Master Musicians; a Book for Players, Singers and Listeners

Excerpt from Master Musicians: A Book for Players, Singers and Listeners The only thing requiring to be said by way of preface to this book is, that it does not pretend to be critical. Technicalities have been expressly avoided. It is about the men themselves rather than about their music that I have chosen to write. Further, I have had in view the amateur rather than the professional, and the young reader rather than the adult. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Master Musicians

Rarely studied in their own right, writings about music are often viewed as merely supplemental to understanding music itself. Yet in the nineteenth century, scholarly interest in music flourished in fields as disparate as philosophy and natural science, dramatically shifting the relationship between music and the academy. An exciting and much-needed new volume, The Oxford Handbook of Music and Intellectual Culture in the Nineteenth Century draws deserved attention to the people and institutions of this period who worked to produce these writings. Editors Paul Watt, Sarah Collins, and Michael Allis, along with an international slate of contributors, discuss music's fascinating and unexpected interactions with debates about evolution, the scientific method, psychology, exoticism, gender, and the divide between high and low culture. Part I of the handbook establishes the historical context for the intellectual world of the period, including the significant genres and disciplines of its music literature, while Part II focuses on the century's institutions and networks - from journalists to monasteries - that circulated ideas about music throughout the world. Finally, Part III assesses how the music research of the period reverberates in the present, connecting studies in aestheticism, cosmopolitanism, and intertextuality to their nineteenth-century origins. The Handbook challenges Western music history's traditionally sole focus on musical work by treating writings about music as valuable cultural artifacts in themselves. Engaging and comprehensive, The Oxford Handbook of Music and Intellectual Culture in

the Nineteenth Century brings together a wealth of new interdisciplinary research into this critical area of study.

STORY-LIVES OF MASTER MUSICIANS

The World's Great Men of Music: Story-Lives of Master Musicians by Harriette Brower

The Oxford Handbook of Music and Intellectual Culture in the Nineteenth Century

The Central Blue Ridge, taking in the mountainous regions of northwestern North Carolina and southwestern Virginia, is well known for its musical traditions. Long recognized as one of the richest repositories of folksong in the United States, the Central Blue Ridge has also been a prolific source of commercial recording, starting in 1923 with Henry Whitter's "hillbilly" music and continuing into the 21st century with such chart-topping acts as James King, Ronnie Bowman and Doc Watson. Unrivalled in tradition, unequalled in acclaim and unprecedented in influence, the Central Blue Ridge can claim to have contributed to the musical landscape of Americana as much as or more than any other region in the United States. This reference work—part of McFarland's continuing series of Contributions to Southern Appalachian Studies—provides complete biographical and discographical information on more than 75 traditional recording (major commercial label) artists who are natives of or lived mostly in the northwestern North Carolina counties of Alleghany, Ashe, Avery, Surry, Watauga and Wilkes, and the southwestern Virginia counties of Carroll and Grayson. Primary recordings as well as appearances on anthologies are included in the discographies. A chronological overview of the music is provided in the Introduction, and the Foreword is by the celebrated musician Bobby Patterson, founder of the Mountain and Heritage record labels.

Master Musicians

This new book on Debussy's music comprises analytical studies of individual works not widely examined previously, including the *Fantaisie* for piano and orchestra, *La demoiselle élue*, *Nuages*, and *Gigues*. A discussion of the tonal structure of the first movement of *La mer* finds new relevance in the overused term symphonic in relation to Debussy's position in the history of French orchestral music. An extensive essay documents Debussy's aural images in his propensity for recycling his own musical ideas and quoting the music of other composers. A final lighthearted chapter, *Debussy and Ravel: How to Tell Them Apart*, systematically addresses this century-old critics' conundrum.

Story-lives of Master Musicians

Richard Wagner has arguably the greatest and most long-term influence on wider European culture of all nineteenth-century composers. And yet, among the copious English-language literature examining Wagner's works, influence, and character, research into the composer's impact and role in Russia and Eastern European countries, and perceptions of him from within those countries, is noticeably sparse. *Wagner in Russia, Poland and the Czech Lands* aims to redress imbalance and stimulate further research in this rich area. The eight essays are divided in three parts - one each on Russia, the Czech lands and Poland - and cover a wide historical span, from the composer's first contacts with and appearances in these regions, through to his later reception in the Communist era. The contributing authors examine his influences in a wide range of areas such as music, literary and epistolary heritage, politics, and the cultural histories of Russia, the Czech lands, and Poland, in an attempt to establish Wagner's place in a part of Europe not commonly addressed in studies of the composer.

