Guitar for Beginners A Practical Guide To Teaching Yourself To Play Guitar In A Week Or Less Even If You've Never Seen (Or Heard) A Guitar Before In Your Life

If You're New To The Guitar and Want To Be Playing Your First Song In 7 Days or Less Then Keep Reading... Do you want to learn to play the Guitar? Do you want to do it in a fun and practical way? Do you want to be playing your first song by this time next week (or earlier)? If you're an aspiring Guitarist like I was, you probably answered yes to all of the questions. Now, learning the 'boring' parts like Music Theory and ALL Chords certainly has it's place, however, as a beginner what we want to do is PLAY Music, not theorize about it. That's why I'm so passionate about writing these books, to help aspiring Guitarists not go through the same boring fate I did. Not only that, I saw so many potentially great Guitarists give up because they couldn't deal with the mind-numbing teachings anymore. The funny thing is once you have hours and hours of playing time under your belt, learning the 'boring' parts isn't half as bad, as you know you're only doing it if it's essential to make you a better Guitarist. And, believe me, once you fall in love with playing and realize just how amazing playing your first full songs, or your first solo, or your all-time favorite song is, you will be a lot more motivated to sit down and learn the theory. But, as a beginner, you have no idea of the feeling playing can give you, so what you need first is that playing experience, and that's exactly what I'm here to give you. Oh, and you don't need to worry, this isn't a 24/7 all work, no play programme. Yes, you'll need to spend some time practicing, but it's the 21st Century, we have very busy lives, and I have busy lives, and I made all of the practices and learning as streamlined as possible for you! And, here's a slither of what you'll discover inside... The 7 MUST KNOW Chords For Any New Guitarist! (Without All The Fluff) The 3 Things You'll Want To Know Before Buying A New Guitar (Includes A Complete Buying Guide) A Proven Guide To Schedule Your Time To Maximize Your Results (We Don't All Have Endless Time To Practice Unfortunately) The Absolute Essentials To Guitar Maintenance And Why You're Potentially Wasting \$100's If You Ignore This The Bare Essentials Of Reading Music The Right Way, Without Boring You To Death 2 Tips That Could Prevent You From Wasting Hours Getting Nowhere With Your Practice 3 Tips For Preparing For Your First Song How Listening To Music Can Help You Rapidly Develop Your Skills An Easy Solution To Prevent The Dreaded Newbies Finger Pain... And that is a tiny fraction of what you're getting. Even if you've NEVER picked up a Guitar in your life, even if you have no idea how to even pick or tune a Guitar and even if you don't know the difference between a chord and a scale this Practical Beginners

Guide will have you playing your first song in 7 days or less! (All for the price of a few cups of Coffee, I think that's a fair deal) So, If You Want A Fun And Practical Way To Actually Learn Guitar Without All The Boring And Mind-Numbing Parts Scroll Up And Click "Add To Cart."

