs. With an introduction by ABC Radio Talk Show Host Bill Jenkins.

This Never Happened

The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the "Beast" will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

Healing Our Broken Humanity

This fascinating and lively book provides the first comprehensive discussion of the production, circulation, and use of books in early Christianity. It explores the extent of literacy in early Christian communities; the relation in the early church between oral tradition and written materials; the physical

form of early Christian books; how books were produced, transcribed, published, duplicated, and disseminated; how Christian libraries were formed; who read the books, in what circumstances, and to what purposes. Harry Y. Gamble interweaves practical and technological dimensions of the production and use of early Christian books with the social and institutional history of the period. Drawing on evidence from papyrology, codicology, textual criticism, and early church history, as well as on knowledge about the bibliographical practices that characterized Jewish and Greco-Roman culture, he offers a new perspective on the role of books in the first five centuries of the early church.

Sun Stand Still

A contributing editor for Sojourners magazine introduces readers to women in the Bible--many of them unfamiliar--in 50 meditations that are grounded in the lives of biblical women. The meditations are designed to be used throughout the year, and questions for group discussion are included.

The Book Your Church Doesn't Want You to Read

Comprehensive and engaging, this colourful study covers the whole sweep of ritual history from the earliest written records to the present day. From May Day revels and Midsummer fires, to Harvest Home and Hallowe'en, to the twelve days of Christmas, Ronald Hutton takes us on a fascinating journey through the ritual year in Britain. He challenges many common assumptions about the customs of the past, and debunks many myths surrounding festivals of the present, to illuminate the history of the calendar year we live by today.

Revelation

Controversial at the time, Copernicus's discoveries led to the scientific revolution, and a greater understanding of our place in the universe. An accessible, abridged edition with a new introduction. Renaissance Natural philosopher Nicolaus Copernicus's pioneering discovery of the heliocentric nature of the solar system is one of the few identifiable moments in history that define the understanding of the nature of all things. His great work was the consequence of long observation and resulted in the first stage of the Scientific Revolution by correctly positing that the earth and other planets of the solar system revolved around the sun. Not only did this promote further study to understand the place of humanity in the world and the universe, it questioned the authority of the organised Christian Church in the West to be the keeper of fundamental truths. Ultimately this would lead to the Enlightenment, and the separation of religion, government and science. The FLAME TREE Foundations series features core publications which together have shaped the cultural landscape of the modern world, with cutting-edge research distilled into pocket guides designed to be both accessible and informative.

Books and Readers in the Early Church

"Justice, as well as Mercy, is an attribute to God Himself, and His Church is its Dispenser... And if Justice, then Social Justice." So begins Harold Robbins' essay on Catholic Social Teaching. With clarity and erudition Robbins draws from various sources in the Christian tradition to distill his principles, principles which were to serve as the foundation for the school of economic thought known as Distributism. The success of his effort was affirmed by none other than Dorothy Day, who claimed that The Sun of Justice "contains the best thinking ever done on Distributism." Originally published in 1938, this edition represents an effort to restore this long-lost treasure to contemporary audiences.

Clothed with the Sun

Christianity Today Book Award winner Golden Canon Leadership Book Award winner Feeling caught between the traditional church and the emerging church? Discover a third way: deep church. C. S. Lewis used the phrase "deep church" to describe the body of believers committed to mere Christianity. Unfortunately church in our postmodern era has been marked by a certain shallowness. Emerging authors, fed up with contemporary pragmatism, have offered alternative visions for twenty-first-century Christianity. Traditionalist churches have reacted negatively, at times defensively. Jim Belcher knows what it's like to be part of both of these worlds. In the 1990s he was among the pioneers of what was then called Gen X ministry, hanging out with creative innovators like Rob Bell, Mark Oestreicher and Mark Driscoll. But he also has maintained ties to traditionalist circles, planting a church in the Presbyterian Church of America. In Deep Church, Belcher brings the best insights of all sides to forge a third way between emerging and traditional. In a fair and evenhanded way, Belcher explores the

proposals of such emerging church leaders as Tony Jones, Brian McLaren and Doug Pagitt. He offers measured appreciation and affirmation as well as balanced critique. Moving beyond reaction, Belcher provides constructive models from his own church planting experience and paints a picture of what this alternate, deep church looks like--a missional church committed to both tradition and culture, valuing innovation in worship, arts and community but also creeds and confessions. If you've felt stuck between two extremes, you can find a home here. Plumb the depths of Christianity in a way that neither rejects our postmodern context nor capitulates to it. Instead of veering to the left or the right, go between the extremes--and go deep.

