Remote Viewing UFOS and the VISITORS

"Since 1460 BC, UFOs have been documented and recorded by witnesses all over the world. What are these mysterious objects of unknown origin? Where do they come from and more importantly... ..why are they here? This book provides some answers to these and many other questions using Remote Viewing – A psychic functioning protocol developed by the U.S. Military and supported by the US Government and numerous intelligence agencies including the CIA, to the tune of \$20 Million USD for over 22 years. Read exclusively for the first time what a former U.S Military Intelligence Officer and arguable the world's top Remote Viewer, Joseph W. McMoneagle discovered when tasked double blind with famous UFO cases that have baffled skeptics and believers for decades."--amazon.com

Visitors

Suppose you could communicate with a visitor who was not from this place, time-space or even this dimension? What would you want to ask them? The answers probably lie in what our own response would be if we were them. This book is based on a collection of interviews I have had with a few individuals who may have actually had such an experience. The idea is that if enough of us are ready to ask the questions and gain the answers, then our collective knowledge and understanding of the "multiverse" about us can only continue to be enhanced. Sometimes the responses that you will read here are similar; often they are diametrically opposed to each other. An open but highly skeptical mind is extremely necessary if you are going to sift through the data that is presented in this book. The intent is that it should peak your curiosity to learn more about "visitors." In this way, we may be better informed and prepared, and thus in some sort of coherent shape to deal with their arrival. If you read this book, you must be well prepared to choose for yourself what you will or will not believe.

The Fast Movers

New Evidence that UFOs are among us...Prepare to be amazed at stunning proof the UFOs not only exist, but they are among us on a constant basis. In this collaborative effort, three seasoned UFO investigators share their independent investigations, experiences, and opinions, along with

photographs of multiple high-speed UFOs that Kay coined "The Fast Movers." These objects are normally invisible to the naked eye, but can be captured on film, and with practice, the viewer can learn how to see them. The reader will learn techniques for capturing these extremely fast-moving inter-dimensional craft using the Quantum UFO Observation Technique with a video or still camera, and find out how to see the craft using Quantum Telepathy or Remote Viewing with the naked eye. See photos taken by Bill Spicer and Wayne Lawrence along with other witnesses, including NASA and the U.S. Navy. The proof is undeniable, and the conclusion is clear - we are not alone, and THEY ARE HERE.

Penetration: Special Edition Updated

****UPDATED WITH NEW MATERIAL FOUND IN HAROLD SHERMAN'S ARCHIVES***** Ingo Swann -- renowned psi researcher -- reveals a long-held secret series of experiences with a "deep black" agency whose apparent charter was simple: UFOs and extraterrestrials on the moon and worries about ET telepathic/mind control powers. The agency was so secret that it had no paper trail, and hence no written secrecy agreements. Only the verbal ones, which in Ingo's case expired several years ago. Now, in this era of burgeoning UFO "glasnost," he tells a story of meetings held in a secret underground facility not far from Washington DC, and of being taken to a remote location near the Arctic Circle to witness the expected arrival of a huge UFO over the surface of an Alaskan lake. This book discusses undeveloped human telepathy and contrasts it with the probable existence of fully developed alien telepathy, which may have many different forms. Ingo also explores the fact that we officially know far more than we're admitting about the Moon -- its origins, its atmosphere, its occupants and many other unusual features. Penetration is about one of the means by which we can learn more about those not of this earth (and vice-versa) -- telepathy. Do we have the means to answer some very important questions that many have been asking for quite a long time? Inside this book are the answers to some. PLUS...In a newly discovered missing chapter on his psychic probes of Mars ("9") to Penetration, Ingo asserts that there is a bigger question at play -- the question as to "why do mass-consciousness humans, as it were, mass-consciously almost 'conspire' to avoid certain issues, and consistently so?" This inquiry, deep within Ingo's own awareness, is one that he would ponder until his passing in 2013. He no doubt wished to share this interrogation with the world back in 1998. Thus, while Neptune goes direct in Pisces, removing the veils, and providing an awakening of sorts, we have decided put Ingo's question to the world by including "9" along with Introductions by Dr. Krippner and Dr. Mitchell, an Afterword by Thomas M. McNear, Lieutenant Colonel, U.S. Army (Ret.), and recently discovered documents from Harold Sherman's Archives in this Updated Special Edition, all within an aptly named section entitled Subscript.