How to Play Guitar

What drives you to get your first electric guitar? Who inspires you to start playing? For me, it was Metallica's lead guitarist Kirk Hammett. I couldn't imagine that it's possible to play his solo, but... let's go to your motivation! According to Fender's research, about 90% of beginner guitarists leaving their instruments on the shelves after the first year of playing. Well, but this year can bring something incredible in our lives. And these first steps must be cool. It's so necessary to have fun and feel positive feedback from practicing at the beginning. You must love your first electric guitar to feel good. Your musical preferences might change during your initial education, most likely your musical vocabulary will grow faster than you can afford a new instrument. So, the first baby is something you have to fall in love with. The world of electric guitars is for the geeks now-days. Search a little bit about this industry, you'll be surprised that industry is struggling sometimes. Yes, electric guitar - is the live, natural instrument. You have to play it. It doesn't play itself. If you want to buy an electric guitar, not a synth or software - you want to join the great world of the real culture. What is the future of electric guitars - I don't know. But I strongly believe and know that learning to play electric guitar makes our life better and richer. I wish all folks reading this book to be able to buy as many electric guitars as needed, but let's focus on the one. Your first electric guitar. Well, the universe of electric guitars is mature, a variety of instruments on the market is huge. However, the structure of this universe is pretty elegant and simple. We'll be clear on that and why to buy at the beginning. I've started as a student in classical guitar, music school graduated. Well, something deep inside always told me what I wanted more and different. I was too young when the first time I've discovered Metallica on my friend's older brother's cassette recorder! I can't express how I was amazed! No surprise that later Kirk Hammett became my guitar hero. And still remains the one of the greatest on my own guitar Heroes Olympus (yes, not only Kirk)! Well, I guess that there are multiple factors can influence you and inspire the start playing. Dive deep into your feelings, what's where? My most powerful motivator - my Heroes. Who's yours? I recommend to read and watch as many materials about your guitar hero as possible before you get your guitar. Why? Because you'll wish your Heroes electric guitar! It's so powerful, feel this? Learn more and more about Hero and you'll understand why Hero plays this instrument. What's interesting - at first glance, all electric guitars are the same instruments. Body, neck, can plugin into an amp and play with the effects - what else? The physics is the same - convert sound waves into electric. Where is the difference? I'd prefer to compare this case with cars. Let's go and explore the difference!

Guitar for Kids

When a person wants to start a new hobby, the most difficult part is getting started. We all need some guidance. Someone or something to push us in the right direction, to help us when we are making mistakes. It's hard to find information on buying guitars and what to look out for. It's difficult to know which songs you'll be able to play once you've memorized your chords and which songs need more practice. When I was new to guitar playing, I was fortunate enough to have people who helped me, but I realized that some people weren't as fortunate. That is the purpose of this book. Inside you will find everything you need to know to get started. I will guide you through buying your first guitar, learning your first chords, give you some exercises to get those fingers flexible and even some facts that few people know. This book contains every chord a beginner needs as well as a list of songs you will be able to tackle once you've learned everything in the book. Playing the guitar is supposed to be fun. It's an escape; a portal to another world. This book makes it as fun and easy as possible to get started.

First Electric Guitar

Hailed by Guitar Player magazine as "perhaps the finest book on guitars ever produced," and by Booklist as "a Rolls Royce of construction guidebooks," this impressive volume is the first book of its kind to describe in depth how both steel-string and classical guitars are actually designed and built. Over 450 photographs, drawings, and diagrams reveal in exquisite detail the hows, whys, and how-to's of the traditional craft of guitarmaking, all accompanied by fascinating historical and technical notes. A comprehensive bibliography; a list of tools, materials, and supply sources; and a full index complete this uniquely authoritative reference -- and essential acquisition -- for guitar and craft enthusiasts, woodworkers, and students of instrument making everywhere.

How to Play Guitar

It Took Me 3 Months to Play My First Song - But You'll Be Doing That in Less Than A Week. It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided - like every other person to ever pick up the guitar! I took the "traditional" method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and learning boring theory. This book is here to end that - to simplify things - to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days. How can this book do that? You would have heard people say - "You need to learn theory to be a real guitarist" Well..... Wrong! Not everyone needs to know theory - why do you need to learn all the boring theory if it's of no use to you? Why is this forced upon all guitarists? This book cuts out all the cr*p and gives you a streamlined process of mastering guitar. Even if you failed every exam at school and you have never picked up a single instrument in your life, you will be able to become a proficient guitar player without years and years of expensive guitar lessons. With the right strategy, you will get addicted to your guitar and the songs you are able to play. How long will I have to practice? Now, I know you have other commitments in life and cannot spend 25 hours a day practicing guitar. No one wants to do that. This book has been designed with exactly that in mind. It will give you goals for each of your 7 days with step by step instructions on what to play each day. You won't have to worry if you're practicing too less or too much - the book will tell you what you need to be accomplishing each day. Commit a few hours a day for 7 days and you'll make your friends and family jealous when you pull your guitar out. It doesn't matter if you just enter primary school or you are about to retire. This calculation applies to all 6.8 billion people between 6 and 80 years of age in this world. In Guitar for Beginners, you'll discover: A practical day-by-day guide to own yourself and your guitar in less than 7 days How you be your guitar teacher and progress into the league of the big players The chords that will allow you to play your favorite songs A beyond beginners' guide to prepare you for your musical journey Free audio tracks to help you with the charts Real photos to make sure you are not making any mistakes as you go And much more. Many people buy a guitar and just look up their favorite songs on Youtube tutorials. Unfortunately, one of the most frustrating things about learning to play guitar is ironing out old mistakes. Don't skip the basics and pick up bad habits that will become almost impossible to break later. If you want to throw out your air guitar and impress everyone with your guitar skills, then scroll up and click the "Add to Cart" button right now.