The Living Church

"...Therefore go and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, and teaching them to obey everything I have commanded you. And surely I am with you always, to the very end of the age."Matthew 28:19-20 NIV Jesus' final command must be our first priority. Making disciples is the sole mission of Christ's church. But many of us find it very difficult to remain focused on this mission--there are so many other things competing for our attention. As a result, many America denominations and fellowships are in decline. Some appear to be in a death spiral. Even the churches of Christ are losing members: 200 people leave the churches of Christ every week, and every week in America a church of Christ goes out of business forever. Is the sun setting on Christianity in the West? Not on our watch. This book is a call for us to return to Christ's revolutionary mission for His church. Let's become fully mature followers of Jesus Christ. Let's be transformed by His Word, through repentance, discipline, and obedience. Let's become fishers of people, going out into the whole world with a message that we truly believe is good news. The times ahead may be difficult, but this will be our finest hour. In fact, maybe the sun isn't setting after all. With a restored perspective, we may see it's actually rising. It's a new day, and the Light of the World will soon make all things new.

Stations of the Sun

It is time for the Holy Spirit to get its own street cred! There shall be no more third-wheeling the ever-present, life-sustaining, and empowering member of the Trinity. In this guide to the Spirit, Kim is putting the Holy Ghost back where it belongs; after all, the Spirit gave birth to the church and kept it rocking, rolling, reviving, and transforming across time and culture. Throughout the book, you will get a taste of the different ways the church has understood the Spirit, partnered with the Paraclete, and imaged the Spirit in scripture. Most importantly, Kim brings together the tradition with contemporary culture, science, and the many tongues and testimonies of the global church. The compelling power of this volume comes from the creative interplay Kim orchestrates between images such as the Spirit as vibration, breath, and light and her powerful unpacking of different images such as the releaser of han, a Korean term for unjust suffering, or the concept of Chi. This isn't simply a guide to what the church is saying about the Holy Spirit--it's a guide to actually opening our theological imaginations to a Spirit that is present, active, and calling us to participate in life-giving work.

On the Revolutions of the Heavenly Spheres (Concise Edition)

"In writing any account of someone else's religious beliefs and practices, any author must find himself between two poles: what members of the religion wish to tell, and what the public wishes to know. Nowhere are these polarities more distant than in the field of new religions. The public wishes to know about 'recruitment', 'brainwashing', and fundraising within the Unification Church, while the authors discussion with UC members elicited far more material on their own inner spiritual life. After consideration the author has concluded that a common meeting ground is simply not possible, and that any book, including this one, has to be a compromise. Just as any mainstream Christian would be irritated by an inquirer's relentless pursuit of questions relating to the precise ingredients of the eucharistic wine, it is understandable that UC members should feel that the author has given too much attention to the more obviously external manifestations of their faith in some of their ceremonies. However, while recognising the importance of the insider's definition, the author still believes that it is important to answer many of the commonly asked outsider's questions too, and it is simply not possible to speak of sets of internal religious experiences which the author does not share. If those Unificationists who were willing to discuss their beliefs with the author hoped that they might be able to endorse this book's contents, then they may be disappointed: the account which they wanted can, the author believes, only be written by themselves. In normal circumstances a phenomenological account of a religion is relatively problem free. The author reads, listens, observes, and writes as far as possible

without imposing his or her own value judgments. In the area of new religious movements, however, it seems that no neutral ground is possible. Even using the phrase 'new religious movement' is a conscious choice which involves rejecting terms like 'cult', 'sect' or 'fringe group', terms which some commentators would claim to be more suitable substitutes for what they regard as euphemism. In this book, however, the author decided as far as possible to present the Unification Church (although not uncritically) in terms which would at least be recognisable by its members, in accordance with the normal canons of scholarship or unless, of course, what the author saw clearly differed from what they explained to me." -- Introduction.

