Contrary to what students, and society, are conditioned to think, obtaining a college degree does not automatically result in a job, let alone a dream career. In the last year, alone, half of college graduates are either jobless or underemployed in positions that don't fully use their skills and knowledge. Authors Tori Randolph Terhune, a gainfully-employed young college graduate herself, and Betsy A. Hays, a college professor, show readers what they can do in college to successfully pave the way for future employment in Land Your Dream Career. The authors provide eleven easy-to-follow strategies for effectively using time on campus to start building a career. Terhune and Hays leads students through content designed to help students set themselves up for success, without focusing on grades or papers. The eleven steps include tips about how students can become experts in their fields, build their brand, get involved in and outside the classroom, allow for wiggle room, network, follow the 75/25 rule (75% thinking, 25% doing) and use new media, such as social networking and blogging, to launch their career. Any student looking for that connection from college to getting to their dream career needs to read Land Your Dream Career. Terhune and Hays make it known that landing a good job is not impossible!

The Ultimate Career Coach Faith In Finding Your Dream Job

In the personal research I have done in writing this book, I lived and saw the effects of stress and loss and fear while learning the importance of self-control, self-awareness, and connectedness. The men I have lived among behind bars in prison have taught me lessons that they don't realize they are teaching me. It's what I most needed to know. Besides them, there are those few family members and friends who have supported me and have kept my hope alive for living my own dream come true. Yes, at this moment I am inking (with pen) these words into a composition journal from a prison cell, where the words will next find their way to typing and editing then to publication. I can see my work

one day being in your hands. I'll be honest in saying that I didn't write this book as being an acclaimed spiritual guru, only as a man who has always been searching for what the world could not teach me. My expertise does not prevail from years of contentment and having things fall my way, but actually more so from being an individual who always sought for goodness of heart in myself and in others, while having my own share of errors. My thoughts extend to you in the form of these words from a man who talked himself down from many emotional ledges. In prison, every moment is a struggle just to keep the chains of oppression unlocked. Leo Tolstoy wrote that "Each time of life has its own kind of love." At this time in my life those who are behind me are my true riches. Margaret Mead once suggested that the deepest dream coming true for humans is to have someone who cares that we make it home safe. I recall an old grocery store owner serving a sentence of thirty years to life, for a murder he says he did not commit. He'd already served thirty-three years when attending a parole board hearing. They gave him a definite release date of twelve more years, and he was elated. A dream come true just knowing he had a release date to look forward to. His toothless smile with gray whiskers told me his children will be pleased. He was now seventy-six. Those of you that know me understand how grateful I feel, in here, for only having to deal with the simple securities violation that landed me ten years by an "example-setting" judge, of which I've been told I will not fully serve. I cannot fathom an entire life in prison. Could you? These men mostly of who serve life sentences that I live among have given me high expectation of myself that I want to extend on to you. It is what A Course in Miracles calls "The power of turning any situation that is not of love back into love, by thinking differently." Every day an urge inside me suggests what I need to do, which is to be fully present and to patiently not waste time. I want every moment of time while in here spent writing, studying, exercising, or being helpful. My time in prison is almost over and for that I am thankful. During this brief time—a pit stop, so to speak—the voice within me suggests I see things this way: Life goes on, so I've decided that as long as I am living I might as well live.

The Dirty Little Secrets of Getting Your Dream Job

Volume 54 Sermons 3073-3124 Charles Spurgeon (19 June 1834 – 31 January 1892) is one of the church's most famous preachers and Christianity's foremost prolific writers. Called the "Prince of Preachers," he was one of England's most notable ministers for most of the second half of the nineteenth century, and he still remains highly influential among Christians of different denominations today. His sermons have spread all over the world, and his many printed works have been cherished classics for decades. In his lifetime, Spurgeon preached to more than 10 million people, often up to ten times each week. He was the pastor of the congregation of the New Park Street Chapel (later the Metropolitan Tabernacle) in London for 38 years. He was an inexhaustible author of various kinds of works including sermons, commentaries, an autobiography, as well as books on prayer, devotionals, magazines, poetry, hymns and more. Spurgeon was known to produce powerful sermons of penetrating thought and divine inspiration, and his oratory and writing skills held his audiences spellbound. Many Christians have discovered Spurgeon's messages to be among the best in Christian literature. Edward Walford wrote in *Old and New London: Volume 6* (1878) quoting an article from the Times regarding one of Spurgeon's meetings at Surrey: "Fancy a congregation consisting of 10,000 souls, streaming into the hall, mounting the galleries, humming, buzzing, and swarming—a mighty hive of bees—eager to secure at first the best places, and, at last, any place at all. After waiting more than half an hour—for if you wish to have a seat you must be there at least that space of time in advance—Mr. Spurgeon ascended his tribune. To the hum, and rush, and trampling of men, succeeded a low, concentrated thrill and murmur of devotion, which seemed to run at once, like an electric current, through the breast of every one present, and by this magnetic chain the preacher held us fast bound for about two hours. It is not my purpose to give a summary of his discourse. It is enough to say of his voice, that its power and volume are sufficient to reach every one in that vast assembly; of his language, that it is neither high-flown nor homely; of his style, that it is at times familiar, at times declamatory, but always happy, and often eloquent; of his doctrine, that neither the 'Calvinist' nor the 'Baptist' appears in the forefront of the battle which is waged by Mr. Spurgeon with relentless animosity, and with Gospel weapons, against irreligion, cant, hypocrisy, pride, and those secret bosom-sins which so easily beset a man in daily life; and to sum up all in a word, it is enough to say of the man himself, that he impresses you with a perfect conviction of his sincerity." More than a hundred years after his death, Charles Spurgeon's legacy continues to effectively inspire the church around the world. For this reason, Delmarva Publications has chosen to publish the complete works of Charles Spurgeon.

BUILD YOUR BRAND AND LAND THAT DREAM JOB

Every day, customers see the results of companies where fiefdoms have formed and silos create divisional or departmental strife: poor sales and profits, and lackluster products. It's not hard to see that such companies are headed for an early grave. Regardless of the manner in which company fractures manifest themselves, tech leaders must find a way to rid their workplaces of the divisions that threaten to undermine their company's productivity, profits, and survival. That's why, in *Unite the Tribes: Leadership Skills for Technology Managers*, Christopher Duncan, bestselling author of *The Career Programmer*, provides corporate leaders with a ten-point plan for joining their company's divided ranks together in a way that helps employees achieve their goals while also accomplishing those of the company. Using the metaphors of the company as empire and the groups that form within companies as tribes, Duncan explains that the formation of tribes within an empire is unavoidable. After all, regardless of the situation in which they find themselves, human beings are social creatures who align themselves with those whose goals and motivations match their own. That's why the accountants hang together in the break room, while developers talk shop and geek culture in a watering hole down the street. Yet the job of leaders is to build a cohesive, powerful, and enduring empire by bringing all groups together in service to a shared, inspiring mission. And that goes double for tech companies, where breakthroughs create new landscapes on a daily basis.