Remote Viewing Secrets

Remote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability so that ordinary people can learn to do what "psychics" do. This book teaches you how to teach yourself. McMoneagle believes that anybody can be trained in remote viewing (no psychic gifts required). However, it requires a huge commitment and a highly disciplined mind. Using the analogy of martial arts, McMoneagle sees RV training in levels, starting with white belt where viewers can expect to see a gestalt (an overall impression) of a target. By the time readers reach the red-black belt great master, McMoneagle claims they will have gained "a near-perfect union of one's paranormal talent blended within extant reality. People who reach this level no longer have to think about it, they simply do." Although readers won't become great masters by reading this one book, McMoneagle does provide a comprehensive training program as well as important chapters on the ethics, protocol, and applications of remote viewing. McMoneagle is the authority in this area. He learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the Legion of Merit for his contribution to various intelligence operations.

The Uninvited: A True Story

First published in 1979 - The Uninvited is the true story of an ordinary family living in South Wales who found themselves entangled in a series of unearthly encounters in 1977. At first the manifestations were minor. UFOs were sighted in the area, huge burnt patches were found in the fields, television

sets and cars blew all of their wiring...but before long the Coombs family was visited by weird lights, huge white figures and a glowing disembodied hand. Their lives were disrupted and they were terrified by something unidentifiable and unimaginable. They were a focus for *The Uninvited*. For the first time, the book has been revised, fixed and renewed with all new additional content and digitally enhanced photographs.

Rocket Dreams

In 1958, mankind's centuries-long flirtation with space flight became a torrid love affair. For a decade, tens of millions of people were enraptured -- first, by the U.S.-Soviet race to the moon, and finally, as America outstripped its rival, by Project Apollo alone. It is now more than three decades since the last man walked on the moon...more time than between the first moonwalk and the beginning of World War II. Apollo did not, as had been promised by a generation of visionaries, herald the beginning of the Space Age, but its end. Or did it? Project Apollo, like a cannonball, reached its apogee and returned to earth, but the trajectory of that return was complex. America's atmosphere -- its economic, scientific, and cultural atmosphere -- made for a very complicated reentry that produced many solutions to the trajectory problem. *Rocket Dreams* is about those solutions...about the places where the space program landed. In *Rocket Dreams*, an extraordinarily talented young writer named Marina Benjamin will take you on a journey to those landing sites. A visit with retired astronauts at a celebrity autograph show is a starting point down the divergent paths taken by the pioneers, including Edgar Mitchell, founder of the "church" of Noetic Sciences. Roswell, New Mexico is a landing site of a different order, the "magnetic north" of UFO belief in the United States -- a belief that began its most dramatic growth precisely at the time that the path of the space program began its descent. In the vernacular, the third law of motion states that what goes up, must come down. Thus the tremendous motive force that energized the space program didn't just vanish; it was conserved and transformed, making bestsellers out of fantasy literature, spawning Gaia, and giving symbolism to the environmental movement. Everything from the pop cultural boom in ufology to the worldwide Search for Extra-Terrestrial Intelligence (SETI) feeds on the energy given off by America's leap toward space. *Rocket Dreams* is an eloquent tour of this Apollo-scarred landscape. It is also an introduction to some of the most fascinating characters imaginable: Some long dead, like the crackpot visionary Alfred Lawson, who saw in space flight a new stage of human evolution ("Alti-Man"), or Robert Goddard, the father of rocketry, whose workshop in Roswell stands only half a mile from shops selling posters of alien visitors. Others are very much alive -- like Stewart Brand, creator of the Whole Earth Catalog and partner with Gerard O'Neill in the drive to build free-floating space colonies, and SETI astronomer Seth Shostak, who has spent decades listening to the skies, hoping for the first contact with another intelligent species. Perceptive, original, and wonderfully written, informed by history, science, and an acute knowledge of popular culture, *Rocket Dreams* is a brilliant book by a remarkable talent.