Beginner's Guide to Electric Guitar is all you need to start playing electric guitar. With an easy-to-understand and down-to-earth tone, this book gets to the important stuff first and doesn't bog you down with all the details. Learn all about the different types of electric guitars, amplifiers, and effects, and learn how to play like Led Zeppelin, The White Stripes, Black Sabbath, Pink Floyd, Green Day, Metallica, Nirvana, Rage Against the Machine, Jimi Hendrix, AC/DC, Alice in Chains, and more. To keep things simple, the music examples are written in TAB only and are designed to get you playing quickly---from riffs on a single string to power chords, pentatonic scales, and tunes in drop-D tuning. The accompanying CD features a full band to play along with.

The Justinguitar.Com Acoustic Songbook

This book and streaming video course is all that your children will ever need for getting started and having fun playing the most famous and cherished guitar songs! This book is a fun guide on the first steps of learning to play Guitar with over 70 photographic examples, purpose-made diagrams and cartoons. Starting with advice on buying your first guitar, how to hold the guitar and how to tune it, the music then begins with easy-to-play melodies using only open strings (open strings means only the plucking hand is used), before moving to simple pieces in which the fretting hand is also used. The book goes into detail for some basic techniques because you're better off getting it right from the start rather than develop bad habits. Tablature Based - it uses mostly guitar tablature making this popular instrument more easily accessible for beginners (as do most adult guitar method books). The rhythmical aspect of Sight-reading is covered within the Chords section which eases-in the later Sight-reading section because the only new thing to learn will be reading different notes from the musical staff. Audio Tracks - this Guitar Book For Kids comes with 47 downloadable audio tracks with musical pieces in styles such as Rock, Blues, Pop, Flamenco, Jazz and Reggae. Each piece has a full band demo track and accompanying backing track with guitar part removed for you to play over. What More? - EZ chords are covered (easy chords with less notes) and are accompanied with diagrams of the full versions for later on, or if you feel like a challenge. There's an introduction to Power chords with Rock pieces to play named after healthy greens "Broccoli Rockilly" and "Rocket Salad". There's a Blues and Rock duet with backing band tracks to play with a friend, and at the end there is a Quiz, no cheating! It is specifically crafted to suit the needs of all children beginning the guitar!

Beginner Guitar Lessons for Kids Ages 8-12

"A very comprehensive book containing chords from the beginning stages and beyond. Everything is very well explained with no stone left unturned. I'd highly recommend it to anyone who's starting out with the guitar." -- Nigel Elliott, Guitarist & Tutor (N.Ireland) Guitar Chords for Beginners contains 65 different chords arranged in easy fingerings. Technique: Fretting hand technique for playing guitar chords is looked at in detail with diagrams. Where necessary, some chords are taught incrementally because taking on only the harder aspects of a chord's fingering first means our hand is freer to adjust. Other chords are shown with different fingerings for you to choose which you prefer. Playing guitar chords may seem like a contortion for the hands of the beginner so there is some basic guidance on stretching to keep the hands flexible. Audio and More: Each guitar chord has a downloadable audio example enabling you to hear if you have played it right, or to hear what you need to work towards. There is an introduction to moveable power chords and barre chords, in which barre chords are shown