Music and Musicians

If the invective of Nietzsche and Shaw is to be taken as an endorsement of the lasting quality of an artist, then Felix Mendelssohn Bartholdy takes pride of place beside Tennyson and Brahms in the canon of great nineteenth-century artists. Mendelssohn Perspectives presents valuable new insights into Mendelssohn's music, biography and reception. Critically engaging a wide range of source materials, the volume combines traditional musical-analytical studies with those that draw on other humanistic disciplines to shed new light on the composer's life, and on his contemporary and posthumous reputations. Together, these essays bring new historical and interpretive dimensions to Mendelssohn studies. The volume offers essays on Mendelssohn's Jewishness, his vast correspondence, his music for the stage, and his relationship with music of the past and future, as well as the compositional process and handling of form in the music of both Mendelssohn and his sister, the composer Fanny Hensel. German literature and aesthetics, gender and race, philosophy and science, and issues of historicism all come to bear on these new perspectives on Mendelssohn.

'A glorious plum-pudding of a book, to be consulted, with pleasure and profit, over and over again' Sir Jeremy Isaacs Michael Steen's 'Great Composers' was originally published in 2003. A lifetime's work and almost 1000 pages long, it has since become 'the' reference point and key read on the biographical backgrounds to classical music's biggest names. Authoritative and hugely detailed - but nonetheless a joy to read - this new edition will expand its readership further and capitalise on a newfound popular interest in classical music. Steen's book helps you explore the story of Bach, the respectable burgher much of whose vast output was composed amidst petty turf disputes in Lutheran Leipzig; or the ugly, argumentative Beethoven in French-occupied Vienna, obsessed by his laundry; or Mozart, the over-exploited infant prodigy whose untimely death was shrouded in rumour. Read about Verdi, who composed against the background of the Italian Risorgimento; or about the family life of the Wagners; and, Brahms, who rose from the slums of Hamburg to become a devotee of beer and coffee in fin-de-siecle Vienna, a cultural capital bent on destroying Mahler ... and much, much more.

Uniquely authoritative and wide-ranging in its scope, The Oxford Dictionary of the Christian Church is the indispensable one-volume reference work on all aspects of the Christian Church. It contains over 6,000 cross-referenced A-Z entries, and offers unrivalled coverage of all aspects of this vast and often complex subject, including theology, churches and denominations, patristic scholarship, the bible, the church calendar and its organization, popes, archbishops, saints, and mystics. In this revision, innumerable small changes have been made to take into account shifts in scholarly opinion, recent developments, such as the Church of England's new prayer book (Common Worship), RC canonizations, ecumenical advances and mergers, and, where possible, statistics. A number of existing articles have been rewritten to reflect new evidence or understanding, for example the Holy Sepulchre entry, and there are a few new articles. Perhaps most significantly, a great number of the bibliographies have been updated. Established since its first appearance in 1957 as an essential resource for ordinands, clergy, and members of religious orders, ODCC is an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.

FacultyAwards.org is the first and only university awards program in the United States based on faculty peer evaluation. Faculty Awards was created to recognize outstanding faculty members (as viewed

by their Faculty peers) at colleges and universities across the United States. Faculty members voted through the 2014-2015 academic year for their peers at their academic departments and schools within a number of categories. Access to FacultyAwards.org to nominate and vote for Faculty was limited to university professors or faculty members at accredited U.S. institution of higher education. Faculty members were nominated and voted for by other faculty members in their own academic departments and schools. We strove to maintain an accurate peer-review process. Voting was not open to students or the public at large. In addition, faculty members voted for educators only at their own college or university. Winners for the 2014-2015 academic year, in all departments and colleges across U.S. institutions of higher education were announced in March 2015 and are permanently archived at FacultyAwards.org, as well as recognized in this 2015 print edition of the Faculty Awards Compendium. For the academic year 2014-2015 votes were cast to nominate and vote for Faculty members, and no self-voting was allowed, to assure the integrity of the whole process. This volume of the Faculty Awards Compendium includes Faculty awardees within Fine Arts, Humanities, Liberal Arts and Social Sciences Disciplines for the 2014-2015 academic year. A total of 1608 winning Faculty members in 584 higher education institutions were determined after tallying the votes. We would like to thank all Faculty members who participated in the voting process and to wish all the Faculty awardees continued success in their academic endeavors. We look forward to resuming the voting process for the 2015-2016 academic year awards.

