[#WHOQOL](#) [#quality of life elderly](#) [#older adults well-being](#) [#aging assessment tools](#) [#geriatric health evaluation](#)

Explore the application of WHOQOL instruments in assessing the quality of life of elderly individuals. Understanding older adults' well-being is crucial for health practitioners and researchers, providing insights into various domains affected by aging. This evaluation aids in developing better support systems and interventions to enhance geriatric health evaluation and overall satisfaction during later life stages.

Our goal is to make academic planning more transparent and accessible to all.