Reading the Enemy's Mind

If you thought *The Manchurian Candidate* was fiction or John Farris's *The Fury*, which featured a CIA mind-control program run amok, was the stuff of an overheated imagination, you were sorely mistaken. From behind the cloak of U.S. military secrecy comes the story of Star Gate, the project that for nearly a quarter of a century trained soldiers and civilian spies in extra-sensory perception (ESP). Their objective: To search out the secrets of America's cold war enemies using a skill called "remote viewing." Paul H. Smith, a U.S. Army Major, was one of these viewers. Assigned to the remote viewing unit in 1983 at a pivotal time in its history, Smith served for the rest of the decade, witnessing and

taking part in many of the seminal national-security crises of the twentieth century. With the Star Gate secrets declassified and the program mothballed by the Central Intelligence Agency, the story can now be told of the ordinary soldiers drafted onto the battlefield of human consciousness. Using hundreds of interviews with the key players in the Star Gate program, and gathering thousands of pages of documents, Smith opens the records on this remarkable chapter in American military, scientific, and cultural history. He reveals many secrets about how remote viewing works and how it was used against enemy targets. Among these stories are the search for hostages in Lebanon; spying on Soviet directed energy weapons; investigating the bombing of Pan Am Flight 103 over Lockerbie, Scotland; tracking foreign testing of weapons of mass destruction; combating narco-trafficking off America's coasts; aiding in the Iranian hostage situation; finding KGB moles in the CIA; pursuing Middle East terrorists; and more. Between the lines in the official records are revelations about unrelenting attempts from within and without to destroy the remote viewing program, and the efforts that kept Star Gate going for more than two decades in spite of its enemies. This is a story for the believer and the skeptic---a rare look at the innards of a top secret program and an eye-opening treatise on the power of the human mind to transcend the limitations of space and time. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Secret Influence of the Moon

The Moon is not a cold, dead rock but a rich, fascinating world just as alive as Earth • Investigates the Moon as the home of an alien intelligence who controls humanity • Examines several of NASA's Apollo missions and the findings they concealed • Reveals the many holes in the "Giant Impact" theory about the Moon's origins and the evidence for a hollow, artificial Moon • Explores the deep influence of the Moon on the collective mind of humanity and occult teachings about the Moon from the Qabalah, tarot, and other sources Despite being the most prominent celestial body after the Sun, the Moon has many qualities that science has yet to explain. Lunar rock samples reveal the Moon once had a magnetic field like the Earth, and seismic experiments by NASA suggest the Moon is at least partially hollow. For centuries people have observed lights, moving clouds and shadows, and even the disappearance of entire craters via telescope. Apollo astronauts repeatedly felt the presence of a "non-human intelligence" during their Moon visits, and many indigenous traditions speak of malevolent visitors from the Moon. A growing body of astrophysical and geological evidence shows the Moon is not an entirely natural world--that someone or something altered it long ago. Louis Proud explores the phases and movements of the Moon along with its ancient and mysterious features--its craters, maria, rilles, tunnels, and domes. He examines several of NASA's Apollo missions, showing not that NASA faked the Moon expeditions but that they concealed what the astronauts found there. He explains the many holes in the commonly accepted "Giant Impact" theory of the Moon's origins and reveals the evidence for a hollow, artificial Moon placed in orbit eons ago to observe Earth. Examining the deep influence of the Moon on the collective mind of humanity, Proud looks at what the Qabalah, the tarot, and other occult traditions say about the Moon and interprets G. I. Gurdjieff's teachings that "we are food for the Moon." He investigates the Moon as a gateway to another realm, as the Purgatory of Christianity, and as the home of an alien intelligence who controls and exploits humanity. Examining the Moon from both scientific and esoteric perspectives, Proud shows the Moon is not a cold, dead rock but a rich, fascinating world just as alive as Earth.