Sun of Justice

"Scholarly, pastoral, prophetic, and eloquent. The invitation to follow Jesus instead of worshiping Christ could not come at a more important time, or be issued by a more credible source." — Desmond Tutu
"Robin Meyers emerges in Saving Jesus from the Church as a national voice for a new Christianity. He is a well read scholar and a superb communicator. He writes with a refreshing honesty and a disarming authority. This book is a treat." — John Shelby Spong, author of Jesus for the Non-Religious
Robin Meyers, a rising star of liberal Christianity, restores the true mission of the faith that captures the heart of Jesus's concern for people over "right belief." Saving Jesus from the Church will resonate deeply with those who enjoy the works of John Shelby Spong, Marcus Borg, and John Dominic Crossan.

Deep Church

"Like Stephen King, he knows how to summon serious scares." - Bentley Little, The Haunting Stoker Award finalist
THE RED CHURCH For 13-year-old Ronnie Day, life is full of problems: Mom and Dad have separated, his brother Tim is a constant pest, Melanie Ward either loves him or hates him, and Jesus Christ won't stay in his heart. Plus he has to walk past the red church every day, where the Bell Monster hides with its wings and claws and livers for eyes. But the biggest problem is that Archer McFall is the new preacher at the church, and Mom wants Ronnie to attend midnight services with her. Sheriff Frank Littlefield hates the red church for a different reason. His little brother died in a freak accident at the church twenty years ago, and now Frank is starting to see his brother's ghost. And the ghost keeps demanding, "Free me." People are dying in Whispering Pines, and the murders coincide with McFall's return. The Days, the Littlefields, and the McFalls are descendants of the original families that settled the rural Appalachian community. Those old families share a secret of betrayal and guilt, and McFall wants his congregation to prove its faith. Because he believes he is the Second Son of God, and that the cleansing of sin must be done in blood. "Sacrifice is the currency of God," McFall preaches, and unless Frank and Ronnie stop him, everybody pays. ----- "Scott Nicholson understands that the best horror novels achieve primal fear through a combination of sustained atmosphere, richly drawn characters, and believable if uncanny evils that draw unholy power from everyday lives." --Christopher Ransom, author of The Birthing House
"Keep both hands on your pants, because Nicholson is about to scare them off."--J.A. Konrath, Origin
"Scott Nicholson is the kind of writer who always surprises and always entertains."--Jonathan Maberry, Patient Zero
"Scott Nicholson writes with a mixture of H.P. Lovecraft, Manly Wade Wellman, and Clive Barker." - Kevin J. Anderson

New Day

IMAGINE living in a world with NO GODLY PEOPLE (NO CHURCHES)! 1. The world in total chaos, complete darkness. 2. Every decision would be made in darkness because there would be no light. Even when the sun comes out, there would be an overcast around the world because there would be nothing to keep darkness away. Similar to before God came in and said, "Let there be light." 3. Evil being magnified to its greatest because there would be no limit. 4. Satan would have his way without any restrictions: (A) Resulting in everything dying because he comes to steal, kill, and destroy. (B) Buildings will be destroyed. (C) People's lives will be destroyed. (D) People killing at will. And not only would they kill others, they would destroy themselves. (E) Everyone would live in fear because the CHURCHES HAVE ALL DIED and there were none REBUILT.

The Homebrewed Christianity Guide to the Holy Spirit

Allan Doig explores the Christian Church through the lens of twelve particular churches, looking at their history, archaeology, and how the buildings changed over time in response to developing usage and beliefs.