as easier cut-down versions of full barre chord shapes. At the back of Guitar Chords for Beginners there is a list of suggested songs that contain chords from within the book. Grab a copy today! "I like what's been put together! The information covered in technical issues for beginners especially explaining the difference between chords on piano and guitar is great. I think starting with the small position chords for C and G etc and building up to full position is also really important for beginners. The picture diagrams of hand position is a nifty feature, I know lots of beginners respond more to visuals and will often revert to looking at the hand pictures rather than the chord diagrams. Also think the added audio clips are a great feature so students can compare the sounds of their chords with the audio for reference. There could be a couple of chord progressions at the end of each section (Apart from the song suggestions at the end of the book) and strumming patterns. That would be an added feature that I think could work nicely, although this would make for a larger book and it is only £1.99 for the eBook. Otherwise I think what's been put together is great :)" -- Anthony Bierman, Bmus(Hons) Contemporary/Jazz Guitar (South Africa) "Looks fab. I particularly like the different ways of playing the A chord. The physical warm-up exercises for flexibility are also good. It is good that movable major and minor barre chords are shown as partial versions to make them initially easier, and beginners might find extra interest where near the back of the book easy open versions of other more exotic chords are shown, such as Dm(maj7), the "James Bond" chord." -- Campbell Murray, RGT & MU Registered Tutor (Scotland)

The Beginner Guitar Lessons for Kids Book with Online Video & Audio access by Jay Wamsted is designed to help the absolute beginning student learn to play the guitar. This step-by-step course is designed for elementary school-aged children (ages 5-11) and quickly teaches the student to play songs they will know and love. This method includes online access to video instruction that will help the child play with proper form and timing. The video shows the guitar, both hands, and the sheet music on-screen at the same time. The audio tracks allow the student to practice and play along with easy songs. The combination of book, video, and audio make this the easiest to understand guitar course for kids available.

Classical Guitar for Beginners

Would you like to learn to play the guitar like a superstar? I will not lie and tell you that it's going to be easy. But everyone has to start somewhere, and the best place for you to begin is right here with this book. Stop telling everyone how much you'd love to learn the guitar one day. Do yourself a favor and buy this book. There is no need to learn how to read sheet music, or memorize a bunch of complicated music theory. This book is easy to follow, even if you've never even held a guitar before. In these pages, you will learn: -The most essential parts of a guitar -How to correctly hold your instrument -Proper way to grip and use a pick -Tips for buying a guitar, no matter what your budget -Names of the strings of a guitar -How to read guitar tablature (also known as "tabs") -Beginner tunes to help you get started -Chords that you can use to make up your own songs -Guitar exercises to help you practice and develop your talent -Lots of inspiration from your friendly teaching guide You need to know all of the basics, before you can start to play your favorite songs, and show everyone how talented you really

are. That is where this book is a valuable tool, for absolutely anyone, no matter how little they know about guitar. Some guitar books try to tell you that it will be a piece of cake. They're advertised for total beginners. And then you look through the first few pages, and realize that you're expected to have a basic understanding of how guitars are played. You will not fall into that trap with Easy Guide to Playing the Guitar - it really is your easy, friendly, beginner guide. Why not get started with the guitar today, and stop just wishing that you could play.

Guitar For Beginners

(Music Sales America). You can take up the piano at any age with this complete, user-friendly course by Carol Barratt. Whether you're starting from scratch, or starting again, this course has been designed to guide you gently into playing simple tunes from day one. Containing familiar favorites from the classical repertoire, themes from opera and ballet, folksongs and blues, plus music by contemporary classical composers. Including fascinating items of musical history and biography, an easy-to-follow introduction to the theory of music, and suggested listening to enhance your musical appreciation. Free dummy keyboard included for silent practice, group teaching, and theory work. Book 1: Starting to Play-You'll soon be playing more than 40 piano pieces and exercises. Book 1 introduces the keyboard, the musical alphabet, terms and signs, as well as note values and time signatures. Book 2: Building Your Skills - More than 20 piano pieces for you to play, ranging from "The Entertainer" to "The Blue Danube," plus more information on music theory, expression marks, and terms and signs. Book 3: Making Music - You will play over 20 piano pieces, including music by Verdi, Chopin, Grieg, Handel, Saint-Saens, and Tchaikovsky. More theory points are incorporated, and you'll be playing the blues!

