Corporate Reporting

International GAAP 2021 International GAAP 2021 is a detailed guide to interpreting and implementing International Financial Reporting Standards (IFRS). By setting IFRS in a relevant business context, it provides insights on how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching IFRS. Written by EY financial reporting professionals from around the world, this three-volume guide to reporting under IFRS provides a global perspective on the application of IFRS. The book explains complex technical accounting issues clearly by setting IFRS in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world. Volume 1 contains the following chapters and sections: International GAAP The IASB's Conceptual Framework Presentation of financial statements and accounting policies Non-current assets held for sale and discontinued operations First-time adoption Consolidated financial statements Consolidation procedures and non-controlling interests Separate and individual financial statements Business combinations Business combinations under common control Investments in associates and joint ventures Joint arrangements Disclosure of interests in other entities Fair value measurement Foreign exchange Hyperinflation Intangible assets Property, plant and equipment Investment property Impairment of fixed assets and goodwill Capitalisation of borrowing costs Inventories Index of extracts from financial statements for all three volumes Index of standards for all three volumes Index for all three volumes This book is printed on acid-free paper, responsibly manufactured from well-managed FSC-certified forests and other controlled sources. This material has been prepared for general informational purposes only and is not intended to be relied upon as accounting, tax, legal or other professional advice. Please refer to your advisors for specific advice. ey.com/igaap

Financial Accounting, Reporting, and Analysis

UK GAAP 2019 provides a comprehensive guide to interpreting and implementing UK accounting standards, particularly: FRS 100: Application of Financial Reporting Requirements FRS 101: Reduced Disclosure Framework — Disclosure exemptions from EU-adopted IFRS for qualifying entities FRS 102: The Financial Reporting Standard applicable in the UK and Republic of Ireland FRS 103: Insurance Contracts FRS 104: Interim Financial Reporting This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching those accounting standards. Written by the financial reporting professionals from the Financial Reporting Group of EY, this book provides a clear explanation of the UK GAAP accounting requirements which apply in 2019 and will prove invaluable in implementing these requirements. It also addresses the requirements of the UK Companies Act and relevant statutory instruments, as well as practical worked examples. Also available is International GAAP® 2019 — a three volume comprehensive guide to interpreting International Financial Reporting Standards (IFRS), setting IFRS in a relevant business context and providing insight into how complex practical issues should be resolved in the real world of global financial reporting.

The Institute of Chartered Accountants in England and Wales, for Exams from 2015

This textbook is the ideal guide for business and management students who need to understand accounting and finance information and develop analytical skills in order to make better-informed decisions. Accounting and Finance for Managers rebukes the myth that in order to excel in accounting and finance you need to be great at mathematics. Split into two broad sections which focus on financial accounting and management accounting and finance, this textbook uses clear, accessible language that will appeal to students from a variety of academic backgrounds. Taking a uniquely practical approach that focuses on the financial aspects of business decisions, the textbook covers all the core topics of accounting and finance, including basic bookkeeping, financial analysis, business planning, cash-flow analysis and investment decisions. Now in its third edition, Accounting and Finance for Managers contains updates on new accounting standards and regulations, as well as featuring up-to-date real-world examples of real options, value chain analysis and competitive advantage analysis. This textbook features 'traditional' accounting practices in detail, but also covers topics with a strategic focus to ensure students learn to think in broader strategic terms. Written for an international audience using International Financial Reporting Standards (IFRS) terminology with supporting online resources including additional exercise questions, curated further reading and lecture slides for each chapter.

ICAEW Financial Accounting and Reporting UK GAAP

Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book

will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods.

ICAEW Financial Accounting and Reporting GAAP

The Institute of Chartered Accountants in England and Wales, for Exams from 2015

A concise FAQ guide to IFRS principles and practices Co-written by Steven Collings, winner of Accounting Technician of the Year at the British Accountancy Awards 2011, this book is a comprehensive guide to International Financial Reporting Standards (IFRS) which became mandatory in the EU in 2005, and they will almost certainly be adopted by most other developed countries in the near future. Unlike US-GAAP and other sets of standards, the IFRS are principles-based rather than rules-based, putting the onus of interpretation more on users than has previously been the case. Under IFRS users must understand the economic substance of operations, and they must be able to make assumptions, hypotheses, and estimations leading to an accounting treatment consistent with the general objectives of and principles behind IFRS financial reporting. In a handy, easy-to-navigate Q&A format, Frequently Asked Questions on IFRS provides accounting and finance professionals with the answers to some of the most commonly asked questions on the new standards. Covering the often complicated areas of accounting for financial instruments, tangible and intangible assets, provisions, and revenue recognition, the book also contains a valuable overview of the standards and the thinking behind them. Includes a comprehensive section on the new IFRS for small and medium enterprises Contains real-world examples from financial reports; a glossary of commonly used terms; and a 'Test Your Knowledge' section Provides a simple way to get up to speed on these often confusing, principles-based standards