The Advent of Sun Myung Moon

Many Christians have told me to quit being so nit-picking and let by-gone be be-gones, that what happened in the past was then, and now is now and things have changed. But, that is not true. Christians still read from their so-called NEW testament that is full of Jew-bashing, so subliminal that most Christians overlook it. It is not my desire to claim Christianity is wrong and that you should not believe in your god but I want people to think. Perhaps what you have been led to believe is wrong? Think Why is it wrong for a Christian to deny the divinity of Jesus yet why do Christians turn their blind eye to Christians Missionaries trying to convert Jews against the basic tenants of Judaism? Why is it that most all pictures of the different characters in Christianity have a sun-disk above their heads? The Church made its own spin on this calling them halos, but didnt the Church change Sabbath to Sunday, the day of the sun? Who actually wrote the Christian bible that Christians all over the world swear it? The Church admits they really dont know for sure and only guessed. Did Jesus write anything in the NEW testament, or was his thoughts written by men who thought they knew? Why did it take 2,000 years before the Pope acknowledged the Christian hatred towards Jews and the need for Christians to repent? Why all of a sudden were the Church wrong and the Jews right?

Saving Jesus from the Church

The Church: Christ in the World Today guides the students in exploring and understanding the Catholic Church, as well as its origin, structure, and mission. Additionally, the course addresses the roles of the hierarchy, those in religious life, and the laity in supporting the mission of the Church. Particular attention is paid to the global presence of the Church as a light to all people. The second edition of our popular Living In Christ series offers updated navigation, organizing and synchronizing curriculum across both teacher guides and student books. The student books have shifted from a section-part-article structure to a unit-chapter-article structure where sections become units and a part is now a chapter.

A companion to the services of the Church of England for every Sunday in the year

Once upon a time, humans lived in intimate relationship with nature. Whether disillusioned by the dominant church or unfulfilled by traditional expressions of faith, many of us long for a deeper spirituality. Victoria Loorz certainly did. Coping with an unraveling vocation, identity, and planet, Loorz turned to the wanderings of spiritual leaders and the sanctuary of the natural world, eventually cofounding the Wild Church Network and Seminary of the Wild. With an ecospiritual lens on biblical narratives and a fresh look at a community larger than our own species, Church of the Wild uncovers the wild roots of faith and helps us deepen our commitment to a suffering earth by falling in love with it--and calling it church. Through mystical encounters with wild deer, whispers from a scrubby oak tree, wordless conversation with a cougar, and more, Loorz helps us connect to a love that literally holds the world together--a love that calls us into communion with all creatures.

If You Build the People the People Will Build the Church

Moving the Rock portrays several generations of African American women whose families migrated from the South to the Pacific Northwest in the 1940s and 1950s. As members of a small storefront church in central Seattle, these women--grandmothers, mothers, daughters--lean on their faith and church to face the challenges of poverty, racism, ignorance, and health. In the wake of Hurricane Katrina, it is painfully obvious that many of us know little about what it is like to be poor and Black in the United States. These powerful, profound stories bring this group of women and their problems, and joys, vividly and movingly to life.

A History of the Church Through Its Buildings

Spots on the Sun; Or, Thoughts for Presbyterians on Some Important Points of Presbyterian Church Polity: a Plea for the Resumption of the Ancient Scotch Liturgical Form

Glitter in the Sun uses the abundant spiritual themes in the Twilight Saga to begin a conversation on Christ and the Christian life. It is for anyone who has read the Twilight series, or anyone who knows someone who has read the series.

Christianity Uncovered

In this volume of the Ancient Christian Texts series, William Weinrich renders a particular service to readers interested in ancient commentary on the Apocalypse by drawing together significant Latin commentaries from Victorinus of Petovium, Caesarius of Arles, Apringius of Beja and Bede the Venerable.

The Church

Origen's On First Principles is a foundational work in the development of Christian thought and doctrine: it is the first attempt in history at a systematic Christian theology. For over a decade it has been out of print with only expensive used copies available; now it is available at an affordable price and in a more accessible format. On First Principles is the most important surviving text written by third-century Church father, Origen. Origen wrote in a time when fundamental doctrines had not yet been fully articulated by the Church, and contributed to the very formation of Christianity. Readers see Origen grappling with the mysteries of salvation and brainstorming how they can be understood. This edition presents G. W. Butterworth's trusted translation in a new, more readable format, retains the introduction by Henri de Lubac, and includes a new foreword by John C. Cavadini. As St. Gregory of Nazianzus, Doctor of the Church, wrote: "Origen is the stone on which all of us were sharpened."