Guitar for Kids

It wasn't because I was slow or bad at guitar. Neither was it because I practiced less. I was simply misguided - like every other person to ever pick up the guitar! I took the "traditional" method of learning where you learn all the chords and all the theory behind it before you get to the fun part. This also involves months of practice and learning boring theory. This book is here to end that - to simplify things - to make things so simple that you'll be playing your first melody on day 1 and your first song within 7 days.

Beginner Guitar Lessons for Kids Book with Online Video and Audio Access

The Art Of Lutherie offers a glimpse into the mind and craft of luthier Tom Bills, whom many consider to be one of the most talented luthiers today. In this beautifully written and enjoyable read, Tom elegantly and clearly shares his best-kept secrets and methods of custom guitar making - those which make his guitars favorites among top collectors and players. Tom's unique approach to The Art Of Lutherie will empower and inspire you to create more than just a guitar, but a truly unique work of art. The information that is generously shared within this insightful and timeless work is both practical and applicable. It contains the same hard-won wisdom that only comes from years of experience and experimentation that Tom uses in creating his inspiring instruments. Over the years, he has produced instruments considered to be some of the best sounding guitars ever made. Learning the steps of how to build a guitar is important, but understanding why master luthiers take those steps and make those decisions can empower you to make your own educated choices. This will allow you to create unique guitars, and the world needs your art, your guitars - your important contribution. The Art Of Lutherie, a truly unique and inspiring guide, can prepare you to reach new heights when designing and creating unique guitars. It is not often I heap such lavish praise on people; however, Tom is in this case more than deserving: I know of no other luthier whose work I respect more. Tom knows his craft inside and out; he pours his soul into every guitar he makes; he uses cutting-edge science to guide his work, and it shows...as head of Artist Relations and Product Development at Mel Bay, it gives me great pleasure to publish Tom's work, which will no doubt take the art of lutherie to a new level. I hope you'll spend some time soaking in this book - it will certainly augment your musicality - Collin Bay. Includes access to online video

The tarot is an ancient art, dating back at least to the mid-fifteenth century, and reading the tarot is a skill that can be learned and ultimately mastered. While there are many books and decks for the advanced tarot enthusiast, there is very little for the less advanced. Now there is *The Beginner's Guide to the Tarot*, a book and card set designed specifically for the novice. In the fully illustrated, 192 page book, noted tarot expert Juliet Sharman-Burke leads the reader through the cards and suits, the Minor and Major Arcana, and the major layouts for the complete 78 card deck. The book is packed with a newly designed and illustrated deck which draws upon both traditional and modern tarot iconography and is rendered in a clear, distinctive style.

Learning the Tarot

Learning the Tarot, Joan Bunning offers a complete course in 19 lessons that covers the basics and then gradually goes into more advanced concepts. First published in 1998, Joan Bunning's *Learning the Tarot* has become a tarot classic. Written in a confident and natural style, the book communicates the basic depth and beauty of each card, shows how the cards trigger psychological projection, and enhances intuition. *Learning the Tarot* is a thorough (but never overwhelming) invitation to the beginner. The book focuses in detail on: the actual process of discovering meaning in the cards; how to consider one card by itself, how to look for card pairs; how to create the "story" of a reading. The book includes a convenient reference section that contains two pages of information for each card, including a picture from the popular Waite-Smith deck, a description, keywords, action phrases, and suggestions for cards with similar and opposite meanings. The author first presented this course online at learntarot.com, which continues to attract over one hundred thousand visitors per month. "When I first created my website in 1995," writes Joan Bunning, "I never dreamed how much interest in the tarot I would find. People from all over the world began writing to tell me about their experiences with the course and their adventures with the cards. This response was music to my ears! I knew from my own experience that the tarot is a wonderful tool for personal guidance and inner exploration. "My goal with this book was to give you the basics you need to begin working with the tarot on your own. I try to make this inner process understandable by breaking it up into a series of steps that are simple while still doing justice to the depth and beauty of the cards. I concentrate on the everyday, showing how the tarot makes real, practical sense in the modern world. The tarot is a living system that adapts creatively to each user. Rather than rules, I offer guidelines. While reading my book, I want you to feel that you have a teacher sitting next to you who is introducing you to this special tool, but also encouraging you to go on to discover your own unique approach to the cards."