UFOs

Unidentified phenomena in space, in the Earth's atmosphere, and in waters are too important to leave their exploration to the military and scientific laypersons. Their proper scientific study is important for a variety of reasons; in particular, scientists and the public at large need to know the basic facts, to be informed about the way evidence is recorded, and to understand the difference between reliable evidence and fiction, as well as between plausible explanations and fantasy. With this objective, the book surveys the history of UFO observations, the variety of recorded phenomena, and recounts the efforts of investigative commissions and their published findings. Although wild rumors are demystified in the process, this is not an exercise in rumor-bashing. An open and at the same time critical mindset is the key. Many narratives and hypothesis appear implausible relative to our present state of knowledge; but this alone should not lead to their outright exclusion. Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology. Here the reader will encounter some of the more speculative but scientifically tenable proposals, for example, relating to sudden zigzag motion without apparent inertia or recognizable propulsion, yet always with a clear guide to their plausibility. Last but not least, the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences, outer-space engineers, or technologies so far known only from science fiction.

Identified Flying Objects

Could “UFOs” and “Aliens” simply be us, but from the future? This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants, using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past. Dr. Michael P. Masters, a professor of biological anthropology specializing in human evolutionary anatomy, archaeology, and biomedicine, explores how the persistence of long-term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc-shaped craft, which are likely the very devices that allow our future progeny to venture backward across the landscape of time. Moreover, these extraterrestrials are ubiquitously described as bipedal, large-brained, hairless, human-like beings, who communicate with us in our own languages, and who possess technology advanced beyond, but clearly built upon, our own. These accounts, coupled with a thorough understanding of the past and modern human condition, point to the continuation of established biological and cultural trends here on Earth, long into the distant human future.

Project Beta

The shocking true story of the United States government's quest to hide the reality of extraterrestrial contact, even at the cost of its citizens. In 1978, Paul Bennewitz, an electrical physicist living in Albuquerque, New Mexico, became convinced that the strange lights he saw hovering in the night sky were extraterrestrial. He reached out to newspapers, senators, and even the president before anyone responded. Air Force investigators listened to his story, as did Bill Moore, the author of the first book on the infamous Roswell UFO incident. Unbeknownst to Bennewitz, Moore was hired by a group of intelligence agents to keep tabs on Bennewitz while the Air Force ran a psychological profile and disinformation campaign on the unsuspecting physicist. In return, Air Force Intelligence would let Moore in on classified UFO material. What follows is a scandalous true tale of disinformation, corruption, and exploitation, all at the hands of the United States intelligence community.

Ancient Aliens in the Bible

“Starting from the Old Testament these pages address the story of what is often not highlighted or, worse, deliberately forgotten or interpreted differently in order to conceal the potential disruptive effects.”—Mauro Biglino Did a distant race of ancient aliens once inhabit the lands of the Bible? Do the ancient writings of the Bible and other texts provide proof of their existence? Did the “prophets” have close encounters with ancient aliens? Were the “angels” physical beings sent to perform specific tasks by their alien masters? Ancient Aliens in the Bible answers these questions and more. Analyzing the historical and archaeological evidence, and using the work of former Vatican translator Mauro Biglino as his guide, Xaviant Haze provides ample proof that what our ancestors described in ancient biblical texts were real-life events and not visions. The UFO encounters in the Bible are described as concrete experiences by flesh-and-blood beings. The angels were assigned specific duties and struggled to carry them out; some even rebelled and took earthly wives, forbidden by their superiors. Ancient Aliens in the Bible reveals that: • Lamech's wife gave birth to the son of an angel with glowing eyes. • Moses was led to the promised land by UFOs. • Noah's great-grandfather, Enoch, got a heavenly tour of space. Your view of the Bible will never be the same.

Astronaut Gods of the Maya

A visual tour of the evidence for ancient astronauts in Mesoamerica • Includes more than 200 full-color photographs from the author's personal archives • Details the astronaut technology--helmets, tanks, hoses, keyboards, rockets--clearly illustrated in stone carvings and statues from Mesoamerican sites such as Palenque, Chichén Itzá, and Teotihuacán in Mexico and Tikal in Guatemala • Explores the similarities of Maya pyramids with those at Kanchipuram in South India Sharing more than 200 never-before-published full-color photographs from his personal archives, bestselling author Erich von Däniken provides clear evidence of ancient alien contact and technology among the archaeological sites of the Maya as well as other ancient cultures, such as the Aztecs and the Hindus. He reveals how the “gods” immortalized in Maya sculptures, carved reliefs, and myth were not supernatural beings but technologically advanced visitors, astronauts who gifted the Maya with their sophisticated understanding of calendar time and cosmology. He explains how, with no explanation for their technologies and origins, the Maya interpreted the visitors as divine and, thus, the “gods” were born. Examining stone carvings and statues from many Mesoamerican sites such as Palenque, Chichén Itzá, and Teotihuacán in Mexico and Tikal in Guatemala, von Däniken reveals the astronaut technology--helmets, tanks, hoses, keyboards, rockets--clearly illustrated in these ancient depictions of the gods. He explores the