Spanning an entire century, the Anniversary Collection offers peer-reviewed scholarship in a wide range of subject areas.

Debussy and the Veil of Tonality

How have Handel's 'lives' in biographies and histories moulded our understanding of the musician, the man and the icon?

Wagner in Russia, Poland and the Czech Lands

Excerpt from *Modern Musicians: A Book for Players, Singers Listeners* This is a companion volume to the writer's *Master Musicians*, published in 1909. Like that work, it concerns itself rather with the musicians themselves than with their compositions or their achievements. It does not profess to be technical: indeed, it explicitly avoids the technical, though there is a perhaps excusable suggestion of the technical in the opening chapters. Moreover, the author does not claim to have made a complete, or probably even the best possible selection, of names. Space is limited; and to have included the names familiar to the musical public, would have meant the book resolving itself into a series of dictionary notices. That kind of thing was never in the author's mind, and is repugnant to him. Here, in a word, are simply some "chapters" in intimate musical biography; written in a popular style, and meant chiefly for popular reading. The collecting of materials has naturally been difficult, since, with one or two exceptions, no books have been published on the various personalities dealt with. I am greatly indebted to the musical magazines of the last ten or twelve years, and, especially as regards the violinists and 'cellists, to *The Strad*. I gratefully mention also the works of the American writer, Mr. Henry C. Lahee, on *Pianists, Singers, and Violinists*. Story-lives of Master Musicians

9th edition, 2019. A comprehensive list of books, articles, theses and other material covering the brass band movement, its history, instruments and musicology; together with other related topics (originally issued in book form in January 2009)

A Dictionary of Music and Musicians

Of the many brass bands that have flourished in Britain and Ireland over the last 200 years very few have documented records covering their history. This directory is an attempt to collect together information about such bands and make it available to all. Over 19,600 bands are recorded here, with some 10,600 additional cross references for alternative or previous names. This volume supersedes the earlier "British Brass Bands – a Historical Directory" (2016) and includes some 1,400 bands from the island of Ireland. A separate work is in preparation covering brass bands beyond the British Isles. A separate appendix lists the brass bands in each county

Story-Lives of Master Musicians

This updated second edition is an in-depth exploration of Elgar's compositions and of writings by and about the composer and his music. The past 16 years have seen a steady increase in scholarly publications and the emergence of The Elgar Society Journal, as well as further discoveries of the composer's MSS and letters, and the new edition incorporates this latest research. The compositions are examined in a work-by-work catalog, in chronological order, in which each entry gives a complete census and collation of manuscript, proof, text, biographical, printed edition and bibliographical sources for each item. The listing also includes unfinished sketches and details of much unpublished material. The bibliography section covers selected established literature as well as details of reviews and articles contained in the European periodicals at the climax of Elgar's career. Christopher Kent was nominated unanimously by the Scrutiny Panel of the International Association of Music Libraries, Archives and Research Centres for the 2014 C.B. Oldman Prize for the most outstanding reference resource published in 2014. He received the award at their Annual Conference held at the University of Aston, Birmingham in April.

Selected Poems : 1956-1996

With an astonishing command of nature imagery, from sparrows to mastodons, Philip Appleman can deftly weave into a single poem an intricate pattern of ideas drawn from evolution, humanism, anthropology, religious skepticism, and everyday experience. Appealing to reason as well as to emotion and imagination, he writes poems of lyrical intensity and remarkable narrative depth. He creates characters—Eve or Darwin or a failed priest—with such wit, compassion, and subtle humor that they live on the page and surprise us with new insights into joy and sorrow, life and death. Set on the beach at Malibu, in the port of Trieste, or in a Manhattan subway, his poems evoke genuine feeling with out sentimentality and transform the personal into the universal. Drawn from six previous books of poetry written over four decades, and with fourteen new poems, this collection shows the power and complexity of Appleman's wide-ranging talent.