The Ultimate Guide to Tarot

If you've ever been intrigued by the tarot but were confused by the complexities and vague interpretations given in most books—here is a simple and accurate guide to interpreting the tarot! With *Tarot Made Easy* you can easily interpret the meaning of any card and apply it to the particular circumstances of your life. With the simple process outlined here, you need only choose one tarot card and then consult one (or several) of the 32 categories listed under each card—including Romance, Travel, Career, Finances, Friends, and Special Guidance—to discover the card's specific message for you. For example, if you want to know about your romantic future and the Queen of Cups turns up, you may find that the standard description given is "an honest, devoted woman; loving intelligence and happiness." How should you interpret this? But with *Tarot Made Easy*, the Queen of Cups Romance category tells you that "someone will enter your life in whom you will be very interested...and you will meet this person very close to your home, if not outside your front door." This easy but accurate system banishes the vague interpretations found in most books and gives you the immediate, specific insights you need.

Beginner's Guide to Tarot

Everything You Need to Know to Begin Reading Tarot Cards For centuries, Tarot cards have been consulted for divination by those seeking answers from the unseen realms. The Tarot has been credited with illuminating solutions to major dilemmas, and even helping people avoid future misfortunes. The Tarot experience can indeed be empowering, bringing clarity to confusing situations and showing us that we have the ability to shape our future based on the choices we make in the present. Far more than mere "fortune telling," the Tarot is a tool for meditation and reflection, for seeing new angles that give way to broader perspectives about how we approach our lives. In this 2nd edition of Tarot for Beginners, best-selling author Lisa Chamberlain opens the door for newcomers to the Tarot in her trademark clear and straightforward manner. She dispels old myths and misconceptions about the Tarot, providing an objective look at its origins and its divinatory potential for 21st-century readers. Tailored especially for those who want to read the cards for themselves, this guide offers strategies for getting familiar with each card, a step-by-step breakdown of the process of a reading, options for tailoring the approach to suit your unique style, and advice for getting the most out of reading the cards for yourself. Most guides to the Tarot are centered on a specific deck, such as the Waite-Smith, the Tarot of Marseille, or other decks ranging from the well-known to the rather obscure. While these books can be useful and informative, their card interpretations are largely restricted to the particular deck they focus on. Tarot for Beginners takes a different approach, offering basic card meanings that can be applied to any deck, and used in tandem with any descriptions that accompany the deck you've chosen to work with. So no matter which Tarot deck you use, the information in this guide is relevant, providing a solid starting point for a skill you can carry with you for a lifetime. Foundations in the Art of Divination Tarot can be thought of as a kind of language through which we can hear and understand divine messages. This communication comes through the individual cards and through the symbolic system of the deck as a whole. Tarot for Beginners sets you up to learn this language with a thorough grounding in the key concepts surrounding the Tarot, including: The origins and evolution of the Tarot as a divinatory art A comprehensive overview of the Major, Minor, and Court Arcana Tips for choosing your first deck and getting acquainted with your cards Beginner tips and exercises for interpreting the cards Instructions for the basic 3-card spread and the 10-card Celtic Cross, two of the most widely-used spreads in contemporary Tarot A step-by-step process for conducting Tarot readings Advice on reading the cards for yourself Core meanings of each card in the standard Tarot deck The art of Tarot takes time and experience to master, and your willingness to study the cards, practice reading, and hone your intuition will be key to your development as a Tarot reader. Tarot for Beginners