similarities of Plato's writings with the Chilam Balam books of Mexico and compares "ancient alien" features in myths around the world, paralleling how mercury is mentioned as a fuel ingredient of flying machines in ancient India with the discovery of mercury at Copán, Palenque, and Teotihuacán as well as in the grave of a Chinese emperor and two Egyptian graves on Nabta Playa. Illustrating the similarities of Mayan step pyramids with those of Kanchipuram in South India, the author explains how Mayan pyramids are crowned with a small temple, residence, or landing field of the gods, while the pyramids of South India are topped with a Vimana, a "godly" flying vehicle. Offering visual proof of the ancient world's contact with advanced alien visitors they recorded as gods and teachers, von Däniken also raises the question of the "heavenly" origins of royal families and dynasties in Mesoamerica, Egypt, and beyond, revealing how the Mayan kings of Palenque and the pharaohs of Egypt may be descendants of the "gods."

UFOs

Foreword by Jacques F. Vallee Introduction by Burt Rutan Commentary by Tom Clancy A never-before-heard firsthand account of a government insider's experience on the cutting edge of UFO exploration While still on active duty in the U.S. Army during the 1980s, Colonel John B. Alexander, Ph.D., created an interagency group to explore the controversial topic of UFOs. Participants came from the Army, Navy, Air Force, CIA, NSA, DIA, and the aerospace industry. All members held Top Secret clearance. What they discovered was not at all what was expected. UFOs covers the numerous cases they saw, and answers questions like: • What was really in Hanger 18? • Did a UFO land at Holloman Air Force Base? • What happened at Roswell? • What is Majestic 12? • What is the Aviary? • What does the government know about UFOs? • What has happened with disclosure in other countries? • Has the U.S. reverse engineered a UFO? • Why don't presidents get access to UFO info? UFOs is at once a complete account of Alexander's findings, and a call to action. There are no conspiracy theories here—only hard facts—but they are merely the beginning. Serious research is needed in order to understand and anticipate the workings of UFOs, and John Alexander is leading the charge.

Visitors

Examines the flying saucers, a new idea on how to learn their secrets.

Cosmic Voyage

Through Scientific Remote Viewing, the author "reveals that at least two alien civilizations have been and continue to be intimately involved with Earth humans: a Martian race who ... still struggle to survive on their nearly dead planet; and the Greys, a highly advanced humanoid people."

UFOs and the National Security State

This is the 2nd volume in Richard Dolan's series, "UFOs and the National Security State," which covers all aspects of the UFO phenomenon from the 1940s to the present day. Volume 2, "The Cover-Up Exposed, 1973-1991," analyzes the UFO sightings, politics, and research that occurred during the last two decades of the cold war. Working from archival sources, professional journals, and his own investigations, Dolan describes UFO encounters worldwide, demonstrating that the phenomenon is global, and the result of advanced technology. Many cases involved sensitive military airspace. These include intrusions over American and Canadian air bases; attempts to intercept a UFO over Tehran; the landing of an unknown object near two airbases in Britain; large boomerang-shaped craft near

New York City; unexplained triangular craft seen throughout the U.S. and Europe; strange objects in Earth orbit seen by Soviet and American astronauts; and encounters with UFOs from around the world. Dolan also studies "UFO politics," describes the black-budget connection, and provides a geopolitical analysis to explain the whys and hows of UFO secrecy. Finally, he provides a history of UFO research itself. He recreates the discussions and debates concerning alien abductions, animal mutilations, intelligence community infiltration into UFO research, the controversial MJ-12 documents, the Gulf Breeze controversy, reverse engineering of alien technology, crop circles, and more. Dolan also studies the effect of such new technologies as the Internet on UFO research. This is a complete history of the phenomenon, the secrecy, and the response by researchers who sought to understand the mystery. Behind it all is the backdrop of a world in technological, economic, and political transformation. "UFOs and the National Security State: The Cover-Up Exposed, 1973-1991," takes the reader through a turning point in the history of the UFO phenomenon, as well as the history of the modern world.

