The Guernsey Magazine

The writer wrote this novel when he was just 17 and still a student. It opens with a young boy standing at the grave of a Jew who has committed suicide The book is the second in a series called 'The Ghetto' which looks at the history of Judaism. Auerbach was himself, a Jew and his faith influenced his thinking and philosophy. Spinoza is the name of a Dutch philosopher whose work was a major part of these influences.

'In pencil-written and drawing-spattered notebooks intended for her Australian granddaughter, an elderly woman, now in Edinburgh, remembers and relives her Hebridean childhood. The community thus recreated is one where modernity – its emblem the Electricity of Angus Peter Campbell's title – collides and overlaps with all sorts of linguistic, cultural and other continuities. But this is no sentimental or elegiac excursion into a long-gone past. What's evoked here is a powerful sense of what it was, and is, to grow up amid family, neighbours and surroundings of a sort providing, for the most part, both security and happiness.' JAMES HUNTER

New Monthly Magazine, and Universal Register

So much has been written on the subject of the Battle of Waterloo and the campaign that surrounds it that the reader might think that there is simply nothing new to tell. However, the archives of Europe are teeming with fascinating documents personal letters to family and friends, private journals and official reports that have been virtually ignored in many standard histories of the period. In the ground-breaking Waterloo Archive series Gareth Glover has set out to unearth this buried material and to finally expose it to public scrutiny. In doing so he brings the human aspect of war and military campaigning to the fore: the humor and exhilaration, the fears and miseries, the starvation and exhaustion, the horror and the joy. He also provides an invaluable new source which will challenge preconceptions, disprove theories, destroy myths and allow for a complete re-evaluation of many key aspects of the campaign. In this sixth and final volume in the series, published to coincide with the two hundredth anniversary of the campaign, Glover has again turned his attention to the British sources.

Writers of the modern essay can trace their chosen genre all the way back to Michel de Montaigne (1533-92). But save for the recent notable best seller How to Live: A Life of Montaigne by Sarah Bakewell, Montaigne is largely ignored. After Montaigne--a collection of twenty-four new personal essays intended as tribute-- aims to correct this collective lapse of memory and introduce modern readers and writers to their stylistic forebear. Though it's been over four hundred years since he began writing his essays, Montaigne's writing is still fresh, and his use of the form as a means of self-exploration in the world around him reads as innovative--even by modern standards. He is, simply

put, the writer to whom all essayists are indebted. Each contributor has chosen one of Montaigne's 107 essays and has written his/her own essay of the same title and on the same theme, using a quote from Montaigne's essay as an epigraph. The overall effect is akin to a covers album, with each writer offering his or her own interpretation and stylistic verve to Montaigne's themes in ways that both reinforce and challenge the French writer's prose, ideas, and forms. Featuring a who's who of contemporary essayists, *After Montaigne* offers a startling engagement with Montaigne and the essay form while also pointing the way to the genre's potential new directions. Museum Philosophy for the Twenty-first Century

In the mind of man there is the dawning of a new and vital fact that the authority of law is resident in his own life; that health, strength, and happiness, as conditions of mind and body, must be made manifest through conscious effort on his part by the use of spiritual qualities and mind-faculties; that through the indwelling spirit his mind must be quickened and renewed and his body strengthened and made whole. In the nineteenth century, richly-drawn social fiction became one of England's major cultural exports. At the same time, a surprising companion came to stand alongside the novel as a key embodiment of British identity: the domesticated pet. In works by authors from the Brontës to Eliot, from Dickens to Hardy, animals appeared as markers of domestic coziness and familial kindness. Yet for all their supposed significance, the animals in nineteenth-century fiction were never granted the same fullness of character or consciousness as their human masters: they remain secondary figures. *Minor Creatures* re-examines a slew of literary classics to show how Victorian notions of domesticity, sympathy, and individuality were shaped in response to the burgeoning pet class. The presence of beloved animals in the home led to a number of welfare-minded political movements, inspired in part by the Darwinian thought that began to sprout at the time. Nineteenth-century animals may not have been the heroes of their own lives but, as Kreilkamp shows, the history of domestic pets deeply influenced the history of the English novel.

This sequel to *Woodshed Wisdom* reflects my conservative thoughts and attitudes on a wide variety of subjects and was written over a period of about twenty years. Most of these essays were published in newspapers or magazines. My writing is not disciplined or ordered in any way. When the spirit moves me and I have the time - I write. These tales reflect whatever was topical in my mind at the time. My writings are only about topics familiar to me. My research was living with the subject and experiencing it without reliance on others to formulate ideas or opinions.

A Companion to George Eliot

The voices speaking here represent an extraordinary group of South Africans: those whites - a minority within a minority - who have been struggling against the injustices of apartheid and working in separate ways to prepare their countrymen, black and white, for a just and democratic post-apartheid society. This book captures their stories at a critical time, when apartheid is being dismantled but the structure of the new South Africa has yet to be determined.

The Mirror of Literature, Amusement and Instruction

This is the first annotated guide to recent young adult literature that is organized into specific problem areas: alienation and identity, disabilities, homosexuality, divorced and single parents, adopted and foster families, abuse, eating disorders (anorexia nervosa and bulimia), alcohol and drugs, poverty, dropouts and delinquency, teenage pregnancy, AIDS, death and dying, and stress and suicide. More than 900 recommended books published through 1993 have been annotated. Reading levels of recommended books are grades 5-8 and interest level is through grade 12. This work addresses bibliotherapy, but is not based on it. Instead, it is built on the premise that literacy is the key to growth and understanding. Each chapter deals with a specific adolescent problem area and begins with general comments about the problem, startling information and current statistics about its gravity and pervasiveness, warning signs to look for, and suggestions of what to do and where to go for help. Each entry contains complete bibliographic information. The format and readable annotations will make it easy for young adults, parents, librarians, teachers, clergy, psychologists, counselors, social workers, and health professionals to find appropriate fiction and nonfiction books and articles on the serious problems that adolescents face today.