Corporate Reporting

Designed primarily for middle and junior management who deal with financial information without really understanding the content; students who are studying accounting as a non-specialist subject, for example on a business studies or engineering course. The book serves as a basic reference to be used throughout the course. It will also be particularly helpful in providing the basic grounding that is required before moving on to the more technical and in-depth study of the subject that may be required on some courses. Students who are embarking on a course of study to become a professional accountant will also find this book of major benefit. In addition to revisions through out, a new new chapter 'Making long-term investment decisions' covering capital investment decisions, extends and rounds out the final part of the book: using Financial Information to Manage a Business. The chapter deals with the investment appraisal process and covers the main investment appraisal techniques from the point of view of a non-specialist: payback periods, accounting rate of return and discounted cash flow methods are just some of the new topics covered. The focus will be on the level of understanding that a non-specialist requires in the work place as such, in keeping with the rest of the book, the chapter includes practical examples and exercises to enhance the reader's understanding. * Jargon free and easy to understand - no prior knowledge of the subject necessary * Focuses on the principles and use of accounting information * Review questions to assess progress at each stage and many fully worked exercises and examples

Financial Accounting and Reporting

'Advanced Financial Accounting' provides a comprehensive treatment of current financial reporting in the UK and is the leading textbook for 2nd and 3rd year courses in universities. Basic and advanced questions are provided at the end of the book.

The Institute of Chartered Accountants in England and Wales

Accounting and Finance for Managers is specifically designed for the needs of MBA, EMBA and MA Business and Management students. It includes worked examples throughout the chapters, as well as real-world scenarios and full exercises at the end of each chapter. The book also includes 'Expert

view' notes, which encourage students to think more broadly and present them with further issues to consider. For lecturers, the book begins with an indication of how the course material throughout the book might be divided over different time periods. Providing coverage of basic bookkeeping, readers will learn how to interpret financial statements and grasp underlying theory, interpret a cash budget and identify potential problems, identify appropriate pricing strategies to fit different markets and products/services and incorporate financial evaluation into operational decision making and problem solving. Online supporting resources for this book include bonus chapters covering topics such as cash flow, investment decisions and business planning, and lecture slides for each chapter.

The Institute of Chartered Accountants in England and Wales, for Exams in 2014

New 2018 edition based on the updated 2018 ICAEW Study Manual and including analysis of mark allocation in all recent past papers through to September 2017 (December 2017 markscheme not available at the time of writing). Provides over 1,000 short form questions to help you learn all aspects of the complex and detailed FAR syllabus. Designed to complement past paper practice by splitting topics and concepts into smaller and more manageable chunks which you can revise many times before the exam, helping the knowledge to sink in. Helps to build your confidence and avoid becoming overwhelmed by the large number of learning points in full exam standard questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and gradually build up knowledge. Analysis of distribution of marks in past papers covering the 2009 to September 2017 period to help you focus your revision on key areas (December 2017 markscheme not available at the time of writing). Contains all relevant Financial Accounting and Financial Reporting questions from our previous FA and FR Q&A books for the old syllabus, updated where necessary. We have also added many new questions for FAR. This means that our Q&A will continue to cover the traditional, staple areas and will provide much more practice than the Study Manual in key areas such as cashflow statements, earnings per share, related parties and other areas. We also include a detailed introduction explaining some key revision and answering techniques for the 2 different types of FAR question (narrative or "financial reporting" style and numerical or "financial accounting" style). Provides a firm basis for Advanced Level questions involving financial reporting in the Corporate Reporting paper: Q&A can be reused at later stages of the ACA to revise the key areas which the examiner will assume as brought forward knowledge. See www.acasimplified.com for more information on our Q&A technique.

Accounting

New 2019 edition based on the updated 2019 ICAEW Study Manual and including analysis of mark allocation in all recent past papers through to September 2018 (December 2018 markscheme not available at the time of writing). A large number of new questions on IFRS 9 and IFRS 15 have been added and questions on IAS 39 and IAS 18 have been deleted to allow for significant changes to the 2019 FAR syllabus. Provides over 1,100 short form questions to help you learn all aspects of the complex and detailed FAR syllabus. Designed to complement past paper practice by splitting topics and concepts into smaller and more manageable chunks which you can revise many times before the exam, helping the knowledge to sink in. Helps to build your confidence and avoid becoming overwhelmed by the large number of learning points in full exam standard questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and gradually build up knowledge.