Ancient Aliens and the Lost Islands: Through the Wormhole

Does Earth have portals to an extraterrestrial world? Do these portals lead to the legendary island paradise where the old grow young again? Our ancestors believed in a physical place that promised health, happiness, and immortality. Today we consider the old legends to be myths, nothing more than sailor's fish stories. Yet some of the most prominent names in history devoted their entire lives to searching for the lost island of paradise - and they found it. One or more islands were hidden on the other side of a portal, or wormhole, which made the islands accessible to Earth. Extraterrestrials such as the Nordics and giants lived among us on both sides of the wormhole. They traveled from their world to ours and exposed our ancestors to advanced technology that we had no words for, except to call it magic. We described magic boats, magic mirrors, people with magical powers, and other wonders that seemed beyond belief. The magic was nothing more than motorboats, radios, computers, electricity, voice activated GPS systems, remote controls, prosthetic limbs, advanced medicine, revolving castles, and cloaking technology. We've already achieved most of this magic ourselves. The extraterrestrial visitors had even unlocked the secrets of aging, and for awhile our ancestors had access to it. On the other side of the wormhole, we saw a sun that was different from our own, and cities or castles suspended in the air. These extraterrestrial cities were described as being "not on Earth." Time flowed differently and you didn't come back to Earth in the same year that you left it. Historic documents all around the world spelled it out for us. Sometimes the otherworlders took the role of leaders, teaching us and guiding us. Sometimes they took the role of gods who bickered among themselves, or took sides in our battles, sometimes helping us, and other times causing strife. We embraced these beings until humans spread out over the world, and one by one the visitors left. One visitor gave a parting speech, and then ascended up into the air in his vehicle, and disappeared into the clouds. Apparently we rose up against some of the ancient aliens, and we even targeted them with the witch hunts. We sent the message that they were no longer welcome here, and those we didn't kill retreated back through their wormholes, closing up most of the wormholes behind them. Those who were willing to adapt were embraced, and merged into our society permanently. A few portals remained, however, even into the 1900s, and humans not only found them, they visited "paradise" and came back to tell the tale. The most compelling clues come from the Native American peacemaker Hiawatha, the Norse gods, and a race of magical people known as the Tuatha dé Danann of Ireland and surrounding regions. *Ancient Aliens and the Lost Islands: Through the Wormhole* follows the clues that were left behind, and attempts to piece it all back together. What did the portals look like? What did humans see on the other side? Is there any correlation between these ancient aliens, and the extraterrestrials who are flying the skies today? What unsolved mysteries can we explain with these portals? Has our own science unlocked any of the answers? Do alien portals to paradise still exist?

American Psychic

While shooting a TV commercial in Los Angeles, Marla Frees was given a message. The father of the actor sitting across from her wanted the actor to know he was happy about the new baby. But there was a twist—the father was deceased. The actor was shocked. Marla was God-smacked. Increasingly, messages from deceased loved ones and a powerful psychic awareness demanded her attention. Marla followed her heart, left acting, and never looked back. She now uses her gifts to help families from the heartland to Hollywood find healing. *American Psychic* tells the spiritual journey of a small-town girl who develops her psychic gifts and relationship with God on a synchronistic path that weaves through the trauma of her childhood, the drama of her acting career, and adventures in healing and transformation. Along the way, she's explored her abilities with U.S. military "psychic spies," assisted

detectives on homicide cases, and delved into the science behind her abilities with physicist Thomas Campbell. Marla has learned to trust the voice of "Spirit," which never fails her. Marla Frees' story of spiritual transformation takes us into realms that will astonish, inspire—and heal.