Selected Poems, 1956-96

Poems discuss the lessons that can be learned from everyday life, evolution, Bible stories, and other subjects

Selected Poems, 1956-1996

Diary of Kate S. Carney, daughter of a merchant of Murfreesboro, Tenn., describing a stay with her sister in Yazoo County, Miss.; and life in Murfreesboro during the Civil War while the city was under U.S. Army occupation.

Ways and Weatherings

Poems discuss the lessons that can be learned from everyday life, evolution, Bible stories, and other subjects

New and Selected Poems

Now that he is eighty-four, Anthony Thwaite says that *Going Out* is likely to be the last book of poems he publishes in his lifetime, and that the title is apt. But the words are wistful, even playful, and that is true of some of the book's contents. The poems range over times and places, commemorating friends (especially the poet Peter Porter), and draw on memories, hard-won faith, self-questioning. As Michael Frayn has put it, Thwaite 'writes with simplicity and precision about difficult and ambiguous things, the complexity and unceasingness of the world, the vastness and richness of the past, the elusiveness of the present - and the heroic persistence of our efforts to fix some trace of all this.' -- from back cover.

Selected poems, 1956 - 1968

Features poems, written over a period of forty years. This title includes poems of a traveller and explorer - of the contemporary world and of the past - who brings back tales which tell us more each time we read them.

Equanimity

This collection of the poetic works of Anne Stephenson includes a full reprint of *Correspondences*, a form of historical narrative in letters, and selections from her six other volumes including *The Fiction-Makers*, which was a Poetry Book Society Choice in 1985.

New and Selected Poems

Irish Poetry since 1950 is a survey of poetry, from Northern Ireland, the Republic, Britain, and the US, covering the 1950s, the 1960s, the early period of the Troubles up to 1976, the 1980s and the 1990s.

Selected Poems, 1956-1976

Self-educated, intense, impulsive and unmoored, Joseph Brodsky emerged in mid-century Russia as a poetic virtuoso, recognized by such greats as Anna Akhmatova as their worthy heir. He was expelled from the Soviet Union in 1972. Together, the poems in this volume unfold the project that, as Brodsky saw it, the condition of exile presented- 'to set the next man - however theoretical he and his needs may be - a bit more free'. This edition includes poems translated by Derek Walcott, Richard Wilbur and Anthony Hecht, and poems written in English or translated by the author himself. It surveys Brodsky's tumultuous life and illustrious career, and presents many of the poems that secured his reputation as one of the century's major voices.

Selected Poems 1956-1995

In the last fifty years Irish poets have produced some of the most exciting poetry in contemporary literature, writing about love and sexuality, violence and history, country and city. This book provides a unique introduction to major figures such as Seamus Heaney, but also introduces the reader to significant precursors like Louis MacNeice or Patrick Kavanagh, and vital contemporaries and successors: among others, Thomas Kinsella, Paul Muldoon and Nuala Ni Dhomhnaill. Readers will find discussions of Irish poetry from the traditional to the modernist, written in Irish as well as English, from both North and South. This Companion, the only book of its kind on the market, provides cultural and historical background to contemporary Irish poetry in the contexts of modern Ireland but also in the broad currents of modern world literature. It includes a chronology and guide to further reading and will prove invaluable to students and teachers alike.

Selected Poems, 1956-1968

Provides up-to-date profiles on the careers of leading and emerging poets.

Selected Poems, 1956-1975

The first Nobel Prize in literature to be awarded to a Latin American writer went to the Chilean poet Gabriela Mistral. Famous and beloved during her lifetime all over Latin America and in Europe, Mistral has never been known in North America as she deserves to be. The reputation of her more flamboyant and accessible friend and countryman Pablo Neruda has overshadowed hers, and she has been officially sentimentalized into a "poetess" of children and motherhood. Translations, and even selections of her work in Spanish, have tended to underplay the darkness, the strangeness, and the raging intensity of her poems of grief and pain, the yearning power of her evocations of the Chilean landscape, the stark music of her Round Dances, the visionary splendor of her Hymns of America. During her lifetime Mistral published four books: *Desolation*, *Tenderness*, *Clearcut*, and *Winepress*. These are included in the "Complete" Nobel edition published in Madrid; the *Poem of Chile*, her last book, was printed years after her death. *Le Guin* includes poems from all five books in this volume, with particular emphasis on the later work. The intelligence and passion of *Le Guin's* selection and translation will finally allow people in the North to hear the originality, power, purity, and intransigence of this great American voice. *Le Guin* has published five volumes of her own poetry, an English version of Lao Tzu's *Tao Te Ching*, and a volume of mutual translation with the Argentine poet Diana Bellessi, *The Twins*, the *Dream/Las Gemelas*, *El Sueño*. Strongly drawn to Mistral's work as soon as she discovered it, *Le Guin* has been working on this translation for five years.