Is tarot something that has fascinated you for a long time? When some people think of tarot reading, an image of that woman with weird-colored lipstick and scary eyes seated in a dimly lit room comes into mind. It's the kind of woman who seems to know more about you than yourself. That is not exactly true. Tarot reading should evoke images of a sacred place filled with peace and quiet where you can engage with the cards and understand yourself, your purpose, and your future better. Although there is an increasing acceptance of tarot reading thanks to the internet, there are still many misconceptions out there. In this guide, we will start in the past, looking at the history of tarot reading before observing the decks available. Tarot for Beginners

The Tarot hides a mysterious and wonderful world, rooted in the collective unconscious. They are much more than just a deck of cards for improvised magicians or charlatans ready to tap money from the unfortunate on duty. They are icons, archetypes that speak a language ignored by most of us, that of symbols. We have become so accustomed to the language of words that we forget that there are other forms of communication. Just think of art, which uses images to transmit messages. Is that why it is less effective? Absolutely not for those who are familiar with the language of symbols. Tarot for Beginners sets you up to learn this language with a thorough grounding in the key concepts surrounding the Tarot. Only through the study of the symbology hidden in the cards, we can learn its secrets, just as happens to a newborn child who takes his first steps into the world of words. Interpreting them favors the knowledge of oneself, acting on the awakening of ancestral memories and hidden aspects of our personality. Their symbolic language speaks directly to our unconscious, without needing to be filtered by word. Reading the Tarot and meditating on them therefore allows us to dialogue with the soul, with our deep self through the language of symbols. This book will open the door for newcomers to the Tarot in a trademark clear and straightforward manner, providing an objective look at its origins and its divinatory potential. With Tarot for Beginners You Will Learn: How to Start Your Journey to Tarot Reading The Meaning of All Cards and How to Interpret Them Beginner Tips and Exercises for Interpreting the Cards The Most Effective Method to Read Tarot Cards How to Read Cards for Yourself and Others How to Select a Tarot Deck The Art of Storytelling How to Create Your Own Cards ...And So Much More! No matter which Tarot deck you use, the information in this guide is relevant, providing a solid starting point for a skill you can carry with you for a lifetime. The psychoanalyst Carl Gustav Jung, who has always been interested in their symbology, gave an enlightening interpretation of them, to say the least, by dissecting their deep symbolic meaning. He defined them as "psychological images, symbols with which we play, as the unconscious seems to play with its contents. They are combined in certain ways, and the different combinations correspond to the joyful development of events in the history of humankind". For Jung, interpreting the Tarot helps us become familiar with the unconscious, to open a way towards it to raise us to a new level of awareness. Therefore the Tarot's figure speaks to our

soul and creates a bridge between reason and intuition. Tarot cards could help man through images to fix the understanding of the present, in its most elusive, remote, impulsive and unconscious aspects, both individual and collective. Only at this point does it become possible to reflect on the future, only by taking the current state of things in all its innermost complexity. Uncover the facts, myth, history, and mystery of the spiritual art of tarot reading. Whether you want to learn to read the cards or deepen your tarot interpretation skills, Tarot for Beginners honors the deep heritage of tarot, while guiding you through practical techniques. Discover fresh and modern interpretations of each card and gain insights into your inner self and your future. This accessible and easy guide teaches you how to unlock the secrets concealed within the tarot. An outstanding tarot reader for over forty-five years, Sasha Fenton brings her professional expertise to help beginners learn to read tarot for themselves and others. Her no-nonsense guidelines, combined with your own intuition, make reading the cards easy and fun. Fenton provides fresh and modern interpretations of each card, including their positive and negative implications, and what they mean when they are dealt in reverse. She includes multiple suggestions for spreads—from the simple to the complex—that can be used for general readings as well as focused readings to provide clarity and to resolve specific questions. Unique to this tarot guide, Fenton discusses how to link card interpretations together to create a full narrative in a reading. Included are tips and advice for purchasing and handling tarot cards, along with a brief history of their origin. Fenton includes a discussion of failed readings to help you understand why things sometimes go wrong and what to do about it. This book gives the beginner an ideal introduction to the tarot, and before long you will be ready to explore your inner self and your future, and that of others.