Penetration

Ingo Swann -- renowned psi researcher -- reveals a long-held secret series of experiences with a "deep black" agency whose apparent charter was simple: UFOs and extraterrestrials on the moon and worries about ET telepathic/mind control powers. The agency was so secret that it had no paper trail, and hence no written secrecy agreements. Only the verbal ones, which in Ingo's case expired several years ago. Now, in this era of burgeoning UFO "glasnost," he tells a story of meetings held in a secret underground facility not far from Washington DC, and of being taken to a remote location near the Arctic Circle to witness the expected arrival of a huge UFO over the surface of an Alaskan lake. This book discusses undeveloped human telepathy and contrasts it with the probable existence of fully developed alien telepathy, which may have many different forms. Ingo also explores the fact that we officially know far more than we're admitting about the Moon -- its origins, its atmosphere, its occupants and many other unusual features. Penetration is about one of the means by which we can learn more about those not of this earth (and vice-versa) -- telepathy. Do we have the means to answer some very important questions that many have been asking for quite a long time? Inside this book are the answers to some.

Ancient Aliens on Mars

New York Times best-selling author and Secret Space Program researcher Mike Bara brings us this lavishly illustrated volume on alien structures on Mars. Was there once a vast, technologically advanced civilization on Mars, and did it leave evidence of its existence behind for humans to find eons later? Did these advanced extraterrestrials vanish in a solar system-wide cataclysm of their own making, only to make their way to Earth and start anew? Was Mars once as lush and green as the Earth, and teeming with life? Did Mars once orbit a missing member of the solar system, a "Super Earth" that vanished in a disaster that devastated life on Earth and Venus and left us only the asteroid belt as evidence of its once grand existence? Did the survivors of this catastrophe leave monuments and temples behind, arranged in a mathematical precision designed to teach us the Secret of a new physics that could lift us back to the stars? Does the planet have an automated defense shield that swallows up robotic probes if they wander into the wrong areas? And are the lights still on down there, deep below the sands of Mars, just waiting for us to uncover them? Mike Bara examines all these questions and more in this astounding book, full of fascinating information on the following topics: Mars as the Abode of Life What Happened to Mars? The True Colors of Mars The Message of Cydonia The Politics of Mars The Pathfinder Sphinx Mars Global Surveyor Discoveries Face it, It's a Face Tons More!

Passport to Magonia

Over two decades ago, eminent scientist Vallee wrote a provocative book about alleged UFO landings, folklore, and certain unexplained phenomena. That long-out-of-print book--which discussed the most interesting reports of more than 1,000 apparently reliable witnessess--has become an underground classic and is now being reissued.

Opening Minds

New discoveries in physics combined with a greater awareness of extra-ordinary phenomena all around us challenge our traditional beliefs. Research into resonant viewing crop circles and extraterrestrials shows our world to be vibrant, multidimensional, and full of mystery.

Why People Believe Weird Things

A survey of a range of irrationalisms, with explanations of their empirical and logical flaws, this book describes the differences between science and pseudo-science, and goes on to describe and critique popular contemporary irrationalisms. Why do smart people believe weird things? Why do so many people believe in mind reading, past-life regression therapy, extra-terrestrial abduction and ghosts? What is behind the rise of 'scientific creationism' and Holocaust denial? In an age of supposed scientific enlightenment why do we appear more impressionable than ever? Scientific historian, and director of the Skeptics Society, Michael Shermer debunks these extraordinary claims in a no-holds-barred assault on the popular superstitions and confused prejudices of our time. Exploring the very human

reasons behind otherworldly phenomena, conspiracy theories and cults Shermer explains why are they are so appealing to so many."Skepticism is the agent of reason against organized irrationalism -and is therefore one of the keys to human social and civic decency."Stephen Jay Gould, from his forewordShermer reveals the darker side of wishful thinking, through the recovered memory movement, satanic rituals and other modern witch hunts, and ideologies of racial superiority. Confronting those who take advantage of the gullibility of other people to advance their own, self-serving agendas Why People Believe Weird Things is compelling and often disturbing. It is a perceptive portrait of the human capacity for self-delusion and a celebration of the scientific spirit.