New and Selected Poems

The Oxford Handbook of Modern Irish Poetry consists of 40 essays by leading scholars and new researchers in the field. Beginning with W.B. Yeats, the figure who towers over the century's poetry, it includes chapters on the major poets to have emerged in Ireland over the last 100 years.

Going Out

This volume is a much-needed new selection of Seamus Heaney's work, taking account of recent volumes and of the author's work as a translator, and offering a more generous choice from previous volumes. *Opened Ground: Poems 1966-1996* comes as close to being a 'Collected Poems' as its author cares to make it. It replaces his *New Selected Poems 1966-1987*, giving a fuller selection from each of the volumes represented there and adding large parts of those that have appeared since, together with examples of his work as a translator from the Greek, Latin, Italian and other languages. The book concludes with 'Crediting Poetry', the speech with which Seamus Heaney accepted the 1995 Nobel Prize in Literature, awarded to him, in the words of the Swedish Academy of Letters, for his 'works of lyrical beauty and ethical depth'.

Selected Poems, 1956-1996

"This first substantial presentation of Aygi's poetry to the English-speaking world, with original texts and facing translations, and the translator's critical introduction, end notes and close readings of three poems, draws on each of the mature poem-sequences."--BOOK JACKET.

Collected Poems (1956-1976)

A comprehensive study of Darwin's legacy for religion, ecology and the arts. Includes over 50 complete poems and long extracts with an interpretative framework and close readings. Poets examined include Tennyson, Browning, Hardy, Frost, Ted Hughes, Patti

Selected Poems 1956-1986

Marking the 250th anniversary of his birth, this wide-ranging, interdisciplinary study reassesses Thomas Malthus's contested achievements and legacies.

Collected Poems, 1908-1956

Derek Mahon is one of the leading poets of his time, both in Ireland and beyond, famously offering a perspective that is displaced from as much as grounded in his native country. From prodigious beginnings to prolific maturity, he has been, through thick and thin, through troubled times and other, a writer profoundly committed to the art of poetry and the craft of making verse. He has also been no-less a committed reviser of his work, believing the poem to be more than a record in verse, but a work of art never finished. This virtuoso study by Hugh Haughton provides the most comprehensive account imaginable of Mahon's oeuvre. Haughton's brilliant writing always serves and illuminates the poetry, yielding extraordinary insights on almost every page. The poetry, its revisions and reception, are the subject here, but so thorough is the approach that what is offered also amounts indirectly to an intellectual biography of the poet and with it an account of Northern Irish poetry vital to our understanding of the times.

Irish Poetry Since 1950

Winner of the Weidenfeld Translation Prize and the Premio Montale, an acclaimed translation of Italy's greatest modern poet Eugenio Montale is universally recognized as having brought the great Italian lyric tradition that begins with Dante into the twentieth century with unrivaled power and brilliance. Montale is a love poet whose deeply beautiful, individual work confronts the dilemmas of modern history, philosophy, and faith with courage and subtlety; he has been widely translated into English and his work has influenced two generations of American and British poets. Jonathan Galassi's versions of Montale's major works--*Ossi di seppia*, *Le occasioni*, and *La bufera e altro*--are the clearest and most convincing yet, and his extensive notes discuss in depth the sources and difficulties of this dense, allusive poetry. This book offers English-language readers uniquely informed and readable access to the work of one of the greatest of all modern poets.

The Road Taken

Today, Cavafy is recognized as a major figure in modern European poetry. Originally issued in 1998, the present volume was the first translation of his poetry to be made by an Irish poet.

Selected Poems, 1968-1996

Explores the work of Maurice Kenny, a pivotal figure in American Indian literature from the 1950s to the present.