Mirage Men

Seeking the truth about UFOs in America, Mark Pilkington and John Lundberg uncover a 60 year-old story stranger than any conspiracy thriller. Through the fascinating account of their quest Mark Pilkington reveals the long history of UFOria and its parallels in little known tales from the murky worlds of espionage, psychological warfare and advanced military technology. Along the way he discovers that the truth about flying saucers is stranger and more complex than either the ufologists or debunkers would have us believe. As he crossed the US meeting intelligence agents, disinformation specialists and UFO hunters Pilkington was confronted with a dizzying array of ever more outrageous claims and counter claims. As a result he began to suspect that, instead of covering up stories of crashed flying saucers, alien contacts and secret underground bases, the US intelligence agencies had actually been promoting them all along. Meanwhile he has to deal with his own uncertainties, the suspicions of the UFO community and a partner who is starting to believe that conspiracy theorists might be right after all. With a fresh, funny and objective approach, Pilkington is the ideal guide to steer us through these strange territories, where nothing is quite as it seems and reality is just a matter of managing perceptions.

UFOs and the National Security State

"The documentation is spectacularly good, the best ever on the UFO subject. And the conclusion is overwhelmingly powerful." —Whitley Strieber, New York Times—bestselling author Richard M. Dolan is a gifted historian whose study of US Cold War strategy led him to the broader context of increased security measures and secrecy since World War II. One aspect of such government policies that has continued to hold the public's imagination for over half a century is the question of unidentified flying objects. UFOs and the National Security State is the first volume of a two-part detailed chronological narrative of the national security dimensions of the UFO phenomenon from 1941 to the present. Working from hundreds of declassified records and other primary and secondary sources, Dolan centers his investigation on the American military and intelligence communities, demonstrating that they take UFOs seriously indeed. Included in this volume are the activities of more than fifty military bases relating to UFOs, innumerable violations of sensitive airspace by unknown craft and analyses of the Roswell controversy, the CIA-sponsored Robertson Panel, and the Condon Committee Report. Dolan highlights the development of civilian anti-secrecy movements, which flourished in the 1950s and 1960s until the adoption of an official government policy and subsequent "closing of the door" during the Nixon administration. "A thorough and monumental undertaking." —Dr. Edgar Mitchell, Apollo 14 astronaut "If there ever had been a 'must-read, must-have' book on the subject, UFOs and the National Security State is it. I promise you that once you've read it, you'll never view the subject of UFOs or the American military/intelligence establishment in the same light again." —Don Ecker, senior editor, UFO Magazine

Mutants and Mystics

"Account of how comic book heroes have helped their creators and fans alike explore and express a wealth of paranormal experiences ignored by mainstream science. Delving deeply into the work of major figures in the field--from Jack Kirby's cosmic superhero sagas and Philip K. Dick's futuristic head-trips to Alan Moore's sex magic and Whitley Strieber's communion with visitors--Kripal shows how creators turned to science fiction to convey the reality of the inexplicable and the paranormal they experienced in their lives. Expanded consciousness found its language in the metaphors of sci-fi--incredible powers, unprecedented mutations, time-loops and vast intergalactic intelligences--and the deeper influences of mythology and religion that these in turn drew from; the wildly creative work that followed caught the imaginations of millions. Moving deftly from Cold War science and Fredric Wertham's anticomics crusade to gnostic revelation and alien abduction, Kripal spins out a hidden

history of American culture, rich with mythical themes and shot through with an awareness that there are other realities far beyond our everyday understanding."--Jacket.

Phenomenal World

For centuries mankind has been exploring the nature of reality. The materialistic scientific worldview would have us believe that physically measurable phenomena are all that exist. Yet the answers to the key of reality go far beyond this mindset. This book explores the clues we have about the nature of reality, especially those aspects that cannot yet be proven. If we can understand the most baffling aspects of reality, then we will move closer toward understanding its ultimate cause and nature.

Incident at Devils Den: A True Story, by Terry Lovelace, Esq

A true story of the 1977 alien abduction as told by a former Assistant Attorney General and USAF veteran. He and a friend were taken while remote camping in an Arkansas State Park. Includes the 2012 x-rays of an alien implant discovered on a routine x-ray. It was the catalyst to tell the story he had to retire before he could tell.
